

Additional compensation can be paid to exempt employees with a stipend for certain circumstances, including: having a masters or higher degrees, specialized certifications, and/or to fill critical vacancy needs with a monetary incentive. Please note, stipends coincide with the position and do not automatically transfer with the employee, regardless if the transfer is voluntary or involuntary. Stipends are awarded on an annual basis, but can be discontinued at any time deemed necessary. Salaries are not predicated on stipends previously earned. The stipend schedule applies to the current fiscal year only. Future salaries cannot be predicted from this schedule. The Fair Labor Standards Act specifies that non-exempt employees do not qualify for stipend assignments.

If the individual does not complete the stipend assignment, the stipend will be pro-rated based on the calendar for that stipend. For example, if a stipend has 45 days plus 5 duty days in the fall, and 18 days plus 5 duty days in the spring, an individual that only works the 45 days in the fall would be eligible to be paid the stipend rate (45/63) and the 5 duty days at their current rate for the fall. If at the time they resign from the assignment, they have been paid more of the total stipend than the prorated earned amount, they would owe the district for the overpayment. Equally, if at the time an employee resigns from the assignment, have not been paid the prorated amount of the assignment, the district would owe the individual the remaining prorated amount.

An individual who accepts an assignment after the start of the calendar for that assignment will receive the prorated amount for that stipend and any extra days that have yet to occur.

The payment of stipends is based on two pay-out methods:

- Assignment Stipend; stipend is pro-rated and paid out through the duration of the employee's assignment.
- One-Time Stipend; stipend is paid out in one lump sum, usually during the months of December and/or June.
