**Introduction**

With the passage of Senate Bill 10-191 (S.B. 10-191), Colorado is improving its approach to evaluating the performance of principals, teachers and specialized service professionals (referred to as other licensed personnel in law and State Board of Education rules). Implementation of this new approach will take time and commitment from both the state and its school districts. The principal/assistant principal, teacher and specialized service professionals evaluation systems are being planned, developed and implemented thoughtfully with a focus on continuously improving educator performance and student results.

Passed in 2010, S.B. 10-191 is designed to make the licensed educator evaluation process more comprehensive, professionally useful and focused on student achievement. S.B. 10-191 guides the state and school districts in the transformation of evaluation processes to more rigorous and supportive processes that provide for continuous professional learning and improvement. To support school districts in implementing the new evaluation requirements, the Colorado Department of Education (CDE) developed a model system as an option for districts to use. Creating a model evaluation system provides more consistent, fair and rigorous educator evaluations, saves districts valuable resources and enables them to focus on improving teaching, learning and leading. By adopting the model system, districts have more time to provide meaningful and actionable feedback to their educators, which translates into increased professional growth for educators and better instruction for students.

CDE is piloting the Colorado State Model Evaluation System in 27 districts (See Appendix A). Results of this pilot test are informing statewide implementation of S.B. 10-191. The intense and tightly focused pilot period is consistent with the timeline for implementation set out in S.B. 10-191 (See Exhibit 1). The pilot test period began in the 2011-12 school year and continues through the 2015-16 school year. By extending the pilot test period to five years, CDE will be able to gauge the effects of full system implementation for at least three years. The data collected from pilot districts during that time will be invaluable in gauging necessary system changes as well as potential system impacts.

The Colorado State Model Evaluation System is aligned with and supports CDE’s Strategic Plan. CDE’s vision is that, “All students in Colorado will become educated and productive citizens capable of succeeding in society, the workforce and life.” CDE’s mission “is to ensure that all students are prepared for success in society, work and life by providing excellent leadership, service and support to schools, districts and communities across the state. (Colorado Department of Education, 2014) By helping to ensure that every Colorado teacher is fairly and rigorously evaluated in the interest of professional growth and development, CDE’s new evaluation system will also help to ensure that every child has access to a teacher who not only meets but exceeds the Quality Standards established by the state legislature and the Colorado State Board of Education. By having quality educators in all of the state’s school administrative positions, classrooms and specialized service positions, CDE will enhance the likelihood that all students will be prepared for success along whatever path they choose following high school graduation.

### COLORADO DEPARTMENT OF EDUCATION ACTIVITIES

- Develop Colorado State Model Systems for teachers and principals
- Beta-test of rubrics and tools
- Develop technical guidelines on Professional Practices and Measures of Student Learning (student growth)
- Provide differentiated support for districts
- Populate and launch online Educator Effectiveness resources
- Develop state data collection and monitoring system
- Develop tools for district/BOCES implementation of system
- Study usability of rubrics
- Support pilot districts through resources, training, tools, etc.
- Convene pilot districts to share lessons learned
- Analyze pilot district data and make adjustments to materials as needed
- Train all non-pilot districts that are using the model system
- Develop draft rubrics for all specialized service professional groups (referred to as other licensed personnel in law and Colorado State Board of Education rules)
- Make recommendations on specialized service professionals to Colorado State Board of Education
- Provide statewide technical assistance on rollout of teacher/principal systems
- Continue to develop evaluation system for specialized service professionals
- Pilot test specialized service professional rubrics
- Support all districts through resources, trainings, tools, etc.
- Convene pilot districts to share lessons learned
- Analyze state data and make adjustments to the system as needed
- Examine validity of scores resulting from implementation of teacher and principal systems
- Develop criteria and approve evaluation training providers
- Finalize processes, procedures and materials for statewide implementation of teacher/principal systems
- Continue support to districts with resources and training for implementation of the state model system
- Ensure there are evaluator training providers throughout the state to provide training for districts and evaluators on the state model system
- Analyze data and make adjustments as needed
- Make recommendations for continuous improvement of the state model system
- Examine validity of scores resulting from implementation of specialized service professionals’ systems
- Finalize processes, procedures and materials for statewide implementation of specialized service professionals systems
- Examine validity of specialized service professionals scores
- Continue support to districts with resources and training for implementation of the state model system
- Ensure there are evaluator training providers throughout the state to provide training for districts and evaluators on the state model system
- Analyze data and make adjustments to system as needed
- Make recommendations for continuous improvement of the state model system
How to Use This Guide

To enable readers to easily find information about specific groups of educators being evaluated and to
move quickly between sections of this Colorado Model Educator Evaluation System User’s Guide, it has
been divided into five sections:

Section I: The Colorado State Model Educator Evaluation System

This section provides important introductory material about the system as a whole, as well as specific
directions regarding how to evaluate educators regardless of their role. All users should review Section I
because it provides directions about how and when to use all of the materials presented in all of the
other sections. In Section I, users will find:

- Timeline of all development, pilot test, validation and statewide rollout activities for all groups of
  licensed educators.
- Purposes and priorities of the evaluation system.
- Components of the evaluation system.
- A sample work plan with roles and responsibilities of the evaluator and person being evaluated.
- The annual evaluation cycle and what users should do throughout the year to ensure fair and
  accurate feedback for the person being evaluated and timely submission of evaluation at the end of
  the school year.
- Technical information about how to obtain accurate professional practice scores based on
  observable evidence of performance and evidence/artifacts that demonstrate performance on
  practices that are not easily observable during day-to-day work when necessary and appropriate.
- Suggestions for ensuring the quality and utility of evaluation feedback.

Section II: Colorado State Model Evaluation System for Teachers

Section III: Colorado State Model Evaluation System for Principals and Assistant Principals

Section IV: Colorado State Model Evaluation System for Specialized Service Professionals

- Audiologists
- Occupational Therapists
- Physical Therapists
- School Counselors
- School Nurses
- School Orientation and Mobility Specialists
- School Psychologists
- School Social Workers
- Speech-Language Pathologists
Each of the specialized service professional groups mentioned above has a separate section within the user’s guide. In addition, there is an introductory section to explain the common standards and elements for all groups and to provide the evaluation forms that all groups may choose to use.¹

Sections II, III and IV of the user’s guide provide information necessary to evaluate licensed educators from these respective groups, including:

- Quality Standards for each group
- Procedures for Conducting Evaluations
- Evaluation Process Forms
- Appeals Process

Section V: Glossary, References and Appendices

This section contains supplementary materials mentioned throughout the user’s guide. The user will easily find any additional information necessary to evaluate educators effectively according to the materials and processes explained in this guide.

To have a complete manual for evaluating any member of the groups represented in the user’s guide, refer to Section I for general information about the evaluation process and forms as well as background information about Senate Bill 10-191. Section V contains a detailed glossary and the appendices. Section II (teachers), III (principals and assistant principals) and/or IV (specialized service professionals) should be used along with Sections I and V. Exhibit 2 provides a quick reference to determine which sections of the user’s guide are necessary for each of the groups required to be evaluated under the guidelines established by S.B. 10-191 and its accompanying rules.

### EXHIBIT 2: User’s Guide Sections by Specific Groups of Educators

</tbody>
</table>

This user’s guide has as its focus the determination of professional practice ratings for Quality Standards and their associated elements as well as an overall professional practices rating. This overall professional practices rating will count as 50 percent of the final effectiveness rating. The other 50 percent will be determined by measures of student learning/outcomes, which are discussed throughout this guide.

¹ Forms are included in this user’s guide to provide examples of how they should be completed and to remind users of its availability within the system. Most users will choose to use an online system such as the Colorado State Model Performance Management System (provided free of charge to districts by CDE) to record progress toward completing the evaluation system.
For additional information about the relationship between overall professional practices ratings and measures of student learning/outcomes as well as how to determine the final effectiveness rating, refer to the guidance provided by CDE on the Educator Effectiveness section of the website.

While the 2014-15 user’s guide is quite similar to this one, users should make themselves familiar with the changes that have been made.

The Glossary has been expanded to include additional items about which users have asked for clarification during the 2014-15 school year. Additionally, the user’s guide glossary has been aligned with the glossary of the resource guide, a companion document located here: [http://www.cde.state.co.us/educatoreffectiveness/resourceguideteacherpp](http://www.cde.state.co.us/educatoreffectiveness/resourceguideteacherpp).

The resource guide was developed to provide a deeper understanding of the professional practices for teachers who are being evaluated using the Colorado State Model Educator Evaluation System. Because it is designed as a support for understanding the rubric, it is important that the resource guide and the user’s guide are in alignment. One step toward achieving such alignment is the creation of a common set of definitions to be used in both documents. In the user’s guide, the definitions for items from the resource guide are indicated by use of red text.

Sections that refer to the mid-year review have been revised to make them clearer and more complete. Users have indicated that they need more information about this step in the process. Changes were made to help them understand this step in the evaluation process.

This user’s guide also integrates information about measures of student learning/outcomes throughout so users have a greater understanding of the system as a whole rather than of only the determination of professional practices.

**A Note About the Colorado Performance Management System**

During the 2014-15 school year, the Colorado Performance Management System was used by a large number of Colorado districts that have helped to shape the manner in which it supports the implementation of the state model system. References are made throughout this document to forms, keeping track of progress and how to record performance by checking of practices observed or collecting other types of evidence. Users of the CO Performance Management System should note that all of their data will be collected through the online system. They may use this document as a source of guidance regarding system implementation with the understanding that all forms and rubrics are mirrored in the online system.
The Colorado State Model Educator Evaluation System is an optional, Colorado-created system with associated tools and supports available to all Colorado school districts. The Colorado Department of Education will support pilot districts during the pilot test and initial rollout period to ensure that the resulting model system is workable in and credible to the field, adaptable for use under the varying contexts represented by the collection of districts and achieves the purposes of S.B. 10-191.

Districts may choose to develop their own principal, teacher and specialized service professional evaluation systems if they ensure that all required components are included and state technical regulations are met. Lessons learned from implementation of both the state model system and unique district systems will be used to improve the state model system on an ongoing basis.
Purposes of the Evaluation

According to the rules for administration of a state system to evaluate the effectiveness of licensed personnel, the basic purposes of this system are:

- To ensure that all licensed personnel are evaluated using multiple, fair, transparent, timely, rigorous and valid methods, 50 percent of which is determined by the academic growth of their students.
- To ensure that all licensed personnel receive adequate feedback and professional development support to provide them a meaningful opportunity to improve their effectiveness.
- To ensure that all licensed personnel are provided the means to share effective practices with other educators throughout the state.

Key Priorities for the Colorado State Model Educator Evaluation System

*Key priorities inform every aspect of the Colorado State Model Educator Evaluation System.*

Successful implementation of the system is dependent upon attending to the priorities, which should be treated as guiding principles for the evaluation system.

**PRIORITY ONE:** Data should inform decisions, but human judgment will always be an essential component of evaluations.

While the technical nature of this user’s guide may give the impression that evaluation is a scientific process that relies solely on objective data, evaluations ultimately rely on the perception and professional judgment of individuals. Like other decisions that rely on human judgment, evaluations are subject to error and bias. The most technically impressive evaluation system will fail if the human aspects of the system are neglected. The processes and accompanying materials included in this guide are directed towards techniques to improve individual judgment and minimize error and bias. For example, it is essential that evaluators have adequate training to exercise judgment in a way that is fair and unbiased. It is also essential that evaluators understand the various ways to measure performance and the benefits and limitations of these methods, so they can make appropriate decisions about their implications. The implementation of the evaluation system is designed to provide as much information as possible about ways to make fair, reliable and credible judgments.

**PRIORITY TWO:** The implementation and assessment of the evaluation system must embody continuous improvement.

The Colorado State Model Educator Evaluation System is being launched over a four-year period. Development and beta-testing activities began in the 2011-12 school year. The pilot and rollout period (2011-15) is intended to capture what works and what doesn’t (and why) and provide multiple opportunities to share lessons learned. In that spirit, the state will monitor and act on the following:

- How well the model system addresses the purposes as articulated in S.B. 10-191
- What school districts do that works or does not work
- What other states do that works
- Changes in assessment practice and tools expected over the next few years, especially with respect to measures of student learning
- Research and best practice findings with respect to educator evaluations
The system represents the best possible approach based on current understandings for measuring professional performance against the Colorado Quality Standards for educators, however it will be adjusted or adapted as new knowledge is made available.

**PRIORITY THREE:** The purpose of the system is to provide meaningful and credible feedback that improves performance.

The goal of the Colorado State Model Educator Evaluation System is to provide honest and fair assessments about educator performance and meaningful opportunities to improve.

The collection of information about educator effectiveness and feedback to educators will take place on an ongoing basis and not be restricted to the dates and processes set for formal evaluations. Evaluators and the educators being evaluated should discuss improvements to professional practice both formally and informally throughout the year.

**PRIORITY FOUR:** The development and implementation of educator evaluation systems must continue to involve all stakeholders in a collaborative process.

Change is always difficult and communication is vital. Every stakeholder from students, families, teachers, related service providers, administrators, school board members and others need to be operating with the same information and with a clear picture of what the new system is, how it will be implemented and how it will impact them. The new evaluation system and its goal of continuous learning provide opportunities to engage parents and guardians of students and the students themselves in a collaborative process to assure that every student has his or her best chance of graduating from high school and being prepared for academia or a career.

**PRIORITY FIVE:** Educator evaluations must take place within a larger system that is aligned and supportive.

Improving the ways educators are evaluated will lead to improvement in their effectiveness and to improved outcomes for students. For this to occur, evaluation must be part of a larger system that is also effective. Educator evaluation systems that are aligned across all levels and components of the system (including student standards, curriculum, student assessments and school improvement planning) and among all positions being evaluated, are most likely to be supportive of educators and lead to improvements in performance. School districts that use the Colorado State Model Evaluation System are committed to the process of ensuring that the education system operates in a way that is coherent and supportive of both educator effectiveness and student outcomes.
Evaluation System Components

The implementation of the Colorado State Model Educator Evaluation System should be understood as a process rather than a single event. While it is true that the evaluation process will result in annual ratings for every teacher, principal, assistant principal and specialized service professional in Colorado, gathering evidence about performance and providing feedback to enable educators to improve should occur on an ongoing basis and be integrated into the daily business of teaching and learning.

Educating children is a complex activity requiring multiple skills and aptitudes. A significant and indispensable part of the definition of effective educators is the ability to obtain growth in student academic performance. Colorado expects that effective educators will not only ensure student academic growth but they will also ensure that:

- All students are learning in ways that will prepare them for college or a career by the time they graduate from high school
- All students are prepared for future civic responsibilities
- Families of their students are engaged in school activities and support their children

Colorado educators will be evaluated on measures of student learning/outcomes as well as their demonstrated performance against the Quality Standards, including their ability to attain positive outcomes for the students they teach. The use of professional growth plans will guide their professional planning, goal-setting and professional development.

The Colorado State Model Educator Evaluation System includes the following components:

1. The Statewide Definition of Effectiveness
All districts and Boards of Cooperative Educational Services (BOCES) are required to use the state-approved definitions for effectiveness for the person or group whose evaluations they are conducting. These definitions are included in the sections of the user’s guide for individual groups.

2. Colorado Educator Quality Standards and Their Related Elements
The principal/assistant principal, teacher and specialized service professionals Quality Standards outline the knowledge and skills required of an effective educator and will be used to evaluate all licensed educators in Colorado. All school districts and BOCES will base their evaluation of licensed educators on the full set of Quality Standards and associated elements, or they should adopt their own locally developed standards that meet or exceed the state’s Quality Standards. School districts that adopt their own locally developed standards must crosswalk those standards to the state’s Quality Standards and elements, so the school district or BOCES is able to report the data required.

3. Measures Used to Determine Final Effectiveness Rating
- Overall professional practices rating (50 percent)
- Ratings on measures of student learning/outcomes (50 percent)
- Combining overall professional practices rating and measures of student learning/outcomes rating to determine the final effectiveness rating
The effectiveness definitions and Quality Standards provide clear guidance about the professional practices associated with Quality Standards and the way to measure student learning/outcomes. Fifty percent of the final effectiveness rating is based on professional practices and 50 percent is based on measures of student learning/outcomes. The use of multiple measures ensures that these ratings are of high quality and will provide a more accurate and nuanced picture of professional practice and impact on student learning. The use of different rating levels to rate performance allows more precision about professional expectations, identifies educators in need of improvement and recognizes performance that is of exceptional quality.

4. Procedures for Conducting Evaluations
Procedures for conducting evaluations may be determined at the local level, provided they ensure that data are regularly collected, associated feedback and improvement opportunities are regularly provided and educators receive a formal evaluation and performance standard designation by the end of each academic year.

5. Performance Standards (Final Effectiveness Rating Levels)
The use of four performance standards (Highly Effective, Effective, Partially Effective and Ineffective) to rate educator performance allows more precision about professional expectations, identifies educators in need of improvement and recognizes performance that is of exceptional quality. These standards are also commonly referred to as the final effectiveness rating level.

6. Appeals Process
Teachers and specialized service professionals who receive a second consecutive rating of Ineffective or Partially Effective and who are not employed on an at-will basis may appeal their rating using the structure set forth in State Board of Education rules for teachers. Rules regarding the state-approved appeals process may be found by clicking here.
Requirements for the Colorado State Model Educator Evaluation System

The Colorado State Model Educator Evaluation System is built upon the state’s definitions of effective educators as well as on the standards for each group of professionals for whom evaluation materials have been developed. This guide describes the components, processes and materials needed to adequately implement the system as well as examples of completed evaluation forms for a teacher. It should be noted that the evaluation components and process are the same for all of Colorado’s licensed educators. In addition, the materials are aligned in terms of format, tone and language to the extent possible. This approach was adopted by CDE to make the evaluator’s job easier.

The evaluation process (Exhibits 3 and 4) consists of nine steps, beginning with training and ending with the development of professional growth goals and an individual professional growth plan for the subsequent year. This process (Exhibit 5) should take about one school year. Both the evaluator and the person being evaluated have responsibilities (Exhibit 6) before, during and after each step in the process.

EXHIBIT 3: The Colorado State Model Educator Evaluation System Evaluation Process

*The Final Effectiveness Rating is a composite of the Overall Professional Practices Rating (50 percent) and Measures of Student Learning/Outcomes (50 percent).
EXHIBIT 4: The Colorado State Model Educator Evaluation Process Steps

1. Training
   Prior to using the state model system, educators should be trained on the system’s processes, tools and materials to ensure that everyone has the foundational knowledge needed to implement the system. Well-trained and knowledgeable users help ensure the reliability and accuracy of the final ratings.

2. Annual Orientation
   During the first two weeks of school each school year, schools and districts should provide an orientation on the evaluation system. This orientation should include measures to which educators will be held accountable, new system features and process changes. This will ensure that staff members understand system changes.

3. Self-Assessment
   By the end of the first month of the school year, each educator should complete a self-assessment. This provides an opportunity for educators being evaluated to reflect on their ability to face the challenges ahead during the coming school year, including the measures to which they will be held accountable, student needs and their professional growth plan. The educator may choose to share the self-assessment with the evaluator or not.

4. Review of Annual Goals & Performance Plan
   Within the first month of school, the evaluator and educator being evaluated should review annual school goals to ensure the goals stated in the educator’s professional growth plan are aligned. This allows the educator to consider the context for that year with respect to school culture, student body, community issues and changes in district initiatives, and to adjust professional growth goals in consideration of the context.

5. Mid-Year Review
   Prior to the beginning of the second semester, the educator being evaluated and the evaluator should review progress toward achieving professional goals and measures of student learning/outcomes. They discuss barriers to completing goals and refine existing goals as needed. As a result of this review, every educator should have a clear understanding of what needs to be accomplished in order to achieve performance goals by the end of the year.

6. Evaluator Assessment
   Throughout the school year, evaluators should monitor educator performance and record ratings on the rubric. The evaluator should determine ratings for all standards and elements and performance on measures of student learning/outcomes prior to the end-of-year review when those ratings will be discussed with the educator being evaluated.

7. End-of-Year Review
   No later than three weeks prior to the end of the evaluation cycle, the evaluator and educator being evaluated should discuss professional practice ratings and measures of student learning/outcomes, artifacts and any other evidence needed to confirm the accuracy of ratings. If the educator and evaluator agree on the final effectiveness rating, Step 8 may be completed at this time. In addition, a natural outgrowth of this conversation would be agreement on the professional growth plan for the subsequent year (Step 9).

8. Final Effectiveness Rating
   No later than two weeks prior to the end of the evaluation cycle, if the evaluator and educator being evaluated did not agree on the final effectiveness rating during the Step 7, they should jointly review additional evidence to help each other understand their respective positions on rating levels. The purpose of this meeting is to come to agreement. If agreement is not reached, the supervisor of the educator is responsible for determining final ratings on professional practices, measures of student learning/outcomes and overall effectiveness.

9. Goal-Setting & Performance Planning
   Before the next evaluation cycle begins, the educator being evaluated should develop a professional growth plan designed to address any areas in which growth and development are needed, professional development or training required, and other resources needed to fully implement the professional growth plan. This step should be a natural outgrowth of the discussions conducted during steps 7 and 8 and may be approved before the end of the current school year. Any necessary updates to the plan may be made at the beginning of the next school year.

The Colorado State Model Educator Evaluation System is a standards-based approach to determining performance with respect to state standards. This section of the guide provides guidance on the forms used to complete the process. These sample forms describe the performance of an educator who is currently performing at a level that meets state standards. Sample blank forms for use in completing evaluations are included in the section for each employee group (Section II: Teachers, Section III: Principals/Assistant Principals and Section IV: Specialized Service Professionals).

Keeping Track of Progress

Educators need to keep track of their progress in completing the year-long evaluation process. Exhibit 7 provides a simple form that may be used to quickly and easily monitor progress toward completing each step in the process. The Colorado State Model Performance Management System is an online platform that provides a quick, easy and automatic way of tracking progress.

---

Forms are included in this user’s guide to provide examples of how they should be completed and to remind users of its availability within the system. Most users will choose to use an online system such as the Colorado State Model Performance Management System (provided free of charge to districts by CDE) to record progress toward completing the evaluation system.

Rubrics for Evaluating the Professional Practice of Colorado Educators

The cornerstone of the Colorado State Model Evaluation System is the set of rubrics designed for specific educator groups. These standards-based instruments provide descriptions of professional practices for each of the five professional practices rating levels (Basic, Partially Proficient, Proficient, Accomplished and Exemplary). Their cumulative nature requires that all practices for a rating level as well as all practices below that level be met in order to be rated at that level. Evaluators rate the educator on each element associated with each standard and then use the ratings to determine the ratings for standards as well as the overall professional practices rating. This overall professional practice rating will account for 50 percent of the educator’s final effectiveness rating. Exhibit 8 illustrates the sections of the rubric and what is included in each section.

There are a number of differences between and among the rubrics. First, the teacher rubric is designed to be used primarily as an evidence gathering tool in order to meet the requirements of S.B. 10-191. Professional practices associated with Quality Standards I through III of the teacher rubric are almost all observable during a routine observation, while those associated with Standards IV and V will need to be rated using evidence other than classroom observations.

None of the professional practices for principals/assistant principals and specialized service professionals are marked as observable. The rationale for this is easy to understand for principals and assistant principals because their work is almost always outside of the classroom and not easily observed by their supervisor/evaluator. Because of the nature of their responsibilities and the fact that many of the specialized service professionals do not work in a single school or even a single district, the professional practices for these groups are also marked as not observable. This approach provides flexibility for the evaluator to observe when possible and appropriate, but to choose additional appropriate evidence/artifacts if necessary to determine the level of performance on most of the professional practices.

Evaluators of itinerant staff members, such as specialized service professionals, face an additional challenge because itinerants work in more than one school and sometimes in multiple schools across multiple districts. Prior to beginning the evaluation process, evaluators from all of the sites at which the itinerant staff member works should determine how they will collaborate throughout the year to ensure that all aspects of the itinerant staff member’s work is reflected in the formative and summative feedback as well as in the final professional practices rating. To do this, the evaluators will have to determine:

1. Which of the evaluators will be responsible for gathering feedback from the others and sharing it with the educator being evaluated.
2. How and on what schedule feedback from other schools and districts will be collected.
3. How differences of opinion will be dealt with.
4. The level of involvement, if any, of evaluators from all schools and/or districts.
Once these decisions have been made, the primary evaluator should communicate the evaluation plan to the educator being evaluated and offer an opportunity for input regarding the process for being jointly evaluated by a team of evaluators. When everyone involved agrees on the appropriateness of the evaluation plan, the evaluation may proceed as described for non-itinerant educators.

**Quality Standards**: To meet the requirements of S.B. 10-191, the State Council for Educator Effectiveness (SCEE) recommended Quality Standards for teachers, principals/assistant principals and specialized service professionals. These recommended standards were reviewed and revised during the official rulemaking process conducted by the Colorado State Board of Education and the Colorado Department of Education. The revised standards and elements were approved by the Colorado State Board of Education as well as the legislature and are now among the Colorado State Board of Education’s official rules. These revised standards focus on the professional practices and measures of student learning/outcomes needed to achieve effectiveness. Standards I-V for teachers and specialized service professionals (I-VI for principals and assistant principals) relate to professional knowledge and practices that contribute to effective teaching, while Standard VI (VII for principals and assistant principals) establishes measures of student learning/outcomes as a requirement for demonstrating effectiveness. S.B. 10-191 requires that these standards serve as the foundation for all educator evaluations in Colorado.

**Performance Rating Levels** describe performance on professional practices with respect to Colorado’s Quality Standards. Exhibit 9 further illustrates the focus of each of the following rating levels:

- **Basic**: Educator’s performance on professional practices is significantly below the state quality standard.
- **Partially Proficient**: Educator’s performance on professional practices is below the state quality standard.
- **Proficient**: Educator’s performance on professional practices meets state quality standard.
- **Accomplished**: Educator’s performance on professional practices exceeds state quality standard.
- **Exemplary**: Educator’s performance on professional practices significantly exceeds state quality standard.
EXHIBIT 9: Focus of Rubric Rating Levels *(teacher example)*

**QUALITY STANDARD I**
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT A:** Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

**THE TEACHER** uses lesson plans that reflect:
- Opportunities to review prior learning.
- Instructional objectives appropriate for students.
- Connections of specific learning objectives to approved curriculum.

... and **THE TEACHER** implements lesson plans based on:
- Student needs.
- Colorado Academic Standards.
- District’s plan of instruction.

... and **THE TEACHER:**
- Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.
- **STUDENTS:** Interact with the rigorous and challenging content.
- Perform at a level consistent with or above expectations.

The focus of the Basic rating is on the foundational elements of teaching. The educator rated as Basic is typically performing at a foundational level and does not meet state Quality Standards. Every educator is expected to perform Basic professional practices in their day-to-day work.

The focus of Partially Proficient and Proficient levels is what educators do on a day-to-day basis to achieve state performance standards and assure that students are achieving at expected levels.

The focus of Accomplished and Exemplary ratings shifts to the outcomes of the educator’s practices, including expectations for staff, students, parents and community members, as a result of practices exhibited under Basic, Partially Proficient and Proficient rating levels.

Elements Associated with the Standard are the detailed descriptions of knowledge and skills that contribute to effective teaching and leading and which corresponds to a particular teacher, principal or specialized service professional Quality Standard.

Professional Practices are the behaviors, skills, knowledge and dispositions that educators should exhibit.
**Measures and Artifacts** are the documents, materials, processes, strategies and other information that result from educators’ normal and customary day-to-day work. S.B. 10-191 requires that some non-observable evidence of performance (required measures) be discussed every year. Exhibit 10 describes the required measures for teachers, principals and assistant principals and specialized service professionals.

**EXHIBIT 10: Measures Required by S.B. 10-191**

</table>

**Source:** Colorado State Board of Education Rules for Administration of a Statewide System to Evaluate the Effectiveness of Licensed Personnel Employed by School Districts and Boards of Cooperative Services and Colorado State Board of Education (1 CCR 301-87).

In addition to the measures required by S.B. 10-191 some of the individual groups of specialized service professionals have recommended that additional evidence/artifacts be collected and discussed annually in order to meet licensing, certification, or legal requirements for the members of the specific professional group. The artifacts recommended for annual discussion by specialized service professionals and their evaluators are noted in **bold font** on the artifact lists immediately following each rubric in Section IV.
Some evaluators may be tempted to require the creation and periodic update of a portfolio in order to ensure that evidence will be available at the final evaluation conference to demonstrate performance on every professional practice. Likewise, some educators may choose to create such a portfolio just in case their evaluator asks to see evidence regarding any of the professional practices. This approach to using artifacts/evidence is not recommended. It creates unnecessary work on the part of the person being evaluated. In addition, the artifacts or items included in the portfolio may not be needed. If, during the final evaluation discussion, the evaluator and person being evaluated agree that the evaluator’s ratings are fair and accurate, they may conclude their discussion, sign off on the year’s evaluation ratings and proceed to developing goals and a professional development plan to be used during the subsequent year.

Except for the evidence required by S.B. 10-191 and described in Exhibits 10 and 11, additional evidence/artifacts are not necessary unless the evaluator and person being evaluated have differing opinions about final ratings. In such a case, additional evidence about performance on the specific rating(s) in question may be considered. During the final evaluation conference, the evaluator and person being evaluated should agree on the specific evidence needed to support the rating(s) each believes is correct. Such evidence can include documents, communications, analyses, or other types of materials that are normally and customarily collected during the course of conducting their everyday activities. While the Colorado State Model Educator Evaluation System provides lists of artifacts for each standard and each educator group, educators should be aware that these lists are suggestions only and should not be considered requirements. In addition to the suggested artifacts lists, materials not included on any list may be used. As Exhibit 11 illustrates, a single artifact may be used to provide evidence for multiple standards.
EXHIBIT 11: Observations, Required Measures and Other Evidence/Artifacts (teacher example)

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For teachers, this requirement is defined as observations, required measures and optional additional measures (evidence/artifacts). While the teacher rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

OBSERVATIONS REQUIRED BY S.B. 10-191:

- **Probationary teachers** - At least two documented observations and at least one evaluation that results in a written evaluation report each year.
- **Non-probationary teachers** – **At least one documented observation every year and one** evaluation that results in a written evaluation report including fair and reliable measures of performance against Quality Standards every three years.

The frequency and duration of the evaluations shall be on a regular basis and of such frequency and duration as to ensure the collection of a sufficient amount of data from which reliable conclusions and findings may be drawn. Written evaluation reports shall be based on performance standards and provided to the teacher at least two weeks before the last class day of the school year.

REQUIRED MEASURES FOR TEACHERS:

Include at least one of the following measures as a part of the annual evaluation process.

- Student perception measures, where appropriate and feasible;
- Peer feedback;
- Feedback from parents or guardians;
- Review of teacher lesson plans or student work samples.

ADDITIONAL EVIDENCE/ARTIFACTS:

Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

- Anecdotal Records
- Assessment Plans
- Data Analysis Record
- Documentation of service on teams, task forces and committees
- Feedback from Walkthroughs
- Formative and Summative Assessment of Student Work
- Instructional Activities Schedules
- Lesson Plans/Units of Study
- Notes from parent and community meetings
- Parent Feedback
- Records of Advocacy Activities
- Responses to Feedback
- Self-Reflection Templates
- Student Achievement Data
- Student Feedback
- Student Journals/Learning Logs
- Student Portfolios
- Student Work

Evidence/artifacts listed in Exhibit 11 are examples of items that may be used to demonstrate proficiency on any given standard. The evaluator and/or teacher being evaluated may use additional evidence/artifacts to address specific issues that need further explanation or illustration during the end-of-year performance discussion. Likewise, the evaluator may use other evidence/artifacts to provide the rationale for specific element or standard ratings.
**Comments** may be provided by the educator being evaluated and/or the evaluator. Both have the opportunity to provide comments on the performance of the educator being evaluated. The evaluator is required to use the comment section to provide the rationale for any rating of Basic or Partially Proficient. Educators being evaluated should be provided an opportunity to respond to such ratings and comments before the evaluation is finalized.

**Summary of Ratings for the Standard** summarizes individual element ratings for the standard. Summary ratings are included in the teacher evaluation worksheet, where the evaluator and the educator being evaluated will review all standard and element ratings and determine the overall professional practices rating.

**Completing and Scoring the Rubric**

The process for completing and scoring the rubric is the same for all educators, regardless of their position. The steps listed below are described in detail in this section of the user’s guide.

1. Identifying the professional practices for which there is adequate evidence that the person being evaluated has demonstrated adequate performance
2. Rating the elements
3. Using element ratings to determine ratings for standards
4. Using standard ratings to determine the overall professional practices rating

The person completing the rubric should mark all items that describe the performance of the person being evaluated during the year-long evaluation cycle. Evidence of proficiency on non-observable professional practices will be determined by an examination and discussion of the practice and any necessary evidence provided by both the evaluator and the person being evaluated. As illustrated in Exhibit 12, the person completing the rubric has indicated that there is adequate evidence that the educator being evaluated has demonstrated performance on all of the items in the Basic, Partially Proficient, Proficient and Exemplary columns since all of those items have been checked. Only a single item in the Accomplished column is left unchecked. As the discussion of scoring the rubric will indicate, such a pattern of evidence results in a rating of Proficient for the element.
EXHIBIT 12: Identifying Performance Level on Professional Practices

QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

ELEMENT A: Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

THE TEACHER uses lesson plans that reflect:
- Opportunities to review prior learning.
- Instructional objectives appropriate for students.
- Connections to specific learning objectives and approved curriculum.

. . . and THE TEACHER implements lesson plans based on:
- Student needs.
- Colorado Academic Standards.
- District’s plan of instruction.

. . . and THE TEACHER:
- Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.

. . . and STUDENTS:
- Interact with the rigorous and challenging content.
- Perform at a level consistent with or above expectations.

. . . and STUDENTS:
- Discuss strengths and next steps regarding their learning with their teacher(s).
Rating the Elements and Standards

The rater, whether the educator being evaluated who is completing a self-assessment or the evaluator who is rating the educator, should score each element separately. The collective individual element scores will determine the overall score for the standard and the scores for the standards will determine the overall professional practices rating.

For example, Quality Standard I has six elements:

**QUALITY STANDARD I**

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

**ELEMENT A:** Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

**ELEMENT B:** Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

**ELEMENT C:** Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

**ELEMENT D:** Teachers demonstrate knowledge of the content, central concepts, tools of inquiry, appropriate evidence-based instructional practices and specialized character of the disciplines being taught.

