

Acknowledgments

STATES

State education agencies remain our most important partners in this effort, and their gracious cooperation has helped to ensure the factual accuracy of the final product. Every state formally received a draft of the *Yearbook* in June 2015 for comment and correction; states also received a final draft of their reports a month prior to release. All but three states responded to our inquiries. While states do not always agree with our recommendations, their willingness to engage in dialogue and often acknowledge the imperfections of their teacher policies is an important step forward.

FUNDERS

The primary funders for the 2015 Yearbook were:

- Bill and Melinda Gates Foundation
- The Joyce Foundation
- The Walton Family Foundation

The National Council on Teacher Quality does not accept any direct funding from the federal government.

NCTQ PROJECT TEAM

Sandi Jacobs, Project Director; Kathryn M. Doherty; Nithya Joseph; Kelli Lakis; Lisa Staresina; Caryn Wasbotten

Special thanks to Leigh Zimnisky and Lauren DeSha at Ironmark for their design of the 2015 *Yearbook*. Thanks also to Colleen Hale and Jeff Hale at EFA Solutions for the original *Yearbook* design and ongoing technical support.

Executive Summary

The 2015 State Teacher Policy Yearbook includes the National Council on Teacher Quality's (NCTQ) full review of the state laws, rules and regulations that govern the teaching profession. This year's report measures state progress against a set of 32 policy goals focused on helping states put in place a comprehensive framework in support of preparing, retaining and rewarding effective teachers.

Teacher Policy Priorities for Nebraska

AREA 1: Delivering Well-Prepared Teachers

Admission into Teacher Preparation

■ Limit admission to teacher preparation programs to candidates in the top half of the college-going population. Academic ability can be measured by a test normed to the general college-bound population or a minimum GPA requirement.

Elementary Teacher Preparation

- As a condition of initial licensure, require that all elementary candidates pass a rigorous content test that assesses knowledge of all core subjects and require a meaningful passing score for each area.
- Require a rigorous assessment in the science of reading instruction for all elementary candidates.
- Ensure all new elementary teachers are prepared to meet the instructional shifts related to informational text, incorporating literacy into all content areas and supporting struggling readers associated with college- and career-readiness standards.
- Establish equivalent requirements for teachers who may teach elementary grades on an early childhood license.

Middle School Teacher Preparation

- Require middle school teacher candidates to pass a content test in every core area they are licensed to teach as a condition of initial licensure.
- Eliminate the generalist K-8 license.
- Ensure that all new middle school teachers are prepared to meet the instructional shifts related to informational text, incorporating literacy into all content areas and supporting struggling readers associated with college- and careerreadiness standards.

Secondary Teacher Preparation

- Require secondary science and social studies teachers to pass a content test for each discipline they are licensed to teach.
- Ensure all new secondary teachers are prepared to meet the instructional shifts related to informational text, incorporating literacy into all content areas and supporting struggling readers associated with college- and career-readiness standards.

Special Education Teacher Preparation

- Eliminate the K-12 special education certificate, and require licenses that differentiate between the preparation of elementary and secondary teacher candidates.
- Require elementary special education candidates to pass a rigorous content test as a condition of initial licensure, as well as a rigorous assessment in the science of reading instruction.
- Ensure secondary special education teachers possess adequate content knowledge for the grades and subjects they teach.
- Ensure that all new special education candidates are prepared to meet the instructional shifts related to informational text, incorporating literacy into all content areas and supporting struggling readers associated with college- and careerreadiness standards.

Assessing Professional Knowledge

Require that all new teachers pass a pedagogy test.

Student Teaching

■ Ensure that student teachers are only placed with cooperating teachers who have demonstrated effectiveness as measured by student learning.

Teacher Preparation Program Accountability

■ Hold teacher preparation programs accountable by collecting data that connect student achievement gains to programs, as well as other meaningful data that reflect program performance, and by establishing the minimum standard of performance for each category of data.

AREA 2: Expanding the Teaching Pool

Alternate Routes to Certification

- Increase admission requirements to alternate route programs, including a high bar for academic proficiency and passage of a subject-matter test.
- Establish guidelines for alternate route programs that require preparation that meets the immediate needs of new teachers. Ensure programs provide intensive induction support to alternate route teachers.
- Broaden alternate route usage, and allow a diversity of providers for alternate route programs.

License Reciprocity

 Grant certification to teachers from other states who can demonstrate evidence of effectiveness.

AREA 3: Identifying Effective Teachers

State Data Systems

Develop a definition of teacher of record that can be used to provide evidence of teacher effectiveness, strengthen data link between teachers and students, and publish data on teacher production.

Teacher Evaluation

- Require instructional effectiveness to be the preponderant criterion of any teacher evaluation.
- Require annual formal evaluations for all teachers.

Tenure

Ensure that evidence of effectiveness is the most important factor in tenure decisions.

Licensure Advancement

Base licensure advancement from a probationary to a nonprobationary license and licensure renewal on evidence of effectiveness.

Equitable Distribution of Teachers

Publish aggregate school-level teacher evaluation ratings from an evaluation system based on instructional effectiveness.

AREA 4: Retaining Effective Teachers

New Teacher Induction

Require effective induction for all new teachers, including mentoring, reduced teaching load, frequent release time to observe effective teachers and seminars appropriate to grade level or subject area.

Professional Development

■ Link professional development activities to findings in individual teacher evaluations, and make sure teachers receive actionable feedback about their performance.

Compensation

■ While leaving districts flexibility to determine their own pay scales, support pay systems that recognize teachers for their effectiveness and for teaching in both subject-shortage areas and high-need schools and discourage systems tied to advanced degrees and/or experience.

AREA 5: Exiting Ineffective Teachers

Extending Emergency Licenses

Award standard licenses to teachers only after they have passed all required subject-matter licensing tests.

Dismissal for Poor Performance

Make classroom ineffectiveness grounds for dismissal, and ensure that teachers terminated for ineffectiveness have the opportunity to appeal within a reasonable time frame.

Reductions in Force

■ Use teacher effectiveness as a factor when determining which teachers are laid off during a reduction in force.

Does Not Meet

PROGRESS INDICATOR

Whether the state has advanced on the goal or the state has lost ground on that topic:

Goal progress has increased since 2013

Goal progress has decreased since 2013

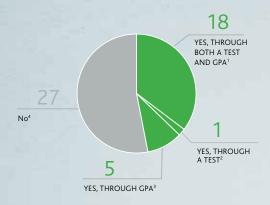

BAR RAISED FOR THIS GOAL

Indicates the criteria to meet the goal have been raised since the 2013 Yearbook.

READING CHARTS AND TABLES:

Strong practices or the ideal policy positions for the states are capitalized:

This year's edition of the *State Teacher Policy* Yearbook features a new format for presenting state and national data.

Each state's volume is now summarized to present the most important information about key teacher quality policies in an infographic format. Full narrative versions -- including detailed analyses and recommendations as well as the state response for each policy topic -- can now be found online, using NCTO's State Policy Dashboard

(http://nctq.org/StatePolicyDashboard).

The National Summary maintains the traditional Yearbook format and presentation. Topics are organized as policy goals, including the specific components that form the basis of each analysis. National findings are included for each goal, as well

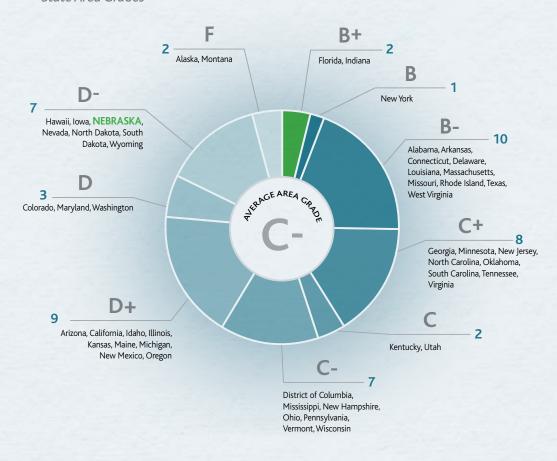

as a comprehensive set of tables and graphs that provide a national overview of the teacher policy landscape.

NEBRASKA Admission into Teacher Prep Characteristics			
Test Requirement	Passage of the Praxis I Core Academic Skills for Educators test is required for admission.		
GPA Requirement	2.5		

RECOMMENDATIONS TO IMPROVE ADMISSION INTO TEACHER PREP POLICIES IN NEBRASKA

population.

- Increase admission requirements.
 Nebraska should raise the bar for admission to teacher preparation programs by either requiring a minimim GPA of 3.0 or requiring a test of academic proficiency normed to the general college-bound
- Consider requiring candidates to pass subject-matter tests as a condition of admission into teacher programs.
 In addition to ensuring that programs require a measure of academic performance for admission, Nebraska might also want to consider requiring content testing prior to program admission as opposed to at the point of program completion.

