DISCLAIMER

This handbook is to be used as a reference guide for teacher assessment in the School District of Volusia County. These procedures may be changed by the VCTAS Steering Committee at any time. Neither the handbook, nor its contents, in any way creates an express or implied contract of employment.

STATEMENT OF PHILOSOPHY

Evaluation is a continuous, cooperative process designed to improve instruction and the performance of students. It is intended to be positive and growth-oriented and based on fundamental principles of effective evaluation and contemporary research in assessment practices. The assessment system shall be applied equitably and shall conform to legally sound evaluation procedures.

GENERAL GUIDELINES

1. Evaluations shall identify strengths as well as weaknesses.

2. Components of the Volusia County Teacher Assessment System (VCTAS) are designed to reflect the performance of teachers and increased student achievement.

3. Evaluations shall be based on observable data or records pertaining to job performance.

4. The principal or administrative designee shall evaluate teachers. All other members of the bargaining unit shall be evaluated by their immediate supervisor.

5. District personnel may be involved in the evaluation process to provide technical assistance but shall not have primary responsibilities for the summative instrument.

6. Modifications or changes in the evaluation system shall be reviewed by the VCTAS Steering Committee and approved by the School Board.
DEFINITIONS

The following definitions shall apply to the Volusia County Teacher Assessment System.

**Administrative Designee** - A school (assistant principal) or district-based administrator who observes, conferences with, and evaluates instructional staff.

**Annual Contract Teacher** - A teacher who has not attained tenure under the Volusia County Teacher Tenure Law, and whose contract of employment, therefore, is a duration of one year (except those teachers participating in DROP).

**Exemplars** - Indicators used to describe outstanding performance.

**Evaluation Report** - The instrument used to report data collection from classroom observations and teacher support duties during post-conference sessions.

**Instructional Performance** - Behaviors observed during an observation.

**Instructional Support Performance** - Behaviors not necessarily observed during an observation but which can be documented.

**Parent Input Form** - A form available to parents at each school location for parent input regarding teacher evaluations.

**Performance Indicator** - Describes the overall performance in high impact areas rather than discrete, isolated descriptors.

**Phase** - The various components and timelines for the evaluation process of annual contract teachers.

**Pre-Observation Conference** - A conference that occurs prior to a scheduled observation.

**Pre-Observation Form** - The form used during a conference held prior to the scheduled observation.

**Professional Performance Summative Evaluation Form** - Provides the teacher's annual evaluation status and becomes part of the personnel records.

**Rating** - Shows the degree to which the teacher’s performance aligns with performance indicators.

**Rubric** - Provides the holistic evaluation guidelines to determine the rating for each of the nine performance indicators.

**Scheduled Observation** - The observation by the evaluator following a pre-observation conference.

**Success Plan** - A form which indicates the need to improve performance.

**Summative Evaluation** - An evaluation which is completed by April 30 of each school year.

**Teachers** - All instructional personnel included in the bargaining unit.

**Technical Assistance** - Assistance for identified teachers by school and/or district-level personnel.

**Technical Assistance Observation and Conference Report** - A form which may be used during a post-conference.

**Tenured Teachers** - Teachers who have earned tenure under the Volusia County Tenure Law.

**Transfer** - A change in position from one school to another or to a district-level department.

**Unscheduled Observation** - An observation by the evaluator that occurs without notice.
**VCTAS PROCEDURES**

**Annual Contract Teachers** must be observed at least twice during the school year in accordance with VCTAS guidelines which are described below.

**Phase I** - Completion by the 80th working day, December 7, 2007
- Pre-Observation Conference (form provided to administrator two days prior to observation)
- Scheduled Observation
- Post-Observation Conference (within 10 working days of observation)
- Review of the Evaluation Report
- Unscheduled Observations (optional)
- Development of a Success Plan, if needed

Note: Phase I may be extended for a teacher who is employed or transferred after the 30th day, September 24, 2007.

**Phase II** - Completion by the 121st working day, February 18, 2008
*Note: Since February 18 is a paid holiday, the actual deadline is February 14, 2008.*
- Unscheduled Observation(s)
- Post-Observation Conference (within 10 working days of observation)
- Review of the Evaluation Report
- Development and/or Review of a Success Plan, if needed

**Phase III** - Completion by April 30, 2008
- Review of all data pertinent to the evaluation process for the school year
- Summative conference on or before April 30, 2008
- Development and/or Review of a Success Plan, if needed

**Tenured Teachers** are required to complete the following.
- One unscheduled observation
- Two scheduled conferences, to review the Evaluation Report and to review the yearly Summative Evaluation (within 10 working days of the observation)
- Development of a Success Plan, if needed
- All of the above completed on or before April 30, 2008

**Note:** Additional observations may occur when deemed necessary by the administrator.

**Electronic Summatives**

After April 30, 2008, completion of three electronic summatives for all teachers is required.
1. Teacher’s Copy
2. School’s Copy
3. Personnel Services/Office of Assessment Copy to be received by Friday, May 9, 2008 (address on back cover)
OTHER THAN FULL-YEAR TEACHERS

A. An annual contract teacher who is employed through the 121st working day, February 18, 2008, (the actual deadline is February 14 since February 18 is a paid holiday) must complete Phase I and Phase II. All teachers terminating employment or taking a Leave of Absence prior to the end of the school year must have a completed and signed summative on file before the final date of employment. If the summative is not completed prior to the teacher’s final date of instruction, complete and send two copies of the summative along with a self-addressed, postage paid envelope, by certified mail to the teacher. Send the signed returned copy or the school copy with the signed acceptance receipt to the Office of Assessment Office by May 9, 2008 (address on back cover). When a teacher terminates employment or takes a Leave of Absence prior to the completion of Phase I, a memo indicating that the teacher has terminated employment or is on a Leave of Absence should be written clarifying why the yearly evaluation was not completed and must be sent to the Office of Assessment by May 9, 2008 (address on back cover). Sample letters are found on pages 12 – 14.