**ELEMENT E:** Teachers develop lessons that reflect the interconnectedness of content areas/disciplines.

**ELEMENT F:** Teachers make instruction and content relevant to students and take actions to connect students’ background and contextual knowledge with new information being taught.

All of the Colorado State Model Educator Evaluation System rubrics are contextual in nature. They are designed to be used by working from the top down (standard and then element) and from left to right (basic through exemplary) across the rows. This process ensures that performance on each professional practice is evaluated in the context of both the standard and element with which it is associated and the practices that come before it in terms of difficulty. For example, the first professional practice at the Basic level for Standard I, Element A states, “The teacher uses lesson plans that reflect opportunities to review prior learning.” When determining whether a teacher demonstrates this practice, the evaluator and/or teacher completing a self-assessment must understand that the professional practice is related to content knowledge and pedagogical expertise and that it is intended to demonstrate one aspect of aligned instruction. If all three associated pieces (standard, element and professional practice) are not considered when rating each professional practice, it is likely that a fragmented or redundant view of performance on professional practices will result.

The rater should begin with the Basic column of the rubric and work across the row to Exemplary, marking each professional practice for which the evaluator has evidence that the educator demonstrated adequate performance during the period for which he or she is being evaluated. (See Exhibit 13)
To determine the rating for each element, the rater:

1. Begins with the professional practices listed under the Basic column and marks every practice for which there is adequate evidence that the educator being evaluated has demonstrated that practice. The evaluator continues marking professional practices across the columns until all practices for that element have been checked or the evaluator has determined that there is inadequate evidence of performance on the practice. (See Exhibit 13) All professional practices that describe the educator’s performance should be marked.

2. Scores each element by determining the appropriate rating. The rating for each element is the highest rating for which all professional practices are marked and all practices below that level are marked.

The teacher whose performance is illustrated in Exhibit 13 would be rated as Proficient on Element A, even though at least one professional practice under Accomplished and the single practice under Exemplary were marked. Proficient is the highest rating for which all professional practices were marked and all professional practices below that rating were marked. Therefore, this educator would be rated Proficient on Element A.

EXHIBIT 13: The Rubric Scoring Process (teacher example)

QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

</tr>
</thead>
</table>

ELEMENT A: Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

THE TEACHER uses lesson plans that reflect:
- Opportunities to review prior learning.
- Instructional objectives appropriate for students.
- Connect specific learning objectives and approved curriculum.

... and
THE TEACHER implements lesson plans based on:
- Student needs.
- Colorado Academic Standards.
- District’s plan of instruction.

... and
THE TEACHER: Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.

... and
STUDENTS: Interact with the rigorous and challenging content.
- Perform at a level consistent with or above expectations.

... and
STUDENTS: Discuss strengths and next steps regarding their learning with their teacher(s).

○ Professional Practice is Observable during a classroom observation.
□ Professional Practice is Not Observable during a classroom observation.

While determining an educator’s level of performance, the evaluator must consider whether the professional practice would normally and customarily be observable during a class observation or walkthrough. In the case of Standard II, Element E, illustrated in Exhibit 14, some of the professional practices are observable (bold, italic font and a “O” in front) while some would not be considered observable (not bold, not italic and a “□” in front) of the practice during a classroom observation.
The evaluator has several options for determining whether the person being evaluated has adequately demonstrated proficiency on the “Not Observable” items:

1. Observe the person being evaluated in a non-classroom/non-instructional setting, such as IEP meetings, parent conferences, grade-level, department or program meetings or through other formal or informal conversations between and among staff members.
2. Examine lesson plans, student work, bulletin boards, communication logs, student records and other materials readily available in the educators’ classrooms, offices, or other work areas. Such examinations can take place before, during or after observations.
3. Maintain communication logs, evaluation notes and other evidence related to the performance of the person being evaluated.
4. Discuss “Not Observable” items during pre- and post-observation conferences, during mid-year review meetings, or invite the person being evaluated to suggest opportunities for determining performance on those items.

The evaluator, who is responsible for accurately and fairly rating professional practices, should take advantage of all opportunities to examine the performance of the educators for whom they have evaluation responsibilities. There are many opportunities throughout the school day or school year in which staff members may be evaluated outside of the classroom and evaluators who take advantage of those opportunities will have the information necessary to make fair and accurate determinations of the staff members’ performance.

**EXHIBIT 14: Example of an Element with Observable and Not Observable Professional Practices**

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
In addition to the Observable vs. Not Observable professional practices, users should be aware that there are other differences between and among the professional practices. The most noticeable of these differences are the items with “stems” and those without. As Exhibit 15 illustrates, professional practices in the Basic and Partially Proficient columns are associated with the phrases immediately following “THE TEACHER”. For the Basic level, each of the three professional practices should be considered with the opening phrase, or stem (THE TEACHER uses lesson plans that reflect). The professional practices under consideration would then be the following three sentences:

- THE TEACHER uses lesson plans that reflect opportunities to review prior knowledge.
- THE TEACHER uses lesson plans that reflect instructional objectives appropriate for students.
- THE TEACHER uses lesson plans that reflect connections to specific learning objectives and approved curriculum.

Professional practices for which there is no stem simply refer to the person or group of people listed at the top of the column. For example, the Basic column of Standard II, Element E illustrated in Exhibit 14 does not have a stem, so the professional practices would be:

- THE TEACHER establishes a classroom environment that is inviting to families and significant adults.

In some cases, both types of professional practices are included for a single rating level for a single element as in the Basic column for Standard I, Element F:

THE TEACHER selects instructional materials and strategies based on their:
- Relevance to students.
- Central contexts.
- Foundational evidence base.

- Links lessons to students’ prior knowledge.
- Encourages and provides opportunities for students to make connections to prior learning.

In this case, the first three practices are associated with the stem and the second two, separated from the others by a double space, relate only to THE TEACHER. The five practices to be rated would then be:

- THE TEACHER selects instructional materials and strategies based on their relevance to students.
- THE TEACHER selects instructional materials and strategies based on their central contexts.
- THE TEACHER selects instructional materials and strategies based on their foundational evidence base.

- THE TEACHER links lessons to students’ prior knowledge.
- THE TEACHER encourages and provides opportunities for students to make connections to prior learning.

Exhibit 15 provides an example of how professional practices for an entire standard would be marked for a high school math teacher who would only be evaluated on the section of Element B required for ALL TEACHERS and not on the ones for teachers of reading, literacy, or English language arts, (which have been deleted from this example but may be found in the rubric in Section II of the user’s guide).
**QUALITY STANDARD I**
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

<table>

<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT A:** Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

**THE TEACHER** uses lesson plans that reflect:
- Opportunities to review prior knowledge.
- Instructional objectives appropriate for students.
- Connections to specific learning objectives and approved curriculum.

... and
**THE TEACHER** implements lesson plans based on:
- Student needs.
- Colorado Academic Standards.
- District’s plan of instruction.

... and
**THE TEACHER:**
- Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.

**STUDENTS:**
- Perform at a level consistent with or above expectations.

**STUDENTS:**
- Discuss strengths and next steps regarding their learning with their teacher(s).

---

**ELEMENT B:** Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

This section describes professional practices that should be demonstrated by **ALL TEACHERS**, regardless of grade level or subject taught.

**THE TEACHER:**
- Demonstrates an understanding of literacy content and skills.

... and
**THE TEACHER** makes complex reading accessible to students by:
- Adjusting content to students’ skill levels.
- Integrating literacy skills and knowledge into lessons.
- Providing relevant content that addresses students’ interests.

... and
**THE TEACHER** provides instructional support that enhances students’:
- Critical thinking and reasoning.
- Information literacy.
- Literacy skill development.

**STUDENTS** meet or exceed expectations for:
- Oral communication.
- Written communication.
- Critical thinking.
- Problem solving skills.
- Literacy skills.

**STUDENTS**
- Apply literacy skills to understand complex materials.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
It is important to note that Elements B and C for teachers are unique because the professional practices for which the teacher is held accountable are dependent on the teacher’s position. For example, only the ALL TEACHERS section of Element B appears in the example because this is an example for a high school math teacher who should not be held accountable for demonstrating proficiency on professional practices for teachers of reading, literacy and language arts. Likewise, since the example teacher would be held accountable for demonstrating proficiency on both the ALL TEACHERS and teachers responsible for teaching math sections of Element C, both of those sections are included here.

Rating these two elements becomes a little tricky when there are different sections for a single element, such as Element C in this example. In such a case, the teacher’s element rating is determined by the combination of the sections for which they are held accountable. For example, the Basic rating level for Element C contains six professional practices for this teacher and the Partially Proficient level contains seven professional practices. To be rated Partially Proficient, the teacher must have demonstrated proficiency on all 13 of the professional practices (all of the ones for Partially Proficient and all of the ones for Basic). In this example, the teacher would be rated Partially Proficient on Element C because all of the Basic and Partially Proficient practices have been demonstrated, but two of the Proficient practices still need some work.

### QUALITY STANDARD I

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

</thead>
</table>

**ELEMENT C:** Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

This section describes professional practices that should be demonstrated by **ALL TEACHERS**, regardless of grade level or subject taught.

**THE TEACHER:**
- Checkmark: Encourages students to make math connections across content.
- Checkmark: Emphasizes to students why they need to learn math content and skills.
- Checkmark: Uses instructional strategies that require students to apply and transfer mathematical knowledge to different content areas.

... and **THE TEACHER:**
- Checkmark: Emphasizes interdisciplinary connections to math.

... and **STUDENTS:**
- Checkmark: Share ideas and solutions to challenging problems.
- Use the language of math to talk about what they are doing.

- Checkmark: Interpret mathematical information in ways that make it relevant to their learning.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

ELEMENT C: Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

This section describes professional practices that should be demonstrated by teachers responsible for teaching math.

THE TEACHER focuses math instruction beyond:
- Recall of facts.
- Development of computational skills.
- Math as a series of rote procedures.

Models:
- Appropriate mathematical communication.
- A variety of mathematical practices.

... and THE TEACHER presents concepts:
- In sequence.
- In a manner appropriate to students’ age and grade.
- Helps students understand mathematics as a discipline.
- Provides a balance of teaching for conceptual understanding and teaching for procedural fluency.
- Models mathematical thinking.

... and THE TEACHER establishes an effective mathematics environment by:
- Challenging students to think deeply about the problems.
- Requiring students to explain their solutions.
- Posing questions that stimulate students’ curiosity and encourage them to investigate further.
- Actively engaging students in doing math.
- Using real-world examples for problems whenever possible.

**ELEMENT D:** Teachers demonstrate knowledge of the content, central concepts, tools of inquiry, appropriate evidence-based instructional practices and specialized character of the disciplines being taught.

**THE TEACHER:**
- Breaks down concepts into instructional parts and teaches each part using appropriate, effective strategies and/or tools.
- Uses instructional materials that are accurate and appropriate for the lesson being taught.
- Employs a variety of instructional strategies to address student needs.

... and **THE TEACHER** provides explanations of content that are:
- Accurate.
- Clear.
- Concise.
- Comprehensive.

... and **THE TEACHER** engages students in:
- A variety of explanations and multiple representations of concepts and ideas.
- A variety of inquiry methods to explore new ideas and theories.

**STUDENTS:**
- Develop a variety of explanations and representations of concepts.
- Build on the skills and knowledge learned in the classroom to engage in more complex concepts, ideas, and theories.
- Use a variety of inquiry tools and strategies to:
  - Learn content.
  - Understand central concepts.
  - Answer complex questions.
  - Problem-solve.

... and **STUDENTS** routinely:
- Choose challenging tasks and instructional materials.
- Apply newly learned content skills to unique situations and different disciplines.
- Discuss ideas and content that are intellectually challenging to them.

**ELEMENT E:** Teachers develop lessons that reflect the interconnectedness of content areas/disciplines.

**THE TEACHER:**
- Emphasizes key concepts and connects them to other powerful ideas within the content area.
- Connects lessons to other disciplines and/or content areas.

... and **THE TEACHER** implements instructional strategies to ensure that instruction:
- Articulates content and interdisciplinary connections.
- Integrates literacy skills across content areas.

**THE TEACHER:**
- Clarifies and elaborates on interdisciplinary connections for students.
- Employs instructional strategies that include literacy, numeracy and language development across content areas.

**STUDENTS**
- Make connections between other disciplines and/or content areas and the current lesson.
- Apply literacy skills across academic content areas.
- Apply math skills across academic content areas.

... and **STUDENTS**:
- Accelerate their learning by elaborating on current lesson with connections to prior lessons within the content area and/or with other disciplines.

Professional Practice is **Observable** during a classroom observation.

Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). </table>

ELEMENT F: Teachers make instruction and content relevant to students and take actions to connect students’ background and contextual knowledge with new information being taught.

THE TEACHER:
- Selects instructional materials and strategies based on their:
  - Relevance to students.
  - Central contexts.
  - Foundational evidence base.
  - Links lessons to students’ prior knowledge.
  - Encourages and provides opportunities for students to make connections to prior learning.

THE TEACHER delivers lessons and units and uses instructional strategies that:
- Help students connect to their learning by linking the current lesson with prior knowledge, experiences, and/or cultural contexts.
- Provide supports that facilitate engagement.

. . . and

THE TEACHER:
- Delivers lessons and uses materials to ensure that students’ backgrounds and contextual knowledge are considered.
- Provides opportunities for students to self-select tasks that accelerate their learning.

. . . and

STUDENTS:
- Interact with materials that are relevant to them.
- Ask questions and solve problems that are relevant to them.
- Make connections to prior learning to understand current content.

. . . and

STUDENTS:
- Select tasks that demonstrate transfer of knowledge to other theories, ideas, and/or content.

Professional Practice is Observable during a classroom observation.
Professional Practice is Not Observable during a classroom observation.

As Exhibit 16 illustrates, the rating for each standard is determined by the total number of points accumulated on individual element ratings for that standard. For example, an element rating of Basic receives zero points and a rating of Exemplary receives four points. Exhibit 16 illustrates how the points for the elements are added together to determine the rating for the standard.
EXHIBIT 16: Determining the Rating for a Standard
(Example of Standards weighted equally, based on the secondary teacher rubric example)

**QUALITY STANDARD I**

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

**Total Points Earned for Standard I**

Total Points Earned for Standard I: 13

**Determine Rating for Standard I:**
- 0 to 2 points = Basic
- 3 to 8 points = Partially Proficient
- 9 to 14 points = Proficient
- 15 to 20 points = Accomplished
- 21 to 24 points = Exemplary

Proficient
Determining the Overall Professional Practices Rating

The overall professional practices rating is determined by the individual scores for Quality Standards I through V for teachers and specialized service professionals and Quality Standards I through VI for principals and assistant principals. The ratings for the final standard for each group (Educators take responsibility for student academic growth) are used to determine performance on measures of student learning/outcomes. As Exhibit 17 illustrates, once the rating for each standard is determined, the standard ratings are used to determine the overall professional practices rating.

The rubric scoring process is designed so that school districts and BOCES have the option of weighting the standards equally or differentially as allowed by S.B. 10-191. For the purposes of providing an example of how the weighting affects individual standard and overall professional practices scores, the examples in this guide use equally weighted standards. This means that since teachers and specialized service professionals have five Quality Standards related to professional practices, the weight for each standard in our examples is 20 percent (.20 in formulas).

The formula breaks down into four parts as follows:

1. **Weight assigned for the standard times the number of standards** - This ensures not only that the district's weighting for the standard is used, but also that the net result of weighting is 1.00, or 100 percent.
2. **Total points earned for the standard divided by the total points it is possible to earn for the standard** - This calculation determines the percentage of points the person earned for the standard.
3. **Number of points possible for an individual rating** - This calculation ensures that the number of points earned for the standard is on the 4-point scale used to determine ratings for individual standards and the overall professional practices rating.
4. **Multiplying** items 1 through 3 results in the contribution of the standard to the overall professional practices rating.

The formula for calculating an individual standard's contribution to the overall professional practices rating is:

\[
\frac{(\text{Total Pts. Earned for Std. I}) \times (\text{Std. I Weight} \times \text{No. of Standards.})}{(\text{Number of Elements Associated with Standard})}
\]

Using the example for Standard I presented in Exhibit 17, the calculation would be:

\[
13 \times (.20 \times 5) = 2.17
\]

All calculations involved in determining professional practices and effectiveness ratings are carried to three (3) decimal places and rounded to two (2). For example, the formula above would result in a score of 2.167, which is rounded to 2.17 for reporting purposes and for determination of the final effectiveness rating. The overall professional practices rating is determined by adding the five individual standard contributions to the overall rating and referring to the following scoring guide:
Determining the Overall Professional Practices Rating:
0 to 2.00 points = Basic
2.01 to 7.00 points = Partially Proficient
7.01 to 12.00 points = Proficient
12.01 to 17.00 points = Accomplished
17.01 to 20.00 points = Exemplary
**EXHIBIT 17: Summary Evaluation Sheet: Determining the Overall Professional Practices Rating**  
*(Example of All Standards Weighted Equally)* Elements rated Basic are highlighted in red, Partially Proficient in yellow and Proficient, Accomplished, and Exemplary in green.

### Total Points Earned for Standard III

| Total Points Earned for Standard III | 19 |

### Determine Rating for Standard III:

0 to 3 points = Basic
4 to 11 points = Partially Proficient
12 to 19 points = Proficient
20 to 27 points = Accomplished
28 to 32 points = Exemplary

### Determine contribution of Standard III to the Overall Professional Practices Rating:

\[
\text{Calculation Work Space}^\ast = \left( \frac{\text{Total Pts. Earned for Std. III} \times \text{(Std. III Weight X No. of Standards.)}}{\text{(Number of Elements Associated with Standard)}} \right)
\]

\[
\text{Calculation Work Space}^\ast = \left( \frac{19 \times (0.20 \times 5)}{8} \right) = 2.38
\]

### Notes:

*All calculations should be carried to three decimal places and results rounded to two decimal places.
### Quality Standard

#### IV. Reflections on Practice

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>RATING</th>
</tr>
</thead>
<tbody>
<tr>
<td>A. Teachers demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.</td>
<td></td>
</tr>
<tr>
<td>B. Teachers link professional growth to their professional goals.</td>
<td></td>
</tr>
<tr>
<td>C. Teachers are able to respond to a complex, dynamic environment.</td>
<td></td>
</tr>
</tbody>
</table>

**Total Points Earned for Standard IV**: 3

**Determine Rating for Standard IV**: 0 to 1 points = Basic  
2 to 4 points = Partially Proficient  
5 to 7 points = Proficient  
8 to 10 points = Accomplished  
11 to 12 points = Exemplary

**Partially Proficient**

**Determine contribution of Standard IV to the Overall Professional Practices Rating:**

\[
\text{Calculation Work Space}^* = \left( \frac{\text{Total Pts. Earned for Std. IV}}{\text{Std. IV Weight} \times \text{No. of Standards}} \right) \times (\text{Number of Elements Associated with Standard})
\]

\[
(3) \times (0.20 \times 5) = 1.00
\]

*All calculations should be carried to three decimal places and results rounded to two decimal places.*
<table>
<thead>
<tr>
<th>QUALITY STANDARD</th>
<th>ELEMENT</th>
<th>RATING</th>
<th># Points Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>V. LEADERSHIP</td>
<td>A. Teachers demonstrate leadership in their schools.</td>
<td>1 pt</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>B. Teachers contribute knowledge and skills to educational practices and the teaching profession.</td>
<td>1 pt</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>C. Teachers advocate for schools and students, partnering with students, families and communities as appropriate.</td>
<td>3 pts</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>D. Teachers demonstrate high ethical standards.</td>
<td>2 pts</td>
<td>2</td>
</tr>
</tbody>
</table>

Total Points Earned for Standard V: 7

Determine Rating for Standard V:

- 0 to 1 points = Basic
- 2 to 5 points = Partially Proficient
- 6 to 9 points = Proficient
- 10 to 13 points = Accomplished
- 14 to 16 points = Exemplary

Proficient

Determine contribution of Standard V to the Overall Professional Practices Rating:

\[
\text{Calculation Work Space}^* = \left( \frac{\text{Total Pts. Earned for Std. V} \times (\text{Std. V Weight} \times \text{No. of Standards})}{(\text{Number of Elements Associated with Standard})} \right)
\]

\[
= \left( \frac{7 \times (0.20 \times 5)}{4} \right) = 1.75
\]

*All calculations should be carried to three decimal places and results rounded to two decimal places.
Determining the Overall Professional Practices Rating

Scoring of the rubric is designed so that each standard may be weighted by the district or BOCES in order to emphasize the initiatives or skills of importance to the locality. Weighting of the standards impacts the overall professional practices rating (Basic, Partially Proficient, Proficient, Accomplished, Exemplary), which in turn impacts the educator’s final effectiveness rating (Ineffective, Partially Effective, Effective or Highly Effective). Guidance for determining the final effectiveness rating using both the overall professional practices rating and measures of student learning/outcomes is provided on the CDE/Educator Effectiveness website. Exhibits 18 and 19 illustrate the steps involved in calculating the points earned for all standards and then translating the point-value into an overall professional practices rating.

EXHIBIT 18: Calculating the Total Points Earned for All Standards as a Whole
(Example of all standards weighted equally, based on secondary math teacher example above)

EXHIBIT 20: Example of How to Complete Teacher Evaluation Worksheet

This form should be completed by the evaluator prior to the final evaluation and goal-setting meeting held each spring. The teacher and evaluator should discuss the contents of this form and the accompanying Summary Evaluation Sheet completed as illustrated in Exhibit 17 and agree on: professional practices ratings, recommended actions for improvement, resources needed to accomplish those actions and a determination of how the teacher and evaluator will know improvements have been made.

## QUALITY STANDARD I

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

</tbody>
</table>

### Comments:

Ms. Seidel’s work this year has been proficient and above, except for mathematics. This was reflected in her instructional strategies exemplified by presentations of lower level skills and expectations for students. Classroom materials in mathematics were not of sufficient quality to engage students or to challenge their problem solving and critical thinking skills.

### Recommended actions for improvement:

During the upcoming school year, she should take intensive and significant steps to upgrade her mathematics skills.

### Resources needed to complete these actions:

As requested, Ms. Seidel will be allowed to leave school 30 minutes early every Tuesday and Thursday during first semester next year in order to attend an evening mathematics class. We will also discuss the possibility of her attending mathematics professional development offerings as they are offered by the school district.

**Comments:**
Ms. Seidel did a remarkable job in this area during this school year. She demonstrated student-focused approaches to instruction and customized lessons to assure that all of her students’ needs were met. Her students had no discipline issues this year in spite of the fact that they had in previous years.

**Recommended actions for improvement:**
Maintain current levels of performance while working to improve communication and collaboration with families to assure that they are actively involved in helping their children and fully aware of the students’ strengths and weaknesses.

**Resources needed to complete these actions:**
**QUALITY STANDARD III**
Teachers plan and deliver effective instruction and create an environment that facilitates learning for their students.

</table>

**Overall Rating for Standard III**

**Comments:**
Ms. Seidel is nearing accomplished work in this area. Her biggest challenges are the integration of research-based strategies into her lessons and using appropriate assessment methods to determine students’ strengths and weaknesses.

**Recommended actions for improvement:**

**Resources needed to complete these actions:**
QUALITY STANDARD IV
Teachers reflect on their practice.

| A. Teachers demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice. |
|-----------------------------|------|------|------|------|------|
| B. Teachers link professional growth to their professional goals.                             |
| C. Teachers are able to respond to a complex, dynamic environment.                           |

Overall Rating for Standard IV

Comments:
Ms. Seidel needs significant work in this area. The natural starting point for her is the linkage of professional growth and professional goals to her self-identified strengths and weaknesses. She should develop a professional growth plan that includes all of these elements and bring it to her final evaluation conference for discussion.

Recommended actions for improvement:
- Make a list of strengths and weaknesses identified in self-assessment and identify those on which professional development efforts are needed this year.
- Revise professional growth plan if necessary.
- Request school and/or district support for growth and development activities.

Resources needed to complete these actions:
### QUALITY STANDARD V
Teachers demonstrate leadership.

<table>

</tr>
</tbody>
</table>

**Overall Rating for Standard V**

|   |   |   |   |   | ▲ |

**Comments:**
While Ms. Seidel is extremely student-focused and does a great job of working with students, her leadership skills are not as well developed. She has not taken advantage of opportunities to assume leadership roles either within the school or the district.

**Recommended actions for improvement:**
I am recommending Ms. Seidel for several committees during the coming year. She needs to accept the assignment for at least one committee and begin the process of assuming a leadership role on that committee. Long-term, she needs to be more proactive in identifying and taking on leadership roles.

**Resources needed to complete these actions:**
EXHIBIT 21: Example of How to Complete the Professional Growth Plan

This professional growth plan may be used to record up to three professional growth goals aligned with your evaluation results. The goals should be specific and measurable. While each of the goals is important, they should be listed in rank order with the most important listed first. Also record the action steps required to address each growth goal. Please insert additional rows if additional goals are needed. (Please note, districts may choose to use a different type of plan. This one is provided as an example of key information that should be included in any plan selected by the district.)

</table>
Teachers in Colorado will be evaluated on measures of student learning as well as their demonstrated performance on Teacher Quality Standards as measured by the Rubric for Evaluating Colorado Teachers. Their Professional Growth Plans will guide their professional planning, goal-setting, professional development and evaluation criteria.
1. Statewide Definition of Teacher Effectiveness

All districts and BOCES are required to use the following state-approved definition of teacher effectiveness for teacher evaluation.

Effective teachers in the state of Colorado have the knowledge, skills and commitments needed to provide excellent and equitable learning opportunities and growth for all students. They strive to support growth and development, close achievement gaps and to prepare diverse student populations for postsecondary and workforce success (See Appendix B). Effective teachers facilitate mastery of content and skill development and employ and adjust evidence-based strategies and approaches for students who are not achieving mastery and students who need acceleration. They also develop in students the skills, interests and abilities necessary to be lifelong learners, as well as for democratic and civic participation. Effective teachers communicate high expectations to students and their families and utilize diverse strategies to engage them in a mutually supportive teaching and learning environment. Because effective teachers understand that the work of ensuring meaningful learning opportunities for all students cannot happen in isolation, they engage in collaboration, continuous reflection, on-going learning and leadership within the profession.
2. The Colorado Teacher Quality Standards and Their Related Elements and Artifacts

The following specifications are from the Rules issued on Nov. 9, 2011 and approved on Feb. 15, 2012.

The Teacher Quality Standards outline the knowledge and skills required of an effective teacher and will be used to evaluate teachers in the state of Colorado. All school districts and BOCES shall base their evaluations of licensed classroom teachers on the full set of Teacher Quality Standards and associated detailed elements included below, or shall adopt their own locally developed standards that meet or exceed the Teacher Quality Standards and elements. School districts and BOCES that adopt their own locally developed standards shall crosswalk those standards to the Teacher Quality Standards and elements, so that the school district or BOCES is able to report the data required.

QUALITY STANDARD I

Teachers demonstrate mastery of and pedagogical expertise in the content they teach.
The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

ELEMENT A: Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

ELEMENT B: Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

ELEMENT C: Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

ELEMENT D: Teachers demonstrate knowledge of the content, central concepts, tools of inquiry, appropriate evidence-based instructional practices and specialized character of the disciplines being taught.

ELEMENT E: Teachers develop lessons that reflect the interconnectedness of content areas/disciplines.

ELEMENT F: Teachers make instruction and content relevant to students and take actions to connect students’ background and contextual knowledge with new information being taught.

QUALITY STANDARD II

Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.

ELEMENT A: Teachers foster a predictable learning environment in the classroom in which each student has a positive, nurturing relationship with caring adults and peers.

ELEMENT B: Teachers demonstrate a commitment to and respect for diversity, while working toward common goals as a community and as a country.

ELEMENT C: Teachers engage students as individuals with unique interests and strengths.

ELEMENT D: Teachers adapt their teaching for the benefit of all students, including those with special needs, across a range of ability levels.

ELEMENT E: Teachers provide proactive, clear and constructive feedback to families about student progress and work collaboratively with the families and significant adults in the lives of their students.
ELEMENT F: Teachers create a learning environment characterized by acceptable student behavior, efficient use of time and appropriate intervention strategies.

QUALITY STANDARD III
Teachers plan and deliver effective instruction and create an environment that facilitates learning for their students.

ELEMENT A: Teachers demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

ELEMENT B: Teachers plan and consistently deliver instruction that draws on results of student assessments, is aligned to academic standards and advances students’ level of content knowledge and skills.

ELEMENT C: Teachers demonstrate a rich knowledge of current research on effective instructional practices to meet the developmental and academic needs of their students.

ELEMENT D: Teachers thoughtfully integrate and utilize appropriate available technology in their instruction to maximize student learning.

ELEMENT E: Teachers establish and communicate high expectations for all students and plan instruction that helps students develop critical-thinking and problem-solving skills.

ELEMENT F: Teachers provide students with opportunities to work in teams and develop leadership qualities.

ELEMENT G: Teachers communicate effectively, making learning objectives clear and providing appropriate models of language.

ELEMENT H: Teachers use appropriate methods to assess what each student has learned, including formal and informal assessments and use results to plan further instruction.

QUALITY STANDARD IV
Teachers reflect on their practice.

ELEMENT A: Teachers demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.

ELEMENT B: Teachers link professional growth to their professional goals.

ELEMENT C: Teachers are able to respond to a complex, dynamic environment.

QUALITY STANDARD V
Teachers demonstrate leadership.

ELEMENT A: Teachers demonstrate leadership in their schools.

ELEMENT B: Teachers contribute knowledge and skills to educational practices and the teaching profession.

ELEMENT C: Teachers advocate for schools and students, partnering with students, families and communities as appropriate.

ELEMENT D: Teachers demonstrate high ethical standards.
QUALITY STANDARD VI
Teachers take responsibility for student academic growth.

**ELEMENT A:** Teachers demonstrate high levels of student learning, growth and academic achievement.

**ELEMENT B:** Teachers demonstrate high levels of student academic growth in the skills necessary for postsecondary and workforce readiness (See Appendix B), including democratic and civic participation. Teachers demonstrate their ability to utilize multiple data sources and evidence to evaluate their practice and make adjustments where needed to continually improve attainment of student academic growth.

*Please note: Standard VI is not included as a part of determination of ratings on professional practices that is described in this user’s guide. It is described in a separate document that can be found on the CDE website.*

3. Measures Used to Determine Effectiveness Rating

The Colorado State Model Educator Evaluation System for teachers is intended to provide support, incentives and rewards for teachers as they engage in the challenging work of enabling and empowering students to learn. The teacher effectiveness definition and Colorado Teacher Quality Standards provide clear guidance about state priorities for effective teaching. The use of multiple measures for teacher performance and guidelines for ensuring that these measures are of high quality will provide a more accurate and nuanced picture of the teacher’s professional practice and impact on measures of student learning. The use of performance standards to rate teacher performance allows more precision about professional expectations, identifies those teachers in need of improvement and recognizes performance that is of exceptional quality.

The measures used to determine the teacher’s effectiveness rating emphasize the use of high-quality measures that result in a body of evidence concerning a teacher’s performance and include:

- **Measures of professional practice** (Standards I-V) selected by the district that meet state technical guidelines, including formal observations plus at least one other measure.
- **Multiple measures of student academic growth** (Standard VI) that are appropriate for the teacher’s teaching assignment, that represent the best available assessments for that assignment, that also include growth scores shared among groups of teachers and that meet state technical guidelines.

4. Procedures for Conducting Evaluations

Procedures for conducting evaluations may be determined on a local level, provided that they ensure that data is regularly collected, associated feedback and improvement opportunities are regularly provided and teachers receive a formal evaluation and performance standard designation by the end of each academic year.

5. Final effectiveness rating levels (Performance Standards)

The use of four performance standards (Highly Effective, Effective, Partially Effective and Ineffective) to rate educator performance allows more precision about professional expectations, identifies educators in need of improvement and recognizes performance that is of exceptional quality. These standards are also commonly referred to as the final effectiveness rating level. These rating levels are described in Exhibit 25.

6. Appeals Process

An **appeals process** that permits non-probationary teachers to appeal a second consecutive performance evaluation that falls below Effective. Additional information about rules governing Colorado’s state-approved appeals process
The state framework for the teacher evaluation system, developed by the State Council for Educator Effectiveness (SCEE), illustrates the relationships of the system components and the relationship between professional practice and measures of student learning. As Exhibit 19 illustrates, Quality Standards I through V articulate professional practices while Quality Standard VI articulates measures of student learning.

**EXHIBIT 23: Framework for System to Evaluate Teachers**

### EXHIBIT 24: Implications for Earning or Losing Non-probationary Status by Performance Evaluation Rating

<table>
<thead>
<tr>
<th><strong>PERFORMANCE EVALUATING RATING</strong></th>
<th><strong>IMPLICATIONS FOR EARNING OR LOSING NON-PROBATIONARY STATUS</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Ineffective</strong></td>
<td>Beginning with evaluations conducted during the 2013-14 school year, for probationary teachers, a rating of ineffective shall not count towards the accrual of years required to qualify for non-probationary status. Beginning with evaluations conducted during the 2014-15 school year, a non-probationary teacher who is rated as ineffective for two consecutive years shall lose non-probationary status. Beginning with the 2014-15 school year, a teacher whose performance is deemed ineffective shall receive written notice that his or her performance evaluation rating shows a rating of ineffective, a copy of the documentation relied upon in measuring his or her performance and identification of deficiencies. A rating of ineffective in the 2014-15 school year shall be considered the first of two consecutive years of ineffective performance that results in loss of non-probationary status. Non-probationary status in this instance shall only be lost if the teacher is subsequently rated partially effective or ineffective during the following year.</td>
</tr>
<tr>
<td><strong>Partially Effective</strong></td>
<td>Beginning with evaluations conducted during the 2013-14 school year, for a probationary teacher, a rating of partially effective shall not count towards the accrual of three years of effectiveness needed to reach non-probationary status. Beginning with evaluations conducted during the 2014-15 school year, for a non-probationary teacher, a rating of partially effective shall be considered the first of two consecutive years of ineffective performance that results in loss of non-probationary status. Non-probationary status in this instance shall only be lost if the teacher is subsequently rated partially effective or ineffective during the following year.</td>
</tr>
<tr>
<td><strong>Effective</strong></td>
<td>Beginning with evaluations conducted during the 2013-14 school year, a probationary teacher shall receive a rating of effective (or highly effective) for three consecutive years to earn non-probationary status. Beginning with evaluations conducted during the 2014-15 school year, a non-probationary teacher must maintain an effective or higher rating to retain non-probationary status. Two consecutive ratings below effective shall result in the loss of non-probationary status.</td>
</tr>
<tr>
<td><strong>Highly Effective</strong></td>
<td>For the purposes of gaining or losing non-probationary status, a rating of highly effective shall have the same implications as a rating of effective.</td>
</tr>

Rubric for Evaluating Colorado Teachers

Effective teachers in the state of Colorado have the knowledge, skills and commitments needed to provide excellent and equitable learning opportunities and growth for all students. They strive to support growth and development, close achievement gaps and to prepare diverse student populations for postsecondary and workforce success (See Appendix E). Effective teachers facilitate mastery of content and skill development and employ and adjust evidence-based strategies and approaches for students who are not achieving mastery and students who need acceleration. They also develop in students the skills, interests and abilities necessary to be lifelong learners, as well as for democratic and civic participation. Effective teachers communicate high expectations to students and their families and utilize diverse strategies to engage them in a mutually supportive teaching and learning environment. Because effective teachers understand that the work of ensuring meaningful learning opportunities for all students cannot happen in isolation, they engage in collaboration, continuous reflection, on-going learning and leadership within the profession.