Examples of Best Practice

While many states now require CAEP accreditation, which includes a standard requiring strong admission practices, Delaware, Rhode Island and West Virginia have set a high bar independent of the accreditation process, ensuring that the state's expectations are clear. These states require a test of academic proficiency normed to the general college-bound population rather than a test that is normed just to prospective teachers. Delaware, Rhode Island and West Virginia require teacher candidates to have a 3.0 GPA or to be in the top 50th percentile for general education coursework completed. Rhode Island and West Virginia also require an average cohort GPA of 3.0, and, beginning in 2016, the cohort mean score on nationally normed tests such as the ACT, SAT or GRE must be in the top 50th percentile. In 2020, the requirement for the mean test score will increase from the top half to the top third.

SUMMARY OF ADMISSION INTO TEACHER PREP FIGURES

detailed recommendations, full narrative
analysis and state response, see
http://nctq.org/StatePolicyDashboard

RECOMMENDATIONS CONTINUED

Ensure that elementary and early childhood teachers are prepared to meet the instructional requirements of college- and career-readiness standards for students.

Incorporate informational text of increasing complexity into classroom instruction.

Nebraska is encouraged to strengthen its teacher preparation requirements and ensure that all teachers licensed to teach at the elementary level have the ability to adequately incorporate complex informational text into classroom instruction—as a condition of initial licensure.

Incorporate literacy skills as an integral part of every subject.

To ensure that elementary school students are capable of accessing varied information about the world around them, Nebraska should include specific teacher preparation requirements for all teachers licensed to teach at the elementary level regarding literacy skills and using text as a means to build content knowledge in history/social studies, science, and the arts.

Support struggling readers.

Nebraska should articulate requirements ensuring that all teachers licensed to teach at the elementary level are prepared to identify and support students who are struggling.

 Require elementary teacher candidates to complete a content specialization in an academic subject area.

In addition to enhancing content knowledge, this requirement would ensure that prospective teachers in Nebraska take higher-level academic coursework.

Examples of Best Practice

Unfortunately, NCTQ cannot award "best practice" honors to any state's policy in the area of elementary teacher preparation. However, three states—Florida, Indiana and Virginia—are worthy of mention for holding early childhood candidates who are licensed to teach elementary grades to the same standards as all other elementary teachers. Each state requires its early childhood candidates to pass a content test with separately scored subtests, as well as a test of scientifically based reading instruction. Florida also ensures that both early childhood and elementary education teachers are prepared to meet the instructional requirements of college- and career-readiness standards for students.

California stands out for its focus on elementary teachers' readiness to teach reading and literacy skills. All elementary education candidates must pass a comprehensive assessment that specifically tests the five elements of scientifically based reading instruction: phonemic awareness, phonics, fluency, vocabulary and comprehension. California's test frameworks go further than most states in ensuring that elementary teacher candidates have the ability to not only build content knowledge and vocabulary through careful reading of informational and literary texts, but also to challenge students with texts of increasing complexity. Candidates must also show they know how to incorporate literacy skills as an integral part of every subject and are prepared to intervene and support students who are struggling.

Massachusetts's MTEL mathematics subtest continues to set the standard in this area by evaluating mathematics knowledge beyond an elementary school level and challenging candidates' understanding of underlying mathematics concepts.

Middle School **Teacher Preparation**

NEBRASKA Ratings

Middle School Teacher Preparation

New middle school teachers are sufficiently prepared to teach appropriate grade-level content and for the ways that college-and career-readiness standards affect instruction.

Fully meets • Nearly meets Partially meets • Meets only a small part Does not meet

♠ Progress increased since 2013

Bar raised for this goal

NEBRASKA Snapshot Middle School Teacher Preparation

*	No	Middle school teachers must pass a content test for each subject they are licensed to teach.
*	No	Middle school teachers must hold a middle grade-specific or secondary license.
<	No	Teacher preparation and licensure requirements for middle school teachers include the instructional shifts associated with college- and career-readiness standards.

NEBRASKA Midd	Idle School Teacher Preparation Characteristics		
Middle School Licenses	4-9; K-8 (self-contained only) Teachers with secondary licenses may also teach single subjects in middle school.		
Content Tests	4-9 endorsement: Content tests not required K-8: Praxis II Elementary Education: Curriculum, Instruction and Assessment (5017) test		
Academic Requirements	4-9 endorsement: Candidates must earn a minimum of 36 semester hours in two content areas		
Instructional Shifts Associated with College-and Career-Readiness Standards	Complex informational text: Not addressed Incorporating literacy into core subjects: Not addressed Struggling readers: Not addressed		

RECOMMENDATIONS TO IMPROVE MIDDLE SCHOOL TEACHER PREPARATION POLICIES IN NEBRASKA

Require content testing in all core areas.

Nebraska should require subject-matter testing for all middle school teacher candidates in every core academic area they intend to teach as a condition of initial licensure.

- Eliminate the K-8 generalist license.
 - Nebraska should not allow middle school teachers to teach on a generalist license that does not differentiate between the preparation of middle school teachers and that of elementary teachers.
- Ensure that middle school teachers are prepared to meet the instructional requirements of college- and careerreadiness standards for students.

Incorporate informational text of increasing complexity into classroom instruction.

Either through testing frameworks or teacher standards, Nebraska should specifically address the instructional shifts toward building content knowledge and vocabulary through increasingly complex informational texts and careful reading of informational and literary texts associated with college- and career-readiness standards for students.

Incorporate literacy skills as an integral part of every subject.

To ensure that middle school students are capable of accessing varied information about the world around them, Nebraska should also include literacy skills and using text to build content knowledge in history/social studies, science, technical subjects and the arts.

Examples of Best Practice

Arkansas ensures that all middle school teacher candidates are adequately prepared to teach middle school-level content. The state does not offer a K-8 generalist license, requires passing scores on subject-specific content tests and explicitly requires at least two content-area minors. Arkansas also ensures that middle school teachers are prepared to meet the instructional requirements of college- and career-readiness standards for students. The state's competencies for the middle grades specify that middle school candidates must have the ability to not only build content knowledge and vocabulary through careful reading of informational and literary texts but also to challenge students with texts of increasing complexity. Candidates must also know how to incorporate literacy skills as an integral part of every subject and are prepared to intervene and support students who are struggling.

- ${\it 1. Alaska does \ not \ require \ content \ tests \ for \ initial \ licensure.}$
- 2. Candidates teaching multiple subjects only have to pass the elementary test. Single-subject credential does not require content test.
- 3. For K-8 license, Idaho also requires one single-subject test.
- 4. Illinois requires candidates to take a middle level core content test if a test is available. It is not clear that this will result in teachers passing a test in each subject.
- 5. Maryland allows elementary teachers to teach in departmentalized middle schools if not less than 50 percent of the teaching assignment is within the elementary grades.
- 6. New Hampshire requires K-8 candidates to have a core concentration and to pass a middle school content test in a core area. Teachers with a 5-8 license must pass a Praxis II assessment.
- 7. For nondepartmentalized classrooms, generalist in middle childhood education candidates must pass the new assessment with three subtests.
- 8. Teachers may have until second year to pass tests, if they attempt to pass them during their first year.
- New legislation in Tennessee allows teachers to delay passage of content tests if they possess a bachelor's degree in a core content area.

recommendations and state
responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings		
Content Knowledge New secondary teachers are sufficiently prepared to teach appropriate grade-level content and for the ways that college-and career-readiness standards affect instruction.		
General Science and Social Studies Secondary science and social studies teachers know all the subject matter they are licensed to teach.		
Fully meets • Nearly meets • Partially meets • Meets only a small part • Does not meet		
↑ Progress increased since 2013 ↓ Lost ground since 2013 ♠ Bar raised for this goal		

	NEBRA Second	SKA Snapshot ary Teacher Preparation
	Yes	Secondary teachers must pass a content test to teach any single core subject.
*	No	Only single-subject science certifications are offered or general science license has appropriate requirements to ensure teachers know each included subject.
*	No	Only single-subject social studies certifications are offered or general social studies license has appropriate requirements to ensure teachers know each included subject.
	Somewhat	A content test is required to add an endorsement to a license.
₹	No	Teacher preparation and licensure requirements for secondary school teachers include the instructional shifts associated with college- and career-readiness standards.

NEBRASKA Secondary Teacher Preparation Characteristics			
Secondary Licenses	7-12		
Content Tests	Praxis II single-subject test required for initial licensure		
General Science License and Testing Requirements	General science license offered; requires only general science test		
General Social Studies License and Testing Requirements	General social studies license offered; requires only general social studies test		
Endorsement Requirements	Content tests are required to add endorsements; general science and general social studies endorsements only require general content tests		
Instructional Shifts Associated with College-and Career- Readiness Standards	Complex informational text: Partially addressed Incorporating literacy into core subjects: Not addressed Struggling readers: Not addressed		

RECOMMENDATIONS TO IMPROVE SECONDARY TEACHER PREPARATION POLICIES IN NEBRASKA

Require secondary teachers with umbrella certifications to pass a content test for each discipline they are licensed to teach.

By allowing general social studies and general science certifications—and only requiring general knowledge exams for each—Nebraska is not ensuring that these secondary teachers possess adequate subject-specific content knowledge.

■ Ensure that secondary teachers are prepared to meet the instructional requirements of college- and career-readiness standards for students.

Incorporate informational text of increasing complexity into classroom instruction.