B. Teachers who are employed for the final 14 weeks of the school year require a Pre-Observation Form and Evaluation Report completed and on file in the school. A signed summative must be completed with a notation on the classroom visitation date line indicating that the evaluation of this teacher is based on “X” number days of instruction and must be submitted to the Office of Assessment by May 9, 2008 (address on back cover). Teachers who are employed after April 30, 2008, require a pre-observation conference, observation and post-conference at least one time prior to the conclusion of the school year.

C. Teachers who transfer to another school during August or September will be evaluated by the receiving principal.

D. Teachers who transfer after September will require a collaborative evaluation between the sending and receiving principals.

ITINERANT TEACHERS

Itinerant teachers (teachers who serve more than one location) will be evaluated by the building-level administrator of the base school. Observations may be conducted by both administrators who will confer on one summative evaluation to be submitted by April 30, 2008.

DISTRIBUTION OF DOCUMENTS

A. Teachers shall receive copies of all documents upon which their signatures are required.

B. Forms and reports shall not be forwarded for placement in the teacher’s official personnel file unless the teacher receives a signed copy and an opportunity for a conference to discuss such report with his/her evaluator.

C. After such discussions, the teacher shall sign the report. The teacher has the right to submit a written response which shall become a part of the evaluation record.
D. The following VCTAS materials will be available on-line.
1) Pre-Observation Form (Classroom Teacher and Instructional Support Teacher)
2) Evaluation Report
3) Summative Evaluation Form
4) Success Plan – Stage I, Stage II, Stage III

E. During 2007-2008, the Comprehensive Cycle Folders will be used for Annual Contract Teachers and the Review Cycle folders will be used for Tenured Teachers until the supply is exhausted. After that point, Annual Contract Teachers’ VCTAS materials will be stored in legal-sized green folders and Tenured Teachers’ VCTAS materials will be stored in legal-sized red folders. (Folders are available from the warehouse.)

OBSERVATIONS

Scheduled observations shall not occur:
- On the first or last five days of the school year
- On the first or last day of a course
- On the day before or after a holiday
- On an FCAT or other standardized testing date (This does not refer to the test window.)
- A second scheduled observation may be performed by a qualified observer upon written request of the teacher.

SUCCESS PLANS/TECHNICAL ASSISTANCE

Success plans and technical assistance are indicators to the teacher that improvement is expected. Forms are found on pages 18-24.

STAGE I

Following a classroom observation and/or the discussion of classroom support duties, and the completion of an Evaluation Report, the principal or principal’s designee may have concerns. These concerns should be discussed with the teacher during a conference and may lead to the completion of a Stage I Success Plan with 4 – 6 weeks provided for improvement. Call the Office of Assessment for assistance. (See rear cover for contact information.)

STAGE II

Stage II technical assistance is delivered when an area of concern as evidenced by a Stage I Success Plan shows insufficient improvement. The principal or principal’s designee informs the teacher that he/she is moving to Stage II technical assistance with 4 - 6 weeks to meet expectations. Call the Office of Assessment for assistance. (See rear cover for contact information.)

STAGE III

When performance continues to be deficient as evidenced by Stage I and Stage II Success Plans, the principal places the teacher into Stage III Technical Assistance. The principal will review Stage I and Stage II documentation, prior to writing a Stage III Success Plan, addressing the area(s) of performance failing to meet satisfactory expectations. Timeline for improvement is 90 calendar days. If sufficient improvement has not been demonstrated by the teacher while in Stage III Technical Assistance, termination of the teacher’s employment will be recommended to the school board. Call the Office of Assessment for assistance. (See rear cover for contact information.)
In evaluating the performance of instructional personnel, issues may occasionally arise for which a Success Plan is not the appropriate vehicle for comment. These performance issues may require immediate change and may not fall within the VCTAS descriptors. A Record of Counseling is designed to provide the employee with a description of these issues or concerns that were previously discussed during a conference with the teacher. The Record of Counseling should contain the following.

* Date of the conference
* Area(s) of concern discussed during the conference
* Evaluator's expectations for the teacher
* Administrator's signature and date
* Teacher's signature and date

Two copies of the Record of Counseling should be signed and dated by the evaluator and the teacher. One copy is given to the teacher, and the other copy is retained in the teacher's VCTAS file at the worksite. A third copy of the Record of Counseling should be attached to the Summative Evaluation. The Record of Counseling will be confidential in the year it was prepared and the following year.

Note: For annual contract teachers, all documents are to be attached to the summative. For tenured teachers, documents are to be attached to the summative in support of “I” or “U” ratings. Other documentation may be attached based on the discretion of the administrator.