**QUALITY STANDARD I**
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

<table>

</thead>
</table>

**ELEMENT A:** Teachers provide instruction that is aligned with the Colorado Academic Standards; their district’s organized plan of instruction; and the individual needs of their students.

- **THE TEACHER** uses lesson plans that reflect:
  - Opportunities to review prior learning.
  - Instructional objectives appropriate for students.
  - Connections to specific learning objectives and approved curriculum.

- **THE TEACHER** implements lesson plans based on:
  - Student needs.
  - Colorado Academic Standards.
  - District’s plan of instruction.

- **THE TEACHER:**
  - Collaborates with other school staff to vertically and horizontally align, articulate and deliver the approved curriculum.

- **STUDENTS:**
  - Interact with the rigorous and challenging content.
  - Perform at a level consistent with or above expectations.

- **STUDENTS:**
  - Discuss strengths and next steps regarding their learning with their teacher(s).

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is **Not Observable** during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT B:** Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

This section describes professional practices that should be demonstrated by ALL TEACHERS, regardless of grade level or subject taught.

THE TEACHER:  
- Demonstrates an understanding of literacy content and skills.
- Integrates literacy connections into lessons regardless of content being taught.

THE TEACHER makes complex reading accessible to students by:
- Adjusting content to students’ skill levels.
- Integrating literacy skills and knowledge into lessons.
- Providing relevant content that addresses students’ interests.

THE TEACHER provides instructional support that enhances students’:
- Critical thinking and reasoning.
- Information literacy.
- Literacy skill development.

STUDENTS meet or exceed expectations for:
- Oral communication.
- Written communication.
- Critical thinking.
- Problem solving skills.
- Literacy skills.

STUDENTS apply literacy skills to understand complex materials.

THE TEACHER:  
- Integrates literacy connections into lessons regardless of content being taught.

THE TEACHER integrates literacy skills into lessons and assignments, including:
- Phonological awareness.
- Phonics.
- Vocabulary.
- Comprehension.
- Fluency.
- Writing.
- Speaking.
- Listening skills.

Engages students in instruction that is:
- Purposeful.
- Explicit.
- Systematic.

STUDENTS apply literacy skills (reading, writing, speaking and listening): To new/unfamiliar material. While communicating during unstructured time.

STUDENTS exceed teacher’s expectations for students of their age, grade, and/or ability levels in:
- Reading.
- Writing.
- Speaking.
- Listening.

- Professional Practice is Observable during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

</thead>
</table>

**ELEMENT B:** Teachers demonstrate knowledge of student literacy development in reading, writing, speaking and listening.

This section describes professional practices that should be demonstrated by **SECONDARY TEACHERS** responsible for teaching English, language arts and/or reading.

**THE TEACHER:**
- Teaches and provides opportunities for students to apply literacy skills.

... and **THE TEACHER** integrates literacy skills into lessons, including:
  - Vocabulary.
  - Comprehension.
  - Fluency.
  - Writing.
  - Speaking.
  - Listening skills.

Engages students in instruction that is:
  - Purposeful.
  - Explicit.
  - Systematic.

... and **THE TEACHER** provides literacy instruction that is:
  - Needs-based.
  - Intensive.
  - Of sufficient duration to accelerate learning.

... and **STUDENTS** apply literacy skills (reading, writing, speaking and listening):
  - To new/unfamiliar material.
  - While communicating during the school day.

... and **STUDENTS** exceed teacher’s expectations for students of their age, grade, and/or ability level in:
  - Reading.
  - Writing.
  - Speaking.
  - Listening.

○ Professional Practice is Observable during a classroom observation.
□ Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

**ELEMENT C:** Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

*This section describes professional practices that should be demonstrated by ALL TEACHERS, regardless of grade level or subject taught.*

**THE TEACHER:**

- Encourages students to make math connections across content.

**THE TEACHER:** Emphasizes to students why they need to learn math content and skills.

- Uses instructional strategies that require students to apply and transfer mathematical knowledge to different content areas.

**ELEMENT C:** Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

*This section describes professional practices that should be demonstrated by TEACHERS responsible for teaching math.*

**THE TEACHER**

- Focuses math instruction beyond:
  - Recall of facts.
  - Development of computational skills.
  - Math as a series of rote procedures.
- Models:
  - Appropriate mathematical communication.
  - A variety of mathematical practices.

**THE TEACHER** presents concepts:

- In sequence.
- In a manner appropriate to students’ age and grade.
- Helps students understand mathematics as a discipline.
- Provides a balance of teaching for conceptual understanding and teaching for procedural fluency.
- Models mathematical thinking.

**THE TEACHER** establishes an effective mathematics environment by:

- Challenging students to think deeply about the problems.
- Requiring students to explain their solutions.
- Posing questions that stimulate students’ curiosity and encourage them to investigate further.
- Actively engaging students in doing math.
- Using real-world examples for problems whenever possible.

**ELEMENT C:** Teachers demonstrate knowledge of mathematics and understand how to promote student development in numbers and operations, algebra, geometry and measurement and data analysis and probability.

*This section describes professional practices that should be demonstrated by ALL TEACHERS, regardless of grade level or subject taught.*

**THE TEACHER**

- Focuses math instruction beyond:
  - Recall of facts.
  - Development of computational skills.
  - Math as a series of rote procedures.

**THE TEACHER** presents concepts:

</tr>
</thead>
</table>

**ELEMENT D:** Teachers demonstrate knowledge of the content, central concepts, tools of inquiry, appropriate evidence-based instructional practices and specialized character of the disciplines being taught.

**THE TEACHER:**
- **Breaks down concepts into instructional parts and teaches each part using appropriate, effective strategies and/or tools.**
- **Uses instructional materials that are accurate and appropriate for the lesson being taught.**
- **Employs a variety of instructional strategies to address student needs.**

**THE TEACHER** provides explanations of content that are:
- **Accurate.**
- **Clear.**
- **Concise.**
- **Comprehensive.**

**THE TEACHER** engages students in:
- A variety of explanations and multiple representations of concepts and ideas.
- A variety of inquiry methods to explore new ideas and theories.

**STUDENTS:**
- Develop a variety of explanations and multiple representations of concepts.
- Build on the skills and knowledge learned in the classroom to engage in more complex concepts, ideas and theories.

Use a variety of inquiry tools and strategies to:
- Learn content.
- Understand central concepts.
- Answer complex questions.
- Problem solve.

**STUDENTS** routinely:
- Choose challenging tasks and instructional materials.
- Apply newly learned content skills to unique situations and different disciplines.
- Discuss ideas and content that are intellectually challenging to them.

**ELEMENT E:** Teachers develop lessons that reflect the interconnectedness of content areas/disciplines.

**THE TEACHER:**
- **Emphasizes key concepts and connects them to other powerful ideas within the content area.**
- **Connects lessons to other disciplines and/or content areas.**

**THE TEACHER** implements instructional strategies to ensure that instruction:
- Articulates content and interdisciplinary connections.
- Integrates literacy skills across content areas.

**THE TEACHER** clarifies and elaborates on interdisciplinary connections for students.

**STUDENTS:**
- Make connections between other disciplines and/or content areas and the current lesson.
- Apply literacy skills across academic content areas.
- Apply math skills across academic content areas.
- Accelerate their learning by elaborating on current lesson with connections to prior lessons within the content area and/or with other disciplines.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is **Not Observable** during a classroom observation.
QUALITY STANDARD I
Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

<table>
<thead>

<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT F:** Teachers make instruction and content relevant to students and take actions to connect students’ background and contextual knowledge with new information being taught.

THE TEACHER SELECTS INSTRUCTIONAL MATERIALS AND STRATEGIES BASED ON THEIR:
- Relevance to students.
- Central contexts.
- Foundational evidence base.
- Links lessons to students’ prior knowledge.
- Encourages and provides opportunities for students to make connections to prior learning.

. . . and THE TEACHER DELIVERS LESSONS AND UNITS AND USES INSTRUCTIONAL STRATEGIES THAT:
- Help students connect to their learning by linking the current lesson with prior knowledge, experiences, and/or cultural contexts.
- Provide supports that facilitate engagement.

. . . and THE TEACHER:
- Delivers lessons and uses materials to ensure that students’ backgrounds and contextual knowledge are considered.
- Provides opportunities for students to self-select tasks that accelerate their learning.

. . . and STUDENTS:
- Interact with materials that are relevant to them.
- Ask questions and solve problems that are relevant to them.
- Make connections to prior learning to understand current content.

. . . and STUDENTS:
- Select tasks that demonstrate transfer of knowledge to other theories, ideas, and/or content.

- Professional Practice is Observable during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.

Evaluator Comments:  
(Required for Ratings of “Basic” or “Partially Proficient” and recommended for all rating levels.)

Comments of Person Being Evaluated:  
(Please indicate the element for which the comment applies if not for the standard as a whole.)
## QUALITY STANDARD II

Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>

</thead>
</table>

### ELEMENT A:
Teachers foster a predictable learning environment in the classroom in which each student has a positive, nurturing relationship with caring adults and peers.

**THE TEACHER** creates a classroom environment that facilitates:
- Mutual respect.
- Positive relationships between and among students.
- Empathy for each student.

... and **THE TEACHER:**
- Creates a classroom environment conducive to learning.

... and **THE TEACHER:**
- Establishes a nurturing and caring relationship with each student.

... and **STUDENTS:**
- Respect their classmates and teacher(s).

... and **STUDENTS’ interactions with their teacher(s) and each other:**
- Are respectful.
- Demonstrate mutual support.

### ELEMENT B:
Teachers demonstrate a commitment to and respect for diversity, while working toward common goals as a community and as a country.

**THE TEACHER:**
- Creates a classroom environment in which diversity is used to further student learning.
- Uses instructional approaches and materials that reflect diverse backgrounds and experiences.
- Acknowledges the value of each student’s contributions to the quality of lessons.
- Is welcoming to diverse family structures.

... and **THE TEACHER:**
- Creates a classroom environment which values diverse perspectives.
- Establishes a nurturing and caring relationship with each student.

... and **STUDENTS:**
- Respect their classmates and teacher(s).

... and **STUDENTS:**
- Respect the uniqueness of fellow students.

... and **STUDENTS:**
- Seek a variety of perspectives to complete group assignments.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
## QUALITY STANDARD II
Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>

</thead>
</table>

### ELEMENT C: Teachers engage students as individuals with unique interests and strengths.

**THE TEACHER:**
- Implements lessons that reflect student interests.
- Encourages students to expand and enhance their learning.
- Acknowledges students for their accomplishments.

**THE TEACHER:**
- Monitors the quality of student participation and performance.
- Implements recommendations of specialists and colleagues to address student needs.

**STUDENTS:**
- Actively engage in classroom activities.
- Discuss content and make connections between current lesson and their interests.

**STUDENTS:**
- Encourage fellow students to participate and challenge themselves.
- Engage in collaborative learning and group processes.

### ELEMENT D: Teachers adapt their teaching for the benefit of all students, including those with special needs, across a range of ability levels.

**THE TEACHER:**
- Adapts learning environment to address individual student needs.
- Designs instruction to address learning needs of all students.
- Monitors the quality of student participation and performance.

**THE TEACHER:**
- Solicits additional input from colleagues to better understand students’ learning needs.
- Challenges and supports students to learn to their greatest ability.

**STUDENTS:**
- Advocate for themselves by:
  - Articulating their learning needs to their teacher and/or parent.
  - Communicating freely and openly with teachers about circumstances that affect their classroom performance.

**STUDENTS:**
- Apply coping skills such as self-reflection, self-regulation and persistence to classroom situations.
- Help fellow classmates by offering support.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is **Not Observable** during a classroom observation.
## QUALITY STANDARD II
Teachers establish a safe, inclusive and respectful learning environment for a diverse population of students.

<table>
<thead>
<tr>

### ELEMENT E: Teachers provide proactive, clear and constructive feedback to families about student progress and work collaboratively with the families and significant adults in the lives of their students.

**THE TEACHER:**
- Establishes a classroom environment that is inviting to families and significant adults.
- Maintains a respectful relationship with students, their families, and/or significant adults.
- Uses a variety of methods to initiate communication with families and significant adults.

**FAMILIES AND SIGNIFICANT ADULTS:**
- Discuss student performance with the teacher.
- Participate in school-based activities.

### ELEMENT F: Teachers create a learning environment characterized by acceptable student behavior, efficient use of time and appropriate intervention strategies.

**THE TEACHER:**
- Provides clear expectations to guide student classroom behavior.
- Holds students accountable for adherence to school and/or class rules.
- Puts procedures in place to maximize instructional time.
- Makes maximum use of instructional time.
- Maintains a safe and orderly environment.

**STUDENTS:**
- Stay on task during class periods.
- Abide by school and class rules.
- Accept responsibility for their behavior and use of time.
- Help other students stay on task.

- Professional Practice is Observable during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.

**ELEMENT A:** Teachers demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

### THE TEACHER:
- **○** Modifies content to assure that students are able to work at their ability levels.
- **△** Studies recent/current research to expand personal knowledge of how students learn.
- **○** Builds on the interrelatedness of students’ intellectual, social and emotional development.
- **△** Aligns instruction with academic standards and student assessment results.
- **○** Monitors instruction against student performance and makes real-time adjustments.
- **○** Assesses required skills.

### THE TEACHER:
- **△** Collaborates with colleagues with expertise in developmental science to improve the quality of instruction.
- **○** Applies knowledge of current developmental science to address student needs.

### STUDENTS:
- **○** Seek materials and resources appropriate for their personal approach to learning.
- **△** Collaborates with colleagues with expertise in developmental science to improve the quality of instruction.
- **○** Monitors instruction against student performance and makes real-time adjustments.

### STUDENTS:
- **△** Collaborates with colleagues with expertise in developmental science to improve the quality of instruction.
- **○** Encourages students to take academic risks.
- **△** Makes sure students meet learning objectives while increasing mastery levels.

### STUDENTS:
- **○** Encourages students to take academic risks.

**... and STUDENTS seek to understand:***
- **○** How they learn best.
- **△** Where their time and efforts are best used.

**... and STUDENTS:***
- **○** Initiate activities to address their learning strengths and next steps.
- **△** Take academic risks.

**... and STUDENTS:***
- **○** Monitor their level of engagement.

**... and STUDENTS:**
- **△** Monitor their level of engagement.

**... and STUDENTS:**
- **○** Make sure students meet learning objectives while increasing mastery levels.

**... and STUDENTS:**
- **△** Make sure students meet learning objectives while increasing mastery levels.

**ELEMENT C:** Teachers demonstrate a rich knowledge of current research on effective instructional practices to meet the developmental and academic needs of their students.

**THE TEACHER:**
- Incorporates evidence-based strategies into lessons.
  - Makes connections between student data and research-based practices.

**THE TEACHER:**
- Individualizes instructional approach to meet unique needs of each student.

**STUDENTS:**
- Embrace new and unique ways of learning as they are introduced through research-based lessons.

**ELEMENT D:** Teachers thoughtfully integrate and utilize appropriate available technology in their instruction to maximize student learning.

**THE TEACHER:**
- Uses available technology to facilitate classroom instruction.
  - Monitors the use of available technology in the classroom.

**THE TEACHER:**
- Employs strategies and procedures to ensure that students have equitable access to available technology.

**STUDENTS:**
- Use available technology to engage in:
  - Virtual or face-to-face learning activities.
  - Real world applications.

**ELEMENT E:** Teachers establish and communicate high expectations for all students and plan instruction that helps students develop critical-thinking and problem-solving skills.

**THE TEACHER:**
- Has high expectations for all students.
  - Holds students accountable for their learning.

**THE TEACHER:**
- Sets student expectations at a level that challenges students.
  - Incorporates critical thinking and problem-solving skills.

**THE TEACHER:**
- Challenges all students to learn to their greatest ability.
  - Teaches higher-order thinking and problem-solving skills.
  - Ensures that students perform at levels meeting or exceeding expectations.

**STUDENTS:**
- Help set their learning objectives.
  - Apply higher-order thinking and problem-solving skills to address challenging issues.

**STUDENTS:**
- Monitor their progress toward achieving teacher’s high expectations.
  - Seek opportunities to expand and enhance their problem-solving and higher order thinking skills.

- Professional Practice is Observable during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
## QUALITY STANDARD III
Teachers plan and deliver effective instruction and create an environment that facilitates learning for their students.

<table>
<thead>

### ELEMENT F: Teachers provide students with opportunities to work in teams and develop leadership qualities.

**THE TEACHER:**
- Includes all students in individual and group activities.

... and **THE TEACHER:**
- Plans lessons that:
  - Provide opportunities for students to participate using various roles and modes of communication.

... and **THE TEACHER:**
- Flexibly groups students.
- Adjusts team composition based on learning objectives and student needs.
- Varies group size, composition and tasks to create opportunities for students to learn from each other.

**STUDENTS:**
- Flexibly groups students.
- Adjusts team composition based on learning objectives and student needs.
- Varies group size, composition and tasks to create opportunities for students to learn from each other.

... and **STUDENTS:**
- Fulfill their assigned roles within the team.
- Assume leadership roles in their teams.

... and **STUDENTS:**
- Utilize group processes to build trust and promote effective interactions among team members.
- Participate in teams in ways that build trust and ownership of ideas among team members.

### ELEMENT G: Teachers communicate effectively, making learning objectives clear and providing appropriate models of language.

**THE TEACHER:**
- Communicates effectively with students.
- Models effective communication skills.
- Encourages students to communicate effectively.

... and **THE TEACHER:**
- Teaches students to be effective communicators.
- Provides opportunities for students to practice communication skills.

... and **STUDENTS:**
- Apply effective written and oral communication skills in their work.

... and **STUDENTS:**
- Use academic language in spoken and written work.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD III
Teachers plan and deliver effective instruction and create an environment that facilitates learning for their students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT H:** Teachers use appropriate methods to assess what each student has learned, including formal and informal assessments and use results to plan further instruction.

**THE TEACHER:**
- Involves students in monitoring their learning.
- Assesses learning outcomes appropriately.

. . . and

**THE TEACHER:**
- Implements appropriate strategies for assigning grades.
- Evaluates student performance based on multiple measures.
- Includes documentation of student progress toward mastery of state content standards in assessment plans.

. . . and

**THE TEACHER provides actionable, timely, specific and individualized feedback about the quality of student work to:**
- Students.
- Families and significant adults.
- Other professionals who work with students.

- **Teaches students to use feedback to improve their learning.**

. . . and

**STUDENTS:**
- Self-assess on a variety of skills and concepts.
- Articulate their personal strengths and needs based on self-assessment.
- Effectively use formal and informal feedback to monitor their learning.

. . . and

**STUDENTS assume ownership for:**
- Monitoring their progress.
- Setting learning goals.
- Applying teacher feedback to improve performance and accelerate their learning.

- Professional Practice is **Observable** during a classroom observation.
- Professional Practice is **Not Observable** during a classroom observation.

**Evaluator Comments:**
(Required for Ratings of “Basic” or “Partially Proficient” and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
QUALITY STANDARD IV
Teachers reflect on their practice.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT A:** Teachers demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.

**THE TEACHER:**
- Collects and analyzes student data to inform instruction.

Uses data to:
- Support student learning.
- Inform practice.

. . . and

**THE TEACHER:**
- Collects multiple examples of student work to determine student progress over time.

. . . and

**THE TEACHER** applies knowledge of how students learn and their prior knowledge to the development of:
- Lesson plans.
- Instructional strategies.

. . . and

**THE TEACHER** develops student learning plans based on:
- Multiple examples of student work.
- Other data points.
- Information gathered from students, families and colleagues.

. . . and

**THE TEACHER:**
- Monitors and evaluates personal behavioral changes to determine what works for students.

**ELEMENT B:** Teachers link professional growth to their professional goals.

**THE TEACHER:**
- Implements performance feedback from supervisor and/or colleagues to improve practice.

Actively engages in professional development focused on:
- Addressing student needs.
- School and district initiatives.
- Meeting professional goals.

. . . and

**THE TEACHER** engages in professional development activities based on:
- Likelihood of having a positive impact on student learning.
- Alignment with Colorado Academic Standards and school and district initiatives.
- Current research.
- Student needs.

. . . and

**THE TEACHER**:
- Advocates for professional development that is evidence based and targeted toward improving student outcomes.
- Applies knowledge and skills learned through professional development to professional practice.

. . . and

**THE TEACHER**:
- Implements new and different instructional strategies based on current research and district initiatives.
- Adapts teaching skills to meet student needs.

. . . and

**THE TEACHER**:
- Develops and follows a long-term professional development plan.

- Professional Practice is Observable during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.
QUALITY STANDARD IV
Teachers reflect on their practice.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT C:** Teachers are able to respond to a complex, dynamic environment.

**THE TEACHER** collaborates with colleagues to:
- Implement new ideas to improve teaching and learning.
- Support struggling students.
- Contribute to campus goals.

**THE TEACHER:**
- Maintains a positive, productive and respectful relationship with colleagues.

**THE TEACHER** initiates collaborative activities with colleagues to:
- Analyze student data and interpret results.
- Apply findings to improve teaching practice.

**THE TEACHER:**
- Serves as a critical friend for colleagues, both providing and receiving feedback on performance.

**THE TEACHER:**
- Strengthens teaching practice by adapting instructional practices based on colleague feedback and other types of performance data.

Professional Practice is **Observable** during a classroom observation.
- Professional Practice is Not Observable during a classroom observation.

**Evaluator Comments:**
(Required for Ratings of “Basic” or “Partially Proficient” and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD V
Teachers demonstrate leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

#### ELEMENT A: Teachers demonstrate leadership in their schools.

**THE TEACHER:**
- ☐ Participates in school activities expected of all teachers.
- ☐ Works collaboratively for the benefit of students and families.
- ☐ Supports school goals and initiatives.

... and

**THE TEACHER:**
- ☐ Shares expertise with colleagues.
- ☐ Leads professional growth and development activities whenever possible.
- ☐ Participates in district-wide decision-making processes that impact the school community, including families.
- ☐ Advocates for the inclusion of teachers and families in education and government decision-making processes.

**THE TEACHER:**
- ☐ Collaborates with school-based teams to leverage the skills and knowledge of colleagues and families.
- ☐ Confers with school administrators, other school leaders and/or decision making teams to improve teacher working and student learning conditions.
- ☐ Partner with families.
- ☐ Support struggling students.

---

- Professional Practice is *Observable* during a classroom observation.
- Professional Practice is *Not Observable* during a classroom observation.
### QUALITY STANDARD V

Teachers demonstrate leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

#### ELEMENT C: Teachers advocate for schools and students, partnering with students, families and communities as appropriate.

- **THE TEACHER:**
  - [ ] Advocates for students with families and other significant adults using a variety of communication tools and strategies.
  - **THE TEACHER:**
  - [ ] Discusses potential revisions to policies and procedures with administrators to better address student, family and school needs.
  - **THE TEACHER:**
  - [ ] Contributes to school and/or district committees to advocate for students and their families.
  - **THE TEACHER:**
  - [ ] Advocates for students and the school to external agencies and groups.
  - **THE TEACHER:**
  - [ ] Discusses potential revisions to policies and procedures with administrators to better address student, family and school needs.
  - **THE TEACHER:**
  - [ ] Contributes to school and/or district committees to advocate for students and their families.
  - **THE TEACHER:**
  - [ ] Advocates for students and the school to external agencies and groups.

#### ELEMENT D: Teachers demonstrate high ethical standards.

- **THE TEACHER:**
  - [ ] Maintains confidentiality of student records as required by law.
  - [ ] Adheres to standards of professional practice.
  - **THE TEACHER:**
  - [ ] Models ethical behavior, including honesty, integrity, fair treatment and respect for others.
  - [ ] Maintains confidentiality of student, family and fellow teacher interactions as well as student data.
  - **THE TEACHER:**
  - [ ] Helps students understand the importance of ethical behavior as an individual and member of society.

- **STUDENTS demonstrate:**
  - [ ] Honesty.
  - [ ] Respect for others.

- [ ] Professional Practice is Observable during a classroom observation.
- [ ] Professional Practice is Not Observable during a classroom observation.

**Evaluator Comments:**
(Required for Ratings of “Basic” or “Partially Proficient” and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
**Teacher Evaluation Worksheet**

This form is designed to be completed by the evaluator prior to the final evaluation and goal-setting meeting held each spring. The teacher and evaluator should discuss the contents of this form and the accompanying Summary Evaluation Sheet and at that time they should agree on the professional practices ratings as well as the recommended actions for improvement, resources needed to accomplish those actions and a determination of how the teacher and evaluator will know improvements have been made.

### QUALITY STANDARD I

Teachers demonstrate mastery of and pedagogical expertise in the content they teach. The elementary teacher is an expert in literacy and mathematics and is knowledgeable in all other content that he or she teaches (e.g., science, social studies, arts, physical education, or world languages). The secondary teacher has knowledge of literacy and mathematics and is an expert in his or her content endorsement area(s).

Observations, Required Measures and Other Evidence/Artifacts

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For teachers, this requirement is defined as observations, required measures and optional additional measures (evidence/artifacts). While the teacher rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

OBSERVATIONS REQUIRED BY S.B. 10-191:

- **Probationary teachers** – At least two documented observations and at least one evaluation that results in a written evaluation report each year.
- **Non-probationary teachers** – At least one documented observation every year and one evaluation that results in a written evaluation report including fair and reliable measures of performance against Quality Standards. every three years.

The frequency and duration of the evaluations shall be on a regular basis and of such frequency and duration as to ensure the collection of a sufficient amount of data from which reliable conclusions and findings may be drawn. Written evaluation reports shall be based on performance standards and provided to the teacher at least two weeks before the last class day of the school year.

REQUIRED MEASURES FOR TEACHERS:
Include at least one of the following measures as a part of the annual evaluation process.
- Student perception measures, where appropriate and feasible;
- Peer feedback;
- Feedback from parents or guardians;
- Review of teacher lesson plans or student work samples.

ADDITIONAL EVIDENCE/ARTIFACTS:
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

- Anecdotal Records
- Assessment Plans
- Data Analysis Record
- Documentation of service on teams, task forces and committees
- Feedback from Walkthroughs
- Formative and Summative Assessment of Student Work
- Instructional Activities Schedules
- Lesson Plans/Units of Study
- Notes from parent and community meetings
- Parent Feedback
- Records of Advocacy Activities Responses to Feedback
- Self-Reflection Templates
- Student Achievement Data
- Student Feedback
- Student Journals/Learning Logs
- Student Portfolios
- Student Work
Teacher Summary Evaluation Sheet

This form provides a summary of the teacher’s ratings on Quality Standards I through V and their associated elements and should be used to guide discussions regarding strengths and areas needing improvement. It may also be used to inform the teacher’s growth plan and development of personal and school goals for the subsequent year.

<td></td>
<td></td>
</tr>
<tr>
<td>D. Teachers demonstrate high ethical standards.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Total Points Earned for Standard V

**Determine Rating for Standard V:**
- 0 to 1 points = Basic
- 2 to 5 points = Partially Proficient
- 6 to 9 points = Proficient
- 10 to 13 points = Accomplished
- 14 to 16 points = Exemplary

**Determine contribution of Standard V to the Overall Professional Practices Rating:**

\[
\text{Calculation Work Space}\ast = \frac{(\text{Total Pts. Earned for Std. V}) \times (\text{Std. V Weight} \times \text{No. of Standards})}{(\text{Number of Elements Associated with Standard})}
\]

\*All calculations should be carried to three decimal places and results rounded to two decimal places.
Determining the Overall Rating for Professional Practices

Scoring of the rubric is designed so that each standard may be weighted by the district or BOCES in order to emphasize the initiatives or skills of importance to the locality. Weighting of the standards impacts the overall professional practices rating (Basic, Partially Proficient, Proficient, Accomplished, Exemplary), which in turn impacts the educator’s final effectiveness rating (Ineffective, Partially Effective, Effective or Highly Effective). Guidance for determining the final effectiveness rating using both the overall professional practices rating and measures of student learning may be found here.

Teacher Professional Growth Plan

This professional growth plan may be used to record up to three Professional Growth Goals aligned with your evaluation results. The goals should be specific and measurable. While each of the goals is important, they should be listed in rank order with the most important listed first. Also record the action steps required to address each growth goal. Please insert additional rows if additional goals are needed. (Please note, districts may choose to use a different type of plan. This one is provided as an example of key information that should be included in any plan selected by the district.)

**Goal 1:**

1. 

2. 

3. 

**Goal 2:**

1. 

2. 

3. 

**Goal 3:**

1. 

2. 

3.
Principals and assistant principals have many areas of responsibility. They are the holders of the school vision and facilitate the strategies needed to accomplish the school’s goals. They provide instructional leadership for teachers, manage interpersonal dynamics within the school and community and oversee budget, human resources and other operational functions. Ultimately, the principal is responsible for the success of the school.

Principals and assistant principals in Colorado will be evaluated on measures of student learning/outcomes as well as their demonstrated leadership abilities, including their ability to effectively support the teachers in their schools. The use of Professional Growth Plans will guide their professional planning, goal-setting, professional development and evaluation criteria.
The Colorado State Model Evaluation System for Principals includes the following components:

1. The Statewide Definition of Principal and Assistant Principal Effectiveness

All districts and BOCES are required to use the state-approved definitions for effectiveness for the person or group whose evaluations they are conducting.

Effective principals in the state of Colorado are responsible for the collective success of their schools, including the learning, growth and achievement of both students and staff. As schools’ primary instructional leaders, effective principals enable critical discourse and data-driven reflection about curriculum, assessment, instruction and student progress and create structures to facilitate improvement. Effective principals are adept at creating systems that maximize the utilization of resources and human capital, foster collaboration and facilitate constructive change. By creating a common vision and articulating shared values, effective principals lead and manage their schools in a manner that supports schools’ ability to promote equity and to continually improve their positive impact on students and families.

2. The Colorado Principal Quality Standards and Their Related Elements and Artifacts

These are from the Rules issued on Nov. 9, 2011 and approved on Feb. 15, 2012.

The Principal Quality Standards outline the knowledge and skills required of an effective principal and will be used to evaluate principals in the state of Colorado. All school districts and BOCES shall base their evaluations of their principals on either the full set of Principal Quality Standards and associated elements included below, or shall adopt their own locally-developed standards that meet or exceed the Principal Quality Standards and Elements. A school district or BOCES that adopts its own locally-developed standards shall crosswalk those standards to the Principal Quality Standards and elements, so that the school district or BOCES is able to report the data required by section 6.04 of the State Board Rules for Written Evaluation Systems.

**QUALITY STANDARD I**

Principals demonstrate strategic leadership.

**ELEMENT A: School Vision, Mission and Strategic Goals**

Principals collaboratively develop the vision, mission, values, expectations and goals of the school, collaboratively determine the processes used to establish these foundations and facilitate their integration into the life of the school community.

**ELEMENT B: School Plan**

Principals ensure that a plan is in place that supports improved academic achievement and developmental outcomes for all students and provides for data-based progress monitoring.

**ELEMENT C: Leading Change**

Principals solicit input and collaborate with staff and their school community to implement strategies for change and improvements that result in improved achievement and developmental outcomes for all students.

**ELEMENT D: Distributive Leadership**

Principals create and utilize processes to distribute leadership and support collaborative efforts throughout the school among teachers and administrators.
QUALITY STANDARD II
Principals demonstrate instructional leadership.

ELEMENT A: Curriculum, Instruction, Learning and Assessment
Principals promote school-wide efforts to establish, implement and refine appropriate expectations for curriculum, instructional practices, assessment and use of data on student learning based on scientific research and evidence-based practices that result in student academic achievement.

ELEMENT B: Instructional Time
Principals create processes and schedules which maximize instructional, collaborative and preparation time.

ELEMENT C: Implementing High-Quality Instruction
Principals support teachers through ongoing, actionable feedback and needs-based professional development to ensure that rigorous, relevant and evidence-based instruction and authentic learning experiences meet the needs of all students and are aligned across P-20.

ELEMENT D: High Expectations for All Students
Principals hold all staff accountable for setting and achieving rigorous performance goals for all students and empower staff to achieve these goals across content areas.

ELEMENT E: Instructional Practices
Principals demonstrate a rich knowledge of effective instructional practices, as identified by research on best practices, in order to support and guide teachers in data-based decision making regarding effective practices to maximize student success.

QUALITY STANDARD III
Principals demonstrate school cultural and equity leadership.

ELEMENT A: Intentional and Collaborative School Culture
Principals articulate, model and positively reinforce a clear vision and values of the school’s culture and involve students, families and staff in creating an inclusive and welcoming climate that supports it.

ELEMENT B: Commitment to the Whole Child
Principals promote the cognitive, physical, social and emotional health, growth and skill development of every student.

ELEMENT C: Equity Pedagogy
Principals demonstrate a commitment to a diverse population of students by creating an inclusive and positive school culture and provide instruction in meeting the needs of diverse students, talents, experiences and challenges in support of student achievement.

ELEMENT D: Efficacy, Empowerment and a Culture of Continuous Improvement
Principals and their leadership team foster a school culture that encourages continual improvement through reliance on research, innovation, prudent risk-taking, high expectations for all students and teachers and a valid assessment of outcomes.
QUALITY STANDARD IV
Principals demonstrate human resource leadership.

ELEMENT A: Professional Development/Learning Communities
Principals ensure that the school is a professional learning community that provides opportunities for collaboration, fosters teacher learning and develops teacher leaders in a manner that is consistent with local structures, contracts, policies and strategic plans.