Although Nebraska's required secondary English language arts content test

SUMMARY OF SECONDARY TEACHER PREPARATION FIGURES

- Content knowledge of general science teachers (p. 32)
- Content knowledge of general social studies teachers (p. 33)

RECOMMENDATIONS CONTINUED

addresses informational texts, the state should strengthen its policy and ensure that teachers are able to challenge students with texts of increasing complexity.

Incorporate literacy skills as an integral part of every subject.

To ensure that secondary students are capable of accessing varied information about the world around them, Nebraska should also include literacy skills and using text as a means to build content knowledge in history/social studies, science, technical subjects and the arts.

Support struggling readers.

Nebraska should articulate requirements ensuring that secondary teachers are prepared to intervene and support students who are struggling.

Examples of Best Practice

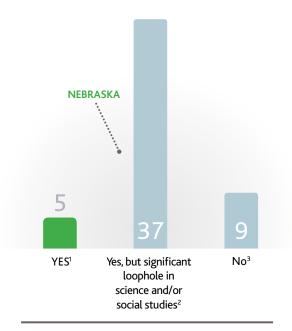

Missouri requires that secondary teacher candidates pass a content test to teach any core secondary subjects. Of particular note, Missouri ensures that its secondary science teachers know the content they teach by taking a dual approach to general secondary science certification. The state offers general science certification but only allows these candidates to teach general science courses. Missouri also offers an umbrella certification—called unified science—that requires candidates to pass individual subtests in biology, chemistry, earth science and physics. These certifications are offered in addition to single-subject licenses. In addition, Missouri requires general social studies teachers to pass a multi-content test with six independently scored subtests.

Arkansas also ensures that secondary teachers are prepared to meet the instructional requirements of college- and career-readiness standards for students. The state's competencies specify that secondary teacher candidates must have the ability to not only build content knowledge and vocabulary through careful reading of informational and literary texts but also to challenge students with texts of increasing complexity. Candidates must also know how to incorporate literacy skills as an integral part of every subject and are prepared to intervene and support students who are struggling.

For more information about NEBRASKA's secondary teacher prep policies, including detailed recommendations, full narrative analysis and state response, see

Instructional Shifts Associated with College-and Career- Readiness Standards	Complex informational text: Partially addressed (Birth to grade 3); Not addressed (K-6) (7-12) (K-12) Incorporating literacy into core subjects: Not addressed Struggling readers: Not addressed	

RECOMMENDATIONS TO IMPROVE SPECIAL EDUCATION TEACHER PREPARATION POLICIES IN NEBRASKA

End licensure practices that fail to distinguish between the skills and knowledge needed to teach elementary grades and secondary grades.

It is virtually impossible and certainly impractical for Nebraska to ensure that a K-12 special education teacher knows all the subject matter he or she is expected to be able to teach. While the broad K-12 umbrella may be appropriate for teachers of low-incidence special education students, such as those with severe cognitive disabilities, it is deeply problematic for the overwhelming majority of high-incidence special education students, who are expected to learn grade-level content.

Require that elementary special education candidates pass a rigorous content test as a condition of initial licensure.

Nebraska should requiring a rigorous content test that reports separate, meaningful passing scores for each content area to ensure teachers possess requisite content knowledge in each subject area.

SUMMARY OF SPECIAL EDUCATION TEACHER PREPARATION FIGURES

- Figure 12 Distinctions in licenses between elementary and secondary teachers
- **Figure 13** Content test requirements
- **Figure 14** Instructional shifts associated with college-and career-readiness standards

Other special education teacher preparation figures available in the Yearbook National Summary at http://www.nctq.org/2015NationalYearbook

Science of reading tests (p. 39)

RECOMMENDATIONS CONTINUED

- Ensure that secondary special education teachers possess adequate content knowledge.
 - While it may be unreasonable to expect multi-subject secondary special education teachers to meet the same requirements as single-subject teachers, Nebraska's current policy of requiring no subject-matter testing is problematic and will not help special education students to meet rigorous learning standards.
- Require all special education teacher candidates who teach elementary grades to pass a rigorous assessment in the science of reading instruction.
 Nebraska should require a rigorous reading assessment tool to ensure that special education teacher candidates are adequately prepared in all five instructional components of scientifically based read-

ing instruction: phonemic awareness, pho-

nics, fluency, vocabulary and comprehen-

- sion.
 Ensure that new special education teachers are prepared to incorporate informational text of increasing
 - Either through testing frameworks or teacher standards, Nebraska should specifically address the instructional shifts toward building content knowledge and vocabulary through increasingly complex informational texts and careful reading of informational and literary texts associated with college- and career-readiness standards for students.

complexity into classroom instruction.

Examples of Best Practice

Unfortunately, NCTQ cannot award "best practice" honors to any state's policy in the area of special education. However, **New York** and **Rhode Island** are worthy of mention for taking steps in the right direction in ensuring that all special education teachers know the subject matter they are licensed to teach. These states require that elementary special education candidates pass the same elementary content tests, which are comprised of individual subtests, as general education elementary teachers.

Secondary special education teachers in New York must pass a multi-subject content test for special education teachers comprised of three separately scored sections. Rhode Island requires its secondary special education teachers to hold certification in another secondary area.

In addition, California ensures that all special education teachers are prepared to meet the instructional requirements of college- and careerreadiness standards for students. All special education candidates must pass a comprehensive assessment that specifically tests the five elements of scientifically based reading instruction: phonemic awareness, phonics, fluency, vocabulary and comprehension. California's test frameworks go further than most states and ensure that special education teacher candidates have the ability to not only build content knowledge and vocabulary through careful reading of informational and literary texts but also to challenge students with texts of increasing complexity. Candidates also must know how to incorporate literacy skills as an integral part of every subject and are prepared to intervene and support students who are struggling.

For more information about NEBRASKA's special education teacher prep policies, including detailed recommendations, full narrative analysis and state response, see http://nctq.org/StatePolicyDashboard

RECOMMENDATIONS CONTINUED

Ensure that new special education teachers are prepared to incorporate literacy skills as an integral part of every subject.

Nebraska should also include specific requirements regarding literacy skills and using text as a means to build content knowledge in history/social studies, science, technical subjects and the arts.

■ Prepare special education teachers to support struggling readers.

Nebraska should articulate requirements ensuring that all special education teachers are prepared to intervene and support students who are struggling with reading. With reading difficulties generally representing the primary reason for special education placements, it is essential that all special education teachers have the knowledge and skills to diagnose and support students with literacy needs.

Figure 12

- Missouri offers a K-12 certification but candidates must pass either the Elementary Multi-Content Assessment or the new Middle/Secondary Content Assessment (English, Mathematics, Science and Social Studies) or choose one of the specific content assessment for a specific area of certification.
- Although New Jersey does issue a K-12 certificate, candidates must meet discrete elementary and/or secondary requirements.
- 3. Candidates must meet requirements for both the K-8 and 7-12 special education licenses.

Test in at least one subject required for secondary special education license	Louisiana, Massachusetts, New Jersey, Pennsylvania², Rhode Island, West Virginia³		
Required for a K-12 special education license	None		

- Missouri offers a K-12 certification but candidates must pass either the Elementary Multi-Content Assessment or the new Middle/Secondary Content Assessment (English, Mathematics, Science and Social Studies) or choose one of the specific content assessment for a specific area of certification.
- In Pennsylvania, a candidate who opts for dual certification in elementary or secondary special education as a reading specialist does not have to take a content test.
- 3. West Virginia also allows elementary special education candidates to earn dual certification in early childhood, which would not require a content test. Secondary special education candidates earning a dual certification as a reading specialist are similarly exempted.
- North Carolina gives teachers until their second year to earn a passing score, provided they attempt to pass during their first year.
- 5. New York requires a multi-subject content test specifically geared to secondary special education candidates. It is divided into three subtests.
- Wisconsin requires a middle school level content area test which does not report subscores for each area.

Assessing Professional Knowledge

Somewhat

All new teachers must pass a pedagogy test.

NEBRASKA Pedagogy Characteristics Pedagogy Test Praxis II Type of Test Multiple choice Teachers Included All new elementary teachers

RECOMMENDATIONS TO IMPROVE ASSESSING PROFESSIONAL KNOWLEDGE POLICIES IN NEBRASKA

Require that all new teachers pass a pedagogy test.

Nebraska should verify that all new teachers meet professional standards through a test of professional knowledge.

Examples of Best Practice

Although no state stands out for its pedagogy test policy, eight states are worthy of mention for the licensing test they require to verify that all new teachers meet state standards. Arizona, Florida, Indiana, Minnesota, New Mexico, Ohio, Oklahoma and Texas ensure that all new teachers take a pedagogy test that specifically is aligned with each state's own professional standards.

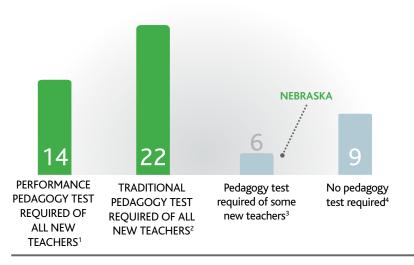

SUMMARY OF ASSESSING PROFESSIONAL KNOWLEDGE FIGURES

Figure 15 Pedagogy tests

essessing professional knowledge policies, including detailed recommendations, full narrative analysis and state response, see http://nctq.org/StatePolicyDashboard

Figure 15

Do states measure new teachers' knowledge of teaching and learning?