The administrator is to rate the teacher in each performance assessment criteria below. For some “other than classroom teachers,” Ability to Maintain Appropriate Discipline will be “not applicable.”
RATING GUIDELINES/RUBRIC FOR SUMMATIVE EVALUATION

The following rating guidelines are to be used by administrators when assessing teacher performance.

Outstanding
- Performance is fully aligned with exemplars for each performance indicator.
- Performance is consistent, exemplary, and represents a model for all teachers.
  - An overall rating of “O” may include some “HP” ratings and will include no more than one “S” rating.
  - An overall rating of “O” will not include “I” or “U” ratings.

Note: An overall rating of “outstanding” must include an “O” in Performance of Students.

High Performing
- Performance is highly aligned with exemplars for each performance indicator.
- Performance is frequent and evident.
- Performance exceeds expectation.
  - An overall rating of “HP” may include some “O” and “S” ratings.
  - An overall rating of “HP” will not include “I” or “U” ratings.

Note: An overall rating of “high performing” must include an “HP” or better in Performance of Students.

Satisfactory
- Performance is generally aligned with exemplars for each performance indicator.
- Performance in one or more performance indicators may be occasional but evident.
- Performance meets expectation.
  - An overall rating of “S” indicates that the areas of performance are being met in a competent manner. The evaluatee is meeting expectation.
  - An overall rating of “S” may reflect an occasional “O” or “HP” or “I” rating.

Note: An overall rating of “satisfactory” must include an “S” or better in Performance of Students.

Improvement Expected
- Performance is minimally aligned with exemplars for one or more performance indicators.
- Performance on one or more of the performance indicators is inconsistent or not evident.
- Performance is below expectation.
  - An overall rating of “I” indicates that improvement is necessary. The areas of performance are failing to meet the district’s standards.
  - In order to avoid a “U” rating, improvement is required.
  - Improvement must be demonstrated in order for employment not to be in jeopardy.

Unsatisfactory
- Performance is poorly aligned with exemplars for one or more performance indicators.
- Performance is ineffective and unacceptable.
  - An overall rating of “U” reflects a serious negative impact on continued employment.
  - Performance has been consistently below that which is required.
  - A rating of “U” indicates a persistent inability to fulfill performance areas in an acceptable manner. The prognosis for correcting the deficiencies is not promising. Specific evidence must justify the “U” rating.

The superintendent shall notify the Florida Department of Education of any instructional personnel who receives two consecutive unsatisfactory annual evaluations and who has been given written notice by the district that his/her employment is being terminated or is not being renewed or that the school board intends to terminate, or not renew, his/her employment.

ACCOMPLISHED PRACTICE #1 – ASSESSMENT

PROFESSIONAL:
The professional teacher continually reviews and assesses data gathered from a variety of sources. These sources can include, but shall not be limited to, pretests, standardized tests, portfolios, anecdotal records, case studies, subject area inventories, cumulative records, and student services information, and develops students’ instructional plans that meet cognitive, social, linguistic, cultural, emotional, and physical needs.

Sample Key Indicators:
Recognizes students’ readiness to learn and their individual learning needs and plans intervention strategies.

Recognizes students’ behavioral problems, utilizes appropriate resources, and devises solutions.

Recognizes students exhibiting potentially disruptive behavior.

Assesses individual and group performance to provide instruction that meets students’ needs in the cognitive, social, linguistic, cultural, emotional, and physical channels of development.

Employs performance-based assessment strategies to determine students’ performance of specified outcomes and to modify subsequent instruction. Assists students in maintaining methods of assessment of individual work, in guiding them through a self-assessment process, and in designing personal plans for reaching the next performance level.

Modifies instruction based upon assessed student performance.

Maintains observational and anecdotal records to monitor students’ development.

Uses data from various informal and standardized instruments to plan instruction.

Reviews assessment data concerning the students so as to determine their entry-level skills, deficiencies, academic and language development progress, and personal strengths.

Communicates individual student progress based upon appropriate indicators to the student, families, and colleagues.

Develops short and long term personal and professional goals relating to assessment.

ACCOMPLISHED PRACTICE #2 – COMMUNICATION

PROFESSIONAL:
The professional teacher constantly seeks to create a classroom that is accepting, yet businesslike, on task, and produces results. She/he communicates to all students high expectations for learning, and supports, encourages and gives positive and fair feedback about their learning efforts. The teacher models good communication skills and creates an atmosphere in the classroom that encourages mutual respect and appreciation of different cultures, linguistic backgrounds, learning styles and abilities.

Sample Key Indicators:
Establishes positive interaction in the learning environment that uses incentives and consequences for students.

Establishes positive interactions between the teacher and student that are focused upon learning rather than procedures or behavior.
Tailors communication styles to the nature and needs of individuals and groups.

Challenges students in a positive and supportive manner.

Communicates to all students high expectations for learning.

Establishes interaction routines for individual work, cooperative learning, and whole group activities.

Develops lessons which reflect opportunities for students to learn from each other.

Designs and conducts lessons that support individual and group inquiry.

Provides opportunities for students to receive constructive feedback on individual work and behavior. Communicates with colleagues, school and community specialists, administrators, and families.

Develops short and long term personal and professional goals relating to communication.

**ACCOMPLISHED PRACTICE #3 - CONTINUOUS IMPROVEMENT**

**PROFESSIONAL:**
The professional teacher recognizes the need to strengthen her/his teaching through self reflection and commitment to life long learning. The teacher becomes aware of and is familiar with the School Improvement Plan. The teacher’s continued professional improvement is characterized by participation in inservice, participation in school/community committees, and designing and meeting the goals of a professional development plan.