ELEMENT B: Recruiting, Hiring, Placing, Mentoring and Dismissal of Staff
Principals establish and effectively manage processes and systems that ensure a knowledgeable, high-quality, high-performing staff.

ELEMENT C: Teacher and Staff Evaluation
Principals evaluate staff performance using the district’s educator evaluation system in order to ensure that teachers and staff are evaluated in a fair and equitable manner with a focus on improving teacher and staff performance and, thus, student achievement.

QUALITY STANDARD V
Principals demonstrate managerial leadership.

ELEMENT A: School Resources and Budget
Principals establish systems for marshaling all available school resources to facilitate the work that needs to be done to improve student learning, academic achievement and overall healthy development for all students.

ELEMENT B: Conflict Management and Resolution
Principals proactively and efficiently manage the complexity of human interactions and relationships, including those among and between parents/guardians, students and staff.

ELEMENT C: Systematic Communication
Principals facilitate the design and utilization of various forms of formal and informal communication with all school stakeholders.

ELEMENT D: School-wide Expectations for Students and Staff
Principals ensure that clear expectations, structures, rules and procedures are established for students and staff.

ELEMENT E: Supporting Policies and Agreements
Principals regularly update their knowledge of federal and state laws and school district and board policies, including negotiated agreements, if applicable and establish processes to ensure that these policies, laws and agreements are consistently met and implemented.

ELEMENT F: Ensuring an Orderly and Supportive Environment
Principals ensure that the school provides an orderly and supportive environment that fosters a climate of safety, respect and well-being.
QUALITY STANDARD VI
Principals demonstrate external development leadership.

ELEMENT A: Family and Community Involvement and Outreach
Principals design and/or utilize structures and processes which result in family and community engagement, support and ownership for the school.

ELEMENT B: Professional Leadership Responsibilities
Principals strive to improve the profession by collaborating with their colleagues, school district leadership and other stakeholders to drive the development and successful implementation of initiatives that better serve students, teachers and schools at all levels of the education system. They ensure that these initiatives are consistent with federal and state laws, school district and board policies and negotiated agreements where applicable.

ELEMENT C: Advocacy for the School
Principals develop systems and relationships to leverage the school district and community resources available to them both within and outside of the school in order to maximize the school’s ability to serve the best interest of students and families.

QUALITY STANDARD VII
Principals demonstrate leadership around measures of student learning.

ELEMENT A: Student Academic Achievement and Growth
Principals take responsibility for ensuring that all students are progressing toward postsecondary and workforce readiness standards to be mastered by high school graduation. Principals prepare students for success by ensuring mastery of all Colorado Academic Standards, including 21st century skills.

ELEMENT B: Student Academic Growth and Development
Principals take responsibility for facilitating the preparation of students with the skills, dispositions and attitudes necessary for success in work and postsecondary education, including democratic and civic participation.

ELEMENT C: Use of Data
Principals use evidence and data to evaluate the performance and practices of their schools, in order to continually improve attainment of student academic growth. They take responsibility and devise an intentional plan for ensuring that staff is knowledgeable in how to utilize evidence and data to inform instructional decision making to maximize the educational opportunities and instructional program for every child.

Please note: Standard VII is not included as a part of determination of ratings on professional practices that is described in this user’s guide. It is described in a separate document that can be found on the CDE website.
3. Measures Used to Determine Effectiveness

Measures used to determine the effectiveness of principals and assistant principals include:

- Measures of professional practice (Standards I-VI) that may include teacher and staff perceptions and the distribution of effectiveness ratings of teachers in the school, as well as multiple other measures
- Multiple measures of student academic growth and achievement (Standard VII) that may include measures contained in the School Performance Framework and at least one other measure and that are consistent with the measures of student learning/outcomes used to evaluate teachers in the school

4. Procedures for Conducting Evaluations

Procedures for conducting evaluations may be determined by the district/BOCES, provided that they ensure that data is regularly collected, associated feedback and improvement opportunities are regularly provided and principals/assistant principals receive a formal evaluation and performance standard rating by the end of each academic year.

5. Performance Standards (Final Effectiveness Rating Levels)

The use of four performance standards (Highly Effective, Effective, Partially Effective and Ineffective) to rate educator performance allows more precision about professional expectations, identifies educators in need of improvement and recognizes performance that is of exceptional quality. These standards are also commonly referred to as the final effectiveness rating level.
EXHIBIT 25: Framework for System to Evaluate Principals and Assistant Principals
**Evaluation Process Tracking Form**

This form is used to track the principal’s and evaluator’s progress toward completing all steps in the evaluation process throughout the school year. As each step in the process is completed, the principal and/or evaluator sign and date the form in the appropriate cell. This form is for the educators who are not using an online system, which should provide tracking and reporting as an option for users.

</tr>
</thead>
</table>

**ELEMENT A: School Vision, Mission and Strategic Goals**
Principals collaboratively develop the vision, mission, values, expectations and goals of the school, collaboratively determine the processes used to establish these foundations and facilitate their integration into the life of the school community.

**THE PRINCIPAL**
- Ensures that the vision, mission, values, beliefs and goals of school are:
  - Familiar to staff and other stakeholders.
  - Developed through a collaborative process including staff and other stakeholder groups.
  - Routinely updated.
- THE PRINCIPAL
  - Ensures that the school’s vision, mission and strategic goals are:
    - Part of routine school communications with staff and other stakeholders.
    - Integrated into school programs.

**THE PRINCIPAL**
- Collaboratively establishes strategic goals that are:
  - Focused on student achievement.
  - Based on the analysis of multiple sources of information.
  - Aligned with district priorities.
  - Measurable.
  - Rigorous.
  - Concrete.

**SCHOOL STAFF MEMBERS:**
- Incorporate strategic goals into their instructional plans.
- Identify and address barriers to achieving the school’s vision, mission and goals.

**SCHOOL STAFF MEMBERS AND OTHER STAKEHOLDERS:**
- Collaboratively implement strategies to address the school’s vision, mission and strategic goals.
- Assume leadership roles in updating the school’s vision, mission and strategic goals.
QUALITY STANDARD I
Principals demonstrate strategic leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT B: School Plan
Principals ensure that a plan is in place that supports improved academic achievement and developmental outcomes for all students and provides for data-based progress monitoring.

**THE PRINCIPAL:**
- Implements systems and processes for planning and managing change.
- Works collaboratively to develop the school plan.

... and **THE PRINCIPAL** communicates effectively to staff and other stakeholders:
- Personal commitment to continuous school and district improvement.
- Components of school’s plan.
- Progress toward meeting school goals and outcomes.

**SCHOOL STAFF MEMBERS AND OTHER STAKEHOLDERS:**
- Conscientiously implement the school plan.
- Address barriers to achieving school’s vision, mission and strategic goals.

... and **SCHOOL STAFF MEMBERS:**
- Track student progress.
- Collaboratively develop short-term and long-term plans to improve student outcomes.

ELEMENT C: Leading Change
Principals solicit input and collaborate with staff and their school community to implement strategies for change and improvements that result in improved achievement and developmental outcomes for all students.

**THE PRINCIPAL:**
- Acknowledges the importance of meaningful change.
- Has processes in place for:
  - Resource allocation.
  - Addressing barriers to change.

... and **THE PRINCIPAL:**
- Provides support for change efforts within the school.
- Coaches others in leading change.

**SCHOOL STAFF MEMBERS:**
- Lead school planning efforts.
- Implement approved school change strategies.
- Set challenging student learning goals.

... and **SCHOOL STAFF MEMBERS:**
- Lead school change efforts.
- Anticipate, identify and address barriers to positive change.
QUALITY STANDARD I
Principals demonstrate strategic leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT D: Distributive Leadership**
Principals create and utilize processes to distribute leadership and support collaborative efforts throughout the school among teachers and administrators.

**THE PRINCIPAL:**
- ☐ Involves staff in the school’s decision making processes.
- ☐ Assumes responsibility for decision making process.
- ☐ Includes parents, families and the larger school community in decision making processes.

**SCHOOL STAFF MEMBERS:**
- ☐ Lead planning and monitoring efforts.
- ☐ Collaborate on school planning efforts.

**SCHOOL STAFF MEMBERS AND OTHER STAKEHOLDERS:**
- ☐ Participate in meaningful school leadership activities.

**Evaluator Comments:**
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Response of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD II
Principals demonstrate instructional leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

#### ELEMENT A: Curriculum, Instruction, Learning and Assessment
Principals promote school-wide efforts to establish, implement and refine appropriate expectations for curriculum, instructional practices, assessment and use of data on student learning based on scientific research and evidence-based practices that result in student academic achievement.

**THE PRINCIPAL**
sets expectations for staff regarding:
- Differentiating instruction.
- Assessing student work.
- Monitoring student progress.
- Aligning instructional strategies with student performance standards.
- Applying research based strategies.

. . . and

**THE PRINCIPAL** reinforces instructional initiatives through:
- School wide activities.
- Implementation of the district’s approved curriculum.
- Clear, consistent and frequent communication with staff.
- Consistent and objective use of data for decision making.

. . . and

**THE PRINCIPAL** implements a school wide instructional approach that is:
- Reflective of input from staff.
- Aligned with student performance standards.
- Supported by research.
- Enhanced by the use of appropriate technologies.

. . . and

**SCHOOL STAFF MEMBERS:**
- Develop and implement ideas for improving student learning.
- Use evidence-based practices.
- Refine curriculum, instruction and assessment approaches based on data, school wide discussions and idea generation.

. . . and

**SCHOOL STAFF MEMBERS:**
- Initiate classroom based changes based on discussions with colleagues and results of data analysis.
- Make corrections to their instructional approaches based on personal reflection.
- Use evidence-based strategies appropriate for addressing school and student needs.

#### ELEMENT B: Instructional Time
Principals create processes and schedules which maximize instructional, collaborative and preparation time.

**THE PRINCIPAL:**
- Limits interruptions to instruction.

. . . and

**THE PRINCIPAL:**
- Manages time so teaching and learning are the school’s top priority.
- Implements a master schedule providing planning and collaboration time for all staff.

. . . and

**THE PRINCIPAL:**
- Quickly and efficiently resolves issues that disrupt the school day.

. . . and

**SCHOOL STAFF MEMBERS**
protect instructional time by:
- Assuring that students stay on task.
- Limiting transitions that can influence time available.

. . . and

**SCHOOL STAFF MEMBERS:**
- Advocate to administrators for uninterrupted instructional time.
- Adjust instructional strategies to maximize time on task.
QUALITY STANDARD II
Principals demonstrate instructional leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT C: Implementing High-quality Instruction
Principals support teachers through ongoing, actionable feedback and needs-based professional development to ensure that rigorous, relevant and evidence-based instruction and authentic learning experiences meet the needs of all students and are aligned across P-20.

THE PRINCIPAL:
- Provides needs-based professional development.
- Supports staff in the implementation of a rigorous instructional program.

THE PRINCIPAL:
- Aligns professional development offerings with the school’s most critical needs.
- Actively engages in professional development activities along with staff.

THE PRINCIPAL:
- Provides performance feedback to teachers that is:
  - Actionable.
  - Timely.

THE PRINCIPAL:
- . . . and
  - Aligns the school’s instructional program with the school’s most critical needs.

THE PRINCIPAL:
- . . . and
  - Actively participates in the development of professional development activities.

SCHOOL STAFF MEMBERS:
- Identifies the school’s instructional program.
- Aligns the school’s instructional program with the school’s most critical needs.

SCHOOL STAFF MEMBERS:
- Actively participates in the development of professional development activities.

SCHOOL STAFF MEMBERS:
- Identifies the school’s instructional program.

SCHOOL STAFF MEMBERS:
- Identifies the school’s instructional program.

ELEMENT D: High Expectations for all Students
Principals hold all staff accountable for setting and achieving rigorous performance goals for all students and empower staff to achieve these goals across content areas.

THE PRINCIPAL:
- Leads the development of student outcomes and educator goals.

THE PRINCIPAL:
- Communicates a belief in high measurable goals/outcomes for students and staff.

THE PRINCIPAL:
- Sets student learning goals that are:
  - Measurable.
  - Rigorous.
  - Consistently addressed.
  - Aligned with district priorities.
  - Based on multiple sources of information.
  - Holds staff accountable for achieving student learning goals.

SCHOOL STAFF MEMBERS:
- Set rigorous but achievable individual learning goals for students.
- Participate in the development of rigorous but achievable school goals.

SCHOOL STAFF MEMBERS:
- Ensure that all students achieve the rigorous outcomes they set for them.
## QUALITY STANDARD II
Principals demonstrate instructional leadership.

</thead>
</table>

### ELEMENT E: Instructional Practices
Principals demonstrate a rich knowledge of effective instructional practices, as identified by research on best practices, in order to support and guide teachers in data-based decision making regarding effective practices to maximize student success.

**THE PRINCIPAL:**
- ☐ Provides instructional coaching for teachers.
- ☐ Stays abreast of evidence-based practices associated with improved student learning.

**THE PRINCIPAL:**
- ☐ Participates in professional development and adult learning activities to understand evidence-based student learning research.
- ☐ Provides data-based feedback on instructional practices to teachers.

**THE PRINCIPAL:**
- ☐ Evaluates professional development activities to assure that they result in improved instructional and assessment practices.
- ☐ Supports teacher efforts to engage in data-based decision making.

**SCHOOL STAFF MEMBERS:**
- ☐ Use data to guide and support instructional changes.
- ☐ Collect, analyze and share data related to changes to instructional practices.

**SCHOOL STAFF MEMBERS:**
- ☐ Share knowledge of school successes with colleagues and others interested in making positive school changes.

**Evaluator Comments:**
(Required for Rating of “Basic” or “Partially Proficient” and recommended for all rating levels.)

**Response of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD III
Principals demonstrate school culture and equity leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>

<th>Exemplary</th>
</tr>
</thead>
</table>

### ELEMENT A: Intentional and Collaborative School Culture
Principals articulate, model and positively reinforce a clear vision and values of the school’s culture and involve students, families and staff in creating an inclusive and welcoming climate that supports it.

**THE PRINCIPAL:**
- ☐ Establishes a school culture that is inviting to students, staff and visitors.
- ☐ Communicates with families and the community:
  - ☐ Frequently.
  - ☐ Focusing on including them in the school’s activities.
  - ☐ In an inclusive manner.

... and **THE PRINCIPAL** invites families and community members into the school to participate in:
- ☐ Decision making processes.
- ☐ Parent conferences.
- ☐ Activities to learn about how to help students.

... and **THE PRINCIPAL**:
- ☐ Establishes an inclusive school culture based on collaboration among and between students, parents, staff and the community.
- ☐ Consistently monitors school culture to ensure that it is conducive to student learning.

**PARENTS, FAMILIES AND COMMUNITY MEMBERS** participate in:
- ☐ A variety of meaningful school-based activities.
- ☐ Decision making processes related to their children’s education.

**PARENTS AND SCHOOL STAFF MEMBERS:**
- ☐ Collaborate on student learning initiatives.

### ELEMENT B: Commitment to the Whole Child
Principals promote the cognitive, physical, social and emotional health, growth and skill development of every student.

**THE PRINCIPAL:**
- ☐ Understands the interconnectedness of students’ physical, cognitive, social and emotional health and welfare.
- ☐ Implements an approach to learning that integrates research based practices to address students’ cognitive, physical, social and emotional health and welfare.

... and **THE PRINCIPAL**:
- ☐ Monitors school activities and initiatives to ensure that all of the students’ needs are addressed.

... and **SCHOOL STAFF MEMBERS:**
- ☐ Identify and address the needs of the whole child.
- ☐ Seek advice of experts who can help address student needs when necessary.

... and **SCHOOL STAFF MEMBERS:**
- ☐ Address student needs in a holistic, integrated and comprehensive manner.
QUALITY STANDARD III
Principals demonstrate school culture and equity leadership.

<table>
<thead>
<tr>
<th>Basic</th>

</thead>
</table>

**ELEMENT C: Equity Pedagogy**
Principals demonstrate a commitment to a diverse population of students by creating an inclusive and positive school culture and provide instruction in meeting the needs of diverse students, talents, experiences and challenges in support of student achievement.

**THE PRINCIPAL:**
- ☐ Understands the diversity of the school community.
- ☐ Recognizes that diversity is an asset to the school.

THE PRINCIPAL:  
- ☐ Sets student expectations that reflect an understanding of and respect for their backgrounds, needs, or skills.
- ☐ Provides all students opportunities to showcase their skills and talents.
- ☐ Demonstrates an appreciation for and sensitivity to diversity in the school community.

... and

**SCHOOL STAFF MEMBERS:**
- ☐ Ensure that all students are treated with respect and dignity.
- ☐ Respect students for their unique talents and skills.

**STUDENTS:**
- ☐ Accept and respect fellow students who are different from them.
### QUALITY STANDARD III
Principals demonstrate school culture and equity leadership.

<table>

</tr>
</thead>
</table>

#### ELEMENT D: Efficacy, Empowerment and a Culture of Continuous Improvement
Principals and their leadership team foster a school culture that encourages continual improvement through reliance on research, innovation, prudent risk-taking, high expectations for all students and teachers and a valid assessment of outcomes.

**THE PRINCIPAL:**
- ☐ Routinely assesses student outcomes.
- ☐ Requires staff to use data to identify needed improvements to teaching and learning activities.

... and **THE PRINCIPAL:**
- ☐ Develops the capacity of staff and other stakeholders to use data for decision making.

... and **THE PRINCIPAL** creates a culture of risk taking and learning within the school by:
- ☐ Developing new initiatives and monitoring their impact on student learning.
- ☐ Eliminating ineffective activities and initiatives.

... and **SCHOOL STAFF MEMBERS** participate in the evaluation of:
- ☐ Instructional approaches.
- ☐ Progress toward achieving school goals and student outcomes.

... and **SCHOOL STAFF MEMBERS** recommend:
- ☐ Activities and initiatives for elimination or scale back.
- ☐ Evidence based programs, practices and instructional programs for implementation.

**Evaluator Comments:**
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Response of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
QUALITY STANDARD IV
Principals demonstrate human resource leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT A: Professional Development/Learning Communities
Principals ensure that the school is a professional learning community that provides opportunities for collaboration, fosters teacher learning and develops teacher leaders in a manner that is consistent with local structures, contracts, policies and strategic plans.

THE PRINCIPAL:
- Organizes the school as a professional learning community.
- Provides professional development that is:
  - Of high quality.
  - Tailored to meet staff needs.
  - Focused on student learning.
  - Research based.
  - Job embedded.
  - Designed to meet student learning needs.
  - Aligned with the school improvement plan.

SCHOOL STAFF MEMBERS:
- Actively engage in the creation and implementation of the school’s professional learning community.

SCHOOL STAFF MEMBERS:
- Assume leadership roles within professional learning communities.

ELEMENT B: Recruiting, Hiring, Placing, Mentoring and Dismissal of Staff
Principals establish and effectively manage processes and systems that ensure a knowledgeable, high-quality, high-performing staff.

THE PRINCIPAL:
- Adheres to district and state policies and procedures related to personnel activities.
- Makes assignments within the parameters of district policy.
- Supports low performing teachers in ways that will improve their performance.
- Places personnel in positions to ensure that all students have equal access to highly effective teachers.
- Dismisses or does not rehire teachers when necessary.
- Accept school placements where they are needed most in order to address student learning needs.
- Use the advice of coaches, mentors, and/or experts in various fields in order to improve their practice.

SCHOOL STAFF MEMBERS:
- Accept school placements where they are needed most in order to address student learning needs.
- Use the advice of coaches, mentors, and/or experts in various fields in order to improve their practice.
QUALITY STANDARD IV
Principals demonstrate human resource leadership.

**ELEMENT C: Teacher and Staff Evaluation**
Principals evaluate staff performance using the district’s educator evaluation system in order to ensure that teachers and staff are evaluated in a fair and equitable manner with a focus on improving teacher and staff performance and, thus, student achievement.

**THE PRINCIPAL:**
- ☐ Understands the importance of consistent and rigorous evaluations of school staff members.

**THE PRINCIPAL** conducts staff evaluation activities:
- ☐ In line with district policies.
- ☐ On time.
- ☐ Using multiple measures.
- ☐ Uses evaluation results to identify professional development and growth needs of teachers and staff.

**THE PRINCIPAL:**
- ☐ Provides mentoring, coaching and other resources for staff whose performance needs improvement.

**SCHOOL STAFF MEMBERS:**
- ☐ Hold themselves accountable for meeting or exceeding student outcomes and school goals.

**SCHOOL STAFF MEMBERS:**
- ☐ Adhere to the district’s personnel evaluation process.
- ☐ Use personnel evaluation results to improve performance over time.

**Evaluator Comments:**
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Response of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD V

</thead>
</table>

**ELEMENT A: School Resources and Budget**
Principals establish systems for marshaling all available school resources to facilitate the work that needs to be done to improve student learning, academic achievement and overall healthy development for all students.

**THE PRINCIPAL** manages school’s budget with respect to:
- District guidelines.
- Standard accounting procedures.
- Student and staff needs.

. . . and **THE PRINCIPAL:**
- Focuses school resources on teaching and learning.
- Allocates resources to:
  - Fund priority needs first.
  - Support the attainment of strategic goals and student outcomes.
  - Continuous school improvement.
  - Professional development.

. . . and **THE PRINCIPAL:**
- Manages and monitors fiscal, physical and personnel resources efficiently and effectively.
- Creates management structures to support the alignment of resources with school goals and student outcomes.

. . . and **SCHOOL STAFF MEMBERS:**
- Support the development of external partnerships that support teaching and learning.
- Use school resources for the benefit of students.
- Fully support the alignment of resources with school goals and student outcomes.
- Participate in the budgeting and prioritization process as requested.

**ELEMENT B: Conflict Management and Resolution**
Principals proactively and efficiently manage the complexity of human interactions and relationships, including those among and between parents/guardians, students and staff.

**THE PRINCIPAL:**
- Builds positive relationships between and among students, staff members and parents/guardians.
- Interacts with students, staff and other stakeholders as needed in order to defuse potentially stressful situations.
- Resolves issues as they arise to prevent long-term problems.
- Models fairness and consistency when dealing with students, staff and parents/guardians.

. . . and **SCHOOL STAFF MEMBERS:**
- Build positive relationships with each other.
- Manage conflicts or tense situations between and among students, parents and colleagues.
- Anticipate problems and adjust behaviors to avoid conflict.
QUALITY STANDARD V
Principals demonstrate managerial leadership.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT C: Systematic Communication
Principals facilitate the design and utilization of various forms of formal and informal communication with all school stakeholders.

THE PRINCIPAL:
- Communicates with students, parents and the community on a regular basis.
- Responds to contact from parents and community members in a timely and meaningful manner.

THE PRINCIPAL:
- Prioritizes communication as a high priority area for the school.
- Invites parents and the community to share ideas and concerns.

SCHOOL STAFF MEMBERS:
- Use existing communication structures such as newsletters and blogs to expand and enhance communication between the classroom and the school community.

SCHOOL STAFF MEMBERS:
- Establish effective strategies to sustain positive meaningful communications with parents, students and the community.

ELEMENT D: School-wide Expectations for Students and Staff
Principals ensure that clear expectations, structures, rules and procedures are established for students and staff.

THE PRINCIPAL:
- Adheres to rules and procedures required by district administration.
- Establishes school rules and procedures.

THE PRINCIPAL:
- Establishes rules and procedures appropriate for all members of the school community.
- Routinely reviews and revises rules and procedures to assure their continued relevance.

THE PRINCIPAL:
- Establishes and clearly articulates high expectations for all students and staff.
- Demonstrates values, beliefs and attitudes that inspire students and staff to higher levels of performance.

SCHOOL STAFF MEMBERS:
- Adhere to school and district rules and procedures.
- Establish and enforce high expectations for student classroom behavior.
### QUALITY STANDARD V
Principals demonstrate managerial leadership.

**ELEMENT E: Supporting Policies and Agreements**
Principals regularly update their knowledge of federal and state laws and school district and board policies, including negotiated agreements, if applicable and establish processes to ensure that these policies, laws and agreements are consistently met and implemented.

**THE PRINCIPAL:**
- ☐ Complies with district policies and negotiated agreements.
- ☐ Is familiar with state and federal laws and district and state policies.

. . . and
- **THE PRINCIPAL:**
  - ☐ Inquires about policies/laws prior to making decisions.
  - ☐ Establishes procedures to protect the confidentiality of staff and student information.
  - ☐ Studies changes to laws and policies to maintain the school’s compliance.

. . . and
- **THE PRINCIPAL:**
  - ☐ Efficiently and effectively manages school or district contractual arrangements.
  - ☐ Provides meaningful and timely input into the development of district and board policy.

. . . and
- **SCHOOL STAFF MEMBERS:**
  - ☐ Adhere to all school and district policies and procedures.
  - ☐ Efficiently and effectively manages school or district contractual arrangements.
  - ☐ Adhere to all school and district policies and procedures.
  - ☐ Efficiently and effectively manages school or district contractual arrangements.

. . . and
- **SCHOOL STAFF MEMBERS:**
  - ☐ Provide school and/or district administrators input regarding policies and procedures.
  - ☐ Suggest new or revised policies and procedures to help assure student success.

**ELEMENT F: Ensuring an Orderly and Supportive Environment**
Principals ensure that the school provides an orderly and supportive environment that fosters a climate of safety, respect and well-being.

**THE PRINCIPAL:**
- ☐ Understands the importance of establishing a safe, positive and supportive school environment.
- ☐ Addresses safety issues immediately and efficiently.

. . . and
- **THE PRINCIPAL:**
  - ☐ Establishes rules and procedures to maintain a safe and positive school culture.

. . . and
- **THE PRINCIPAL:**
  - ☐ Expect students and teachers to respect diverse interests and attitudes.
  - ☐ Creates mechanisms to ensure all stakeholder voices are heard and respected.

. . . and
- **SCHOOL STAFF MEMBERS:**
  - ☐ Demonstrate respectful behavior toward students, parents, stakeholders and colleagues.

. . . and
- **SCHOOL STAFF MEMBERS**
  - initiate activities designed to:
    - ☐ Improve school safety.
    - ☐ Encourage respect between and among students and colleagues.

**Evaluator Comments:**

</tr>
</thead>
</table>

### ELEMENT A: Family and Community Involvement and Outreach
Principals design and/or utilize structures and processes which result in family and community engagement, support and ownership for the school.

- **THE PRINCIPAL:**
  - Establishes a welcoming and inviting approach to parents and community members as visitors to the school or individual classrooms.
  - Conducts community outreach activities.
  - Invites families to participate in activities specifically focused on their children.

- **THE PRINCIPAL:**
  - Conducts community outreach activities.
  - Invites families to participate in activities specifically focused on their children.

- **THE PRINCIPAL:**
  - Establishes and maintains strong positive relationships with key community stakeholders and external agencies.
  - Maximizes the impact of community, district, state and national relationships to benefit the school.

- **SCHOOL STAFF MEMBERS:**
  - Support family and community involvement for the benefit of student learning.
  - Use community resources to support classroom learning.

- **SCHOOL STAFF MEMBERS:**
  - Sustain meaningful parent and community involvement throughout the school year.

### ELEMENT B: Professional Leadership Responsibilities
Principals strive to improve the profession by collaborating with their colleagues, school district leadership and other stakeholders to drive the development and successful implementation of initiatives that better serve students, teachers and schools at all levels of the education system. They ensure that these initiatives are consistent with federal and state laws, school district and board policies and negotiated agreements where applicable.

- **THE PRINCIPAL:**
  - Understands the need for strong community and organizational relationships.
  - Understands and interacts with the network of agencies that provide health, social and other services to families.

- **THE PRINCIPAL:**
  - Understands and interacts with the network of agencies that provide health, social and other services to families.

- **THE PRINCIPAL:**
  - Establishes and maintains strong positive relationships with key community stakeholders and external agencies.

- **SCHOOL STAFF MEMBERS:**
  - Accept responsibility for:
    - Adhering to all applicable rules, regulations, policies and laws.
    - Utilizing available external resources for the benefit of students.

- **SCHOOL STAFF MEMBERS AND PARENTS:**
  - Provide support/feedback to enhance the opportunities for all students to be successful and workforce ready.

**ELEMENT C: Advocacy for the School**

Principals develop systems and relationships to leverage the school district and community resources available to them both within and outside of the school in order to maximize the school's ability to serve the best interest of students and families.

**THE PRINCIPAL:**
- ☐ Engages community members and key stakeholders in the school's activities.
- ☐ Understands the community and the issues it is facing.

. . . and

**THE PRINCIPAL:**
- ☐ Identifies and engages key community stakeholders.
- ☐ Solicits community input and uses the input to inform decisions.

. . . and

**THE PRINCIPAL:**
- ☐ Advocates throughout the school community for school support.
- ☐ Expands personal reach and sphere of influence to maximize support for the school.

. . . and

**SCHOOL STAFF MEMBERS:**
- ☐ Engage community agencies to help meet the needs of students and families.
- ☐ Maintain strong relationships with key community stakeholders.

Evaluator Comments:
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

Response of Person Being Evaluated:

## Principal/Assistant Principal Summary Evaluation Worksheet

This form may be completed by the evaluator prior to the final evaluation and goal-setting meeting held each spring. The principal/assistant principal and evaluator are encouraged to discuss the contents of this form and the accompanying Evaluation Sheet to agree on the professional practices ratings as well as the recommended actions for improvement, resources needed to accomplish those actions and a determination of how the principal/assistant principal and evaluator will know improvements have been made.

**Overall Rating for Standard VI**

**Comments:**

**Recommended actions for improvement:**

**Resources needed to complete these actions:**
S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For principals, this requirement is defined as required measures and recommended additional measures. While the principal rubric serves as the foundational data collection tool, districts and BOCES must determine the method for collecting data regarding required measures. Additional evidence/artifacts are provided as a tool for helping principals and their evaluators generate ideas regarding information that may be helpful in ensuring the accuracy of professional practices ratings. Items listed under additional evidence/artifacts are optional. They do not need to be collected unless the principal and evaluator determine that they are not in agreement regarding specific ratings. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

OBSERVATIONS:
Other measures (additional evidence/artifacts) of a principal’s performance may include direct observations.

REQUIREMENTS/REQUIRED MEASURES:
School districts and BOCES shall measure principal performance against Quality Standards I-VI using tools that capture the following:

- Input from teachers employed at the principal’s school provided that clear expectation is established prior to collection of the data that at least one of the purposes of collecting the input is to inform an evaluation of the principal’s performance and provided that systems are put in place to ensure that the information collected remains anonymous and confidential; and
- Percentage and number of teachers in the school who are rated as effective, highly effective; partially effective; and ineffective and the number and percentage of teachers who are improving their performance in comparison to the goals articulated in the principal’s professional growth plan.

RECOMMENDED MEASURES:
In addition to the required measures of professional practice, districts and BOCES are strongly encouraged to use measures, where appropriate, that capture evidence about the following:

- Student perceptions;
- Parent/guardian perceptions; and
- Perceptions of other administrators about a principal’s professional performance.

ADDITIONAL EVIDENCE/ARTIFACTS:
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

<td>Exemplary</td>
<td></td>
</tr>
</tbody>
</table>

Scoring of the rubric is designed so that each standard may be weighted by the district or BOCES in order to emphasize the initiatives or skills of importance to the locality. Weighting of the standards impacts the overall professional practices rating (Basic, Partially Proficient, Proficient, Accomplished, Exemplary), which in turn impacts the educator’s overall effectiveness rating (Ineffective, Partially Effective, Effective or Highly Effective). The method used to determine a final effectiveness rating using the state model is described in “Determining a Final Effectiveness Rating for Principals” located here.
**Principal/Assistant Principal Professional Growth Plan**

This professional growth plan may be used to record up to three Professional Growth Goals aligned with your evaluation results. The goals should be specific and measurable. While each of the goals is important, they should be listed in rank order with the most important listed first. Also record the action steps required to address each growth goal. Please insert additional rows if additional goals are needed. (Please note, districts may choose to use a different type of plan. This one is provided as an example of key information that should be included in any plan selected by the district.)

Goal 1:

Goal 2:

Goal 3:
Specialized Service Professionals in Colorado will be evaluated on measures of student outcomes as well as their demonstrated performance on each of the Quality Standards, including their ability to effectively support students and schools. The use of Professional Growth Plans will guide their professional planning, goal-setting, professional development and evaluation criteria.
Colorado’s State Model Educator Evaluation System for Specialized Service Professionals includes the following components:

1. Statewide Definition of Specialized Service Professional Effectiveness

All districts and BOCES are required to use the state-approved definitions for effectiveness for the person or group whose evaluations they are conducting.

Effective specialized service professionals in the state of Colorado are vital members of the education team and have the knowledge and skills necessary to ensure that diverse student populations have equitable access to academic instruction and participation in school-related activities. Effective specialized service professionals develop and/or implement evidence-based services or specially designed instruction to meet the unique needs of their students. They support growth and development to close achievement gaps and prepare students for postsecondary and workforce success. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, they enhance the outcomes and development of their students.

2. Colorado Specialized Service Professionals Quality Standards and Their Related Elements

**QUALITY STANDARD I**

Specialized service professionals demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT A:** Specialized service professionals demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

**ELEMENT B:** Specialized service professionals demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

**ELEMENT C:** Specialized service professionals integrate evidence-based practices and research findings into their services and/or specially designed instruction.

**ELEMENT D:** Specialized service professionals demonstrate knowledge of the interconnectedness of home, school and community influences on student achievement.

**ELEMENT E:** Specialized service professionals demonstrate knowledge of and expertise in their professions.
QUALITY STANDARD II

Specialized service professionals support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

ELEMENT A: Specialized service professionals foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers.

ELEMENT B: Specialized service professionals demonstrate respect for diversity within the home, school and local and global communities.

ELEMENT C: Specialized service professionals engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

ELEMENT D: Specialized service professionals engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

ELEMENT E: Specialized service professionals select, create and/or support accessible learning environments characterized by acceptable student behavior, efficient use of time and appropriate behavioral strategies.

QUALITY STANDARD III

Specialized service professionals plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

ELEMENT A: Specialized service professionals provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

ELEMENT B: Specialized service professionals utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

ELEMENT C: Specialized service professionals plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

ELEMENT D: Specialized service professionals support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

ELEMENT E: Specialized service professionals establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

ELEMENT F: Specialized service professionals communicate effectively with students.