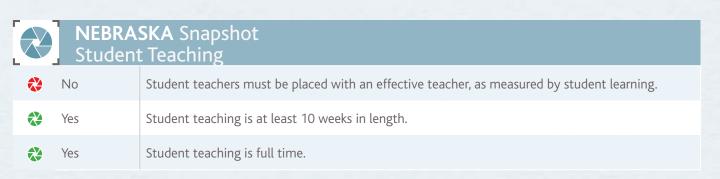

- 1. Strong Practice: California, Delaware, Georgia, Hawaii, Illinois⁵, Iowa⁶, Massachusetts, Missouri, New Jersey, New York, Oregon, Tennessee⁶, Washington, Wisconsin
- Strong Practice: Alabama, Arizona, Arkansas, District of Columbia, Florida, Indiana, Kansas, Kentucky, Louisiana, Maine, Minnesota, Nevada, New Mexico, North Carolina⁷, North Dakota, Ohio, Oklahoma, Rhode Island, South Carolina, South Dakota, Texas, West Virginia
- 3. Connecticut, Maryland, Mississippi, Nebraska, Pennsylvania, Utah⁸
- 4. Alaska, Colorado, Idaho, Michigan, Montana, New Hampshire, Vermont, Virginia, Wyoming
- 5. All new teachers must also pass a traditional pedagogy test.
- 6. Teachers have the option of the edTPA or a traditional Praxis pedagogy test.
- 7. North Carolina teachers have until their second year to pass if they attempt to pass during their first year.
- 8. Not required in Utah until a teacher advances from a Level One to a Level Two license.

Student Teaching

For more information about
NEBRASKA and other states' student
teaching policies, including full
harrative analyses, recommendations
and state responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Student Teaching Characteristics		
Duration of Student Teaching	At least 14 weeks for any combination of subject endorsements and a field endorsement; at least 10 weeks for each of two or more field endorsements	
Selection of Cooperating Teachers Connected to Effectiveness	No specific requirements	
Other Criteria for Selection of Cooperating Teachers	A minimum of 3 years of experience in the areas they are supervising	

RECOMMENDATIONS TO IMPROVE STUDENT TEACHING POLICIES IN NEBRASKA

- Ensure that cooperating teachers have demonstrated evidence of effectiveness as measured by student learning.
 In addition to the ability to mentor an adult, cooperating teachers in Nebraska should also be carefully screened for their capacity to further student achievement.
- Explicitly require that student teaching be completed locally, thus prohibiting candidates from completing this requirement abroad.

Outsourcing arrangements for student teaching makes it impossible to ensure the selection of the best cooperating teacher and adequate supervision of the student teacher and may prevent training of the teacher on relevant state instructional frameworks.

Examples of Best Practice

Rhode Island and Tennessee not only require teacher candidates to complete at least 10 weeks of full-time student teaching, but they also require that cooperating teachers have demonstrated evidence of effectiveness as measured by student learning. Further, both of these states ensure that student teaching is completed locally, which better ensures teacher training on relevant state instructional frameworks and allows a higher degree of program oversight and feedback to the teacher candidate.

policies, including full narrative
analyses, recommendations and state
responses, see
http://nctq.org/StatePolicyDashboard

Teacher Prep Program Accountability

Program Accountability The approval process for teacher preparation programs holds programs accountable for the quality of the teachers they produce. Pully meets Nearly meets Progress increased since 2013 Lost ground since 2013

NEBRASKA Snapshot Teacher Prep Program Accountability							
*	No	Data are collected that connect student achievement gains to teacher preparation programs.					
	No	Other objective data related to the performance of teacher preparation programs are collected.					
*	No	Minimum standards for program performance have been established.					
*	No	Report cards showing program performance are available to the public.					
*	Yes	The state maintains full authority over program approval.					

NEBRASKA Teacher Prep Program Accountability Characteristics				
None				
State maintains authority over teacher preparation program approval				

RECOMMENDATIONS TO IMPROVE TEACHER PREP PROGRAM ACCOUNTABILITY POLICIES IN NEBRASKA

 Collect data that connect student achievement gains to teacher preparation programs.

Nebraska should consider the academic achievement gains of students taught by programs' graduates, averaged over the first three years of teaching and disaggregated by specific preparation programs. Nebraska should report all collected data at the program level for accountability purposes.

■ Gather other meaningful data that reflect program performance.

Nebraska's accountability system should include other objective measures in addition to student growth that show how well programs are preparing teachers for the classroom.

SUMMARY OF TEACHER PREP PROGRAM ACCOUNTABILITY FIGURES

- Figure 17 Use of student achievement data
- Figure 18 Accountability requirements

Other teacher prep program accountability figures available in the *Yearbook* National Summary at http://www.nctq.org/2015NationalYearbook

National accreditation (p. 49)

RECOMMENDATIONS CONTINUED

- Establish the minimum standard of performance for each category of data.

 Nebraska should establish precise minimum standards for teacher preparation program performance for each category of data, which programs should be held accountable for meeting.
- state's website.

 Nebraska should produce an annual report card on individual teacher preparation programs, which should be published on the state's website at the program level and presented in a manner that clearly conveys whether programs have met per-

formance standards...

Publish an annual report card on the

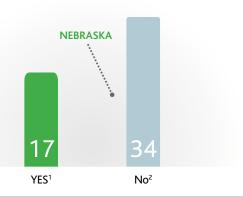

Examples of Best Practice

Delaware and **Florida** have made great strides in teacher preparation program accountability policies in the past few years and now stand out as leaders in this area. In Delaware and Florida, preparation programs report and are held accountable to a number of measures, including the effectiveness of program graduates as measured by student achievement, as well as placement and retention rates of program graduates.

Delaware has developed minimum standards of performance for each data category and has released the first of its program report cards, which make preparation program data accessible and transparent. In Florida, the state applies specific cut-scores in various data categories to decide on continued program approval. In addition, after two years of initial employment, any program completer in Florida who receives an unsatisfactory evaluation rating must be provided additional training by the preparation program at no additional cost to the teacher.

NEBRASKA Ratings				
Eligibility Alternate route programs only admit candidates with strong academic records while also providing flexibility for nontraditional candidates.	•			
Preparation Alternate route programs provide efficient preparation that is relevant to the immediate needs of new teachers, as well as adequate mentoring and support.	•			
Usage and Providers Alternate routes are free from limitations on usage, and a diversity of providers is allowed.	•			
Fully meets Nearly meets Partially meets Meets only a small part Does not meet Progress increased since 2013 Lost ground since 2013				

	NEBRA : Alterna	SKA Snapshot te Routes to Certification
<>	No	A rigorous academic standard is required for program entry.
*	No	A subject-matter test is required for admission.
*	No	Subject-matter test can be used in lieu of a major to demonstrate content knowledge.
	Yes	A practice teaching opportunity is required prior to becoming teacher of record.
*	No	Intensive mentoring is required to support new teachers.
*	Yes	Coursework requirements are streamlined.
*	No	Coursework requirements are limited to relevant topics.
*	No	Alternate routes are offered without limitation by grades, subjects or geographic areas.
*	No	Providers other than institutions of higher education are permitted.

NEBRASKA Alternate Routes to Certification Characteristics				
Name of Route(s)	Transitional Teacher Certificate			
Academic Requirements for Entry	Minimum 2.75 GPA			
Subject-Matter Requirements for Entry	A major or 75 percent of coursework requirements for a major in the intended teaching area			
Coursework Requirements	Six semester hours of coursework must be completed annually for a total of 18 credit hours; must complete a pre-teaching seminar that includes information and skill development in the areas of diversity, classroom management, curriculum planning and instructional strategies prior to assuming responsibility for the classroom			
Practice Teaching/Mentoring Requirements	Semester of student teaching; mentors provided throughout the classroom teaching experience			
Usage	No formal limitations, but in practice only secondary teachers are certified through the Transitional Teaching Certificate			
Eligible Providers	Only institutions of higher education			

RECOMMENDATIONS TO IMPROVE ALTERNATE ROUTES TO CERTIFICATION POLICIES IN NEBRASKA

Increase academic requirements for admission.

Nebraska should require that candidates to its alternate routes provide some evidence of good academic performance, such as a GPA of 3.0 or higher or taking the GRE.

Require applicants to pass a subjectmatter test for admission.

The concept behind alternate routes is that the nontraditional candidate is able to concentrate on acquiring professional knowledge and skills because he or she has strong subject-area knowledge.

SUMMARY OF ALTERNATE ROUTES TO CERTIFICATION FIGURES

- Providers of alternate route programs (p. 62)

For more information about NEBRASKA's alternate routes to certification policies, including detailed recommendations, full narrative analysis and state response, see http://nctq.org/StatePolicyDashboard

RECOMMENDATIONS CONTINUED

Offer flexibility in fulfilling coursework requirements.

Nebraska should allow any candidate who already has the requisite knowledge and skills to demonstrate such by passing a rigorous test.

 Establish coursework guidelines for alternate route preparation programs.