**Sample Key Indicators:**
Actively supports accepted principles and strategies for effecting change.

Participates in the development of improvement plans that support the overall school improvement plan.

In collaboration with the support team, uses data from her/his own learning environments (e.g., classroom observation, audio/video recordings, student results and feedback, and research) as a basis for reflecting upon and experimenting with personal teaching practices.

Participates in the design of a personal professional development plan to guide her/his own improvement.

Communicates planned learning activities and student progress with students, families, and colleagues.

Reflects respect for diverse perspectives, ideas, and opinions in planned learning activities.

Supports other school personnel as they manage the continuous improvement process.

Participates in the development of improvement plans that support the overall school improvement plan.

Is informed about developments in instructional methodology, learning theories, second language acquisition theories, psychological and sociological trends, and subject matter in order to facilitate learning.
Shows evidence of reflection and improvement in her/his performance in teaching/learning activities and in an increased capacity to facilitate learning for all students.

Seeks to increase her/his own repertoire of professional experiences, e.g., participating in in-service activities and professional associations and utilizing research appropriately.

Acquires the ability to behave as a steward of the school, of public education, and our national heritage with its multicultural dimension.

Works as a member of a learning community and as a reflective practitioner.

Utilizes the experience, status, education, and other unique strengths of colleagues and develops professional relationships accordingly.

Exercises professional judgment, plans future professional endeavors, and articulates it to colleagues and others.

Develops short and long term personal and professional goals relating to continuous professional development.

**ACCOMPLISHED PRACTICE #4 - CRITICAL THINKING**

**PROFESSIONAL:**
The professional teacher uses a variety of performance assessment techniques and strategies that measure higher order thinking skills in students and provides realistic projects and problem-solving activities which will enable all students to demonstrate their ability to think creatively.

**Sample Key Indicators:**
Plans and conducts learning activities that provide opportunities for students to learn higher-order thinking skills.

Uses teaching strategies, materials, and technologies that can expand students' thinking abilities.

Plans lesson activities that require students to gather information and solve problems.

Poses problems, dilemmas, and questions in lessons.

Develops rules of evidence for students to use to analyze judgments, conclusions, the plausibility of claims, and interpretations in the field of study.

Varies her/his role in the instructional process (instructor, coach, mentor, facilitator, audience, critic, etc.) in relation to the purposes of instruction and the students' needs, including linguistic needs.

Monitors students' work and plans subsequent lessons to build learners' creative thinking abilities.

Conducts lessons that include open-ended projects and other activities that are creative and innovative.

Uses technology and other appropriate tools to extend the learning environment for students.

Develops short and long term personal and professional goals relating to critical thinking.
ACCOMPLISHED PRACTICE #5 - DIVERSITY

PROFESSIONAL:
The professional teacher establishes a “risk-taking” environment which accepts and fosters diversity. The teacher must demonstrate knowledge of varied cultures by practices such as conflict resolution, mediation, and creating a climate of openness, inquiry and support.

Sample Key Indicators:
Accepts and values students from diverse cultures and linguistic backgrounds and treats all students equitably.

Fosters a learning environment in which all students are treated equitably. Recognizes the cultural and linguistic diversity and experiences of individual students to enrich instruction for the whole groups.

Conducts lessons that honor the various learning styles, and cultural and linguistic backgrounds of students.

Varies teaching techniques and strategies to effectively instruct all students.

Selects appropriate materials, technology, and resources to assist all students in the learning process.

Analyzes and uses school, family, and community resources to help meet students' learning needs.

Initiates classroom discussions that create a climate of openness, mutual respect, support, and inquiry.

Selects and introduces materials and resources that affirm diversity and honor multiple perspectives.

Recognizes the importance of family and family structure to the individual learner and is aware of student’s family situation when planning individual learning.

Encourages student responsibility, appropriate social behavior, integrity, valuing of diversity, and honesty through role modeling and learning activities.

Provides learning situations which will enable the student to practice skills and knowledge needed for success as an adult.

Develops short and long term personal and professional goals relating to diversity.

ACCOMPLISHED PRACTICE #6 - ETHICS

PROFESSIONAL:
Adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.

Sample Key Indicators:
Makes reasonable effort to protect students from conditions harmful to learning and/or to the student's mental and/or physical health and/or safety.

Does not unreasonably restrain a student from pursuit of learning.

Does not unreasonably deny a student access to diverse points of view.
Takes reasonable precautions to distinguish between personal views and those of any educational institution or organization with which the individual is affiliated.

Does not intentionally distort or misrepresent facts concerning an educational matter in direct or indirect public expression.

Does not use institutional privileges for personal gain or advantage.

Maintains honesty in all professional dealings.

Shall not on the basis of race, color, religion, gender, age, national or ethnic origin, political beliefs, marital status, handicapping condition if otherwise qualified, or social and family background deny to a colleague professional benefits or advantages or participation in any professional organization.

Does not interfere with a colleague's right to exercise political or civil rights and responsibilities.

**ACCOMPLISHED PRACTICE #7 - HUMAN DEVELOPMENT AND LEARNING**

**PROFESSIONAL:**
Drawing upon well established human development/learning theories and concepts and variety of information about students, the professional teacher provides learning opportunities appropriate to student learning style, linguistic and cultural heritage, experiential background and developmental level.