ELEMENT G: Specialized service professionals develop and/or implement services and/or specially designed instruction unique to their professions.
### QUALITY STANDARD IV

**Specialized service professionals reflect on their practice.**

| ELEMENT A: | Specialized service professionals demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice. |
| ELEMENT B: | Specialized service professionals link professional growth to their professional goals. |
| ELEMENT C: | Specialized service professionals respond to complex, dynamic environments. |

### QUALITY STANDARD V

**Specialized service professionals demonstrate collaboration, advocacy and leadership.**

| ELEMENT A: | Specialized service professionals collaborate with internal and external stakeholders to meet the needs of students. |
| ELEMENT B: | Specialized service professionals advocate for students, families and schools. |
| ELEMENT C: | Specialized service professionals demonstrate leadership in their educational setting(s). |
| ELEMENT D: | Specialized service professionals contribute knowledge and skills to educational practices and their profession. |
| ELEMENT E: | Specialized service professionals demonstrate high ethical standards. |

### QUALITY STANDARD VI

**Specialized service professionals take responsibility for student outcomes.**

| ELEMENT A: | Specialized service professionals generate high levels of student outcomes consistent with the requirements of their respective professions. |
| ELEMENT B: | Specialized service professionals demonstrate their ability to utilize multiple sources of evidence to evaluate their practice and make adjustments where needed to continually improve student outcomes. |
3. Measures Used to Determine Effectiveness Rating

The Colorado State Model Educator Evaluation System for Specialized Service Professionals is intended to provide support, incentives and rewards for specialized service professionals as they engage in the challenging work of enabling and empowering students to learn. The specialized service professional effectiveness definition and Colorado Specialized Service Professional Quality Standards provide clear guidance about state priorities for the provision of effective services by these groups of professionals. The use of multiple measures for specialized service professional performance and guidelines for ensuring that these measures are of high quality will provide a more accurate and nuanced picture of the specialized service professional’s professional practice and impact on measures of student outcomes. The use of performance standards to rate specialized service professional performance allows more precision about professional expectations, identifies those specialized service professionals in need of improvement and recognizes performance that is of exceptional quality.

The measures used to determine the specialized service professional’s effectiveness rating emphasize the use of high-quality measures that result in a body of evidence concerning a specialized service professional’s performance and include:

- **Measures of professional practice** (Standards I-V) selected by the district that meet state technical guidelines, including formal observations plus at least one of the following artifacts, which must be discussed during the evaluation when it is appropriate for the specialized service professional’s assigned duties:
  - Student perception measures, where appropriate and feasible
  - Peer feedback
  - Parent or guardian feedback
  - Student support documentation

- **Multiple measures of student outcomes** (Standard VI) that are appropriate for the specialized service professional’s assignment, that represent the best available measure for that assignment, that may also include measures of student outcomes shared among groups of specialized service professionals and that meet state technical guidelines.

- **Procedures for prioritizing or weighting** measures of performance which ensure that:
  - Measures of student outcomes:
    a. Represent at least 50 percent of total performance,
    b. Are aligned with the roles and duties of the individual being evaluated.
    c. Are prioritized by technical quality.
  - Measures of professional practice are prioritized by local objectives.
4. Procedures for Conducting Evaluations

Procedures for conducting evaluations may be determined at a local level, provided that they ensure that data is regularly collected, associated feedback and improvement opportunities are regularly provided and specialized service professionals receive a formal evaluation and performance standard designation by the end of each academic year.

5. Performance Standards (Final Effectiveness Rating Levels)

The use of four performance standards (Highly Effective, Effective, Partially Effective and Ineffective) to rate educator performance allows more precision about professional expectations, identifies educators in need of improvement and recognizes performance that is of exceptional quality. These standards are also commonly referred to as the final effectiveness rating level.

6. Appeals Process

An appeals process is also available that permits non-probationary specialized service professionals to appeal a second consecutive performance evaluation that falls below Effective. Additional information about Rules governing Colorado’s state-approved appeals process may be found here.

The Framework for System to Evaluate Specialized Service Professionals (Exhibit 26), developed by the State Council for Educator Effectiveness (SCEE) and CDE, illustrates the relationships of the system components and the weight professional practice plays with respect to measures of student outcomes. As the graphic illustrates, Quality Standards I through V deal with professional practice while Quality Standard VI deals with measures of student outcomes. While the framework for specialized service professionals is nearly identical to the teacher framework, there is one important difference. In determining the rating for professional practices, evaluators are strongly encouraged to use expert input. This would involve requesting support from staff members who have expertise in the field in which the specialized service professional is employed. For example, an evaluator who must evaluate a school nurse should solicit input from another school nurse who not only understands the roles and responsibilities of school nurses, but who is able to identify the professional practices when they are demonstrated by the school nurse being evaluated. The school nurse who provides expert input would be expected to provide the input to the evaluator who has responsibility for completing the evaluation. The experts would not be held responsible for evaluating a colleague, but rather for helping the evaluator to provide a fair and reliable evaluation.

### III: SERVICES THAT FACILITATE LEARNING

**A.** Provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

**B.** Utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

**C.** Plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**D.** Support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

**E.** Establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

**F.** Communicate effectively with students.

**G.** Develop and/or implement services and/or specially designed instruction unique to their professions.

**Determine Contribution of Standard V to the Overall Professional Practices Rating:**

\[
\text{(Total Points Earned for Std. V) } \times (\text{Std. V Weight } \times \text{No. of Stds.}) = \text{(Number of Elements Associated with Standard V)}
\]

**Calculation Work Space :**

*All calculations should be carried to three decimal places and results rounded to two decimal places.*
Specialized Service Professionals Evaluation Worksheet

This form should be completed by the evaluator prior to the final evaluation and goal-setting meeting held each spring. The specialized service professional and evaluator should discuss the contents of this form and the accompanying Summary Evaluation Sheet and agree on the professional practices ratings as well as the recommended actions for improvement, resources needed to accomplish those actions and a determination of how the specialized service professional and evaluator will know improvements have been made.

Observations, Required Measures and Other Evidence/Artifacts for Specialized Service Professionals

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

EVALUATIONS OF SPECIALIZED SERVICE PROFESSIONALS MUST BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES: OBSERVATIONS REQUIRED BY S.B. 10-191:

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

Continued on next page.
## Additional Evidence/Artifacts That May be Used to Demonstrate Proficiency if Necessary

Specialized Service Professionals Professional Growth Plan

This professional growth plan may be used to record up to three Professional Growth Goals aligned with your evaluation results. The goals should be specific and measurable. While each of the goals is important, they should be listed in rank order with the most important listed first. Also record the action steps required to address each growth goal. Please insert additional rows if additional goals are needed. (Please note, districts may choose to use a different type of plan. This one is provided as an example of key information that should be included in any plan selected by the district.)

Rubric for Evaluating Colorado’s Specialized Service Professionals: Audiologists

Definition of an Effective Audiologist

Effective audiologists are vital members of the education team. They are properly credentialed and have the knowledge and skills necessary to facilitate equitable access and participation in school-related activities. Effective audiologists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective audiologists manage hearing assistance technology for students and educators and utilize evidence-based strategies to remove barriers to learning. They identify hearing loss and other auditory difficulties and they monitor, interpret and communicate the impact of hearing on listening, learning and academic growth. Effective audiologists provide services that are comprehensive and designed to address each student’s individual academic, communication and psychosocial needs. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, they enhance the academic achievement and personal/social development of their students.

QUALITY STANDARD I
Audiologists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT A: Audiologists demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

THE AUDIOLOGIST:  
☐ Relates general child and auditory development to audiological practices.

. . . and THE AUDIOLOGIST:  
☐ Applies knowledge of auditory, language and psychosocial development to practice.

☐ Demonstrates an understanding of communication systems and educational options for children with hearing loss.

. . . and THE AUDIOLOGIST:  
☐ Assists others in understanding the auditory, linguistic and developmental factors that impact student learning.

. . . and STUDENTS OR SIGNIFICANT ADULTS:  
☐ Demonstrate understanding of the impact of hearing on development and communication.

. . . and STUDENTS:  
☐ Make progress toward auditory, language and communication goals.
QUALITY STANDARD I
Audiologists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT B: Audiologists demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

THE AUDIOLOGIST:
- Identifies barriers to learning, including those related to hearing and listening.

THE AUDIOLOGIST:
- Recommends interventions and adaptations that reduce barriers to learning and increase access to instruction.

THE AUDIOLOGIST:
- Utilizes a variety of strategies and resources to support communication and reduce barriers to student learning.

STUDENTS OR SIGNIFICANT ADULTS:
- Identify barriers to hearing, communication, or learning.

STUDENTS:
- Demonstrate increased access to the instructional environment.

ELEMENT C: Audiologists integrate evidence-based practices and research findings into their services and/or specially designed instruction.

THE AUDIOLOGIST:
- Demonstrates an understanding of the concept and importance of using evidence-based audiological practices.

THE AUDIOLOGIST:
- Provides services that are consistent with current research and standards of practice.

THE AUDIOLOGIST:
- Provides recommendations, reports and information that reflect a connection between student data and evidence-based audiological practices.

STUDENTS OR SIGNIFICANT ADULTS:
- Implement audiologist’s information to improve access to and participation in the learning environment.

STUDENTS:
- Demonstrate benefit from audiologist’s instruction and research-based services.

ELEMENT D: Audiologists demonstrate knowledge of the interconnectedness of home, school and community influences on student achievement.

THE AUDIOLOGIST:
- Recognizes the importance of home, school and community on the impact on student learning.

THE AUDIOLOGIST:
- Utilizes community and school resources to support student needs.

THE AUDIOLOGIST:
- Differentiates and integrates relevant past and present health, social and family history.

THE AUDIOLOGIST:
- Serves as an educational liaison for students and collaborates with community providers.

STUDENTS OR SIGNIFICANT ADULTS:
- Utilize support from community and school resources.

STUDENTS:
- Experience a continuum of support from family, school and community.
QUALITY STANDARD I
Audiologists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT E**: Audiologists demonstrate knowledge of and expertise in their profession.

- **THE AUDIOLOGIST**: Demonstrates an understanding of state and national educational audiology standards of practice.
  - Provides services to ensure that students with auditory difficulties are identified, properly evaluated and managed.

- **THE AUDIOLOGIST**: Provides audiology expertise to educational teams and families.
  - Access services that meet educational audiology standards of practice.

- **STUDENTS**: Access services that meet educational audiology standards of practice.
  - Demonstrate benefit from the expert services of the audiologist.

**Evaluator Comments**: (Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Comments of Person Being Evaluated**: (Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD II
Audiologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT A:** Audiologists foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers.

**THE AUDIOLOGIST:**
- Demonstrates an understanding of his or her role in providing students with a safe and accessible environment.
- Supports a learning environment focusing on communication access.
- Nurtures student self-concept by promoting understanding and acceptance of hearing challenges and hearing technology.

**STUDENTS:**
- Make progress toward developing positive self-concepts.
- Demonstrate effective communication with their peers, teachers and others in their environment.
- Express their needs related to hearing, technology and/or learning.
### QUALITY STANDARD II

Audiologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT B:** Audiologists demonstrate respect for diversity within the home, school and local and global communities.

- **THE AUDIOLOGIST:**
  - □ Respects the diverse background of students and their families.
  - □ **THE AUDIOLOGIST:**
  - □ Uses tools, assessments and materials that are culturally appropriate.
- **THE AUDIOLOGIST:**
  - □ Provides unbiased information regarding hearing loss, communication options, educational programming and technology options.
  - □ Demonstrates sensitivity to cultural differences within family systems including deaf culture.
- **STUDENTS OR SIGNIFICANT ADULTS:**
  - □ Demonstrate respect for each other and the audiologist.
  - □ Engage in respectful and open dialogue with each other and the audiologist.

**ELEMENT C:** Audiologists engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

- **THE AUDIOLOGIST:**
  - □ Treats students as individuals.
  - □ **THE AUDIOLOGIST:**
  - □ Makes recommendations and/or referrals based on unique needs of students.
  - □ Delivers services or assessments appropriate to the developmental, receptive and expressive abilities of students.
- **THE AUDIOLOGIST:**
  - □ Utilizes procedures and tools that specifically address individual educational and referral concerns.
  - □ Dynamically adapts to the behavioral level of the child.
- **STUDENTS:**
  - □ Participate in services which take into account their unique backgrounds, interests and needs.
  - □ Feel valued as individuals.
### QUALITY STANDARD II
Audiologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT D:** Audiologists engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

- **THE AUDIOLOGIST:**
  - Fosters an environment that is inviting to students, families and significant adults.
  - Provides an environment that is accessible and inviting to students, families and significant adults.
  - Uses appropriate communication supports (interpreters and translators).
  - Provides verbal and written information that is clear and understandable to the listener.

- **THE AUDIOLOGIST:**
  - Partners with families and significant adults to help students meet education goals.
  - Counsels students, families and staff regarding the educational impact of hearing loss and other auditory difficulties in a relevant manner.

- **STUDENTS OR SIGNIFICANT ADULTS:**
  - Communicate effectively with the audiologist.
  -Partners with families and significant adults to help students meet education goals.
  - Counsels students, families and staff regarding the educational impact of hearing loss and other auditory difficulties in a relevant manner.

**ELEMENT E:** Audiologists select, create and/or support accessible learning environments characterized by acceptable student behavior, efficient use of time and appropriate behavioral strategies.

- **THE AUDIOLOGIST:**
  - Has strategies to guide students’ behavior during assessment or service provision.
  - Structures assessments or services to minimize interruption of instructional time.
  - Maintains a safe and orderly environment.

- **STUDENTS:**
  - Stay on task in the learning environment.
  - Participate actively in the learning environment.

**Evaluator Comments:** (Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Comments of Person Being Evaluated:** (Please indicate the element for which the comment applies if not for the standard as a whole.)
**QUALITY STANDARD III**

Audiologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT A:** Audiologists provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts' organized plans of instruction and the individual needs of their students.

- **THE AUDIOLOGIST:**
  - Is knowledgeable about the federal and state laws, local policies and the Colorado Standards of Practice.
  - Adheres to legal requirements such as state screening laws and special education procedures.
  - Completes evaluations and reports for students with identified hearing loss within mandated time limits.
- **THE AUDIOLOGIST:**
  - Determines eligibility for special education in accordance with state law.
  - Actively participates in the development of student plans as a member of the educational team.
- **STUDENTS OR SIGNIFICANT ADULTS:**
  - Demonstrate benefit from having equal access to the learning environment.

**ELEMENT B:** Audiologists utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

- **THE AUDIOLOGIST:**
  - Selects appropriate protocols of assessment and data-collection.
  - Utilizes multiple sources of data.
  - Provides assessments that are targeted to educational and communication needs of student.
  - Conducts various levels of evaluation such as screening, observation, interview and/or functional assessments.
- **THE AUDIOLOGIST:**
  - Uses, analyzes and interprets results from a comprehensive assortment of audiological tests.
  - Integrates traditional audiometric data with functional assessment data.
- **STUDENTS OR SIGNIFICANT ADULTS:**
  - Participate willingly and understand the purpose of formal and informal assessments.
  - Demonstrate an understanding of the abilities of the student and how the student is impacted in the learning environment.
QUALITY STANDARD III
Audiologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT C:** Audiologists plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

- **THE AUDIOLOGIST:**
  - Uses data and student needs to plan services.
  - Collects multiple data points and a body of evidence to monitor student progress or determine present level of functioning.

- **THE AUDIOLOGIST:**
  - Analyzes and integrates audiological data in conjunction with other discipline-specific information to plan services.

- **STUDENTS OR SIGNIFICANT ADULTS:**
  - Set individual goals for students based on audiologist’s data and recommendations.

- **STUDENTS:**
  - Demonstrate an understanding of the importance of utilizing hearing technology.

**ELEMENT D:** Audiologists support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

- **THE AUDIOLOGIST:**
  - Evaluates the need for hearing assistance technology.
  - Abides by guidelines for the fitting, evaluation, use and monitoring of hearing assistance technology.

- **THE AUDIOLOGIST:**
  - Uses a variety of methods to ensure that personal and hearing assistance technology is optimally fit and functioning.
  - Supports significant adults in the use of hearing technology.

- **STUDENTS OR SIGNIFICANT ADULTS:**
  - Demonstrate improved auditory access using equipment that functions on a consistent basis.

- **STUDENTS:**
  - Demonstrate improved auditory access using equipment that functions on a consistent basis.
**QUALITY STANDARD III**
Audiologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

**ELEMENT E:** Audiologists establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

**THE AUDIOLOGIST:**
- Has high expectations for all students.
- Encourages significant adults, families and/or students to set high expectations for student outcome and growth.
- Considers or assesses students’ self-advocacy and problem-solving skills to plan services.
- Collaborates with students or significant adults to promote self-advocacy skills of students.

**STUDENTS OR SIGNIFICANT ADULTS:**
- On their own or in collaboration with audiologist can explain hearing, communication or technology to others.
- Collaborates with students or significant adults to promote self-advocacy skills of students.
- Demonstrates knowledge of the student’s hearing difficulty and unique needs.

**ELEMENT F:** Audiologists communicate effectively with students.

**THE AUDIOLOGIST:**
- Establishes rapport with students.
- Explains audiologic findings and/or provides feedback to students when appropriate.
- Collaborates with students and staff to ensure that students and/or caregivers understand hearing, listening and learning needs.
- Demonstrates knowledge of the student’s hearing difficulty and unique needs.

**STUDENTS OR SIGNIFICANT ADULTS:**
- Feel and/or appear comfortable interacting with the audiologist and advocating for their needs.
QUALITY STANDARD III
Audiologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

Comments of Person Being Evaluated: (Please indicate the element for which the comment applies if not for the standard as a whole.)
Observations, Required Measures and Other Evidence/Artifacts for Audiologists

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:**
- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

**ADDITIONAL EVIDENCE/ARTIFACTS:**
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

<table>

Rubric for Evaluating Colorado’s Specialized Service Professionals: Occupational Therapists

Definition of an Effective Occupational Therapist

Effective occupational therapists are vital members of the education team. They are properly credentialed and have knowledge of federal and state laws, evidence-based practices in educational settings and student occupational performance. Effective occupational therapists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective occupational therapists assist students in accessing academic instruction, environmental adaptations and meaningful activities through skill acquisition, environmental adaptations and educational accommodations and modifications. They provide collaborative and focused evaluations, determination of services based on student performance, service plan development and progress monitoring in the educational context. Effective occupational therapists have a deep understanding on the interconnectedness of the home, school and community. Through reflection, advocacy and leadership, they enhance the academic achievement and personal/social/physical development of their students.

QUALITY STANDARD I
Occupational therapists demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT A:** Occupational therapists demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

**THE OCCUPATIONAL THERAPIST:**
- Understands the relevance of normal developmental skill sequences to their work.
- Bases services and/or specially designed instruction on an understanding of developmental science.

**THE OCCUPATIONAL THERAPIST:**
- Appropriately plans services to the needs of specific students based on knowledge of developmental science.

**STUDENTS AND/OR SIGNIFICANT ADULTS:**
- Understand information related to their student's developmental trajectory.

**SIGNIFICANT ADULTS:**
- Provide challenging learning activities representing appropriate developmental levels with the support of the occupational therapist.
QUALITY STANDARD I
Occupational therapists demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT B:** Occupational therapists demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

**THE OCCUPATIONAL THERAPIST:**
- [ ] Identifies potential barriers to student access to academic and non-academic content areas.

. . . and

**THE OCCUPATIONAL THERAPIST:**
- [ ] Designs services and/or specially designed instruction based on district/school adopted curriculum and Colorado academic standards.

. . . and

**THE OCCUPATIONAL THERAPIST:**
- [ ] Reduces barriers to learning experienced by individual students within the learning environment.

. . . and

**STUDENTS:**
- [ ] Engage in the educational environment at their developmental level as a result of a reduction of barriers to learning.

. . . and

**STUDENTS:**
- [ ] Identify and participate in resolving barriers to learning in the educational environment.

**ELEMENT C:** Occupational therapists integrate evidence-based practices and research findings into their services and/or specially designed instruction.

**THE OCCUPATIONAL THERAPIST:**
- [ ] Accesses research-based practices.

. . . and

**THE OCCUPATIONAL THERAPIST:**
- [ ] Identifies current occupational therapy research relevant to student performance.

. . . and

**THE OCCUPATIONAL THERAPIST:**
- [ ] Incorporates knowledge from current research to meet individual needs of students.

. . . and

**STUDENTS:**
- [ ] Use a variety of research-based/evidence-based tools and strategies in learning.

. . . and

**STUDENTS:**
- [ ] Use a variety of research-based tools and strategies to support student learning.

. . . and

**SIGNIFICANT ADULTS:**
- [ ] Use a variety of research-based tools and strategies to support student learning.

**ELEMENT B:** Occupational therapists utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

**THE OCCUPATIONAL THERAPIST:**
- Uses findings from program evaluation data to inform occupational therapy service delivery and specialized instruction.
- Selects and/or uses formal and informal assessments for evaluation of services.
- Assesses environments in which student occupation occurs.
- Determines occupational therapy service needs based on evaluation data and educational team discussion.
- Appropriately interprets and shares evaluation data with team.

**THE OCCUPATIONAL THERAPIST:**
- Maintains student data and/or documentation to plan services.
- Establishes and adapts service delivery model based on individual needs of students.
- Provides services in alignment with individual education programs based on the integration of multiple data sources.
- Facilitates the transition or exit process in collaboration with the educational team.

**THE OCCUPATIONAL THERAPIST:**
- Contribute to the data collection process by identifying data sources and/or information relevant to them.

**STUDENTS:**
- Practice skills, based on evaluation findings and student needs, in their home and school environment.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Participate in the evaluation process with the support of the occupational therapist.

**ELEMENT C:** Occupational therapists plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**THE OCCUPATIONAL THERAPIST:**
- Uses findings from program evaluation data to inform occupational therapy service delivery and specialized instruction.
- Selects and/or uses formal and informal assessments for evaluation of services.
- Assesses environments in which student occupation occurs.
- Determines occupational therapy service needs based on evaluation data and educational team discussion.
- Appropriately interprets and shares evaluation data with team.

**THE OCCUPATIONAL THERAPIST:**
- Maintains student data and/or documentation to plan services.
- Establishes and adapts service delivery model based on individual needs of students.
- Provides services in alignment with individual education programs based on the integration of multiple data sources.
- Facilitates the transition or exit process in collaboration with the educational team.

**THE OCCUPATIONAL THERAPIST:**

**ELEMENT D:** Occupational therapists support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

**THE OCCUPATIONAL THERAPIST:**
- Uses appropriate available technology supports as determined by the educational team.
- Uses appropriate available technology to facilitate access to education.

**. . . and**

**THE OCCUPATIONAL THERAPIST:**
- Selects, recommends and trains teachers to use assistive technology or adaptive equipment to support student participation in the educational setting.
- Express preferences for appropriate available adaptive equipment and/or technology verbally or non-verbally based on participation and ease of use.

**. . . and**

**STUDENTS:**
- Use appropriate available assistive technology to support student participation in the classroom.

**ELEMENT E:** Occupational therapists establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

**THE OCCUPATIONAL THERAPIST:**
- Communicates high expectations for all students.
- Sets individual student expectations/goals at a level that challenges students.
- Identifies opportunities for students to practice self-advocacy with functional tasks.
- Respond positively to the therapist’s expectations.
- Demonstrate problem solving skills to improve functional independence based on the students’ developmental levels, skills and abilities.

**. . . and**

**THE OCCUPATIONAL THERAPIST:**
- Collaborates with the educational team to develop goals ensuring that students are working toward high expectations.

**. . . and**

**STUDENTS:**
- Demonstrate problem solving skills to improve functional independence based on the students’ developmental levels, skills and abilities.
QUALITY STANDARD III
Occupational therapists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

Observations, Required Measures and Other Evidence/Artifacts for Occupational Therapists

**S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR.** For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:**
- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

**ADDITIONAL EVIDENCE/ARTIFACTS:**
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

<table>

Rubric for Evaluating Colorado’s Specialized Service Professionals: Physical Therapists

Definition of an Effective Physical Therapist

Effective school physical therapists are vital members of the education team. They are properly credentialed and provide professional expertise in the areas of mobility skills, postural and positioning, gross motor skills, self-help skills and foundational recreational skills for age-appropriate play. Effective physical therapists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective physical therapists facilitate achievement of student goals by implementing a plan of care that utilizes evidenced-based evaluation methods and intervention strategies. They design interventions to promote skill acquisition, accessibility within the school environment and participation in typical activities and routines. They understand the interconnectedness of the home, school and community and collaborate with all members of the education team to facilitate meaningful student participation. Through reflection, advocacy and leadership, effective physical therapists enhance the academic achievement and personal/social development of their students.

### QUALITY STANDARD I

Physical therapists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>

<tbody>
<tr>
<td><strong>ELEMENT A:</strong> Physical therapists demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

THE PHYSICAL THERAPIST:
- Identifies developmental motor milestones and their relation to learning.

. . . and
THE PHYSICAL THERAPIST:
- Implements developmentally appropriate strategies based on strengths and needs of individual students.

. . . and
THE PHYSICAL THERAPIST:
- Applies knowledge of intellectual, social and emotional development to ensure student access and participation in the school environment.

. . . and
SIGNIFICANT ADULTS:
- Understand the impact of motor delays for students regarding mobility, safety and school participation.

. . . and:
STUDENTS:
- Actively participate in the school environment with the support of significant adults with consideration of their skills and abilities.

**ELEMENT B:** Physical therapists demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

THE PHYSICAL THERAPIST:
- Understands connections between physical therapy and the student’s ability to learn.

. . . and
THE PHYSICAL THERAPIST:
- Provides therapeutic interventions or adaptive technologies to reduce barriers to learning.

. . . and
THE PHYSICAL THERAPIST:
- Collaborates with others to reduce barriers to learning and support student growth.

. . . and
STUDENTS:
- Practice in a structured setting using strategies to reduce or address barriers.

. . . and
STUDENTS:
- Are supported in academic learning as a result of reduction of identified barriers.
### QUALITY STANDARD I

**ELEMENT C:** Physical therapists integrate evidence-based practices and research findings into their services and/or specially designed instruction.

**THE PHYSICAL THERAPIST:**  
- □ Identifies sources of evidence-based practices to obtain relevant current research.  
- □ Remains current on evidence-based practices to provide services to meet student needs.  
- □ Implements evidence-based strategies to meet the individual needs of students.  
- □ Use learned skills in structured settings with support from significant adults.  
- □ Generalize learned skills to a variety of school environments with support from significant adults.

**THE PHYSICAL THERAPIST:**  
- □ Is aware of the interconnectedness of home, school and community and its impact on student learning.  
- □ Utilizes student, family and staff priorities and knowledge of their interconnectedness to develop the plan of care.  
- □ Provides resources and strategies to promote improved student participation in the home, school and community.  
- □ Practice skills embedded in typical school activities and routines with support from staff or significant adults.  
- □ Demonstrate improved participation as a result of the interconnectedness of home, school and community involvement in their care with support from significant adults.

**STUDENTS:**  
- □ Use learned skills in structured settings with support from significant adults.  
- □ Generalize learned skills to a variety of school environments with support from significant adults.  
- □ Practice skills embedded in typical school activities and routines with support from staff or significant adults.  
- □ Demonstrate improved participation as a result of the interconnectedness of home, school and community involvement in their care with support from significant adults.

**Observations, Required Measures and Other Evidence/Artifacts for Physical Therapists**

**S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR.** For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:**

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

**ADDITIONAL EVIDENCE/ARTIFACTS:**

Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

Rubric for Evaluating Colorado’s Specialized Service Professionals: School Counselors

**Definition of an Effective School Counselor**

Effective school counselors are vital members of the education team. They are properly credentialed and have the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate a comprehensive, developmental, results-based school counseling program. Effective school counselors strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective school counselors employ and adjust evidence-based practices to enhance the equitable access to educational services and programs. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through advocacy, leadership and reflection, school counselors build frameworks for systemic change to support students in the areas of academic achievement and personal/social development; ensuring that their students become the productive, well-adjusted adults of tomorrow.

**QUALITY STANDARD I**

School Counselors demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>

**ELEMENT A:** School counselors demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

- **THE SCHOOL COUNSELOR:**
  - Identifies the connections between counseling theory, human development theory, student learning theory and student success.

- **THE SCHOOL COUNSELOR:**
  - Articulates knowledge of counseling theory, human development theory, student learning theory and their influence on student success.

- **THE SCHOOL COUNSELOR:**
  - Applies counseling, human development and student learning theory in counseling programs and services designed to enhance student success.

- **STUDENTS, TEACHERS AND/OR FAMILIES:**
  - Understand that counseling services are appropriate for the students’ developmental levels.

- **STUDENTS:**
  - Participate in counseling services appropriate for their developmental levels.

**ELEMENT B:** School counselors demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

- **THE SCHOOL COUNSELOR:**
  - Identifies ways in which the school counseling program relates to other content areas/disciplines.

- **THE SCHOOL COUNSELOR:**
  - Understands and can articulate the connection of the school counseling program to content areas.

- **THE SCHOOL COUNSELOR:**
  - Plans and implements services/instruction in the comprehensive counseling curriculum that supports students in the content areas.

- **STUDENTS AND/OR TEACHERS:**
  - Are aware of services/specially designed instruction as needed to reduce barriers and support learning in literature, math and other content areas.

- **STUDENTS:**
  - Participate in services/specially designed instruction as needed to reduce barriers and support learning in literature, math and other content areas.
### QUALITY STANDARD I
School Counselors demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT C:** School counselors integrate evidence-based practices and research findings into their services and/or specially designed instruction.

- **THE SCHOOL COUNSELOR:**
  - Recognizes the importance of evidence-based school counseling practices and related research.
  - Locates and selects appropriate evidence-based practices and related research.

- **THE SCHOOL COUNSELOR:**
  - Integrates evidence-based school counseling and related research into practice.

- **TEACHERS AND/OR FAMILIES:**
  - Demonstrate an awareness of evidence-based strategies, practices and interventions to meet individual student needs.

- **STUDENTS:**
  - Participate in services that reflect evidence-based practices.

**ELEMENT D:** School counselors demonstrate knowledge of the interconnectedness of home, school and community influences on student achievement.

- **THE SCHOOL COUNSELOR:**
  - Understands the interconnectedness of home, schools and community influences on student achievement.
  - Creates a service delivery plan for students recognizing the involvement of home, school and community in student achievement.
  - Has knowledge of community/local services.

- **THE SCHOOL COUNSELOR:**
  - Uses careful knowledge of students’ homes, community and school to implement, evaluate and adapt services.

- **STUDENTS, FAMILIES AND TEACHERS:**
  - Are aware of interconnectedness of home, school and community influences on student achievement.
  - Participate in adaptive services that meet the unique characteristics of the student and their community.
QUALITY STANDARD I
School Counselors demonstrate mastery of and expertise in the domain for which they are responsible.

Observations, Required Measures and Other Evidence/Artifacts for School Counselors

**S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR.** For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:**

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

**ADDITIONAL EVIDENCE/ARTIFACTS:**
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

Rubric for Evaluating Colorado’s Specialized Service Professionals: School Nurses

Definition of an Effective School Nurse

Effective school nurses are vital members of the education team. They are properly credentialed and have knowledge, skills and commitments necessary to advance the well-being, academic success, life-long achievement and health of students. Effective school nurses strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective school nurses employ evidence-based strategies to promote health and safety; intervene with actual or potential health problems; provide case management services to nurture student and family capacity for adaptation, self-management, self-advocacy and learning. Effective school nurses communicate high expectations to students, staff and administrators and promote diverse strategies to engage them in a supportive learning environment. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, school nurses enhance the academic achievement and personal/social development of their students.

QUALITY STANDARD I
School nurses demonstrate mastery of and expertise in the domain for which they are responsible.

<table>

<tr>
<td>ELEMENT A: School nurses demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

THE SCHOOL NURSE:
- Has knowledge of developmental science and how it relates to student outcomes.
- Has knowledge of developmental science in working with students.
- Applies understanding of growth and development and the relationship of student health to learning.
- Creates methods of assessment that reflect the age and developmental level of the student.

THE SCHOOL NURSE:
- Verbalizes awareness of developmental science in working with students.

STUDENTS AND SIGNIFICANT ADULTS:
- Communicate with the nurse in ways that are appropriate for their intellectual and emotional status.

STUDENTS:
- Demonstrate age appropriate understanding of health concepts relative to their health needs.
### QUALITY STANDARD I
School nurses demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT B:** School nurses demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

- **THE SCHOOL NURSE:**
  - Identifies medical and emotional factors that interfere with learning.

- **THE SCHOOL NURSE:**
  - Identifies and prioritizes student health needs as they relate to learning.

- **THE SCHOOL NURSE:**
  - Creates plans or strategies to optimize student health outcomes and maximize instructional effectiveness.

- **THE SCHOOL NURSE:**
  - Evaluates the effectiveness of plans and strategies and adjusts plan of action to improve readiness to learn.

- **STUDENTS:**
  - Are able to better access instructional time.

- **STUDENTS:**
  - Demonstrate improved engagement in classroom learning.

**ELEMENT C:** School nurses integrate evidence-based practices and research findings into their services and/or specially designed instruction.

- **THE SCHOOL NURSE:**
  - Recognizes the unique clinical standard of care in schools.

- **THE SCHOOL NURSE:**
  - Participates in data collection such as pilot projects and formal studies.

- **THE SCHOOL NURSE:**
  - Seeks research and professional resources when faced with new clinical situations.

- **THE SCHOOL NURSE:**
  - Utilizes clinical guidelines and evidence based practice in providing school health services.

- **THE SCHOOL NURSE:**
  - Shares clinical updates with colleagues and peers.

- **STUDENTS AND SIGNIFICANT ADULTS:**
  - Understand the value of the school nurse’s role and the services provided.

- **STUDENTS:**
  - Experience improved health and learning outcomes.
QUALITY STANDARD I
School nurses demonstrate mastery of and expertise in the domain for which they are responsible.

</thead>
</table>

**ELEMENT A:** School nurses foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers.

**THE SCHOOL NURSE:**
- Fosters a safe physical, emotional and intellectual environment.
- Models polite, respectful interactions.
- Expresses empathy for all students.

**THE SCHOOL NURSE:**
- Creates an environment which values diverse perspectives.
- Ensures equitable access to support services.

**STUDENTS AND/OR SIGNIFICANT ADULTS:**
- Experience a nurturing and caring relationship with the school nurse.

**STUDENTS:**
- Show active engagement during interactions with health services staff.

**ELEMENT B:** School nurses demonstrate respect for diversity within the home, school and local and global communities.

**THE SCHOOL NURSE:**
- Shows sensitivity to diverse values and beliefs when interacting with students and significant adults.
- Seeks to understand and respect cultural differences.
- Demonstrates respect for students and the significant adults in their lives.