Nebraska should ensure that coursework requirements are relevant and that any course that is not fundamentally practical and immediately necessary should be eliminated as a requirement.

 Provide an induction program to support alternate route teachers.

Nebraska should offer a highly structured, well-supervised induction program for all alternate route candidates. The state should consider strategies like intensive mentoring with full classroom support in the first few weeks or months of school.

■ Ensure program completion in less than two years.

Nebraska should consider shortening the length of time it takes an alternate route teacher to earn standard certification to no later than the end of the second year of teaching.

- Broaden usage for all alternate routes.
 - Nebraska should reconsider grade-level and subject-area restrictions on its alternate route, as a way to expand the teacher pipeline throughout the state.
- Encourage diversity of alternate route providers.

Nebraska should specifically authorize alternate route programs run by local school districts and nonprofits, as well as institutions of higher education.

Examples of Best Practice

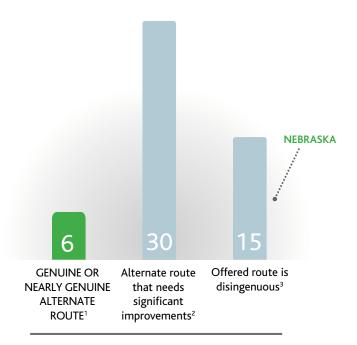

No state can be singled out for its overall alternate route policies. There are, however, states that offer best practices in individual alternate route policy areas.

With regard to admissions into alternate routes, the **District of Columbia** and **Michigan** have established a high bar. Both require candidates to demonstrate strong academic performance as a condition of admission with a minimum 3.0 GPA. In addition, neither requires a content-specific major; subjectarea knowledge is demonstrated by passing a test, making their alternate routes flexible to the needs of nontraditional candidates. Also worthy of note is new policy in **New York** that significantly raises the bar by requiring that all graduate-level teacher preparation programs adopt entrance standards that include a minimum score on the GRE or an equivalent admission exam and a cumulative minimum GPA of 3.0 in the candidate's undergraduate program.

Delaware has policies that help to ensure that alternate routes provide efficient preparation that meets the needs of new teachers. The state requires a manageable number of credit hours, relevant coursework, intensive mentoring and a practice teaching opportunity.

Most states offer alternate routes that are widely available across grades, subjects and geographic areas and permit alternate route providers beyond higher education institutions. NCTQ commends all states that permit both broad usage and a diversity of providers for their alternate routes.

Figure 19
Do states provide real alternative pathways to certification?

- 1. Strong Practice: Arkansas, Connecticut, Delaware, Florida, New Jersey, Rhode Island

Part-Time Teaching Licenses

Part-Time Teaching Licenses A license with minimal requirements is offered that allows content experts to teach part time. Pully meets → Nearly meets → Partially meets → Meets only a small part → Does not meet Progress increased since 2013 → Lost ground since 2013

Somewhat

A part-time license with minimal requirements is available for those with subject-matter expertise.

NEBRASKA Part-	NEBRASKA Part-Time Teaching Licenses Characteristics				
Name of License	Career Education Certificate, for individuals hired to teach a course in grades 9-12 where no teacher education program exists, where instructional content of the course exceeds teacher preparation coursework or for which the school system has not found a qualified teacher for a specific course in the career education field; Provisional Commitment Teaching Certificate				
Subject-Matter Requirements	For the Career Education Teaching Certificate, candidates must show proficiency in the subject matter through a course of study, five years of work experience or an exam. Provisional Commitment Teaching Certificate can be issued to applicants with a baccalaureate degree who have completed the required portion of an approved teacher education program, including 50 percent of the pre-student teaching requirements, a course in teaching methods and 75 percent of the requirements for at least one subject or field endorsement				
Other Requirements	None				

RECOMMENDATIONS TO IMPROVE PART-TIME TEACHING LICENSES POLICIES IN NEBRASKA

 Offer a license that allows content experts to serve as part-time instructors.

It is unclear whether the Career Education Certificate and the Professional Commitment Certificate serve as vehicles for individuals with deep subject-area knowledge to teach a limited number of courses without fulfilling a complete set of certification requirements. It appears that this may be the intent of the license; however, state policy does not describe the conditions of employment, whether it is for part-time or full-time teaching or the requirements that candidates must fulfill.

 Require applicants to pass a subjectmatter test.

Nebraska should require that Career Education Certificate and the Professional Commitment Certificate candidates pass a subject-matter test to ensure expertise in a content area. Only a subject-matter test ensures that these teachers know the specific content they will need to teach.

Examples of Best Practice

Georgia offers a license with minimal requirements that allows content experts to teach part time. Individuals seeking this license must pass a subjectmatter test and are assigned a mentor.

SUMMARY OF PART-TIME TEACHING LICENSES FIGURES

Licensure Reciprocity

For more information about
NEBRASKA and other states'
reciprocity policies, including full
harrative analyses, recommendations
and state responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Reciprocity Characteristics					
License Available to Fully Certified Out-of-State Teachers	Standard				
Effectiveness Requirements	None				
Testing Requirements	Must meet Nebraska's testing standards.				
Coursework and/or Recency Requirements	Must have, within the five years prior to application, two consecutive years of experience.				
Additional Alternate Route Requirements	Does not recognize certificates or endorsements that have been granted by testing only and/or through alternate preparation programs.				

RECOMMENDATIONS TO IMPROVE RECIPROCITY POLICIES IN NEBRASKA

 Require evidence of effective teaching when determining eligibility for full certification.

To facilitate the movement of effective teachers between states, Nebraska should require that evidence of teacher effectiveness, as determined by an evaluation that includes objective measures of student growth, be considered for all out-of-state candidates.

 Offer a standard license to certified out-of-state teachers, absent unnecessary requirements.

Nebraska should reconsider its recency requirement regarding experience, as it may deter talented teachers from applying for certification.

 Accord the same license to out-of-state alternate route teachers as would be accorded to traditionally prepared teachers.

Regardless of whether a teacher was prepared through a traditional or alternate route, all certified out-of-state teachers should receive equal treatment.

SUMMARY OF RECIPROCITY FIGURES

Figure 22 Requirements for licensing teachers from other states

Other reciprocity figures available in the *Yearbook* National Summary at http://www.nctq.org/2015NationalYearbook

- Licensure tests (p. 70)
- Evidence of effectiveness (p. 71)
- Traditional versus alternate route requirements (p. 72)

For more information about NEBRASKA's reciprocity policies, including detailed recommendations, full narrative analysis and state response, see http://nctq.org/StatePolicyDashboard

Examples of Best Practice

Although no state stands out for its overall reciprocity policies, two states are worthy of mention for their connection of reciprocal licensure to evidence of teacher effectiveness. When determining eligibility for full certification, both **Delaware** and **Idaho** consider teacher evaluations from previous employment that include objective measures of student growth. NCTQ also commends **Indiana**, **Massachusetts**, **Mississippi**, **North Carolina**, **Ohio**, **Pennsylvania**, **Rhode Island** and **Texas** for appropriately supporting licensure reciprocity by requiring that certified teachers from other states meet their own testing requirements, and by not specifying any additional coursework or recency requirements to determine eligibility for either traditional or alternate route teachers.

^{3.} Allows up to three years to submit passing scores.

- · Equitable Distribution of Teachers

State Data Systems

For more information about
NEBRASKA and other states' data
systems policies, including full
harrative analyses, recommendations
and state responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings State Data Systems The state's data system contributes some of the evidence needed to assess teacher effectiveness. Pully meets Nearly meets Progress increased since 2013 Lost ground since 2013 Bar raised for this goal

NEBRASKA Snapshot State Data Systems						
*	Yes	Use of data system for providing evidence of effectiveness is mandated.				
*	No	Teacher of record is adequately defined.				
*	No	A process is in place for teacher roster verification.				
*	No	Data on teacher production are publicly reported.				

NEBRASKA State	NEBRASKA State Data System Characteristics					
Teacher Student Data Link Capacity to connect student identifiers to teacher identifiers and match records over time						
Teacher of Record Definition None						
Other Characteristics	No roster verification or ability to connect multiple teachers to a single student					
Teacher Production Data/ Hiring Statistics Not reported						

RECOMMENDATIONS TO IMPROVE STATE DATA SYSTEM POLICIES IN NEBRASKA

- Develop a definition of "teacher of record" that can be used to provide evidence of teacher effectiveness.
 Nebraska should articulate a definition of teacher of record that reflects instruction.
- Strengthen data link between teachers and students.
 - Nebraska should put in place a process for teacher roster verification, which is of particular importance for using the data system to provide evidence of teacher effectiveness, and ensure that its teacher-student data link is able to connect more than one educator to a particular student in a given course.
- Publish data on teacher production.

 Nebraska should look to Maryland's "Teacher Staffing Report" as a model whose primary purpose is to determine teacher shortage areas, while also identifying areas of surplus.

Examples of Best Practice

Hawaii and West Virginia are leaders in using their state data systems to support the identification and supply of effective teachers. Both states have all three elements needed to assess teacher effectiveness, and both states have also developed definitions of teacher of record that reflect instruction. Their data links can connect multiple teachers to a particular student, and there is a process for teacher roster verification. In addition, Hawaii and West Virginia publish teacher production data. Maryland remains worthy of mention for its "Teacher Staffing Report," which serves as a model for other states. The report's primary purpose is to determine teacher shortage areas, while also identifying areas of surplus.