**Sample Key Indicators:**
Can differentiate the developmental level of students using behaviors, writing, drawings, and other sources.

Uses previously acquired knowledge to link new knowledge and ideas to already familiar ideas.

Builds a portfolio of activities used successfully to engage and motivate students at appropriate developmental levels.

Makes provisions for students' learning styles based on needs and developmental levels.

Can define, describe, and identify learning theories, subject matter structure, curriculum development, and student development processes; can recognize their use in lesson development; and can reflect upon that use.

Presents concepts and principles in a variety of ways and can describe how the methods relate to developmental levels.

Develops short and long term personal and professional goals relating to human development and learning.

**ACCOMPLISHED PRACTICE #8 - KNOWLEDGE OF SUBJECT MATTER**

**PROFESSIONAL:**
The professional teacher has a basic understanding of the subjects she/he teaches and is beginning to understand that her/his subject is linked to other disciplines and can be applied in real-world 'integrated settings'. The teacher seeks out ways/sources to expand her/his knowledge. The commitment to learning about new knowledge includes keeping abreast of sources which will enhance teaching. The teacher's repertoire of teaching skills includes a variety of means to assist student acquisition of new knowledge.
Sample Key Indicators:
Communicates knowledge of subject matter in a manner that enables students to learn.

Uses her/his breadth of subject matter knowledge to interrelate topics from a variety of perspectives, interests, and points of view within the subject area.

Uses the references, materials, and technologies of the subject field in developing learning activities for students.

Maintains currency in her/his subject field.
Uses her/his breadth of subject matter knowledge to collaborate with colleagues.

Develops short and long term personal and professional goals relating to knowledge of subject matter.

ACCOMPLISHED PRACTICE #9 - LEARNING ENVIRONMENTS

PROFESSIONAL:
The professional teacher understands the importance of setting up effective learning environments and begins to experiment with a variety of them, seeking to identify those which work best in a particular situation. The teacher provides the opportunities for student input into behavioral expectations by helping students develop a set of shared values and beliefs, by encouraging them to envision the environment in which they like to learn, by providing occasions for reflection upon the rules and consequences which would create such an environment, and by honoring dissent.

Sample Key Indicators:
Has a repertoire of techniques for establishing smooth and efficient routines and has had opportunities to practice them.

Involves students in establishing rules and standards for behavior and applies these consistently and equitably.

Has shared the learning environment management responsibilities with students, has learned its potential benefit, and has learned techniques to do so.

Can define, describe and discuss individual student cognitive and affective needs, can relate those needs to learning environments, and has practiced techniques to align student needs, instructional settings, and activities.

Provides opportunities for students to be accountable for their own behavior.

Provides a safe place for students to take risks and monitors learning activities by providing feedback and reinforcement to students.

Implements appropriate instructional activities in individual, small and large group settings to meet cognitive, linguistic and affective needs. Arranges and manages the physical environment to facilitate student learning outcomes.

Uses learning time effectively, provides clear directions for instructional activities and routines, maintains instruction momentum, and makes effective and efficient use of time required in the learning environment for administrative and organizational activities.

Maintains academic focus of students by use of varied motivational devices.
Works to maintain instructional momentum during transitions between activities.

Develops short and long term personal and professional goals relating to learning environments.

**ACCOMPLISHED PRACTICE #10 – PLANNING**

**PROFESSIONAL:**
The professional teacher sets high expectations for all students and uses concepts from a variety of concept areas. The professional teacher plans individually with students and with other teachers to design learning experiences that meet students' needs and interests. The teacher continues to seek advice/information from appropriate resources (including feedback), interprets the information, and modifies plans.

Comprehensible instruction is implemented in a creative environment using varied and motivating strategies and multiple resources. Outcomes are assessed using traditional and alternative approaches. Upon reflection, the teacher continuously refines learning experiences.

**Sample Key Indicators:**
Confers with other teacher-leaders in order to use student performance outcomes, benchmarks, and evidence of adequate progress to plan lesson activities.

Plans and implements lessons connecting goals, learning activities, outcomes, and evaluation.

Plans activities that promote high standards through a climate which enhances and expects continuous improvement.

Provides comprehensible instruction based on performance standards required of students in Florida public schools.

Provides comprehensible instruction in effective learning procedures, study skills, and test-taking strategies.

Plans activities that utilize a variety of support and enrichment activities and materials.

Assists students in developing skills in accessing and interpreting information.

Assists students in using the resources available to them as she/he recognizes and builds upon student differences.

Modifies the visual and physical environments to correspond with the planned learning activity.

Plans activities that engage students in learning activities and employs strategies to re-engage students who are off task.

Learns to adapt plans while a lesson is in progress to take advantage of unexpected opportunities and address unexpected problems.

Plans and conducts lessons that are interdisciplinary and which use content from other subject areas.

Helps students develop concepts through a variety of methods.

Regularly reflects upon her/his own practice and modifies behavior based upon that reflection.

Cooperatively works with colleagues in planning instruction.
Uses community resources available at the school for classroom activities.
Develops short and long term personal and professional goals relating to planning.

ACCOMPLISHED PRACTICE #11 - ROLE OF THE TEACHER

PROFESSIONAL:
The professional teacher establishes open lines of communication and works cooperatively with families, educational professionals and other members of the student's support system to promote continuous improvement of the educational experience.