**THE SCHOOL NURSE:**
- Applies knowledge of diversity to nursing practice including differences in physical, social, emotional, spiritual, cultural and sexual orientation needs.
- Serves as a resource to staff in addressing the unique diverse needs of students or family.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Feel respected by the school nurse.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Seek appropriate services from health staff.

**ELEMENT C:** School nurses engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

**THE SCHOOL NURSE:**
- Involves students in the planning of their health care.
- Encourages students to share their personal interests in order to better understand strengths and needs.
- Treats students and the significant adults in their lives as unique individuals with diverse backgrounds.

**THE SCHOOL NURSE:**
- Actively engages students when developing activities related to their health needs.
- Serves as a resource in responding to questions that require understanding of the uniqueness of individual students.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Feel treated as unique individuals whose backgrounds, interests, strengths and needs are understood.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Take advantage of culturally sensitive health care provided by school health staff members.
QUALITY STANDARD II
School nurses support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>
<thead>

</table>

**ELEMENT D:** School nurses engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

**THE SCHOOL NURSE:**
- ☐ Actively communicates with significant adults and staff.
- ☐ Assesses communication preferences when working with others.
- ☐ Adheres to regulations to maintain privacy and confidentiality for students and significant adults.

**THE SCHOOL NURSE:**
- ☐ Conveys information to students, significant adults and staff using means that promote understanding.
- ☐ Creates partnerships with students, significant adults and others to support student health.

**STUDENTS AND SIGNIFICANT ADULTS:**
- ☐ Experience clear and constructive communication from the school nurse.

**STUDENTS:**
- ☐ Communicate their own health needs to school health staff.

**ELEMENT E:** School nurses select, create and/or support a safe accessible learning environment characterized by acceptable student behavior, efficient use of time and appropriate behavioral strategies.

**THE SCHOOL NURSE:**
- ☐ Communicates health interventions necessary during school day to student and staff.
- ☐ Identifies potential threats to safety in the school setting.
- ☐ Implements strategies to promote a healthy school environment.

**THE SCHOOL NURSE:**
- ☐ Holds students accountable for adherence to school rules and their health care plans.
- ☐ Promotes sustainable environmental health policies, including access to healthy foods and physical activity.

**STUDENTS:**
- ☐ Are able to make efficient use of instructional time.

**STUDENTS AND SIGNIFICANT ADULTS:**
- ☐ Make informed decisions when faced with personal health choices.

**Evaluator Comments:**

</table>

### ELEMENT A: School nurses provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

#### THE SCHOOL NURSE:
- Maintains Registered Nurse licensure as required by the Colorado Division of Professions and Occupations.
- Maintains a Special Service Provider license for School Nursing from the Colorado Department of Education.

#### THE SCHOOL NURSE:
- Understands that national and state laws and district policies and/or procedures govern students with disabilities, specialized education programs and the rights of the disabled.

#### THE SCHOOL NURSE:
- Develops plans that support students with medical disability, health conditions, or challenges to their educational goals.
- Collaborates with colleagues to develop plans aligned with federal law that support students with special needs.

#### STUDENTS AND SIGNIFICANT ADULTS:
- Understand that the services of the school nurse are guided by federal and state laws and district plans.

#### STUDENTS:
- Participate successfully in the least restrictive environment.

### ELEMENT B: School nurses utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

#### THE SCHOOL NURSE:
- Uses sufficient sources of health data to assess student health needs.
- Interprets formal and informal medical history to inform care.
- Conducts valid informal and formal assessments of student health needs to plan services.

#### THE SCHOOL NURSE:
- Designs strategies/programs to meet the multifaceted needs of students with complex healthcare needs.
- Considers associated risks, benefits, costs and expected outcomes in planning care.
- Contributes to school/district/state/national data collection.

#### THE SCHOOL NURSE:
- Benefit from data collection that informs services to meet their needs.

#### STUDENTS:
- Contribute to ongoing monitoring and data collection as it relates to their health care.
QUALITY STANDARD III
School nurses plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>

**ELEMENT C:** School nurses plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**THE SCHOOL NURSE:**
- Recognizes the multiple sources of information needed to develop a plan of care in the school setting.
- Integrates multiple data sources in a coherent fashion for others’ understanding.
- Provides ongoing evaluation regarding the effectiveness of care plan and modifies the plan accordingly.

**THE SCHOOL NURSE:**
-Executes an integrated plan of care and engages district and school personnel in its implementation.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Understand the use of multiple health care sources as relevant to their care.
- Participate in the development and implementation of the plan of care and its evaluation.

**ELEMENT D:** School nurses support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

**THE SCHOOL NURSE:**
- Understands the various technologies available for delivery of health services in schools.
- Competently uses appropriate available technologies to research and document the delivery of health services.

**THE SCHOOL NURSE:**
- Collaborates with colleagues in the use of current technologies to improve service delivery.

**STUDENTS AND SIGNIFICANT ADULTS:**
- Are aware of supportive technology relevant to their care.
- Participate in the development and implementation of the plan of care and its evaluation.

**STUDENTS:**
- Use technology effectively to manage their health issues.
QUALITY STANDARD III
School nurses plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>
<thead>
<tr>
<th>Basic</th>

**ELEMENT E:** School nurses establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

THE SCHOOL NURSE:
- [ ] Expects students to promote their own health and wellness.

THE SCHOOL NURSE:
- [ ] Verbalizes the importance of students’ critical thinking, self-advocacy and healthy choices to maintain optimal health and wellness.

THE SCHOOL NURSE:
- [ ] Works with students and staff to increase expectations of students making healthy choices to maintain optimal health and wellness.
  - [ ] Advocates for a school nursing model that promotes optimal health and wellness.

STUDENTS AND SIGNIFICANT ADULTS:
- [ ] Apply critical thinking skills to support healthy choices.
- [ ] Advocate for self in working with the school nurse to set individual goals.

STUDENTS AND SIGNIFICANT ADULTS:
- [ ] Communicate openly and freely with the school nurse.

ELEMENT F: School nurses communicate effectively with students.

THE SCHOOL NURSE:
- [ ] Understands the importance of applying effective communication skills with students.
  - [ ] Conveys information to students which is medically accurate.
  - [ ] Uses language appropriate to students’ age, developmental level, gender, race and ethnic background.

THE SCHOOL NURSE:
- [ ] Invites interaction and feedback to validate student understanding.
  - [ ] Develops educational resources/tools appropriate to the student’s developmental level, gender, race and ethnic background.

STUDENTS AND SIGNIFICANT ADULTS:
- [ ] Communicate openly and freely with the school nurse.

STUDENTS AND/OR SIGNIFICANT ADULTS:
- [ ] Articulate individual needs in developing goals.
### QUALITY STANDARD III
School nurses plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

### ELEMENT A: School nurses demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.

**THE SCHOOL NURSE:**
- Uses student data to inform school nursing practice.

**THE SCHOOL NURSE:**
- Understands how health impacts student learning.
- Develops student health plans based on analyses of student data.

**THE SCHOOL NURSE:**
- Compiles and disseminates interpretive findings to colleagues and stakeholders.

**THE SCHOOL NURSE:**
- Reviews student/school health data to systematically adjust nursing practice to promote and improve student outcomes.
- Proposes the use of measurable student data to achieve state and national health and wellness goals.

### ELEMENT B: School nurses link professional growth to their professional goals.

**THE SCHOOL NURSE:**
- Has a professional growth plan to accomplish own professional goals.
- Maintains professional records that provide evidence of competence and learning.
- Completes health related trainings as required by the school district.

**THE SCHOOL NURSE:**
- Maintains clinical and professional skills through formal and informal learning experiences.
- Provides guidance to colleagues on specialized nursing knowledge and skills.
- Serves as a member of a professional association.

**THE SCHOOL NURSE:**
- Attains NCSN certification.
- Develops and conducts professional development programs for use on local, state and/or national levels.
### QUALITY STANDARD IV
School nurses reflect on their practice.

**THE SCHOOL NURSE:**
- Supports school, district and/or community goals and initiatives.
- Recognizes opportunities to develop leadership skills.

**THE SCHOOL NURSE:**
- Contributes to school committees and teams.
- Maintains a positive, productive and respectful relationship with colleagues.

**THE SCHOOL NURSE:**
- Takes advantage of opportunities to develop leadership skills.

**THE SCHOOL NURSE:**
- Finds ways to exercise leadership working with administration and colleagues to make appropriate health and safety decisions for students and staff.

**THE SCHOOL NURSE:**
- Leads activities to analyze student health data and interpret results and contribute to school health and wellness goals.

#### ELEMENT D: School nurses contribute knowledge and skills to educational practices and their profession.

**THE SCHOOL NURSE:**
- Shares expertise with colleagues.

**THE SCHOOL NURSE:**
- Uses knowledge and skills to support student growth and development.

**THE SCHOOL NURSE:**
- Applies knowledge of Essential School Health Services in nursing practice.

**THE SCHOOL NURSE:**
- Contributes knowledge in district-wide decision-making processes that impact the health of students.
- Serves as a mentor/coach for school nurse peers.

**THE SCHOOL NURSE:**
- Offers professional growth and development activities in school health and safety for district staff.
QUALITY STANDARD V
School nurses demonstrate collaboration, advocacy and leadership.

**ELEMENT E:** School nurses demonstrate high ethical standards.

**THE SCHOOL NURSE:**
- Maintains confidentiality of student health records as required by law.
- Understands the need to hold high ethical standards for themselves and others.

. . . and

**THE SCHOOL NURSE:**
- Demonstrates ethical behavior according to the Code of Ethics for School Nurses.
- Maintains confidentiality of student and staff health information (HIPAA, FERPA).

. . . and

**THE SCHOOL NURSE:**
- Demonstrates professional demeanor in words, actions and appearances.
- Maintains a therapeutic and professional relationship with appropriate role boundaries.

. . . and

**THE SCHOOL NURSE:**
- Challenges school practice when it violates ethical standards.
- Supports and encourages colleagues to demonstrate ethical behavior.

. . . and

**THE SCHOOL NURSE:**
- Acts as a teacher/leader to promote ethical standards.

**Evaluator Comments:**
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
Observations, Required Measures and Other Evidence/Artifacts for School Nurses

**S.B. 10-191** REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

ADDITIONAL EVIDENCE/ARTIFACTS:

Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

Rubric for Evaluating Colorado’s Specialized Service Professionals: School Orientation and Mobility Specialists

**Definition of an Effective School Orientation and Mobility Specialist**

Effective school orientation and mobility specialists are vital members of the education team. They are properly credentialed and have the knowledge, skills and dedication necessary to provide services that assist students who are blind/visually impaired to become safe, efficient and independent travelers. Effective school orientation and mobility specialists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. They provide effective, specialized instruction to support student growth and development in the areas of the Expanded Core Curriculum. Effective school orientation and mobility specialists work to form reciprocal relationships with students, families and staff to ensure safe, inclusive and respectful learning environments for their students. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, they enhance the academic achievement of their students.

**QUALITY STANDARD I**

School orientation and mobility specialists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>

**ELEMENT B:** School orientation and mobility specialists demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

**THE SCHOOL ORIENTATION AND MOBILITY SPECIALIST:**
- ☐ Has knowledge of how an orientation and mobility curriculum can reduce barriers to learning.
- ☐ Understands how to scaffold the orientation and mobility curriculum to support learning in literacy, math and other content areas.

**THE SCHOOL ORIENTATION AND MOBILITY SPECIALIST:**
- ☐ Provides specially designed instruction and effective services to reduce barriers to learning.

**STUDENTS:**
- ☐ Experience reduced barriers to learning as a result of the orientation and mobility instruction.
- ☐ Are able to identify and reduce barriers to learning.

**ELEMENT C:** School orientation and mobility specialist integrate evidence-based practices and research findings into their services and/or specially designed instruction.

**THE SCHOOL ORIENTATION AND MOBILITY SPECIALIST:**
- ☐ Has a basic awareness of research-based tools and resources related to orientation and mobility.
- ☐ Understands the connection of current, relevant orientation and mobility research to student performance.
- ☐ Is knowledgeable about research-based tools and resources related to orientation and mobility.

**THE SCHOOL ORIENTATION AND MOBILITY SPECIALIST:**
- ☐ Incorporates knowledge from current orientation and mobility research to meet individual needs of students.
- ☐ Collaborates in the training of school personnel to incorporate evidence based orientation and mobility skills.

**STUDENTS:**
- ☐ Improve their skills and knowledge through services that implement evidence based practice and research.
- ☐ Are supported in their learning by research-based services and specially designed instruction.
QUALITY STANDARD I
School orientation and mobility specialists demonstrate mastery of and expertise in the domain for which they are responsible.

- Holds high ethical standards for himself/herself and others.
- Adheres to standards of professional practice.

**THE SCHOOL ORIENTATION AND MOBILITY SPECIALIST:**
- Maintains confidentiality of student and fellow orientation and mobility specialist interactions as well as student and personal data.
- Demonstrates ethical behavior, including honesty, integrity, fair treatment and respect for others.
- Models ethical behavior for students, families and other staff.
- Expects ethical behavior on the part of students.

**STUDENTS:**
- Demonstrate honesty and respect for others.

**Evaluator Comments:**
(Required for Ratings of “Basic” or “Partially Proficient” and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
Observations, Required Measures and Other Evidence/Artifacts for School Orientation and Mobility Specialists

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:
- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

ADDITIONAL EVIDENCE/ARTIFACTS:
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

Rubric for Evaluating Colorado’s Specialized Service Professionals: School Psychologists

Definition of an Effective School Psychologist

Effective school psychologists are vital members of the education team. They are properly credentialed and demonstrate professional expertise in psychoeducational assessment practices, interventions and crisis preparedness and response. Effective school psychologists provide services to help all children and youth succeed academically, socially, behaviorally and emotionally. Effective school psychologists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. They have a foundation in both psychology and education, are experts in addressing barriers to educational success. They engage in data-based decision making to plan and deliver effective and culturally responsive services. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, they enhance the academic achievement and personal/social development of their students.

<table>
<thead>
<tr>
<th>QUALITY STANDARD I</th>
<th>School psychologists demonstrate mastery of and expertise in the domain for which they are responsible.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basic</td>
<td>Partially Proficient</td>
</tr>
</tbody>
</table>

**ELEMENT A:** School psychologists demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

**THE SCHOOL PSYCHOLOGIST:**
- Demonstrates an understanding of typical vs. atypical development to guide an intervention approach.

**THE SCHOOL PSYCHOLOGIST:**
- Demonstrates knowledge of physical, cultural, developmental and social influences on learning and behavior.

**THE SCHOOL PSYCHOLOGIST:**
- Applies knowledge of how mental, behavioral and emotional health impact learning and life skills to practice.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Demonstrate an understanding of individual child developmental levels.

**STUDENTS:**
- Participate in services appropriate for their developmental levels.
QUALITY STANDARD I
School psychologists demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>
<th>Partially Proficient</th>
<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>

**ELEMENT B**: School psychologists demonstrate knowledge of effective services and/or specially designed instruction that reduce barriers to and support learning in literacy, math and other content areas.

**THE SCHOOL PSYCHOLOGIST**: 
☐ Identifies the barriers to learning, including those related to mental health issues and crises.

. . . and **THE SCHOOL PSYCHOLOGIST**: 
☐ Recommends interventions and adaptations (accommodations and modifications) that reduce the student’s barriers to learning and increase access to the curriculum.

. . . and **THE SCHOOL PSYCHOLOGIST**: 
☐ Uses a problem-solving process and knowledge of effective practices to develop solutions to barriers that inhibit learning.

. . . and **STUDENTS, TEACHERS AND/OR FAMILIES**: 
☐ Demonstrate an understanding of individual barriers to learning.

. . . and **STUDENTS**: 
☐ Demonstrate a reduction in barriers to their learning.

. . . and **STUDENTS, TEACHERS AND/OR FAMILIES**: 
☐ Demonstrate an awareness of evidence based strategies, practices and interventions to meet individual student needs.

**ELEMENT C**: School psychologists integrate evidence-based practices and research findings into their services and/or specially designed instruction.

**THE SCHOOL PSYCHOLOGIST**: 
☐ Understands the concept of evidence-based psychoeducational practices and their importance in the learning environment.

. . . and **THE SCHOOL PSYCHOLOGIST**: 
☐ Makes connections between student data and evidence-based psychoeducational practices.

. . . and **THE SCHOOL PSYCHOLOGIST**: 
☐ Applies knowledge of evidence-based interventions and programs in recommending, planning, or designing school-based intervention plans.

. . . and **STUDENTS, TEACHERS AND/OR FAMILIES**: 
☐ Demonstrate an awareness of evidence based strategies, practices and interventions to meet individual student needs.

. . . and **STUDENTS, TEACHERS AND/OR FAMILIES**: 
☐ Apply newly learned skills.

**QUALITY STANDARD I**
School psychologists demonstrate mastery of and expertise in the domain for which they are responsible.

**ELEMENT D:** School psychologists demonstrate knowledge of the interconnectedness of home, school and community influences on student achievement.

**THE SCHOOL PSYCHOLOGIST:**
- ☐ Understands how the home and family influence student behavior and achievement.
- ☐ Incorporates information from family and/or outside agencies or community providers into service planning and delivery.
- ☐ Has knowledge of community/local resources/services.

**THE SCHOOL PSYCHOLOGIST:**
- ☐ Partners with families and significant adults to help students meet educational and intervention goals.

**STUDENTS AND/OR FAMILIES:**
- ☐ Increase their involvement and participation in educational planning.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- ☐ Develop knowledge of community/local resources/services that foster student development, mental health and wellbeing.
QUALITY STANDARD I
School psychologists demonstrate mastery of and expertise in the domain for which they are responsible.

### ELEMENT A: School psychologists foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers.

**THE SCHOOL PSYCHOLOGIST:**
- Recognizes the importance of an educational environment in which students feel safe and experience a caring relationship.
- Encourages positive relationships between and among students and staff that is conducive for all students to learn.
- Models empathy and respect for individual students.

**THE SCHOOL PSYCHOLOGIST:**
- Understands that student and family background and culture may influence development, behavior and school performance.

**STUDENTS:**
- Participate in activities that lead to positive and nurturing relationships.
- Actively seek a variety of perspectives to enhance their awareness of diversity in their school and community.

### ELEMENT B: School psychologists demonstrate respect for diversity within the home, school and local and global communities.

**THE SCHOOL PSYCHOLOGIST:**
- Considers student and family background characteristics in planning assessments and/or interventions.
- Demonstrates sensitivity and skills needed to work with families, students and staff from diverse cultures and background.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Demonstrate respect for the backgrounds of others in the school setting.
- Actively seek a variety of perspectives to enhance their awareness of diversity in their school and community.
QUALITY STANDARD II
School psychologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

</thead>
</table>

**ELEMENT C:** School psychologists engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

**THE SCHOOL PSYCHOLOGIST:**
- Recognizes student individual differences and unique situations.
- Demonstrates an understanding of and respect for diversity in development and learning as a foundation for individual student interventions.
- Uses procedures and materials that are developmentally appropriate.

**THE SCHOOL PSYCHOLOGIST:**
- In collaboration with others, addresses students’ individual differences and needs through the implementation of services.
- Adjusts practices based on individual student characteristics.

**STUDENTS AND/OR FAMILIES:**
- Feel valued as individuals and are engaged in the learning environment.

**ELEMENT D:** School psychologists engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

**THE SCHOOL PSYCHOLOGIST:**
- Promotes an educational environment that is inviting to families and significant adults.
- Communicates effectively with diverse audiences e.g. parents, teachers, other school personnel, policy makers and community service providers.

**THE SCHOOL PSYCHOLOGIST:**
- Maintains appropriate and respectful relationships with students, their families and significant adults.
- Works collaboratively with all school personnel to create a positive learning environment.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Initiate communication with school psychologists to discuss student needs.
- Willingly share information that may impact student learning.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Seek the school psychologist’s assistance to find resources and services to support student needs.
- Partner with school staff members for the benefit of their students.
QUALITY STANDARD II
School psychologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>

</thead>
</table>

**ELEMENT E:** School psychologists select, create and/or support accessible learning environments characterized by acceptable student behavior, efficient use of time and appropriate behavioral strategies.

**THE SCHOOL PSYCHOLOGIST:**
- Establishes behavioral expectations for all students.

**THE SCHOOL PSYCHOLOGIST:**
- Structures services to minimize interruption to instructional time.
- Makes maximum use of service provision time.
- Holds students accountable for adherence to school and class rules.

**THE SCHOOL PSYCHOLOGIST:**
- Develops an awareness of effective strategies that address behavioral needs and challenges.
- Use strategies to increase positive student behaviors.

**TEACHERS AND/OR FAMILIES:**
- Develop an awareness of effective strategies that address behavioral needs and challenges.
- Use strategies to increase positive student behaviors.

**Evaluator Comments:**
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

**Comments of Person Being Evaluated:**
(Please indicate the element for which the comment applies if not for the standard as a whole.)
QUALITY STANDARD III
School psychologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>

ELEMENT A: School psychologists provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

### THE SCHOOL PSYCHOLOGIST:
- Considers legal requirements and district policies in assessment and intervention planning.
- Supports academic standards and aligns intervention plans with legal requirements and local policies for IEPs, 504 and RtI.

### THE SCHOOL PSYCHOLOGIST:
- Provides services that meet all legal requirements while taking into account the individual psychoeducational and academic needs of the student.

### STUDENTS AND/OR FAMILIES:
- Demonstrate an understanding of how interventions are intended to enable the student to achieve by meeting Colorado Academic Standards.

### ELEMENT B:
School psychologists utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

### THE SCHOOL PSYCHOLOGIST:
- Considers the reliability and validity of assessment tools used.
- Collects data from multiple sources.
- Follows standardized procedures for administration and scoring of psychoeducational tests.
- Communicates assessment results to colleagues, parents and/or students in understandable terms.

### THE SCHOOL PSYCHOLOGIST:
- Plans, selects and administers multiple valid and reliable formal and/or informal assessment tools.
- Receive instruction and services that are informed by findings from multiple formal and informal assessments.

### STUDENTS/TEACHERS AND/OR FAMILIES:
- Demonstrate an understanding of psychoeducational assessment results and individual student strengths and needs.
QUALITY STANDARD III
School psychologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

<table>

**ELEMENT C:** School psychologists plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**THE SCHOOL PSYCHOLOGIST:**
- Consults with others about students.
- Has knowledge of varied models and strategies of consultation.
- Assists in planning for and/or providing mental health and behavioral interventions for students.

**THE SCHOOL PSYCHOLOGIST:**
- Applies the consultation model that best reflects the data sources to promote effective implementation of services.
- Plans for and/or provides evidence-based mental health and/or behavioral interventions for students with fidelity.

**TEACHERS OR OTHER EDUCATORS:**
- Adapt their practices based on consultation to better meet student needs.
- Generalize or transfer knowledge gained through the consultation to other contexts/other students.
QUALITY STANDARD III
School psychologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

</tr>
</thead>
</table>

**ELEMENT D:** School psychologists support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

THE SCHOOL PSYCHOLOGIST:  
- Has an awareness of building/district software and technology as appropriate to the professional role.
- Complies with legal requirements and ethical guidelines related to the electronic sharing and storing of confidential information.
- Uses technology appropriately to improve student outcomes.
- Enhances data collection and decision-making through the use of technology resources.

THE SCHOOL PSYCHOLOGIST:  
- Communicates high expectations for students.
- Actively participates on multidisciplinary teams and holds high expectations for students when determining needs, services and educational placement.

THE SCHOOL PSYCHOLOGIST:  
- Assists in the development of individualized goals for students and/or schools that promote critical-thinking, self-advocacy, leadership and/or problem solving skills.

THE SCHOOL PSYCHOLOGIST:  
- Demonstrate an awareness of available technology to enhance student learning.

THE SCHOOL PSYCHOLOGIST:  
- Utilize information and technology resources to enhance cognitive and academic skills with appropriate supports.

STUDENTS, TEACHERS AND/OR FAMILIES:  
- Monitor student progress towards achieving social/emotional goals and expectations.
- Demonstrate self-advocacy, critical thinking and problem solving skills based on their individual developmental level.

STUDENTS:  
- Utilize information and technology resources to enhance student learning.
- Demonstrate self-advocacy, critical thinking and problem solving skills based on their individual developmental level.

#### ELEMENT F: School psychologists communicate effectively with students.

**THE SCHOOL PSYCHOLOGIST:**
- □ Understands the importance of communicating effectively with students.

**THE SCHOOL PSYCHOLOGIST:**
- □ Uses communication skills to establish good working relationships (rapport) with students.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- □ Utilize feedback to enhance student learning and growth.

**STUDENTS AND/OR FAMILIES:**
- □ Demonstrate effective communication related their needs.

**ELEMENT G:** School psychologists develop and/or implement services and/or specially designed instruction unique to their professions.

**THE SCHOOL PSYCHOLOGIST:**
- □ Collects and analyzes psychoeducational assessment data in planning services.

**THE SCHOOL PSYCHOLOGIST:**
- □ Uses appropriate assessment instruments and techniques, including interviews, observations and targeted/diagnostic assessment tools to plan/implement services.

**SIGNIFICANT ADULTS:**
- □ Increase their ability to analyze and synthesize psychoeducational data for decision making.

**ADMINISTRATORS:**
- □ Demonstrate an awareness of how psychoeducational data can be used to inform systems level decisions.

## ELEMENT A: School psychologists demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.

**THE SCHOOL PSYCHOLOGIST:**
- Understands the importance of considering student data to inform service provision.
- Makes connections between school and classroom data and research-based practices for colleagues.
- Analyzes student and system data to inform service provision.
- Monitors and evaluates professional practices to determine what works for students.
- Actively considers new ideas that support the students’ social, emotional, psychological and academic successes.
- Applies and evaluates new and innovative strategies for continuous improvement of professional practice.

## ELEMENT B: School psychologists link professional growth to their professional goals.

**THE SCHOOL PSYCHOLOGIST:**
- Completes professional development required for licensure renewal.
- Selects and participates in professional development to improve professional practice.
- Uses performance feedback from supervisor and/or colleagues to improve practice.
- Participates in professional learning opportunities consistent with the professional growth plan.
- Applies knowledge and skills learned through professional development to practice.
- Establishes continuous improvement strategies to identify and self-monitor for professional growth.
### QUALITY STANDARD IV

**ELEMENT C:** School psychologists respond to complex, dynamic environments.

- **THE SCHOOL PSYCHOLOGIST:**
  - Demonstrates flexibility in his/her role in response to environmental changes.

- **THE SCHOOL PSYCHOLOGIST:**
  - Adapts professional practices based on new information about student or system needs.

- **THE SCHOOL PSYCHOLOGIST:**
  - Prioritizes professional activities based on changing student needs and/or changes in the school and broader environments.

- **THE SCHOOL PSYCHOLOGIST:**
  - Anticipates changes and/or challenges in the school or practice environment and is prepared to respond.

- **THE SCHOOL PSYCHOLOGIST:**
  - Expands role in responding to changes in the school or student environments.

**ELEMENT A:** School psychologists collaborate with internal and external stakeholders to meet the needs of students.

- **THE SCHOOL PSYCHOLOGIST:**
  - Maintains positive, productive and respectful relationships with colleagues.
  - Facilitates communication among various stakeholders.

- **THE SCHOOL PSYCHOLOGIST:**
  - Collaborates effectively with internal and external stakeholders regarding student and school-related issues.

- **THE SCHOOL PSYCHOLOGIST:**
  - Holds the needs of students foremost in seeking collaborations that would improve student outcomes.

- **THE SCHOOL PSYCHOLOGIST:**
  - Contributes to a multi-tiered continuum of services to support all students’ attainment of goals in collaboration with colleagues.

**ELEMENT B:** School psychologists advocate for students, families and schools.

- **THE SCHOOL PSYCHOLOGIST:**
  - Demonstrates an awareness of policies and/or procedures that affect school climate and student learning.
  - Seeks teamwork and informed decision making.

- **THE SCHOOL PSYCHOLOGIST:**
  - Discusses potential revisions to policies and/or procedures with administrators and/or other team members in order to better address student and school needs and the diversity of the student population.

- **THE SCHOOL PSYCHOLOGIST:**
  - Advocates for curricular, instructional, school climate and behavioral health improvements.

- **THE SCHOOL PSYCHOLOGIST:**
  - Participates in activities that promote systems-level change.

**ELEMENT C:** School psychologists demonstrate leadership in their educational setting(s).

- **THE SCHOOL PSYCHOLOGIST:**
  - Supports school goals and initiatives.
  - Provides leadership to school-based or district teams.

- **THE SCHOOL PSYCHOLOGIST:**
  - Mentors and/or supervises other professionals, staff, or trainees to facilitate their professional development.

- **THE SCHOOL PSYCHOLOGIST:**
  - Takes a leadership role in state or national-level organizations or professional associations, committees and/or task forces.

Rubric for Evaluating Colorado’s Specialized Service Professionals: School Social Workers

Definition of an Effective School Social Worker

Effective school social workers are vital members of the education team. They are properly credentialed and have the knowledge and skills necessary to provide social-emotional and behavioral supports through prevention, intervention and crisis response efforts. Effective school social workers strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective school social workers employ and adjust evidence-based strategies and approaches to meet the unique needs of their students. They develop interventions and provide services that reflect the reciprocal nature of home, school and community influences on student achievement by communicating and collaborating with students, families and staff. Effective school social workers analyze social-emotional, psychological and academic success and apply what they learn to improve their practice. Through reflection, advocacy and leadership, they enhance the academic achievement, personal/social/physical development of their students.

QUALITY STANDARD I
School social workers demonstrate mastery of and expertise in the domain for which they are responsible.

<table>
<thead>
<tr>
<th>Basic</th>

<th>Exemplary</th>
</tr>
</thead>
</table>

ELEMENT A: School social workers demonstrate knowledge of current developmental science, the ways in which learning takes place and the appropriate levels of intellectual, social and emotional development of their students.

THE SCHOOL SOCIAL WORKER:
- Understands the stages of intellectual, physical, social and emotional development of their students.
- Has knowledge of systems theory, including bio/psycho/social/cultural factors that influence students in the learning environment.
- Has knowledge of mental health, developmental benchmarks and social/emotional development as they apply to effective service delivery.
- Implements proven and promising practices to address student needs based on knowledge of developmental science.
- Assesses intellectual, social and emotional development of students for implementation of early identification and intervention strategies.
- Demonstrate an understanding of individual child development levels.

STUDENTS, TEACHERS AND/OR FAMILIES:
- Participate in services appropriate for their developmental level.
### QUALITY STANDARD I
School social workers demonstrate mastery of and expertise in the domain for which they are responsible.

ELEMENT E: School social workers demonstrate knowledge of and expertise in their professions.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Demonstrates an understanding of the importance of their multiple roles and responsibilities in an educational environment.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Organizes own time and workloads with consideration of priorities among their various roles and responsibilities.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Participates in professional development opportunities to enhance effective services and strengthen various roles and responsibilities in relation to the educational environment.

**STUDENTS:**
- ☐ Are able to identify what specific interventions have created academic or social/emotional growth.

**STUDENTS:**
- ☐ Can appropriately advocate for interventions that create academic or social/emotional growth.

Evaluator Comments:
(required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

Comments of Person Being Evaluated:
(Please indicate the element for which the comment applies if not for the standard as a whole.)
### QUALITY STANDARD II
School social workers support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<table>
<thead>
<tr>
<th>Basic</th>

</table>

**ELEMENT A:** School social workers foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Understands the importance of an environment in which each student experiences a caring and nurturing relationship.
- ☐ Creates an environment that is supportive, inclusive and flexible and encourages positive relationships between and among students.

**. . . and**

**THE SCHOOL SOCIAL WORKER:**
- ☐ Collaborates with school/district personnel to create a positive learning community.
- ☐ Prioritizes effective interventions in which each student has a positive, nurturing relationship with a caring adult.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Prioritizes effective interventions in which each student has a positive, nurturing relationship with a caring adult.
- ☐ Uses intervention approaches and materials which are compatible with students’ and families’ cultural backgrounds.

**. . . and**

**STUDENTS:**
- ☐ Contribute to the establishment and maintenance of a safe learning environment.
- ☐ Respect the backgrounds of students.

**. . . and**

**THE SCHOOL SOCIAL WORKER:**
- ☐ Collaborates with school/district personnel to create a positive learning community.
- ☐ Prioritizes effective interventions in which each student has a positive, nurturing relationship with a caring adult.

**. . . and**

**STUDENTS:**
- ☐ Participate in activities that lead to positive and nurturing relationships with other students and the significant adults in their lives.
- ☐ Seek a variety of perspectives to enhance their awareness of diversity in their school and community.

**. . . and**

**STUDENTS:**
- ☐ Participate in activities that lead to positive and nurturing relationships with other students and the significant adults in their lives.
- ☐ Seek a variety of perspectives to enhance their awareness of diversity in their school and community.

**. . . and**

**STUDENTS:**
- ☐ Contribute to the establishment and maintenance of a safe learning environment.
- ☐ Respect the backgrounds of students.

</table>

**ELEMENT C:** School social workers engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

**THE SCHOOL SOCIAL WORKER:**
- Appreciates students' individual differences and values their unique contributions.
- Treats students as individuals.
- Identifies effective interventions that will engage all students with their unique backgrounds, strengths, interests and needs.
- Understands the need for supplementary support services for students with unique learning needs.

. . . and **THE SCHOOL SOCIAL WORKER:**
- Provides consultation to school personnel on strategies for meeting the individual needs of students.
- Collaborates with students, families and significant adults to provide effective interventions that will engage all with their unique backgrounds, strengths, interests and needs.

**ELEMENT D:** School social workers engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

**THE SCHOOL SOCIAL WORKER:**
- Establishes an environment that is inviting to students, families and significant adults and/or professionals.
- Works collaboratively to listen to and understand the methods by which communication is preferred by stakeholders.
- Uses a variety of methods to initiate communication with students, families and stakeholders.

. . . and **THE SCHOOL SOCIAL WORKER:**
- Monitors and adapts communication styles based on needs of the stakeholders.
- Coordinates communication and information from families and significant adults with colleagues.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Have an understanding of the tools by which they can communicate with the school social worker or other significant adults and/or professionals.
- Seek the school social worker’s assistance to find resources and services to support student needs.
- Partner with the school social worker and the school for the benefit of their students.
QUALITY STANDARD II
School social workers support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

</table>

**ELEMENT A:** School social workers provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Understands legal requirements for professional practices.
- ☐ Demonstrates understanding of individualized education programs, 504 plans and other federal/state/local practices.
- ☐ Provides services which are individualized and aligned with legal and district requirements.