Teacher Evaluation

NEBRASKA Ratings	
Evaluation of Effectiveness Instructional effectiveness is the preponderant criterion of any teacher evaluation.	•
Frequency of Evaluations All teachers receive annual evaluations.	•
 Fully meets → Nearly meets → Partially meets → Meets only a small part → Does not meet Progress increased since 2013 → Lost ground since 2013 	

NEBRASKA Teach	NEBRASKA Teacher Evaluation Characteristics						
Use of Student Achievement Data in Evaluation	None required						
Types of Required Student Data	None required						
Other Required Measures	Classroom observations are required for probationary teachers.						
Number of Rating Categories	2						
Frequency of Evaluations	New teachers must be evaluated at least twice a year, a minimum of once a semester.						
Number of Observations	Only required for probationary teachers						
System Structure	State provides criteria for and approves district-designed evaluation systems						
Surveys (Parent, Student, Peer)	Parent surveys explicitly allowed						
Evaluator Requirements Training							

RECOMMENDATIONS TO IMPROVE TEACHER EVALUATION POLICIES IN NEBRASKA

Require instructional effectiveness to be the preponderant criterion of any teacher evaluation.

Nebraska should require a common evaluation instrument in which evidence of student learning is the most significant criterion by ensuring a teacher is unable to receive an effective rating if found to be ineffective in the classroom.

 Require annual formal evaluations for all teachers.

All teachers in Nebraska should be evaluated annually, as a means to reward good teachers, help average teachers improve and hold weak teachers accountable for poor performance.

Examples of Best Practice

Tennessee requires that objective measures of student growth be the preponderant criterion of all evaluations. All teachers in the state must be evaluated annually, and multiple observations are required, with a postobservation conference scheduled after each to discuss performance. The state's observation schedule ensures that new teachers receive feedback early in the year. Tennessee also requires the use of five performance rating categories.

Idaho, New Jersey and Washington also require annual evaluations and multiple observations for all teachers, and they ensure that new teachers are observed and receive feedback during the first half of the school year.

For more information about NEBRASKA's teacher evaluation policies, including detailed recommendations, full narrative analysis and state response, see
http://nctq.org/StatePolicyDashboard

RECOMMENDATIONS CONTINUED

- Utilize rating categories that meaningfully differentiate among various levels of teacher performance.
 - Nebraska should require districts to utilize multiple rating categories, such as highly effective, effective, needs improvement and ineffective.
- Base evaluations on multiple observations.
 - To guarantee that annual evaluations are based on an adequate collection of information, Nebraska should require multiple observations for all teachers.
- Ensure that classroom observations specifically focus on and document the effectiveness of instruction.
 - Nebraska should ensure that the primary component of a classroom observation be quality of instruction, as measured by student time on task, student grasp or mastery of the lesson objective and efficient use of class time.

 The state has an ESEA waiver requiring an evaluation system that includes student achievement as a significant factor. However, no specific guidelines or policies have been articulated.

In 2014-15, student achievement was 10% of the total evaluation rating; for 2015-16, it is 20%. This appears connected to test transition rather than permanent lowering of student growth percentage.

3. Explicitly defined for 2014-15 school year.

Tenure

For more information about
NEBRASKA and other states' tenure
policies, including full narrative
analyses, recommendations and state
responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Tenure Characteristics				
Consideration of Teacher Effectiveness				
Length of Probationary Period	3 years			

RECOMMENDATIONS TO IMPROVE TENURE POLICIES IN NEBRASKA

- End the automatic awarding of tenure.

 The decision to grant tenure should be a deliberate one, based on consideration of a teacher's commitment and actual evidence of classroom effectiveness.
- Ensure that evidence of effectiveness is the preponderant criterion in tenure decisions.

Nebraska should make evidence of effectiveness, rather than number of years in the classroom, the most significant factor when determining this leap in professional standing.

 Articulate a process that local districts must administer when deciding which teachers get tenure.

Nebraska should require a clear process, such as a hearing, to ensure that the local district reviews a teacher's performance before making a determination regarding tenure.

■ Require a longer probationary period.

Nebraska should extend its probationary period, ideally to five years. This would allow sufficient time to collect data that adequately reflect teacher performance.

Examples of Best Practice

Colorado, Connecticut and New York appropriately base tenure decisions on evidence of teacher effectiveness. In Connecticut, tenure is awarded after four years and must be earned on the basis of effective practice as demonstrated in evaluation ratings. Colorado requires ratings of either effective or highly effective for three consecutive years to earn tenure status, which can then be lost with two consecutive years of less-than-effective ratings. New York has extended its probationary period to four years and requires teachers to be rated effective or highly effective for three of those years. All three states require that student growth be the preponderant criterion of teacher evaluations.

- Florida only awards annual contracts; decisions are connected to effectiveness.
- 2. Kansas only awards annual contracts; decisions are not connected to effectiveness.
- 3. North Carolina generally awards only one-year contracts, except that teachers can be awarded a two- or four-year contract if they have "shown effectiveness as demonstrated by proficiency on the evaluation instrument." However, no student growth measures required.
- 4. No state-level policy.
- Oklahoma has created a loophole by essentially waiving student learning requirements and allowing the principal of a school to petition for career-teacher status.

- 1. Florida only awards annual contracts.
- 2. Idaho limits teacher contract terms to one year.
- 3. Kansas has eliminated due process rights associated with tenure.
- North Carolina teachers can be awarded a two- or four-year contract if they have "shown effectiveness as demonstrated by proficiency on the evaluation instrument." However, no student growth measures required.
- 5. In Ohio, teachers must hold an educator license for at least 7 years, and have taught in the district at least 3 of the last 5 years.
- Oklahoma teachers may also earn career status with an average rating of at least effective for a four-year period and a rating of at least "effective" for the last two years.
- 7. In Virginia, local school boards may extend up to five years.
- 8. In Washington, at a district's discretion, a teacher may be granted tenure after the second year if he/she receives one of the top two evaluation ratings.

Licensure Advancement

For more information about
NEBRASKA and other states' licensure
advancement policies, including full
harrative analyses, recommendations
and state responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings Licensure Advancement Licensure advancement is based on evidence of teacher effectiveness. ● Fully meets ● Nearly meets ● Partially meets ● Meets only a small part ● Does not meet ● Progress increased since 2013 ● Lost ground since 2013

	NEBRA: Licensu	SKA Snapshot re Advancement
*	No	Advancement from a probationary to a professional license is based on evidence of teacher effectiveness.
*	No	Renewal of a professional license is based on evidence of teacher effectiveness.
*	No	Other advancement/renewal requirements have a direct connection to classroom effectiveness.
	Somewhat	An advanced degree is not a requirement for license advancement.

NEBRASKA Licens	sure Advancement Characteristics
Performance Requirements to Advance from a Probationary to Professional License	None
Other Requirements for Advancement	Standard: Must have taught half-time or more for 2 consecutive years with 5 years prior to application. Professional (optional): Advanced degree.
Initial Certification Period	5 years
Performance Requirements to Renew a Professional License	None
Other Requirements for Renewal	Must verify teaching for at least 1 year in the last 5, or complete 6 semester hours in the past 5 years.
Renewal Period	5 years

RECOMMENDATIONS TO IMPROVE LICENSURE ADVANCEMENT POLICIES IN NEBRASKA

- Require evidence of effectiveness as a part of teacher licensing policy.
 - Nebraska should require evidence of teacher effectiveness to be a factor in determining whether teachers can renew their licenses or advance to a higher-level license.
- Discontinue license requirements with no direct connection to classroom effectiveness.
 - While targeted requirements may potentially expand teacher knowledge and improve teacher practice, Nebraska's general, nonspecific coursework requirements for license advancement and renewal do not correlate with teacher effectiveness.
- End requirement tying teacher advancement to master's degrees.
 - Nebraska should remove its mandate that teachers obtain a master's degree for optional license advancement, as research is conclusive that master's degrees do not have any significant correlation to performance.

Examples of Best Practice

Both **Rhode Island** and **Louisiana** are integrating certification, certification renewal and educator evaluations. In Rhode Island, teachers who receive poor evaluations for five consecutive years are not eligible to renew their licenses. In addition, teachers who consistently receive highly effective ratings are eligible for a special license designation. Louisiana requires its teachers to meet the standard for effectiveness for three years during their initial certification or renewal period to be issued a certificate or have their certificate renewed.

Equitable Distribution of Teachers

For more information about **NEBRASKA** and other states' equitable distribution of teachers policies, including full narrative analyses, recommendations and state responses, see http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings

Equitable Distribution

Districts' distribution of teacher talent among schools is publicly reported to identify inequities in schools serving disadvantaged students.