Sample Key Indicators:
Serves as an advocate for her/his students.
Confers with students and their families to provide explicit feedback on student progress and obtains assistance for families.
Proposes ways in which families can support and reinforce classroom goals, objectives, and standards.
Uses the community to provide students with a variety of experiences to examine and explore career opportunities.
Works with school volunteers to support classroom activities.
Can describe overt signs of child abuse and severe emotional distress, and, when recognized, can take appropriate intervention measures, referral, and reporting actions.
Can describe overt signs of alcohol and drug abuse, and, when recognized, can take appropriate intervention measures, referral, and reporting actions.
Works with colleagues to meet identified educational, social, linguistic, cultural, and emotional needs of students.
Observes colleagues using continuous quality improvement techniques and assists the school community in managing its own school improvement efforts.
Communicates with families including those of culturally and linguistically diverse students to become familiar with the students' home situations and backgrounds.
Develops short and long term personal and professional goals relating to the roles of a teacher.

ACCOMPLISHED PRACTICE #12- TECHNOLOGY (revised 9-4-03)

PROFESSIONAL:
The professional teacher uses technology (as appropriate) to establish an atmosphere of active learning with existing and emerging technologies available at the school site. She/he provides students with opportunities to use technology to gather and share information with others, and facilitates access to the use of electronic resources.
Sample Key Indicators:
Routinely demonstrates a basic level of technology competency, and ensures that students have opportunities to attain basic technology literacy skills.

Uses technology tools that enhance learning opportunities that are aligned with the Sunshine State Standards.

Models legal and ethical uses of technology.

Identifies and uses standard electronic media to provide instruction at appropriate student skill level.

Uses technology to construct teaching materials and learning activities.
Uses technology productivity tools to monitor and manage student learning.

Teaches students to use available computers and other forms of technology as they relate to curricular activities.

Integrates authentic tasks and provides increased opportunities for independent learning for all students through the use of technology tools.

Reviews and recommends educational software tools for instruction.
Uses and disseminates digital information to stakeholders through intranets and/or the Internet.

Participates in collaboration via technology to support learning.
Includes technology integration goals in a professional development plan.

The professional teacher uses accessible and assistive technology to provide curriculum access to those students who need additional support to access the information provided in the general education curriculum as available at each school site.

Use of a variety of assessment and evaluation instruments to monitor and report progress focuses on the use of a variety of archival records, formative assessments and summative instruments to monitor and support student progress. A variety of archival records and assessment instruments will be used and may include, but not be limited to, pre-tests, standardized tests, portfolios, anecdotal records, case studies, subject area inventories, cumulative records, and student services information. The outstanding teacher uses on-going formative assessment practices to monitor individual student and whole class progress on essential skills and knowledge. Summative assessments are aligned with district/state benchmarks and lesson plan objectives, and the teacher provides multiple opportunities for students to demonstrate learning goals. Student grades represent the degree to which students have mastered expected learning benchmarks and students, regardless of background, demonstrate academic gains.

Uses performance-based assessment approaches to determine the student’s performance of specified outcomes.

Constructs or assembles classroom tests and tasks to measure student achievement of objectives.

Determines entry level knowledge and/or skills of students for a given set of instructional objectives using diagnostic tests, observation, and student records.

Communicates individual student progress knowledgeably and responsibly, based on appropriate indicators, to the student, parent, and colleagues using terms that students and parents understand.

Uses multiple perspectives to diagnose students’ learning or behavior problems, devises solutions.

Encourages self-assessment by students and assists them in devising personal plans for enhancing performance.

Establishes an environment in which students can validly demonstrate their knowledge and skills.

Reviews assessment data about students to
Ability to analyze student achievement data focuses on the teacher’s use of data to determine entry level skills, academic deficiencies and strengths, and progress toward learning benchmarks. The outstanding teacher uses data findings to gain insight into problem areas and to modify instruction both for the class as a whole and for individual students. The outstanding teacher makes use of the district data warehouse and other assessment data to identify student and class needs and to monitor student progress.

Ability to provide effective feedback and instructional support based on data analysis focuses on timely communication with students and parents regarding student progress. The outstanding teacher provides students with frequent feedback regarding their progress toward benchmarks, offers concrete and specific suggestions for improvement, and provides immediate intervention when problems arise. The outstanding teacher provides accurate and timely feedback and suggestions to support improvement to parents whenever the student is not making adequate academic progress.

Note: Lowering a grade based on non-academic behaviors or raising a grade based on behaviors not aligned with essential learning objectives would diminish the validity of a grade. (accuracy)

Ability to analyze student achievement data
1. Does the teacher effectively analyze a variety of assessments throughout the school year to identify individual student’s entry level skills, deficiencies, strengths and to monitor progress?
2. Does the teacher analyze current and historic data to gain insight into teaching effectiveness and to improve their personal instructional effectiveness?

Ability to provide effective feedback and instructional support based on data analysis
1. Does the teacher consistently use formative as well as summative assessment data to communicate student progress to both students and parents?
2. Does the teacher use formative assessment data to identify student goals and strategies for improvement?
3. Does the teacher use formative assessment data to provide concrete suggestions for parent support prior to summative evaluation?
4. Does the teacher communicate effectively with students and parents whenever students are not making adequate progress?