. . . and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Participates in the development of individualized education programs, 504 plans and other federal/state/local practices.

. . . and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Modify and adapt services related to individualized education programs, 504 plans and other federal/state/local practices.
- ☐ Collaborates with stakeholders around federal/state/local practices to individualize services for students.

. . . and

**STUDENTS AND/OR FAMILIES:**
- ☐ Understand their educational rights.

. . . and

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- ☐ Utilize materials, strategies and/or interventions to support individualized learning.

**ELEMENT B:** School social workers utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Demonstrates understanding of conducting reliable and valid assessments of individuals, families and systems/organizations to inform services.
- ☐ Conducts formal and informal assessment of individuals, families and other organizations and maintains accurate and appropriate data.
- ☐ Analyzes assessment data and adjusts services based on assessment data.

. . . and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Collaborates with students, families, significant adults and school personnel to monitor progress and collect data.
- ☐ Collaborates to share results with family, significant adults and colleagues.

. . . and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Demonstrate understanding of how assessment supports their learning.

. . . and

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- ☐ Are involved in ongoing monitoring and data collection related to student growth based on the student’s developmental level.
QUALITY STANDARD III
School social workers plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

**ELEMENT C:** School social workers plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Understands how data should inform and impact services.
- ☐ Understands the importance of integrating data from multiple sources.

... and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Uses data to develop, provide and integrate effective services that are developmentally appropriate.
- ☐ Understands how to monitor student progress toward achieving individualized student goals.

... and

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- ☐ Review and reflect on data collected in order to monitor progress toward achieving individualized student goals.

... and

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- ☐ Use interventions designed to improve progress toward achieving individualized student goals.

**ELEMENT D:** School social workers support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

**THE SCHOOL SOCIAL WORKER:**
- ☐ Demonstrates an understanding of available technology.
- ☐ Demonstrates an awareness of district software.

... and

**THE SCHOOL SOCIAL WORKER:**
- ☐ Uses technology to support data collection and effective services to maximize student outcomes.

... and

**STUDENTS:**
- ☐ Use technology to provide access to their learning environment.

... and

**STUDENTS:**
- ☐ Advocate for change to technology use based on their personal learning needs.

**ELEMENT E:** School social workers establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

**THE SCHOOL SOCIAL WORKER:**
- Has high expectations for all students.
- Understands that students need to employ critical thinking, self-advocacy and problem solving skills.

**THE SCHOOL SOCIAL WORKER:**
- Incorporates self-advocacy, critical thinking and/or problem solving skills into lessons and/or interventions.
- Collaborates with team members to determine appropriately high expectations for students.

**THE SCHOOL SOCIAL WORKER:**
- Sets student expectations at a level that challenges students and communicates high expectations with school staff and significant adults.
- Systematically and explicitly teaches self-advocacy, critical thinking and/or problem solving skills.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Monitor student progress towards achieving social/emotional goals and expectations.

**STUDENTS:**
- Demonstrate self-advocacy, critical thinking and problem solving skills based on their developmental level.

**ELEMENT F:** School social workers communicate effectively with students.

**THE SCHOOL SOCIAL WORKER:**
- Understands the importance of developing effective and individualized communication systems.
- Demonstrates effective listening skills.

**THE SCHOOL SOCIAL WORKER:**
- Develops effective and individualized communication systems in collaboration with students.
- Adjusts communication style to meet the individual needs of students.

**THE SCHOOL SOCIAL WORKER:**
- Models effective communication skills.
- Provides students with feedback related to behavior, performance and/or progress.

**STUDENTS, TEACHERS AND/OR FAMILIES:**
- Use feedback to enhance student learning and growth.

**STUDENTS:**
- Demonstrate effective communication related to their needs.

# Observations, Required Measures and Other Evidence/Artifacts for School Social Workers

**S.B. 10-191 Requires Multiple Measures of Educator Performance Measured on Multiple Occasions Throughout the Year.** For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**Shall Be Based On at Least One of the Following Performance Measures, When Appropriate to the SSP's Assigned Duties:**

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

**Additional Evidence/Artifacts:**

Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

- Behavior support plans
- Case bites
- Certificates of professional development attendance
- Contact logs — community resources, access to school/district/family events, etc.
- Crisis protocols: suicide assessments, threat assessment, child abuse reports, crisis plans, safety team meetings, informed supervision
- Culturally responsive materials
- Data analysis reports
- Data collection tools
- Documentation of continuing education — articles, conferences
- Documentation of parent/significant adult meetings
- Documentation of staff development related to meeting student needs, increasing positive behavior, classroom management, etc.
- Evaluation tools
- Functional Behavior Assessment/Behavioral Assessment Plan
- Feedback from students, community members, colleagues
- IEP (Students’ individualized goals)
- Initiation and facilitation of child and family team meetings
- List of community and stakeholder partners and their contributions to the school
- Logs/journals
- Minutes and rosters from meetings
- NASW Code of Ethics
- Parent/significant adult communication

### Observations, Required Measures and Other Evidence/Artifacts for School Social Workers (continued)

**ADDITIONAL EVIDENCE/ARTIFACTS:**
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

Rubric for Evaluating Colorado’s Specialized Service Professionals: Speech-Language Pathologists

**Definition of an Effective Speech-Language Pathologist**

Effective speech-language pathologists are vital members of the education team. They are properly credentialed and demonstrate knowledge of current research on effective, specialized speech-language instruction to meet the developmental, communicative and academic needs of students. Effective speech-language pathologists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. Effective speech-language pathologists evaluate students and design instruction that is aligned to the Colorado academic standards, advances students’ concept and content knowledge and skills and help to support student growth. Speech-language pathologists have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the educational team to establish safe, inclusive and respectful learning environments. Through reflection, advocacy and leadership, they enhance the academic achievement, communicative and social development of their students.

---

**QUALITY STANDARD I**

Speech-language pathologists demonstrate mastery of and expertise in the domain for which they are responsible.

#### ELEMENT D: Speech-language pathologists demonstrate knowledge of the interconnectedness of home, school and community influences on student achievement.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Understands the interconnectedness of home, school and community influences on student achievement.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Establishes an environment and uses instructional strategies that recognize the influence of family and community on learning.

**STUDENTS:**
- ☐ Make connections between non-school and school experiences and the current lesson.

**STUDENTS:**
- ☐ Use home and community experiences to enhance their learning.

#### ELEMENT E: Speech-language pathologists demonstrate knowledge of and expertise in their professions.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Is knowledgeable about the principles and intervention for communication disorders.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Exemplifies the profession’s role and responsibilities regarding students with disabilities.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Collaborates with other professionals on reducing the impact of communication disorders on student progress towards academic standards.

**STUDENTS:**
- ☐ Participate willingly in the school speech-language pathologist’s services.

**STUDENTS:**
- ☐ Achieve individual goals by actively engaging in services and instruction provided by the speech-language pathologist.

---

*Evaluator Comments: (Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)*

*Comments of Person Being Evaluated: (Please indicate the element for which the comment applies if not for the standard as a whole.)*
QUALITY STANDARD II
Speech-language pathologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

| ELEMENT A: Speech-language pathologists foster safe and accessible learning environments in which each student has a positive, nurturing relationship with caring adults and peers. |
|---|---|---|---|---|
| □ Establishes a nurturing and caring relationship with students. | □ Creates a learning environment that is conducive for all students to learn. | □ Reinforces a learning environment that features mutual respect and positive relationships between and among students. | □ Respects other students and the school speech-language pathologist. | □ Actively and respectfully engage in activities with each other and school staff members. |
| ELEMENT B: Speech-language pathologists demonstrate respect for diversity within the home, school and local and global communities. |
| □ Creates a learning environment in which diversity is respected. | □ Uses instructional approaches and materials that reflect students’ backgrounds. | □ Establishes instructional strategies that respect differences in students’ backgrounds. | □ Respect the backgrounds of fellow students. | □ Solicit a variety of perspectives. |
QUALITY STANDARD II
Speech-language pathologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

<th>Proficient (Meets State Standard)</th>
<th>Accomplished</th>
<th>Exemplary</th>
</tr>
</thead>
</table>

**ELEMENT C:** School speech-language pathologists engage students as unique individuals with diverse backgrounds, interests, strengths and needs.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Understands the importance of recognizing students’ unique strengths, needs and interests.
- Encourages students to share their interests.
- Challenges each student to expand and enhance their learning.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Ensures that all students participate with a high level of frequency.
- Asks students appropriately challenging questions that draw upon their individual strengths.

**STUDENTS:**
- Actively participate in learning activities.
- Demonstrate an appreciation for fellow students’ unique contributions to classroom learning.
QUALITY STANDARD II
Speech-language pathologists support and/or establish safe, inclusive and respectful learning environments for a diverse population of students.

ELEMENT D: Speech-language pathologists engage in proactive, clear and constructive communication and work collaboratively with students, families and other significant adults and/or professionals.

THE SPEECH-LANGUAGE PATHOLOGIST:
- Establishes a learning environment that is inviting to families and significant adults.
- Maintains appropriate and respectful relationships with students, their families and/or significant adults.
- Uses a variety of methods to initiate communication with families and significant adults.

THE SPEECH-LANGUAGE PATHOLOGIST:
- Partners with families and significant adults to help students meet education goals.
- Shares information from families and significant adults with colleagues who provide student services.

STUDENTS:
- Freely and openly communicate at their ability level with each other, the school speech-language pathologist and other significant adults.
- Model appropriate student behaviors within the learning environment.

STUDENTS, FAMILIES AND SIGNIFICANT ADULTS:
- Discuss student needs with the school speech-language pathologist and seek assistance to find resources and services to support student needs.

Evaluator Comments:
(Required for Ratings of "Basic" or "Partially Proficient" and recommended for all rating levels.)

Comments of Person Being Evaluated:
(Please indicate the element for which the comment applies if not for the standard as a whole.)

QUALITY STANDARD III
Speech-language pathologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

**ELEMENT A:** Speech-language pathologists provide services and/or specially designed instruction aligned with state and federal laws, regulations and procedures, academic standards, their districts’ organized plans of instruction and the individual needs of their students.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Is knowledgeable about federal and state laws and local policies and/or procedures.
- Aligns specialized instruction with student learning objectives, district plan for instruction and Colorado Academic Standards.
- Communicates federal, state and district policies and regulations for colleagues and assists in ensuring practice is compliant.

**ELEMENT B:** Speech-language pathologists utilize multiple sources of data, which include valid informal and/or formal assessments, to inform services and/or specially designed instruction.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Uses assessment data and informal feedback to guide instruction.
- Aligns specially designed instruction with individualized education program (IEP) goals, academic standards and student assessment results.
- Monitors instruction against student performance and makes real-time adjustments.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Collaborates with teachers and other school staff members to support adherence to federal and state laws and local policies.
- Ensures that recommendations and actions support federal and state laws and district policies and regulations.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Understands that their educational services and instruction are guided by federal laws, state standards and local policies.

**STUDENTS:**
- Participate willingly in formal and informal assessment to inform their instruction.
- Assist colleagues in reviewing data from multiple sources and making adjustments to instruction based on data.

**STUDENTS:**
- Participate in developing and addressing individual goals to meet their needs aligned with extant federal laws, state standards and local policies.

**STUDENTS:**
- Confer with the speech language pathologist to review progress toward the learning targets.
QUALITY STANDARD III
Speech-language pathologists plan, deliver and/or monitor services and/or specially designed instruction and/or create environments that facilitate learning for their students.

**ELEMENT C:** Speech-language pathologists plan and consistently deliver services and/or specially designed instruction that integrate multiple sources of data to inform practices related to student needs, learning and progress toward achieving academic standards and individualized student goals.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Uses multiple sources of data to plan lessons.
- Uses available technology or assistive technology to facilitate specially designed instruction.
- Makes connections between student data and research-based practices.
- Individualizes instructional approaches based on multiple data sources to meet the unique needs of each student.
- Monitors student progress toward achieving academic standards and uses data to focus student’s learning experiences.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Makes connections between student data and research-based practices.
- Individualizes instructional approaches based on multiple data sources to meet the unique needs of each student.
- Monitors student progress toward achieving academic standards and uses data to focus student’s learning experiences.

**STUDENTS:**
- Monitor their level of engagement and progress toward achieving goals.
- Engage in virtual or face-to-face learning activities enhanced by appropriate use of available technology or assistive technology.
- Use available technology or assistive technology to accelerate their learning.

**ELEMENT D:** Speech-language pathologists support and integrate appropriate available technology in their services and/or specially designed instruction to maximize student outcomes.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Uses available technology or assistive technology to facilitate specially designed instruction.
- Monitors and evaluates the use of technology or assistive technology in the learning environment.
- Teaches strategies and procedures to ensure that students have access to appropriate available technology, including assistive technology.
- Engage in virtual or face-to-face learning activities enhanced by appropriate use of available technology or assistive technology.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Makes connections between student data and research-based practices.
- Individualizes instructional approaches based on multiple data sources to meet the unique needs of each student.
- Monitors student progress toward achieving academic standards and uses data to focus student’s learning experiences.

**STUDENTS:**
- Initiate activities to address their learning strengths and next steps.

**ELEMENT E:** Speech-language pathologists establish and communicate high expectations for their students that support the development of critical-thinking, self-advocacy, leadership and problem solving skills.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Holds high expectations for all students.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Communicates high expectations to students and challenges them to learn to their greatest ability.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Systematically and explicitly teaches higher-order thinking and problem-solving skills.
- Provides encouragement for students to advocate for themselves.

**STUDENTS:**
- Participate in setting learning objectives and monitor their progress toward achieving them.
- Apply higher-order thinking and problem-solving skills at their ability level to address challenging issues.

**ELEMENT F:** Speech-language pathologists communicate effectively with students.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Understands the importance of communicating effectively with students.
- Models effective communication skills.
- Encourages students to communicate effectively.
- Provides opportunities for students to practice communication skills.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Teaches effective skills in listening, presenting ideas and leading discussions.

**STUDENTS:**
- Apply effective communication skills in their work.
- Use appropriate communication in a variety of situations or environments.

**ELEMENT G:** Speech-language pathologists develop and/or implement services and/or specially designed instruction unique to their professions.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Understands the principles and methods of evaluation of communication disorders.
- ☐ Determines the presence of speech or language impairments through the use of a body of evidence, including both formal and informal methods of assessments.
- ☐ Offers assistance to colleagues in addressing linguistic and metalinguistic foundations of learning.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Determines the presence of speech or language impairments through the use of a body of evidence, including both formal and informal methods of assessments.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- ☐ Employs a variety of evidence-based tools in the intervention and remediation of communication disorders, including AAC and AT.

**STUDENTS:**
- ☐ Participate willingly in instruction at their ability level.

**STUDENTS:**
- ☐ Understand and mediate the impact of their disability on their education at their ability level.

**ELEMENT A:** Speech-language pathologists demonstrate that they analyze student learning, development and growth and apply what they learn to improve their practice.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Collects and analyzes student data to inform instruction.
- Collects multiple examples of student work to determine student progress over time and make adjustments to instruction.
- Applies knowledge of student learning, development and growth to the development of lesson plans and specially designed instructional strategies.
- Develops IEPs and lesson plans based on a body of evidence such as information gathered from students, families, or significant adults or colleagues.
- Offers assistance to colleagues in analyzing student behavioral changes and determining best practice for individual students.

**ELEMENT B:** Speech-language pathologists link professional growth to their professional goals.

**THE SPEECH-LANGUAGE PATHOLOGIST:**
- Uses performance feedback from supervisor and/or colleagues to improve practice.
- Applies knowledge and skills learned through professional development to instructional decisions.
- Selects professional development activities based on professional goals related to a positive impact on student learning.
- Regularly tries new and different ways of teaching new skills.
- Develops and follows a long-term professional growth plan.

Observations, Required Measures and Other Evidence/Artifacts

S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR. For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP’S ASSIGNED DUTIES:
- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

ADDITIONAL EVIDENCE/ARTIFACTS:
Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.

- Analyses of time on task
- Anecdotal records
- Assessment data and protocols/diagnostic information
- Class rules
- Collaboration with ELA teachers and support personnel
- Communication tools, such as AAC communication notebooks and devices
- Cultural competence survey
- Culturally sensitive assessments and materials
- Data to inform service delivery, differentiate instruction and intervention plans
- Documentation of:
  - Collaboration with colleagues
  - Communication with parents, the community, other professionals
  - Data Analysis
  - District or community involvement such as presentations, minutes, etc.
  - IEP meetings (reports, goals, student progress, etc.)
  - Membership on professional committees
  - Professional development attended or provided
  - Professional development on cultural sensitivity
  - Professional learning communities
  - Service on teams, task forces and committees
  - Student participation in IEP meetings
  - Time Management
- Effective use of interpreters or translators when necessary
- Evaluations of practices
- Evidence of cultural sensitivity in learning environment
- Evidence of family engagement in schools
- Examples of materials used with students
- Examples of research articles or other research-based resources used
- Federal, state and local laws/policies
- Formative and summative assessment data
- IEPs
- Instructional materials used with students
- Intervention logs
- List of interpreters available for IEP meetings
- Long-term professional development plan
- Maintenance of CDE licensure
- Meeting agendas
- Organizational tools, such as graphic planners, visual schedules
- Parent communication log
- Parent, teacher, peer, student feedback
- Policies/procedures with changes
- Progress monitoring information
- Relevant materials for other school staff
- Review of learning objectives or goals
- Self-reflection tools
- Standards of practice for speech pathologists
- Student data (achievement, progress, interests, needs, strengths)
- Student evaluation reports
- Student learning objectives/goals
- Student work
Glossary

This glossary contains definitions for terms used throughout this users’ guide. In some cases, examples are provided to help the reader gain a better understanding of the definition in the context of educator evaluation. Sources of information are provided along with individual glossary items to provide easily accessible links to help users locate additional information.

The glossary has been aligned with the glossary from the Resource Guide for Deepening the Understanding of Teachers’ Professional Practices In support of the Rubric for Evaluating Colorado Teachers, a companion document to the user’s guide. Glossary entries in red font refer to definitions from the resource guide for items that may not appear in this user’s guide. Every effort has been made to ensure that all entries are the same for both guides.

**504 Plan:** Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, which specifies that no one with a disability can be excluded from participating in federally funded programs or activities, including elementary, secondary or postsecondary schooling. A 504 plan spells out the modifications and accommodations that will be needed for these students to have an opportunity to perform at the same level as their peers.

**Academic Language:** The language used in textbooks, in classrooms and on tests. It is different in structure and vocabulary from the everyday spoken English of social
interactions. Many students who do not speak English well have trouble comprehending the academic language used in high school and college classrooms. Low academic language skills have been shown to be associated with low academic performance in a variety of educational settings. The main barrier to student comprehension of texts and lectures is low academic vocabulary knowledge. (Definition downloaded on Aug. 20, 2012 from http://www.academiclanguage.org/Academic_Language.html)

**Academic Vocabulary:** In other words, it is not the technical vocabulary of a particular academic discipline. Academic vocabulary is used across all academic disciplines to teach about the content of the discipline. For example, before taking chemistry, students do not know the technical words used in chemistry. But the underprepared students also don’t know the vocabulary used to teach the chemistry concepts. Underprepared students are unfamiliar with words like evaluation, theory, hypothesis, assumption, capacity and validate. Professors assume students comprehend such academic vocabulary, but such vocabulary is not often used in the everyday spoken English of many students. In addition, academic lectures and texts tend to use longer, more complex sentences than are used in spoken English. (Definition downloaded on August 20, 2012 from http://www.academiclanguage.org/Academic_Language.html).

**Accelerating Students through Concurrent Enrollment (ASCENT):** A “5th Year Program” that allows high school seniors to concurrently enroll in high school and take a fifth year of instruction consisting entirely of college classes. To qualify for this program, students must have met all of their high school graduation requirements, have taken 12 credit hours of college classes prior to the end of their senior year and be considered college/career ready.

**Administrator:** Any person who administers, directs or supervises the education instructional program, or a portion thereof, in any school or school district in the state and who is not the chief executive officer or an assistant chief executive officer of such school or a person who is otherwise defined as an administrator by his or her employing school district or BOCES.*

---

*Glossary items marked with an “*” were taken from the State Rules document dated November 9, 2011.

**American School Counselor Association (ASCA):** Supports school counselors’ efforts to help students focus on academic, personal/social and career development so they achieve success in school and are prepared to lead fulfilling lives as responsible members of society.

**Appropriate Available Technology:** Technology choices made by educators during the execution of their roles. Educators are expected to use the most appropriate technology available to them for the job at hand.

**Artifacts:** Documents, materials, processes, strategies and other information that result from the normal and customary day-to-day work of any educator. To effectively address the requirements of the evaluation system, it is not necessary to collect the artifacts listed as examples for each standard prior to discussions between the evaluator and the educator being evaluated. In fact, educators and their evaluators may choose not to use any artifacts other than those specifically required by S.B. 10-191 so long as they agree on their rating levels. Artifacts other than those included as examples may also be used. Artifacts are used only if either the educator being evaluated or the evaluator believes that additional evidence is required to confirm the accuracy of the self-assessment as compared to the evaluator’s assessment of the educator’s performance.

**Augmentative and Alternative Communication (AAC):** All forms of communication (other than oral speech) that are used to express thoughts, needs, wants and ideas. We all use AAC when we make facial expressions or gestures, use symbols or pictures, or write. (http://www.asha.org/public/speech/disorders/AAC/)

**BOCES or Board of Cooperative Services:** A regional educational service unit designed to provide supporting, instructional, administrative, facility, community, or any other services contracted by participating members.

**Collaboration:** Students use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others. Students:

a. interact, collaborate, and publish with peers, experts, or others employing a variety of digital environments and media
b. communicate information and ideas effectively to multiple audiences using a variety of media and formats

c. develop cultural understanding and global awareness by engaging with learners of other cultures

d. contribute to project teams to produce original works or solve problems (Retrieved on July 18, 2014 from http://www.cde.state.co.us/sites/default/files/documents/cdelib/librarydevelopment/schoollibraries/downloads/pdf/21stcenturyskillssymposiumflyer.pdf)

**Colorado Academic Standards:** The Colorado Academic Standards are the expectations of what students need to know and be able to do at the end of each grade. They also stand as the values and content organizers of what Colorado sees as the future skills and essential knowledge for our next generation to be more successful. All Colorado districts are required to adopt local standards that meet or exceed the Colorado Academic Standards. The Colorado Academic Standards are also the basis of the annual state assessment. Colorado has updated academic standards in 10 content areas for preschool through 12th grade: music; visual arts; drama and theatre arts; dance; comprehensive health and physical education; mathematics; reading, writing, and communicating; science; social studies; and world languages. The Colorado Academic Standards for reading, writing, and communicating and for mathematics incorporate the Common Core State Standards. In addition, the state has developed Extended Evidence Outcomes aligned to the standards for students with significant cognitive disabilities. Colorado also adopted Colorado English Language Proficiency (CELP) standards to support English language learners. (See more at: http://www.cde.state.co.us/standardsandinstruction/factsheetsandfaqs#CASOverview)

**Colorado English Language Proficiency (CELP) Standards:** The CELP standards center on the English language needed and used by English Language Learners (ELLs) to succeed in school. They guide all educators who teach ELLs and help students’ access grade level academic content while learning English. While the CELP standards are designed support ELLs specifically in accessing the Colorado Academic Standards, the methods employed by educators to address academic language in the CELP standards, within and across disciplines, are considered promising practice for the benefit of all students. (See more at: http://www.cde.state.co.us/coenglangprof/CELPintro.asp#sthash.yaiG5NQZ.dpuf.)

**Colorado Model Evaluation System:** The fair, equitable and valid educator evaluation system provided by the Colorado Department of Education for Colorado’s school districts to enable them to meet the requirements of S.B. 10-191.

**Comprehension:** - The process of simultaneously extracting and constructing meaning through interaction and involvement with written language. (Retrieved on May 14, 2015 from http://www.rand.org/content/dam/rand/pubs/monograph_reports/MR1465/MR1465.ch2.pdf).

**Creativity and Innovation Skills:** demonstrating originality and inventiveness in work; developing, implementing and communicating new ideas to others; being open and responsive to new and diverse perspectives; being willing to be helpful and make necessary compromises to accomplish a common goal.

**Critical Thinking and Reasoning:** Students use critical thinking skills to plan and conduct research, manage projects, solve problems and make informed decisions using appropriate digital tools and resources. Students:

a. Identify and define authentic problems and significant questions for investigation
b. Plan and manage activities to develop a solution or complete a project
c. Collect and analyze data to identify solutions and make informed decisions

**Communication Skills:** The ability to read, write, speak, listen and understand others, to “read” and interpret body language and to know the best ways to get points across. (Retrieved from http://www.ucdmc.ucdavis.edu/hr/hrdepts/asap/Documents/Communication_Skills.pdf on June 7, 2014).

**Coping Strategies:** The behaviors, thoughts and emotions used to adjust to the changes and challenges that occur in
life. In the classroom, the may include such things as persistence or self-reflection.

**Cultural Sensitivity:** Is the awareness that cultural differences and similarities exist and have an effect on values, learning, and behavior. (Stafford, Bowman, Eking, Hanna & Lopes-DeFede, 1997). (Retrieved on May 14, 2015 from http://www.uvm.edu/~cdci/prlc/unit3_slide/sld005.htm.)

**Developmental Science:** A multidisciplinary field of social-sciences research that seeks to integrate basic science and developmental theory with applied science on practices, policies and programs. Developmental scientists answer such questions as:

- Do summer reading programs help adolescents to read more often during summer?
- Do welfare policies promote children’s school readiness?

Developmental science helps educators and practitioners of other disciplines to develop an understanding of basic developmental research and theory in a substantive area (e.g., reading, motivation) as well as how development can be impacted by educational practices, policies and programs. (Retrieved on March 31, 2014 from http://ehe.osu.edu/educational-studies/gis-gim/applied-developmental-science/)

**Disciplinary Literacy:** “If content area literacy focuses on study skills and learning from subject-matter-specific texts, then disciplinary literacy, by contrast, is an emphasis on the knowledge and abilities possessed by those who create, communicate, and use knowledge within the disciplines. The difference is that content literacy emphasizes techniques that a novice might use to make sense of a disciplinary text (like how to study a history book for an exam), while disciplinary literacy emphasizes the unique tools that the experts in a discipline use to participate in the work of that discipline.” (Retrieved on June 7, 2014 from http://www.uvm.edu/~cdci/prlc/unit3_slide/sld005.htm.)

**Differentiated Content:** When a teacher differentiates content they may adapt what they want the students to learn or how the students will gain access to the knowledge, understanding and skills (Anderson, 2007). Educators are not varying student objectives or lowering performance standards for students. (Retrieved on May 14, 2015 from http://differentiation.asbwiki.wikispaces.net/Differentiating+Content).

**Differentiated Instruction:** A form of instruction that seeks to maximize each student's growth by recognizing that students have different ways of learning, different interests and different ways of responding to instruction. In practice, it involves offering several different learning experiences in response to students' varied needs. Educators may vary learning activities and materials by difficulty, so as to challenge students at different readiness levels; by topic, in response to students’ interests; and by students’ preferred ways of learning or expressing themselves (Definition retrieved on March 20, 2014 from Ravich, *EdSpeak: A Glossary of Education Terms, Phrases, Buzzwords and Jargon*, p. 75).

**Diversity:** The concept means understanding that each individual is unique and recognizing our individual differences. These can be along the dimensions of race, ethnicity, gender, sexual orientation, socio-economic status, age, physical abilities, religious beliefs, political beliefs, or other ideologies. It is the exploration of these differences in a safe, positive and nurturing environment. (Definition retrieved on June 7, 2014 from http://gladstone.uoregon.edu/~asuomca/diversityinit/definition.html). See also: http://www.colorado.edu/odece/.

**Educator:** A person, such as a principal, assistant principal, administrator, teacher, specialized service professional or other school or school system employee who is involved in educating learners.

**Elements of the Quality Standards:** The detailed descriptions of knowledge and skills that contribute to effective teaching and leading and which correspond to a particular Teacher, Principal or Specialized Service Professional Quality Standards.*

**Emotional Development:** Emotional development is the emergence of a child’s experience, expression, understanding, and regulation of emotions from birth through late adolescence. (Retrieved on May 14, 2015 from...
Emotional Intelligence: Emotional intelligence is the ability to identify and manage your own emotions and the emotions of others. It is generally said to include 3 skills:
1. Emotional awareness, including the ability to identify your own emotions and those of others;
2. The ability to harness emotions and apply them to tasks like thinking and problems solving;
3. The ability to manage emotions, including the ability to regulate your own emotions, and the ability to cheer up or calm down another person.

Empathy: The term “empathy” is used to describe a wide range of experiences. Emotion researchers generally define empathy as the ability to sense other people’s emotions, coupled with the ability to imagine what someone else might be thinking or feeling. Contemporary researchers often differentiate between two types of empathy: “Affective empathy” refers to the sensations and feelings we get in response to others’ emotions; this can include mirroring what that person is feeling, or just feeling stressed when we detect another’s fear or anxiety. “Cognitive empathy,” sometimes called “perspective taking,” refers to our ability to identify and understand other peoples’ emotions.

Evidence-Based Practice: The use of practices, interventions and treatments which have been proven, through scientifically-based research, to be effective in improving outcomes for individuals when the practice is implemented with fidelity. (See also http://www.cde.state.co.us/sites/default/files/documents/cdesped/download/pdf/ff-ebp_mh_intro.pdf)

Evidence Provided by Artifacts: The unique information each artifact used in the evaluation provides which is above and beyond the evidence provided by performance ratings. The evidence is used to support adjustments to ratings during the end-of-year discussion between the educator being evaluated and evaluator to determine final ratings for the educator being evaluated.

Expected Growth: A student’s expected/predicted performance on a current year’s test given his or her previous year’s test score. This information is obtained by regressing the current year test score on the prior year test score. In other words, estimating expected growth addresses the question, “Compared to students with the same prior test score, is the current year test score higher or lower than would be expected?”

Expert Input: The process of including the input of specialized service professionals who have the expertise needed to determine whether professional practices have been demonstrated. Such experts work with evaluators to ensure that specialized service professionals receive fair and accurate evaluations based on the input of individuals with a deep understanding of what the various performance levels look like.

Extended Evidence Outcomes: EEO provide the alternate standards in Mathematics, Science, Social Studies and Reading, Writing and Communicating for students with significant cognitive disabilities who qualify for the alternate assessment. These alternate expectations are directly aligned to the grade level expectations for all students. –(See more at: http://www.cde.state.co.us/coextendeddeo/statestandard#sthash.N4Zmu2uV.dpuf.)

Formative Assessment: A process used by teachers and students during instruction that provides feedback to adjust ongoing teaching and learning resulting in improved student achievement of intended instructional outcomes.

Foundational Evidence Base: The integration of the best evidence from scientifically sound studies and student,
family and education data with practitioner expertise and student knowledge, skills, interests and values. When delivered in a context of caring and in a supportive and safe environment, the highest quality student outcomes can be achieved.

**Gain Score Model:** A gain score model measures year-to-year change by simply subtracting the prior year score from the current year score.

**Growth Models:** Models that measure student achievement growth from one year to the next by tracking the same students. This model addresses the question, “How much, on average, did students’ performance change from one grade to the next?” To permit meaningful interpretation of student growth, the model implicitly assumes that the measurement scales across grades are vertically linked (i.e., that student scores on different tests across grades are directly comparable and represent a developmental continuum of knowledge and skill). (Growth, Standards and Accountability, The Center for Assessment, April 2009: http://www.nciea.org/publications/growthhandStandard_DB09.pdf).

**Hearing Assistance Technology:** Used in educational settings to improve auditory access to the teacher or talker by mitigating the effects of noise, reverberation and distance from the talker. All learners need access to communication and instruction in their classrooms and other instructional settings; learners who are deaf and hard of hearing, or who have other auditory deficits, require special technology to receive comparable auditory access. HAT may be prescribed through an individual family service plan (IFSP), individual education program (IEP), or a 504 Plan. HAT devices are selected, fitted and verified by an audiologist. For infants and toddlers HAT decisions are generally made with the parents and early intervention provider; for school-age children with the student and the IEP team. (Reference EAA)

**Hearing Loss and Other Auditory Disorders:** A reduced hearing acuity or a documented difficulty accessing learning through the sense of hearing. These deficits are uniquely identified and managed by an audiologist. Educational (school-based) audiologists specialize in the effects of hearing, listening and auditory processing deficits on the ability of children and youth to access communication and learning.

*Reference ASHA; EAA*

**High Expectations:** Most educators recognize the importance of high expectations. Creating a classroom where high expectations permeate the culture is more challenging. The key is recognizing that “high expectations” is both a belief about student capability and specific actions undertaken to make those beliefs a reality. Teachers who demonstrate the highest expectations show their students that they expect rigorous, challenging, high quality work. (Retrieved on May 18, 2015 from http://www.doe.in.gov/sites/default/files/turnaround-principles/education-partnership-high-expectations.pdf).

**Higher Order Thinking:** Critical, logical, reflective, metacognitive and creative thinking. These skills are activated when individuals encounter unfamiliar problems, uncertainties, questions, or dilemmas. Successful applications of the skills result in explanations, decisions, performances and products that are valid within the context of available knowledge and experience and that promote continued growth in these and other intellectual skills. Higher order thinking skills are grounded in lower order skills such as discriminations, simple application and analysis and cognitive strategies and are linked to prior knowledge of subject matter content. Appropriate teaching strategies and learning environments facilitate their growth as do student persistence, self-monitoring and open-minded, flexible attitudes. (Source: FJ King, F. J., Goodson,L., Rohani, F. Higher order thinking skills: definition, teaching strategies and assessment. Tallahassee, FL: Florida State University, Assessment and Evaluation Educational Services Program.)

**Individual Career and Academic Plan (ICAP):** Senate Bill 09-256 and Colorado State Board of Education Rules 1 CCR 301-81 created standards for Individual Career and Academic Plans (ICAP) with the goal of decreasing dropout rates and increasing graduation rates by assisting students and their parents in developing and maintaining a personalized postsecondary plan that ensures readiness for postsecondary and workforce success.