Fully meets • Nearly meets • Partially meets • Meets only a small part • Does not meet

♠ Progress increased since 2013

NEBRASKA Snapshot Equitable Distribution of Teachers

*	No	School districts must publicly report aggregate school-level data about teacher performance.
*	No	A school-level teacher-quality index is used to demonstrate the academic backgrounds of a school's teachers and the ratio of new to veteran teachers.
*	No	School-level data on teacher absenteeism or turnover rates are reported.
*	Yes	School-level data on percentage of highly qualified teachers are reported.
*	No	School-level data on percentage of teachers with emergency credentials are reported.

NEBRASKA Equitable Distribution of Teachers Characteristics

Public Reporting of Teacher Effectiveness Data	Not reported
Other Public Reporting Related to Teacher Distribution	Reports percentage of highly qualified teachers, and average years of teaching experience for each school.

RECOMMENDATIONS TO IMPROVE EQUITABLE DISTRIBUTION OF TEACHERS POLICIES IN NEBRASKA

 Report school-level teacher effectiveness data.

Nebraska should make aggregate school-level data about teacher performance—from an evaluation system based on instructional effectiveness—publicly available.

 Publish other data that facilitate comparisons across schools.

Nebraska should collect and report other school-level data that reflect the stability of a school's faculty, including the rates of teacher absenteeism and turnover.

Provide comparative data based on school demographics.

Providing comparative data for schools with similar poverty and minority populations would yield an even more comprehensive picture of gaps in the equitable distribution of teachers in Nebraska.

- Report data at school level.
 - Nebraska should ensure that it is reporting all currently collected data at the school level, rather than aggregated by district.
- Ensure that ideas outlined in the Equity Plan evolve into state policy.

Nebraska's 2015 Equity Plan outlines the state's intention to further report on the equitable distribution of its teachers throughout the state. However, because adherence is voluntary, Nebraska is strongly encouraged to follow through with its public reporting plan.

Examples of Best Practice

Although not awarding "best practice" honors for this topic, NCTQ commends the 13 states that give the public access to teacher performance data aggregated to the school level. This transparency can help shine a light on how equitably teachers are distributed across and within school districts and help to ensure that all students have access to effective teachers.

SUMMARY OF EQUITABLE DISTRIBUTION OF TEACHERS FIGURES

Area 4 Summary

How States are Faring in Retaining Effective Teachers

State Area Grades

Topics Included In This Area

New Teacher Induction

Compensation

Professional Development

New Teacher Induction

For more information about **NEBRASKA** and other states' : new teacher induction policies, including full narrative analyses, recommendations and state responses, see http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings

Induction

Effective induction is available for all new teachers, with special emphasis on teachers in high-need schools.

Fully meets • Nearly meets Partially meets • Meets only a small part Does not meet

↑ Progress increased since 2013

NEBRASKA Snapshot New Teacher Induction

*	Yes	All new teachers receive mentoring.
*	No	Mentoring is of sufficient frequency and duration.
*	No	Mentors are carefully selected.
**	Yes	Induction programs are evaluated.
*	No	Induction programs include a variety of effective strategies.

NEBRASKA New Teacher Induction Characteristics

Induction Program	All new teachers are required to receive mentoring; state reports program is unfunded at present
Requirements for Mentor/ New Teacher Contact	Not specified
Selection Criteria for Mentors	Experienced and certified
Other Mentor Requirements	Mentors must be trained
Required Induction Strategies Other than Mentoring	Not specified

RECOMMENDATIONS TO IMPROVE NEW TEACHER INDUCTION POLICIES IN NEBRASKA

Ensure high quality mentors.

Nebraska should establish criteria for the selection of high-quality mentors. Of particular importance is that mentors themselves are effective teachers. Teachers without evidence of effectiveness should not be able to serve as mentors.

Expand guidelines to include other key areas.

Nebraska should set a timeline in which mentors are assigned to all new teachers throughout the state, ideally soon after the commencing of teaching, to offer support during those first critical weeks of school. Mentors should also be required to be trained in a content area or grade level similar to that of the new teacher.

Fund and implement induction initiative.

NCTQ points out that this *Yearbook* is based on the existence of regulations, not on the implementation of them. It is unfortunate that this mentoring program has not been funded for several years. Nebraska should either ensure that this program is funded in the near future or remove it from the books altogether because it is, in essence, nonexistent.

Examples of Best Practice

South Carolina requires that all new teachers, prior to the start of the school year, be assigned mentors for at least one year. Districts carefully select mentors based on experience and similar certifications and grade levels, and mentors undergo additional training. Adequate release time is mandated by the state so that mentors and new teachers may observe each other in the classroom, collaborate on effective teaching techniques and develop professional growth plans. Mentor evaluations are mandatory and stipends are recommended.

Arkansas, Illinois, Maryland and New Jersey are also worthy of mention for their requirements related to mentor selection. Arkansas, Illinois and New Jersey require that all mentors must be rated in one of the top two rating categories on their most recent evaluation. Maryland also requires mentors, who are either current or retired teachers, to have obtained effective evaluation ratings.

SUMMARY OF NEW TEACHER INDUCTION FIGURES

Professional Development

NEBRASKA Ratings

Professional Development

Teachers receive feedback about their performance, and professional development is based on needs identified through teacher evaluations.

Fully meets 🕘 Nearly meets 🔵 Partially meets 🕒 Meets only a small part 🦳 Does not meet

♠ Progress increased since 2013

Lost ground since 2013

NEBRASKA Snapshot Professional Development

No Teachers must receive feedback about their performance from their evaluations.

Professional development must be aligned with evaluation results.

No

Yes

Teachers with unsatisfactory/ineffective ratings are placed on improvement plans.

NEBRASKA Professional Development Characteristics

Evaluation and Professional Development	No connection
Evaluation Feedback	Written evaluations are required.
Improvement Plan	Requires "written communication and documentation to the evaluated teacher specifying all noted deficiencies, specific means for the correction of the noted deficiency, and an adequate timeline for implementing the concrete suggestions for improvement."

RECOMMENDATIONS TO IMPROVE PROFESSIONAL DEVELOPMENT POLICIES IN NEBRASKA

- Require that evaluation systems provide teachers with feedback about their performance.
 - Nebraska should require that evaluation systems provide teachers with feedback about their classroom performance.
- Ensure that professional development is aligned with findings from teachers' evaluations.
 - Nebraska should ensure that districts utilize teacher evaluation results in determining professional development needs and activities.

Examples of Best Practice

Louisiana and Massachusetts require that teachers receive feedback about their performance from their evaluations and direct districts to connect professional development to teachers' identified needs. Both states also require that teachers with unsatisfactory evaluations be placed on structured improvement plans. These improvement plans include specific performance goals, a description of resources and assistance provided, as well as timelines for improvement.

Does not require improvement plans for all less-than-effective teachers; just those in the lowest rating category.

^{2.} South Dakota requires improvement plans only for teachers rated unsatisfactory who have been teaching for four years or more.

Compensation

For more information about
NEBRASKA and other states'
compensation policies, including full
harrative analyses, recommendations
and state responses, see
http://nctq.org/StatePolicyDashboard

NEBRASKA Ratings			
Pay Scales and Performance Pay While local districts are given the authority over pay scales, performance pay is supported, but in a manner that recognizes its appropriate uses and limitations.	•		
Differential Pay Differential pay for effective teaching in shortage and high-need areas is supported.			
Compensation for Prior Work Experience Districts are encouraged to provide compensation for related prior subject-area work experience.			
Fully meets Nearly meets Partially meets Meets only a small part Does not meet			
↑ Progress increased since 2013 ↓ Lost ground since 2013 ♠ Bar Raised for this Goal			

	NEBRASKA Snapshot Compensation						
*	Yes	Districts have flexibility to determine pay structure and scales.					
	Somewhat	Effective teachers can receive performance pay.					
*	No	Districts are discouraged from tying compensation to advanced degrees.					
	No	Teachers can earn additional compensation by teaching shortage subjects.					
**	No	Teachers can earn additional compensation by teaching in high-need schools.					
*	No	Districts are encouraged to provide compensation for related prior subject-area work experience.					

NEBRASKA Compensation Characteristics					
Authority for Salary Schedule	Controlled by local districts				
Performance Pay Initiatives	Starting in 2016, teachers will receive performance pay that links teacher performance to compensation. "Indicators of teacher performance may include improving professional skills and knowledge, classroom performance or instructional behavior and instructional outcomes." No guarantee that student achievement will be considered.				
Role of Experience and Advanced Degrees in Salary Schedule	Not explicitly discouraged				
Differential Pay for Shortage Subjects	None; loan forgiveness offered, up to \$6,000 annually				
Differential Pay for High-Need Schools	None; loan forgiveness offered, up to \$6,000 annually				
Pay for Prior Work Experience	None				

RECOMMENDATIONS TO IMPROVE COMPENSATION POLICIES IN NEBRASKA

 Discourage districts from tying compensation to advanced degrees and/or experience.

While still leaving districts the flexibility to establish their own pay scales, Montana should articulate policies that definitively discourage districts from tying compensation to advanced degrees as well as determining the highest steps on the pay scale solely by seniority.

 Support a performance pay plan that recognizes teachers for their effectiveness.

Nebraska should guarantee a connection to student achievement and prevent local districts from basing financial incentives on other elements that may not be indicative of performance in the classroom.