ABILITY TO MAINTAIN APPROPRIATE DISCIPLINE

- Establishes and reinforces expectations for classroom behavior
- Uses effective behavioral strategies
- Establishes a consistent classroom management system

Establishes and reinforces expectations for classroom behavior focuses on the establishment of clearly defined classroom rules and consistent responses when students

☐ Deals with misconduct, interruptions, and digressions in ways that promote instructional momentum.
misbehave. The outstanding teacher educates students at the beginning of the school year and continues to reinforce class rules, procedures, expectations, and consequences for failure to exhibit appropriate behavior throughout the year. The outstanding teacher is effective and non-threatening in maintaining classroom control. When students misbehave, teacher response is immediate, consistent, and reinforces positive behavior without harsh reprimands. The teacher meets with disruptive students, other professionals and parents to develop a plan to improve behavior.

**Uses effective behavior strategies** focuses on the use of effective strategies that minimize the opportunity for disruptive behavior and that promote student learning. The outstanding teacher demonstrates awareness of all students’ behavior and uses a variety of strategies to prevent misbehavior including but not limited to the use of humor, non-verbal gestures, proximity-control for off-task behavior, lesson variety that includes active student involvement, eye contact, and frequent circulation throughout the classroom. When disruptions occur, the outstanding teacher attends to the problem and quickly returns to the lesson with minimal loss of momentum.

**Establishes a classroom management system** focuses on the implementation of a classroom management system that includes daily processes for housekeeping tasks, effective transitions between activities, and efficient handling of materials, technology tools, and resources. The outstanding teacher choreographs the daily routine to maximize academically-engaged time and to minimize opportunities for off-task behavior and breaks in the flow of the lesson.

- Formulates a standard for student behavior in the classroom.
- Treats all students equitably.
- Uses effective student behavior management techniques.
- Assists in the enforcement of school rules, administrative regulations and board policies.
- Recognizes students exhibiting potentially disruptive behavior and offers alternative strategies.
- Maintains standards of mutually respectful interaction during individual work, cooperative learning, and whole group activities.
- Applies rules and standards consistently and equitably.
- Designs appropriate instructional activities in individual, small and large group settings to meet cognitive, linguistic and affective needs.
- Uses smooth and efficient transitions to maintain instructional momentum.
- Maintains academic focus of students by use of varied motivational devices.
- Plans activities that engage students in learning activities and employs strategies to re-engage students who are off task.
KNOWLEDGE OF SUBJECT MATTER

- Ability to communicate complex subject matter to a diverse student population
- Currency of content knowledge and educational best practices

Ability to communicate complex subject matter to a diverse student population focuses on the teacher’s ability to articulate subject matter in a manner that enables students to learn. Explanations are complete, accurate, include the specialized vocabulary and language of the content area, and include material beyond what is found in the text. The outstanding teacher uses his/her breadth and depth of knowledge to interrelate topics from a variety of perspectives, interests, and points of view within the subject area. The outstanding teacher’s repertoire of teaching skills includes a variety of means to assist student acquisition of new knowledge. The teacher draws from a variety of examples, references, materials, and technologies of the subject field in developing learning activities for students and is able to adjust the lesson based on levels of individual abilities.

Currency of content knowledge and educational best practice focuses on the teacher’s commitment to expand his/her knowledge and to keep abreast of strategies and resources which will enhance teaching. The outstanding teacher continually updates knowledge of his/her subject field including both content and instructional practices. The outstanding teacher participates in curriculum development activities and collaborates with other colleagues to share content expertise and to expand subject knowledge and interdisciplinary connections.

Ability to communicate complex subject matter to a diverse student population
1. Does the teacher demonstrate command of the subject matter?
2. Is the teacher able to vary explanations, vocabulary, and examples to accommodate differences in instructional level and learning style without lowering academic expectations?
3. Does the teacher effectively use his/her depth of knowledge to expand on the topic by including interesting examples, anecdotes, and perspectives?
4. Does the teacher draw from a wide variety of quality subject-related resources to develop interesting, high quality lessons?

Currency of content knowledge and educational best practice
1. Does the teacher maintain currency of subject area knowledge?
2. Does the teacher seek a variety of venues to stay current in his/her subject area (may include, but not limited to, professional development workshops, professional journals, conferences, participation in professional organizations)?
3. Does the teacher serve as a mentor or leader in sharing content expertise with peers?

- Demonstrates outstanding knowledge and understanding of the subject matter.
- Communicates accurate knowledge of subject matter in a language and style appropriate to the learner.
- Presents forms of knowledge such as concepts, laws, and law-like principles, academic rules, and value knowledge.

ABILITY TO PLAN AND DELIVER INSTRUCTION, AND USE OF TECHNOLOGY IN THE CLASSROOM

- Ability to Plan
- Ability to deliver instruction
- Use of technology in the classroom

Ability to plan focuses on the quality of teacher preparation with regards to the alignment of instruction with state standards, clarity of learning objectives and desired outcomes, incorporation of a variety of instructional strategies and resources that provide for both reinforcement and enrichment opportunities for students and that include interdisciplinary connections. The outstanding teacher plans individually and with other teachers to design differentiated learning experiences that promote high standards, meet student needs and interests and that demonstrate a clear connection between goals, learning activities, and assessments. Lesson plan activities utilize a variety of support and enrichment activities and materials as well as open-ended projects and other activities that are rigorous, creative and innovative. The outstanding teacher develops lesson activities that require students to gather and analyze information, solve problems, and draw conclusions.