**Individualized Education Program (IEP):** Required by the Individuals with Disabilities Education Act, an IEP defines the individualized objectives of a child who has a disability. The IEP is intended to help children reach educational goals more easily than they otherwise would. The IEP is tailored to the individual student’s needs as identified by the IEP evaluation process and helps teachers and specialized service professionals understand the student’s
disability and how the disability affects the learning process. Developing an IEP requires assessing students in all areas related to the known disabilities, simultaneously considering ability to access the general curriculum, considering how the disability affects the student’s learning, forming goals and objectives that correspond to the needs of the student and choosing a placement in the least restrictive environment possible for the student. (Adapted from http://en.wikipedia.org/wiki/Individualized_Education_Program)

Individualized Family Service Plan (IFSP): A written plan for providing early intervention services to an infant or toddler with a disability and the child’s family that (a) is based on the evaluation and assessment; (b) includes parental consent; (c) is implemented as soon as possible once parent consents for early intervention services in the IFSP is obtained; and (d) is developed in accordance with IDEA Part C.

Individuals with Disabilities Education Act (IDEA): A Federal law that guarantees certain educational rights for all people, including those with disabilities.

Information Literacy: Students apply digital tools to gather, evaluate, and use information. Students demonstrate a sound understanding of technology concepts, systems, and operations. Students:

a. plan strategies to guide inquiry
b. locate, organize, analyze, evaluate, synthesize, and ethically use information from a variety of sources and media
c. evaluate and select information sources and digital tools based on the appropriateness to specific tasks
d. process data and report results
e. understand and use technology systems
f. select and use applications effectively and productively
g. troubleshoot systems and applications
h. transfer current knowledge to learning of new technologies

Innovation: See Creativity.

Inquiry Methods: Teaching practices that utilize a disposition of inquiry learning including:

- problem-based learning: learning that starts with an ill-structured problem or case-study
- project-based learning: students create a project or presentation as a demonstration of their understanding
- design-based learning: learning through the working design of a solution to a complex problem

Inquiry emphasizes the process of learning in order to develop deep understanding in students in addition to the intended acquisition of content knowledge and skills. Inquiry draws upon constructivist learning theories where understanding is built through the active development of conceptual mental frameworks by the learner. (Retrieved on May 23, 2014 from http://www.teachinquiry.com/index/Introduction.html)

Instructional Strategies: Techniques teachers use to help students become independent, strategic learners. These strategies become learning strategies when students independently select the appropriate ones and use them effectively to accomplish tasks or meet goals. Instructional strategies can:

- motivate students and help them focus attention
- organize information for understanding and remembering
- monitor and assess learning. (Retrieved on May 18, 2015 from https://education.alberta.ca/media/352984/is.pdf.)

Intensive Instruction: The components of “high-quality, intensive instruction” provide

- small group instruction based on similar instructional needs,
- well-structured and explicit instruction with clearly-defined skills or concepts,
- appropriate delivery pace,
- time for student mastery through practice, and

Interdisciplinary: a knowledge view and curriculum approach that consciously applies methodology and language from more than one discipline to examine a central theme, topic, issue, problem, or work.” Heidi

Integration Districts: Districts selected as part of a voluntary effort by the Colorado Education Initiative (formerly the Colorado Legacy Foundation) to support CDE’s work to implement Senate Bill 10-191 as well as the Colorado Academic Standards pursuant to Senate Bill 08-212 (Colorado Achievement Plan for Kids). Four school districts (Centennial, Denver Public Schools, Eagle County and Thompson School District) and one BOCES (San Juan) were selected to implement, in an integrated manner, all of the following:

- Colorado Academic Standards and aligned instructional materials to guide instruction
- Professional development in formative practices to inform instruction
- Regular performance evaluations that hold educators accountable for improvement on measures of student learning/outcomes and provide them feedback to improve instruction

Interim Assessments: A term generally used to refer to medium scale, medium-cycle assessments. Interim assessments: 1) evaluate students’ knowledge and skills relative to a specific set of academic goals, typically within a limited time frame and, 2) are designed to inform decisions at both the classroom and beyond the classroom level, such as the school or district level. Thus, they may be given at the classroom level to provide information for the teacher, but unlike true formative assessments, the results of interim assessments can be meaningfully aggregated and reported at a broader level.

Invention: Students demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology. Students:

a. apply existing knowledge to generate new ideas, products, or processes
b. create original works as a means of personal or group expression
c. use models and simulations to explore complex systems and issues
d. identify trends and forecast possibilities

Learning Environment: The diverse physical locations, contexts and cultures in which students learn. Since students may learn in a wide variety of settings, such as outside-of-school locations and outdoor environments, the term is often used as a more accurate or preferred alternative to classroom. The term also encompasses the culture of a school or class—its presiding ethos and characteristics, including how individuals interact with and treat one another—as well as the ways in which teachers may organize an educational setting to facilitate learning. How adults interact with students and how students interact with one another may also be considered aspects of a learning environment and phrases such as “positive learning environment” or “negative learning environment” are commonly used in reference to the social and emotional dimensions of a school or class. (Retrieved on July 18, 2014 from http://edglossary.org/learning-environment/)

Learning Objectives: The term used to describe the instructional objectives, learning targets, lesson objectives, student academic growth objectives and other objectives for student learning.

Least Restrictive Environment (LRE): To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are not disabled and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. (Retrieved on June 13, 2014 from
Global society must be able to:

- Manage, analyze, and synthesize multiple streams of simultaneous information;
- Create, critique, analyze, and evaluate multimedia texts; and
- Attend to the ethical responsibilities required by these complex environments.

(Literacy Skills: Skills that include, but are not limited to, phonological awareness, phonics, reading fluency, vocabulary, comprehension, writing, speaking and listening.

Measures of Student Learning/Outcomes (also referred to as Student Academic Growth and Student Growth):
The various types of assessments of student learning, including for example, value-added or growth measures, curriculum-based tests, pre-/post- tests, capstone projects, oral presentations, performances, artistic portfolios, meeting IEP goals and objectives, and/or other measures.

Measures of Teacher Performance: The various types of assessments of teachers’ performance, including, for example, classroom observations, student test score data, self-assessments, or feedback from other staff members, families and significant adults, students or community members.

Mentor Texts: Examples of high quality writing used by students as models of the writing characteristic or skill they are learning. Students benefit from paying close attention to models before they begin drafting a piece of writing, as they compose their first draft, and as they move that draft into revision. Mentor texts are most powerful when students frequently revisit them throughout the writing process—and when teachers help them take lessons from writing exemplars. (Retrieved on May 18, 2015 from http://www.ascd.org/publications/educational-leadership/apr14/vol71/num07/Making-the-Most-of-Mentor-Texts.aspx).

Mid-Year Review: Takes place before the second semester of the school year. The evaluator and person being evaluated discuss progress to date toward meeting the annual goals articulated in the professional growth plan for the person being evaluated. The focus of the meeting is addressing barriers toward meeting annual goals and immediate action steps needed to overcome such barriers. Artifacts needed to demonstrate progress
may also be discussed as well a changes to the growth plan.

**Multi-Tiered System of Supports (MTSS):** Also known as Response to Intervention (RtI), is an approach for redesigning and establishing teaching and learning environments that are effective, efficient, relevant and durable for all students, families and educators. RtI/MTSS involves an education process that matches instructional and intervention strategies and supports to student needs in an informed, ongoing approach for planning, implementing and evaluating the effectiveness of instruction, curricular supports and interventions. RtI/MTSS is also a process designed to help schools focus on and provide high-quality instruction and interventions to students who may be struggling with learning. RtI/MTSS has three important parts: (1) A multi-tiered system of curriculum, instruction, assessment and interventions; (2) Using a problem solving method for decision making at each tier and (3) Using data to inform instruction at each tier. (Definition adapted from: [http://www.illinoisrti.org/rti-network/for-educators/understanding-rti-rti-mtss](http://www.illinoisrti.org/rti-network/for-educators/understanding-rti-rti-mtss) Downloaded February 8, 2014.)

**Not Observable Professional Practices:** Professional practices that an evaluator would not normally and customarily be able to observe during a typical class-period-long observation.

**Non-tested Grades and Subjects:** The grades and subjects that are not required to be tested under the Federal Elementary and Secondary Education Act.

**Norm-referenced:** A type of test or assessment that yields an estimate of the tested individual’s performance evaluation relative to a predefined population, with respect to the trait being measured. This type of test determines whether the test taker performed better or worse than other test takers, but not whether the test taker knows either more or less material than is necessary for a given purpose.

**Observable Professional Practices:** Professional practices that an evaluator would normally and customarily be able to observe during an observation of a typical class-period long lesson.

**Observations:** Used to measure observable classroom processes including specific teacher practices, aspects of instruction and interactions between teachers and students. Classroom observations can measure broad, overarching aspects of teaching and subject-specific or context-specific aspects of practice.

**Other Assessments:** The development and/or adaptation of other measures of student growth for non-tested grades and subjects used across schools or districts. These measures may include early reading measures; standardized end-of-course assessments; formative assessments; benchmark, interim, or unit assessments; and standardized measures of English language proficiency. Other assessments may be developed at either the state education agency or local education agency level. Teacher-developed assessments of student learning or growth also may fall into this category when those assessments meet expectations for rigor and comparability across classrooms in a district or across classrooms statewide.

**Partner Districts:** Districts who have already developed performance evaluation systems reflecting key elements of Senate Bill 10-191. These districts provide valuable information on the process for aligning existing educator evaluation systems to the rules developed by the State Board of Education, as well as providing an opportunity to enhance the Colorado State Model Evaluation System with elements from locally-developed systems.

**Performance Evaluation Rating:** The summative evaluation rating assigned by a school district or BOCES to licensed personnel and reported to the Colorado Department of Education on an annual basis. It is the equivalent of a “performance standard,” as defined in section 22-9-103 (2.5), C.R.S. *

**Performance Rating Levels:** Describe performance on professional practices with respect to Colorado’s Quality Standards.

- **Basic:** Educator’s performance on professional practices is significantly below the state performance standard.
- **Partially Proficient:** Educator’s performance on professional practices is below the state performance standard.
- **Proficient:** Educator’s performance on professional practices meets state performance standard.
- **Accomplished:** Educator’s performance on professional practices exceeds state standard.
**Exemplary:** Educator’s performance on professional practices significantly exceeds state standard.

**Performance Standards:** Levels of effectiveness established by rule of the state board pursuant to section 22-9-105.5(10). The four levels of effectiveness are: Ineffective, Partially Effective, Effective, and Highly Effective.

**Pilot Districts:** Districts selected as part of CDE’s work to implement Senate Bill 10-191. Pilot districts are representative of the various sizes, student demographics and geographic differences across Colorado. These pilot districts are using the Colorado State Model Evaluation Systems for both principals and teachers during the 2011-16 school years. They provide valuable feedback on the quality of the model system, identifying challenges and strengths of the system and suggesting refinements to the implementation process developed by CDE.

**Pilot Period:** The time during which the CDE will collaborate with school districts and BOCES to develop, define and improve the state model system. The pilot period will end on July 2016 or when the model system based on the Teacher, Specialized Service Professional and Principal Quality Standards has been completed and the commissioner has provided notice of such implementation to the reviser of statutes, whichever is later.

**Policy:** The formal guidance needed to coordinate and execute activity throughout an institution. When effectively deployed, policy statements help focus attention and resources on high priority issues – aligning and merging efforts to achieve the institutional vision. Policy provides the operational framework within which the institution functions. (Retrieved on July 18, 2014 from http://policy.calpoly.edu/cappolicy.htm.)

**Postsecondary and Workforce Readiness:** See Appendix B.

**Prepared Graduate Competencies:** The preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

**Principal:** A person who is employed as the chief executive officer or an assistant chief executive officer of a school in the state and who administers, directs or supervises the education program in the school.

**Principal Professional Growth Plan:** The development plan for principals/assistant principals which constitutes a written agreement developed by a principal/assistant principal and district administration that outlines the steps to be taken to improve the principal’s effectiveness. The principal growth plan shall include professional development opportunities.

**Problem Solving:** The process of moving toward a goal when the path to that goal is uncertain. We solve problems every time we achieve something without having known beforehand how to do so. We encounter simple problems every day: finding lost keys, deciding what to do when our car won't start, even improvising a meal from leftovers. But there are also larger and more significant “ill-defined” problems, such as getting an education, becoming a successful person, and finding happiness. Problem solving may include mathematical or systematic operations and can be a gauge of an individual’s critical thinking skills. (Adapted from http://www.gse.uci.edu/person/martinez_m/docs/martinez_Problem_Solving.html).

**Professional Practices:** The day-to-day activities in which educators engage as they go about their daily work. Professional practices included in the rubric are those one would expect an educator to demonstrate at each rating level. These are the behaviors, skills, knowledge and dispositions that educators should exhibit. Teacher and Specialized Service Professional Quality Standards I-V and Principal Quality Standards I-VI address the professional practice standards for educators in Colorado.

**Psychoeducational:** A model in which the practicing psychologist is concerned with the teaching of personal and interpersonal attitudes and skills which the individual applies to solve present and future psychological problems and to enhance satisfaction with life. This model views the role of the psychological practitioner in terms of client dissatisfaction (or ambition) goal-setting skill-teaching satisfaction (or goal achievement). Likewise, the client (in this case, student) is viewed as a pupil rather than a patient. (Adapted from http://cjc-rcc.ucalgary.ca/cjc/index.php/rcc/article/viewFile/1835/1685, retrieved on May 5, 2014.)

**Quality Standards:** To meet the requirements of S.B. 10-191, the State Council for Educator Effectiveness recommended Quality Standards for teachers, principals/assistant principals and specialized service professionals. These recommended standards were

---

reviewed and revised during the official rulemaking process conducted by the Colorado Department of Education. The revised standards and elements were approved by the Colorado State Board of Education as well as the legislature and are now among the Colorado State Board of Education’s official rules. These revised standards focus on the professional practices and measures of student learning needed to achieve effectiveness.

**Reliability:** The ability of an instrument to measure consistently across different raters and contexts.

**Resource Bank:** A collection of tools, materials and other resources provided by the Colorado Department of Education to enable Colorado’s school districts to implement the Colorado State Model Evaluation System and meet the requirements of S.B. 10-191.

**Response to Intervention (RtI):** See Multi-Tiered System of Support.

**Rigor/Rigorous:** The term rigor is widely used by educators to describe instruction, schoolwork, learning experiences, and educational expectations that are academically, intellectually, and personally challenging. Rigorous learning experiences help students understand knowledge and concepts that are complex, ambiguous, or contentious, and they help students acquire skills that can be applied in a variety of educational, career, and civic contexts throughout their lives.

The term is frequently applied to assignments that encourage students to think critically, creatively, and flexibly. Likewise, they may use the term rigorous to describe learning environments that are not intended to be harsh, rigid, or overly prescriptive, but that are stimulating, engaging, and supportive. Rigor is commonly applied to lessons that encourage students to question their assumptions and think deeply, rather than to lessons that merely demand memorization and information recall. (Adapted from [http://edglossary.org/rigor/](http://edglossary.org/rigor/)).

**School Administrator:** Principals and assistant principals working in Colorado’s schools.

**School District or District:** A school district organized and authorized by section 15 of Article IX of the state constitution and organized pursuant to article 30 of title 22, Colorado Revised Statutes.

**School Improvement Plan:** See Unified Improvement Plan.

**Scientifically-based research:** Research that involves the application of rigorous, systematic and objective procedures to obtain reliable and valid knowledge relevant to education activities and programs.

**Self-direction:** Students understand human, cultural, and societal issues related to technology and practice legal and ethical behavior. Students:

a. advocate and practice safe, legal, and responsible use of information and technology
b. exhibit a positive attitude toward using technology that supports collaboration, learning, and productivity
c. demonstrate personal responsibility for lifelong learning
d. exhibit leadership for digital citizenship

**Senate Bill 10-191:** Known as the ENSURING QUALITY INSTRUCTION THROUGH EDUCATOR EFFECTIVENESS (EQUITEE) bill and commonly referred to as the great teachers and leaders act, S.B. 10-191 is the guiding legislation for Colorado’s work on educator effectiveness issues.

**Shared Attribution or Measures of Collective Performance:** The use of measures required by the current provisions of the Elementary and Secondary Education Act and/or other standardized assessments used to measure the performance of groups of teachers. Measures of collective performance may assess the performance of the school, grade level, instructional department, teams or other groups of teachers. These measures can take a variety of forms including school wide student growth measures, team-based collaborative achievement projects and shared value-added scores for co-teaching situations.

**Significant Adults:** Teachers and other professionals, family members or non-family members who have a vested interest in and impact on the life of the student.

**Specialized Service Professionals (SSPs):** Licensed personnel who provide support to teachers and students in areas that involve student physical, emotional and social health and well-being. They include audiologists,
occupational therapists, physical therapists, school counselors, school nurses, school orientation and mobility specialists, school psychologists, school social workers and speech-language pathologists.

**Specially Designed Instruction:** Adapting, as appropriate, to the needs of children the content, methodology, or delivery of instruction to address the unique needs of the child that result from the child’s disability and to ensure access of the child to the general curriculum, so that the child can meet the educational standards within the jurisdiction of the public agency that apply to all children; internal stakeholders, external stakeholders; natural environment.

**Stakeholders:** Refers to anyone who is invested in the welfare and success of a school and its students, including administrators, teachers, staff members, students, parents, families, community members, local business leaders and elected officials such as school board members, city councilors and state representatives. Stakeholders may also be collective entities, such as local businesses, organizations, advocacy groups, committees, media outlets and cultural institutions. In a word, stakeholders have a “stake” in the school and its students, meaning that they have personal, professional, civic, or financial interest or concern. The term “stakeholders” may also be used interchangeably with the concept of a school community, which necessarily comprises a wide variety of stakeholders. (Retrieved on June 11, 2014 from http://edglossary.org/stakeholder/)

**Standards:** The Colorado Academic Standards (CAS) are the expectations of what students need to know and be able to do at the end of each grade. They also stand as the values and content organizers of what Colorado sees as the future skills and essential knowledge for our next generation to be more successful. State standards are the basis of the annual state assessment. - See more at: https://www.cde.state.co.us/standardsandinstruction/coloradoacademicstandards-academicstandards#sthash.Yc7i2EXN dpuf.

**State Board:** The State Board of Education established pursuant to Section 1 of Article IX of the state constitution*

**State Council:** The State Council for Educator Effectiveness established pursuant to article 9 of title 22.

**State Scoring Framework:** This framework outlines how data collected around the professional practices of principals, specialized service professionals and teachers and the measures of student learning/outcomes for students in the school should be combined in order to make a singular judgment about the person being evaluated.

**State Scoring Framework Matrix:** A matrix adopted by all districts statewide to assign teachers and principals to appropriate performance standard ratings based on locally-calculated professional practice and student growth/outcomes scores.

**State Model System:** The personnel evaluation system and supporting resources developed by the Colorado Department of Education, which meets all of the requirements for local personnel evaluation systems that are outlined in statute and rule.

**Statewide Summative Assessments:** The assessments administered pursuant to the Colorado student assessment program created in section 22-7-409, C.R.S., or as part of the system of assessments adopted by the state board pursuant to section 22-7-1006, C.R.S.*

**Structured Setting:** A small environment such as a special education classroom, motor room, or therapy intervention session where significant and individualized support is provided to the student and/or environmental or activity-based modifications are in place. This is in contrast to larger educational settings such as the cafeteria, playground and general education classroom where environments may be more distracting, less controlled, or less highly modified.

**Student Academic Growth** (incorporated in the CO State Model Evaluation System as Measures of Student Learning): The change in student achievement against Colorado Academic Standards for an individual student between two or more points in time, which shall be determined using multiple measures, one of which shall be the results of statewide summative assessments and which may include other standards-based measures that are rigorous and comparable across classrooms of similar content areas and levels. Student academic growth also may include gains in progress towards postsecondary and workforce readiness, which, for teachers, may include performance outcomes for successive student cohorts. Student academic growth may include progress toward academic and functional goals included in an
individualized education program and/or progress made towards student academic growth objectives.

**Student Academic Growth Objectives:** A method of setting measurable goals or objectives for a specific assignment or class, in a manner aligned with the subject matter taught and in a manner that allows for the evaluation of the baseline performance of students and the measurable gain in student performance during the course of instruction.

**Student Engagement:** In education, student engagement refers to the degree of attention, curiosity, interest, optimism and passion that students show when they are learning or being taught, which extends to the level of motivation they have to learn and progress in their learning. Generally speaking, the student-engagement concept is predicated on the belief that learning improves when students are inquisitive, interested, or inspired and that learning tends to suffer when students are bored, dispassionate, disaffected, or otherwise “disengaged.” (Retrieved from [http://edglossary.org/student-engagement/](http://edglossary.org/student-engagement/) on April 12, 2014)

**Student Learning Outcomes:** What students should know, understand and be able to do as a result of their work on particular courses or year-long curricula.

**Summary of Ratings for the Standard:** Summarizes individual element ratings for the standard. Summary ratings are also included in the Summary Evaluation Sheet Worksheet and the one-page Summary Evaluation Sheet, where the evaluator and the educator being evaluated will review all standard and element ratings and determine the overall professional practices rating.

**Teacher:** A person who holds an alternative, initial or professional teacher license issued pursuant to the provisions of article 60.5 of title 22 and who is employed by a school district, BOCES or a charter school in the state to instruct, direct or supervise an education program.

**Teacher Evaluation System Framework:** The complete evaluation system that all school districts and BOCES shall use to evaluate teachers employed by them. The complete teacher evaluation system framework includes the following component parts: (i) definition of teacher effectiveness set forth in section 3.01 of these rules, (ii) the Teacher Quality Standards described in section 3.02 of these rules, (iii) required elements of a written evaluation system described in section 5.01 of these rules and (iv) the weighting and aggregation of evidence of performance that are used to assign a teacher to one of four performance evaluation ratings as described in section 3.03 of these rules.

**Teacher Feedback:** SB. 10-191 requires that all educator evaluation systems include opportunities for students, parents, teachers, and other professionals to provide feedback on the performance of teachers, principals and other educators. The Colorado State Model Educator Evaluation System provides this opportunity through the use of required artifacts. There are a number of possibilities for artifacts that may be used to satisfy this requirement. The CDE provides the TELL survey at no charge to schools and districts. In addition, a number of districts are already using the ValEd Teacher feedback system and the Balanced Leadership Profile as feedback measures. Should districts choose, they may also develop their own measures or adopt other measures to satisfy this requirement.

**Teacher Professional Growth Plan:** The plan required by section 22-9-105.5 (3), C.R.S. and is a written agreement developed by a teacher and school district administration or local school board that outlines the steps to be taken to improve the teacher’s effectiveness. The teacher professional growth plan shall include professional development opportunities.

**Teacher Quality Standard:** The professional practice or focus on student academic growth needed to achieve effectiveness as a teacher.

**Teacher Turnover Rate:** The rate at which teachers leave a school prior to retirement. This is calculated by dividing the number of teachers who resign from or transfer out of a school by the total number of teachers who work at the school.

**TELL Survey:** The Teaching Empowering Leading and Learning Survey is a statewide survey of school based educators to assess teaching conditions at the school, district and state level. ([http://www.tellcolorado.org/](http://www.tellcolorado.org/))

**Twenty-First Century Skills:** The Colorado Department of Education defines 21st Century skills as collaboration, critical thinking, information literacy, invention and self-direction. Each of these skills is defined separately in this glossary.
Unified Improvement Plan: A school’s improvement plan addressing all state and federal planning and reporting requirements. This is the school plan required pursuant to section 22-11-210, C.R.S.

Unique Identifier: Numbers that are assigned to each student and teacher.

Unlicensed Assistive Personnel (UAP): Unlicensed health care providers trained to function in a supportive role by providing patient/client care activities as delegated by the RN.

Validity: The ability of an instrument to measure the attribute it intends to measure.

Weighting: How much a particular measurement tool, student growth measure or quality standard determines overall performance when multiple measures are combined into a single rating.

Workforce Readiness: See Appendix B.
Twenty-First Century Skills

The Partnership for 21st Century Skills developed the Milestones for Improving Learning and Education (MILE) Guide for 21st Century Skills to assist educators and administrators in measuring the progress of their schools in defining, teaching and assessing 21st century skills.

Global Awareness
- Using 21st century skills to understand and address global issues.
- Learning from and working collaboratively with individuals representing diverse cultures, religions and lifestyles in a spirit of mutual respect and open dialogue in personal, work and community contexts.
- Having the ability to utilize non-English languages as a tool for understanding other nations and cultures.

Financial, Economic, Business and Entrepreneurial Literacy
- Knowing how to make appropriate personal economic choices.
- Understanding the role of the economy and the role of business in the economy.
- Using entrepreneurial skills to enhance workplace productivity and career options.

Civic Literacy
- Being an informed citizen to participate effectively in government.
- Exercising the rights and obligations of citizenship at local, state, national and global levels.
- Understanding the local and global implications of civic decisions.

Health Literacy
- Having the ability to access health information and services, navigate health institutions and act as an effective advocate to improve health for self, family and/or community.
- Understanding preventive physical and mental health measures, including proper diet, nutrition, exercise, risk avoidance and stress reduction.
- Demonstrating understanding of national and international health.

Contextual Learning Skills
- Having the ability to take advantage of education in a variety of contexts both inside and outside the classroom; understanding that knowledge is acquired within a context.

ICT Literacy
- Using technology in the course of attaining and utilizing 21st century skills.

THINKING AND LEARNING SKILLS

Critical Thinking and Problem Solving Skills
- Exercising sound reasoning in understanding.
- Making complex choices.
- Understanding the interconnections among systems.
- Framing, analyzing and solving problems.

Communication
- Articulating thoughts and ideas clearly and effectively.

Information and Media Literacy Skills
- Understanding, managing and creating effective oral, written and/or multimedia communication in a variety of forms and contexts.
- Analyzing, accessing, managing, integrating, evaluating and creating information in a variety of forms and media.
THINKING AND LEARNING SKILLS (continued)

Creativity and Innovation Skills
- Demonstrating originality and inventiveness in work.
- Developing, implementing and communicating new ideas to others.
- Being open and responsive to new and diverse perspectives.

Collaboration Skills
- Demonstrating ability to work effectively with diverse teams.
- Being willing to be helpful and make necessary compromises to accomplish a common goal.

LIFE SKILLS

Leadership
- Using interpersonal and problem-solving skills to influence more than one person toward a goal.
- Having the ability to leverage strengths of others to accomplish a common goal.

Ethics
- Demonstrating integrity and ethical behavior in personal, workplace and community contexts.

Accountability
- Setting and meeting high standards and goals for one’s self and others.

Adaptability
- Adapting to varied roles and responsibilities.
- Tolerating ambiguity and changing priorities.

Personal Productivity
- Utilizing time efficiently and manage workload.
- Being punctual and reliable.

Personal Responsibility
- Exercising personal responsibility and flexibility in personal, workplace and community contexts.

People Skills
- Working appropriately and productively with others.

Self-Direction
- Monitoring one’s own understanding and learning needs.
- Demonstrating initiative to advance professional skill levels.
- Having the ability to define, prioritize and complete tasks without direct oversight.
- Demonstrating commitment to learning as a lifelong process.

Social Responsibility
- Acting responsibly with the interests of the larger community in mind.
APPENDIX A: Pilot, Partner and Integration Sites for the Colorado State Model Educator Evaluation System

What is a Pilot District?

Pilot districts were selected as part of CDE’s work to implement S.B. 10-191. Districts are representative of the various sizes, student demographics and geographic differences across Colorado. These pilot districts are using the Colorado State Model Evaluation Systems for both principals and teachers during the 2011-16 school years. They are providing valuable feedback on the quality of the model system, identifying challenges and strengths of the system and suggesting refinements to the implementation process developed by CDE.
What is a Partner District?
Several districts that have already developed performance evaluation systems reflecting key elements of Senate Bill 10-191 were selected to participate in the pilot process as Partner Districts. These districts are providing valuable information on the process for aligning existing educator evaluation systems to the rules developed by the State Board of Education, as well as providing an opportunity to enhance the State Model Evaluation System with elements from locally-developed systems.

What is an Integration District?
Integration Districts were selected as part of a voluntary effort by the Colorado Legacy Foundation to support CDE’s work to implement Senate Bill 10-191 as well as the Colorado Academic Standards pursuant to Senate Bill 08-212 (Colorado Achievement Plan for Kids). Four school districts and one BOCES were selected to specific activities that implement, in an integrated manner, all of the following:

- Colorado Academic Standards and aligned instructional materials to guide instruction
- Professional development in formative practices to inform instruction
- Regular performance evaluations that hold educators accountable for improvement on measures of student learning and provide them feedback to improve instruction

Districts Piloting the Colorado State Model Evaluation System
Twenty-seven districts are piloting the Colorado Model Evaluation System. CDE has selected 19 pilot districts, based on a public application process, to test the state model of evaluation. The 19 districts are:

1. Center
2. Crowley
3. Custer
4. Del Norte
5. Eads
6. Jefferson County (principal only)
7. Miami-Yoder
8. Moffat
9. Mountain Valley
10. Platte Canyon
11. Salida
12. South Routt
13. St. Vrain
14. Wray
15. Valley RE-1
17. Eagle School District (principal only)
18. Thompson School District
19. San Juan BOCES (Archuleta, Bayfield, Durango, Dolores RE-2, Dolores RE-4, Ignacio, Mancos, Montezuma- Cortez and Silverton)

All of these efforts align and work together to help us learn and make necessary mid-course corrections during the pilot phase of the Colorado State Model Evaluation System. Educator feedback from these pilot districts is informing improvements to the model system.
APPENDIX B: Definition of Postsecondary and Workforce Readiness

Adopted June 30, 2009 By the State Board of Education and the Colorado Commission on Higher Education

“Postsecondary and workforce readiness” describes the knowledge, skills and behaviors essential for high school graduates to be prepared to enter college and the workforce and to compete in the global economy. To be designated as postsecondary and workforce ready, secondary students shall demonstrate that the following content knowledge and learning and behavior skills have been achieved without the need for remedial instruction or training. This demonstration includes the completion of increasingly challenging, engaging and coherent academic work and experiences and the achievement of proficiency shown by a body of evidence including postsecondary and workforce readiness assessments and other relevant materials that document a student’s postsecondary and workforce readiness.

I. Content Knowledge

Literacy

- Read fiction and non-fiction, understanding conclusions reached and points of view expressed.
- Write clearly and coherently for a variety of purposes and audiences.
- Use logic and rhetoric to analyze and critique ideas.
- Access and use primary and secondary sources to explain questions being researched.
- Employ standard English language properly and fluently in reading, writing, listening and speaking.

Mathematical Sciences

- Think critically, analyze evidence, read graphs, understand logical arguments, detect logical fallacies, test conjectures, evaluate risks and appreciate the role mathematics plays in the modern world, i.e., be quantitatively literate.
- Understand and apply algebraic and geometric concepts and techniques.
- Use concepts and techniques of probability and statistics.
- Apply knowledge of mathematics to problem solve, analyze issues and make critical decisions that arise in everyday life.

Science

- Think scientifically and apply the scientific method to complex systems and phenomena.
- Use theoretical principles within a scientific field and relevant empirical evidence to make and draw conclusions.
- Recognize that scientific conclusions are subject to interpretation and can be challenged.
- Understand the core scientific concepts, principles, laws and vocabulary and how scientific knowledge is extended, refined and revised over time.
Social Studies and Social Sciences
- Identify and describe historical, social, cultural, political, geographical and economic concepts.
- Interpret sources and evaluate evidence and competing ideas.
- Build conceptual frameworks based on an understanding of themes and the overall flow of events.
- Understand how government works in the United States and in other countries, the varying roles individuals may play in society and the nature of civic responsibility.
- Interpret information from a global and multicultural perspective.

The Arts and Humanities
- Understand and appreciate how the arts and humanities (expressions of culture and identity through language, movement, sound and visual representation) contribute to and shape culture and our understanding of culture.
- Understand how the arts and literature are used as instruments of social and political thought.
- Identify leading innovators in the arts and humanities and the contributions they have made to their respective art forms.

II. Learning and Behavior Skills

Critical Thinking and Problem Solving
- Apply logical reasoning and analytical skills.
- Conduct research using acceptable research methods.
- Understand different research approaches.
- Collect and analyze quantitative and qualitative data and research.
- Evaluate the credibility and relevance of information, ideas and arguments.
- Discern bias, pose questions, marshal evidence and present solutions.
- Find and use information/information technology.
- Select, integrate and apply appropriate technology to access and evaluate new information.
- Understand the ethical uses of information.
- Provide citations for resources.

Creativity and Innovation
- Demonstrate intellectual curiosity.
- Generate, evaluate and implement new ideas and novel approaches.
- Develop new connections where none previously existed.

Global and Cultural Awareness
- Appreciate the arts, culture and humanities.
- Interact effectively with and respect the diversity of different individuals, groups and cultures.
- Recognize the interdependent nature of our world.
- Understand how communicating in another language can improve learning in other disciplines and expand professional, personal and social opportunities.

Civic Responsibility
- Recognize the value of civic engagement and its role in a healthy democracy and civil society.
- Be involved in the community and participate in its political life.
- Balance personal freedom with the interests of a community.
Work Ethic
- Plan and prioritize goals.
- Manage time effectively.
- Take initiative and follow through.
- Learn from instruction and criticism.
- Take responsibility for completion of work.
- Act with maturity, civility and politeness.
- Demonstrate flexibility and adaptability.

Personal Responsibility
- Balance self-advocacy with the consideration of others.
- Possess financial literacy and awareness of consumer economics.
- Behave honestly and ethically.
- Take responsibility for actions.
- Understand the relevance of learning to postsecondary and workforce readiness.
- Demonstrate awareness of and evaluate career options.
- Attend to personal health and wellness.

Communication
- Read, write, listen and speak effectively.
- Construct clear, coherent and persuasive arguments.
- Communicate and interact effectively with people who have different primary languages.

Collaboration
- Work effectively with others.
- Acknowledge authority and take direction.
- Cooperate for a common purpose.
- Use teamwork and leadership skills effectively.
S.B. 10-191 requires the Colorado Department of Education to make tools and materials available to schools and districts to support their educator evaluation efforts.

These materials are intended to provide meaningful support and resources to realize Colorado’s vision for Educator Effectiveness which is: Effective educators for every student, effective leaders for every school.

Users may access resources at CDE’s Educator Effectiveness homepage:
http://www.cde.state.co.us/educatoreffectiveness

All of the documents referred to in this user’s guide as well as many other tools and materials to help schools and districts operationalize S. B. 10-191 may be found on the Educator Effectiveness homepage.