SUMMARY OF COMPENSATION FIGURES

- Figure 33 Compensation for performance
- Figure 34 Compensation for advanced degrees
- Figure 35 Differential pay

Other compensation figures available in the *Yearbook* National Summary at http://www.nctq.org/2015NationalYearbook

- State role in teacher pay (p. 112)
- State support for performance pay (p. 114)
- Differential pay for shortage subjects or high-need schools (p. 119)
- Compensation for prior work experience (p. 121)

RECOMMENDATIONS CONTINUED

 Expand differential pay initiatives for teachers in subject-shortage areas and high-need schools.

Nebraska should expand its loan repayment program to include those who are already part of the teaching pool, as a salary differential is an attractive incentive for every teacher, not just those with education debt.

 Encourage local districts to compensate new teachers with relevant prior work experience.

Nebraska should encourage districts to incorporate mechanisms such as starting these teachers at a higher salary than other new teachers. Such policies would be attractive to career changers with related work experience, such as in the STEM subjects.

Examples of Best Practice

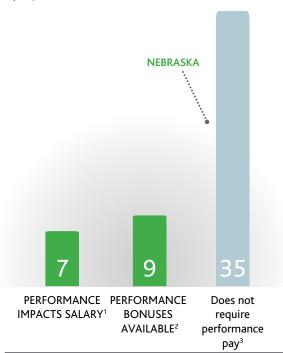

Florida allows local districts to develop their own salary schedules while preventing districts from prioritizing elements not associated with teacher effectiveness. Local salary schedules must ensure that the most effective teachers receive salary increases greater than the highest salary adjustment available. Florida also supports differential pay by providing salary supplements for teachers in both high-need schools and shortage subject areas.

In addition, **Indiana** and **Utah** both articulate compensation policies that reward effective teachers by requiring performance to be the most important factor in deciding a teacher's salary. **Louisiana** supports differential pay by offering up to \$3,000 per year, for four years, to teach math, biology, chemistry, physics and special education, and up to an additional \$6,000 per year, up to four years, to teach in low-performing schools. **North Carolina** compensates new teachers with relevant prior-work experience by awarding them one year of experience credit for every year of full-time work after earning a bachelor's degree that is related to their area of licensure and work assignment.

For more information about NEBRASKA's compensation policies, including detailed recommendations, full narrative analysis and state response, see
http://nctq.org/StatePolicyDashboard

Figure 33

Do states ensure pay is structured to account for performance?

- Strong Practice: Florida, Hawaii, Indiana, Louisiana, Michigan, Nevada, Utah
- 2. Strong Practice: Arkansas, Delaware, Georgia, Minnesota, Mississippi, Ohio, Oklahoma, South Carolina, Tennessee⁴
- 3. Alabama, Alaska, Arizona⁵, California, Colorado, Connecticut, District of Columbia, Idaho⁶, Illinois, Iowa, Kansas, Kentucky⁷, Maine, Maryland, Massachusetts, Missouri⁶, Montana, Nebraska⁷, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon⁷, Pennsylvania, Rhode Island, South Dakota, Texas, Vermont, Virginia⁷, Washington, West Virginia, Wisconsin, Wyoming
- 4. A performance component is not required. Districts must differentiate teacher compensation based on at least one of the following criteria: additional roles or responsibilities, hard-to-staff schools or subject areas, and performance based on teacher evaluations.
- Arizona allocates funds for teacher compensation increases based on performance and employment related expenses; there is no clear requirement for compensation connected to evidence of effectiveness.
- Idaho does offer a master teacher premium, but it is dependent on years of experience.
- 7. Performance bonuses are available, but not specifically tied to teacher offsetiveness
- 8. Performance bonuses are available for teachers in schools deemed "academically deficient."

Figure 34

- Louisiana allows districts to set salary schedules based on three criteria: effectiveness, experience and demand. Advanced degrees may be included only as part of demand.
- 2. Only discouraged for those districts implementing $\ensuremath{\mathsf{Q}}$ Comp.
- 3. For advanced degrees earned after April 2014.
- 4. Rhode Island requires local district salary schedules to include teacher "training".
- Texas has a minimum salary schedule based on years of experience.Compensation for advanced degrees is left to district discretion.

NEBRASKA Exter	NEBRASKA Extended Emergency License Characteristics				
Emergency License Provisional Teaching Permit; Alternative Program Teaching Permit					
Minimum Requirements	Provisional Teaching Permit: Program completion except licensure tests Alternative Program Teaching Permit: Undergraduate degree and partial completion of preparation program.				
Duration	Provisional Teaching Permit: 1 year Alternative Program Teaching Permit: 1 year				
Renewal Requirements Provisional Teaching Permit: Nonrenewable Alternative Program Teaching Permit: Nonrenewable					

RECOMMENDATIONS TO IMPROVE EXTENDED EMERGENCY LICENSE POLICIES IN NEBRASKA

 Ensure that all teachers pass required subject-matter licensing tests before they enter the classroom.

Permitting individuals who have not yet passed state licensing tests to teach neglects the needs of students, instead extending personal consideration to adults who may not be able to meet minimal state standards.

Examples of Best Practice

Mississippi, **New Jersey** and **Rhode Island** require all new teachers to pass all required subject-matter tests as a condition of initial licensure.

SUMMARY OF EXTENDED EMERGENCY LICENSES FIGURES

Dismissal for Poor Performance

NEBRASKA Ratings Dismissal Ineffective classroom performance is grounds for dismissal and the process for terminating ineffective teachers is expedient and fair to all parties. ■ Fully meets ■ Nearly meets ■ Partially meets ■ Meets only a small part ■ Does not meet ■ Progress increased since 2013 ■ Lost ground since 2013

NEBRASKA	NEBRASKA Dismissal Characteristics				
Dismissal for Ineffecti	veness Ineffectiveness not grounds for dismissal				
Due Process Rights of	Same regardless of the grounds for cancellation, which include incompetency, neglect of duty, unprofessional conduct, insubordination, immorality, or physical or mental incapacity				
Length of Appeals Pro	At least one opportunity to appeal. After written notice, the teacher has seven days to file an appeal, and the hearing must take place within 30 days after the appeal is received. No specification as to whether the decision of this appeal is final or if a second appeal is possible.				

RECOMMENDATIONS TO IMPROVE DISMISSAL POLICIES IN NEBRASKA

Specify that classroom ineffectiveness is grounds for dismissal.

Nebraska should explicitly make teacher ineffectiveness grounds for dismissal so that districts do not feel they lack the legal basis for terminating consistently poor performers.

Ensure that teachers terminated for poor performance have the opportunity to appeal within a reasonable time frame.

Nebraska should ensure that the opportunity to appeal occurs only once and only at the district level so that a conclusion is reached within a reasonable time frame.

 Distinguish the process and accompanying due process rights between dismissal for classroom ineffectiveness and dismissal for morality violations, felonies or dereliction of duty.

While nonprobationary teachers should have due process for any termination, Nebraska should differentiate between loss of employment and issues with far-reaching consequences that could permanently affect a teacher's right to practice. Appeals related to effectiveness should only be decided by those with educational expertise.

Examples of Best Practice

New York now allows charges of incompetence against any teacher who receives two consecutive ineffective ratings; charges must be brought against any teacher who receives three consecutive ineffective ratings. Due process rights for teachers dismissed for ineffective performance are distinguishable from those facing other charges, and an expedited hearing is required. For teachers who have received three consecutive ineffective ratings, that timeline must not be longer than 30 days.

Kansas has repealed the law that gave tenured teachers who faced dismissal the right to an independent review of their cases.

In Nevada, a teacher reverts to probationary status after two consecutive unsatisfactory evaluations, but the state does not articulate that ineffectiveness is grounds for dismissal.

Reductions in Force

NEBRASKA Ratings

Reductions in Force

Districts must consider classroom performance as a factor in determining which teachers are laid off when a reduction in force is necessary.

Fully meets O Nearly meets Partially meets Meets only a small part Does not meet

♠ Progress increased since 2013

Lost ground since 2013

NEBRASKA Snapshot Reductions in Force

No

Districts must consider classroom performance when determining which teachers are laid off during reductions in force.

No

Seniority cannot be the only/primary factor used to determine which teachers are laid off.

NEBRASKA Reductions in Force Characteristics Use of Teacher Performance Performance is explicitly allowed Use of Seniority Decided by districts Other Factors Tenure status; nontenured teachers are laid off first

RECOMMENDATIONS TO IMPROVE REDUCTIONS IN FORCE POLICIES IN NEBRASKA

 Require that districts consider performance in determining which teachers are laid off during reductions in force.

Nebraska can still leave districts flexibility in determining layoff policies, but it should do so within a framework that ensures that classroom performance is considered.

Ensure that tenure is not the only factor used to determine which teachers are laid off.

While it is not unreasonable for Nebraska to lay off probationary teachers before those with tenure, doing this without also considering performance is in effect a proxy for seniority-based layoffs and risks sacrificing effective teachers while maintaining low performers.

Examples of Best Practice

Colorado and **Florida** specify that in determining which teachers to lay off during a reduction in force, classroom performance is the top criterion. These states also articulate that seniority can only be considered after a teacher's performance is taken into account.