Ability to deliver instruction focuses on the quality of classroom performance with regards to clarity of directions, presentation of the lesson, levels of student engagement, and effective use of time. The outstanding teacher provides clear, understandable directions for instructional activities and routines. Students are made aware of the desired learning outcomes. The outstanding teacher presents content using multiple methods and strategies to reinforce key concepts. Activities are differentiated and include a variety of small and whole group settings that promote high levels of student engagement and involvement. The teacher varies his/her role in the instructional process (instructor, coach,
Use of technology in the classroom focuses on the use of technology tools to plan and deliver instruction and to monitor and improve student learning. The outstanding teacher uses a variety of appropriate learning media, computer applications, and other technology to develop instructional materials, to address student needs, and to enhance instruction. Adaptive technologies are used to accommodate special needs as appropriate. Lessons incorporate a range of instructional technologies including but not limited to the Internet, CD-ROM, interactive video, videotaping, calculators, PowerPoint presentations, and electronic libraries as appropriate. Technology tools are used to construct teaching materials, as well as to provide students with opportunities to collect, gather, and share information with others. The outstanding teacher makes use of the district data warehouse and other available technology tools to identify student and class needs and to monitor student progress.

**Use of Technology in the Classroom**

1. Does the teacher incorporate a variety of appropriate technology tools to deliver instruction?
2. Is the teacher knowledgeable about and comfortable with the use of technology tools to deliver instruction?
3. Are technology tools used effectively to provide support to special needs students when needed?
4. Does the teacher use district-provided technology tools (data warehouse, SCANTRON assessment system, PowerPoint, EXCEL, and Word processing tools) to improve planning and instruction?
5. Does the teacher provide opportunities for students to use technology tools to gather information and to share information?
6. Is the teacher skillful at asking and supporting students to respond to challenging higher order questions and challenging problems and situations?
7. Does the teacher consistently reinforce essential learning objectives throughout the lesson?
8. Does the teacher consistently assess the degree to which students are demonstrating mastery of key learning objectives?
9. Does the teacher consistently provide positive, supportive, and accurate feedback during the lesson delivery?

**Instructional Activities**

- Stimulates and directs student thinking during lessons.
- Continuously checks for student comprehension by using appropriate questioning techniques.
- Provides for practice to promote student learning and retention, responds to student talk in ways that encourage and engage student participation while maintaining academic focus.
- Provides feedback to students on the appropriateness of their responses.
- Uses verbal and nonverbal communication that promotes student learning.
- Uses a variety of instructional techniques, instructional materials, computer applications and other technology to promote student learning.
- Teaches students to use available technology appropriate to facilitate learning.
- Uses available high quality technology in the classroom to promote increased learning.
- Presents rules, laws, and concepts at different levels of complexity so they are meaningful to students at varying levels of development.
- Uses FCAT preparation activities.
- Provides for individualized study.
- Uses manipulatives and other hands-on materials that encourage increased learning.
- Uses the internet as a resource.
- Uses technology and software programs in the classroom appropriately.
- Uses strategies and techniques to enhance critical thinking skills in students.
- Uses available technology to construct lessons and assessment materials.
ABILITY TO EVALUATE INSTRUCTIONAL NEEDS

- Ability to evaluate instructional needs
- Ability to differentiate instruction to meet diverse student needs
- Ability to vary classroom arrangement, materials, and equipment based on student needs

**Ability to evaluate instructional needs** focuses on the use of assessment tools to identify student needs. The outstanding teacher uses a variety of assessment data and anecdotal records to identify individual student needs. When learning deficiencies are identified, the outstanding teacher uses diagnostic tools to determine the problem area and collaborates with other professionals and support staff to gather further information and to develop a support plan. The outstanding teacher uses ongoing formative assessments to monitor student progress and varies instruction based on the results.

**Ability to differentiate instruction to meet diverse student needs** focuses on the teacher’s ability to implement learning opportunities appropriate to the student learning style, linguistic and cultural heritage, experiential background and developmental level. The outstanding teacher makes provision for these differences in his/her lessons and assessment practices. The outstanding teacher collaborates with other professionals, family, and support staff to ensure appropriate services and to build a comprehensive learning plan. The outstanding teacher recognizes when students have difficulty with the reading process and includes appropriate measures to improve reading comprehension in the content area.

**Ability to Evaluate Instructional Needs**

1. Does the teacher check archival records to determine specific student needs?
2. When learning deficiencies are detected, does the teacher use diagnostic tools to identify the problem area?
3. Does the teacher actively collaborate with other professionals to develop a support plan for students who are consistently not making adequate progress?
4. Is the teacher knowledgeable about and effective in the use of formative assessment to monitor student progress?
5. When students are not making adequate progress, does the teacher use the data to modify the instructional plan?

**Ability to Differentiate Instruction to meet Diverse Student Needs**

1. Does the teacher recognize differences in learning styles, linguistic and cultural backgrounds and developmental level among his/her students?
2. Does the teacher effectively and consistently provide provisions for student differences in lesson activities, assignments, and assessment practices?
3. Does the teacher proactively work with a team of professionals, family and support staff to build a comprehensive learning plan for students who need extra attention (both remedial and enrichment support)?
4. Does the teacher incorporate effective content area reading strategies to improve content area vocabulary and comprehension?
