The Standards of Practice covering 5000 Series, certificated personnel, are still in review. In the meantime, the personnel procedures, regulations and guidelines for certificated employees (teachers and educational officers) can be found in the School Code, 5000 Series (Certificated Personnel), which can be accessed in this document or, for current employees, on the Office of Human Resources intranet.

Please note that the linked materials include relevant Board of Education policies, although some policies and numbers may have changed as a result of the Board's update of its policies.

SCHOOL CODE
PERSONNEL SERIES #5000

INTRODUCTION

The School Code, Certificated Personnel Policies and Regulations (5000 Series), was approved by the Board of Education on June 19, 1986. While the material provided is for the information and use of all Department of Education employees, it is more specifically intended to place at the fingertips of administrative personnel the knowledge needed to carry out personnel management functions and programs.

In its broader application, the School Code is a means of communicating to certificated employees their rights, privileges, benefits, obligations, responsibilities, and associated procedures.

The Personnel Series is intended to assure that employees are treated in a comparable manner. To this end, the Department of Education's personnel policies, regulations and procedures are predicated on the philosophy that they should be standard and uniformly applied throughout the State, unless a cogent reason exists for exception.

The School Code is also a "living" document which is subject to revision due to changes in departmental programs and practices, negotiated labor agreements and amendments to federal and State statutes. Therefore, recipients of the School Code may expect notices from time to time to revise, add or delete portions of this series. At such times, to keep the School Code up to date, just take a moment to place the new sheets in it the day they arrive. Be sure to destroy the old version of a page when you add its new replacement.

PERSONNEL SERIES #5000

PUBLICATION ORGANIZATION

The Personnel Series encompasses the 5000 number series of the Department of Education Code, which is numbered 1000 through 9000. Each series is differentiated from other numbered series by the color of its binder. The binder for the 5000 Series is light blue.

The 5000 Series has been organized into general subject categories, identified by title and basic numbers as follows:

- Preface, Profiles and Definitions - 5000
- Recruitment & Employment - 5100
- Compensation & Classification - 5200
- Certification - 5300
- Leaves of Absence - 5400
- Personnel Relations & Employee Benefits - 5500
- Personnel Development - 5600
- Negotiation & Bargaining - 5700
- Personnel Forms - 5800
- Index - 5900

Publications are color-coded and placed within the appropriate category in the following order:

- Policy - Blue
- Regulation - White
- Procedure - Canary
Policies are official pronouncements of the Board of Education presented
in unnumbered, unlettered paragraphs. Regulations are Department of Education
Directives presented in alpha outline format. Procedures are statements
of initiating actions presented in numeric outline.

The numbering system is planned to be simple yet flexible in order to permit
a substantial degree of expansion or contraction. It provides for ten major
categories. Each major category can be divided into 99 sub-categories, each
of which can be further extended by the addition of a decimal point, e.g.,
(5102.1). As presently arranged, each regulation with its associated policy
and procedure is identified by its basic sub-category, e.g., 5102. In instances
where more than one procedure pertains to a regulation, the supporting procedures
are numbered in decimal series, e.g., 5201.1, 5201.2, etc. This provides
a certain amount of internal control - if you have Procedure #5201.8, you
know that there is, or has been, a Procedure #5201.6 pertaining to the subject
matter of Regulation #5201.

If a sub-category (5203) is changed by deletion or amendment, it will be
reissued as soon as possible with the effective date indicated at the end
of the publication. Any new policy, regulation or procedure will be, upon
adoption, assigned an appropriate number and distributed to all Code recipients
for insertion in the School Code.

It is recommended that offices or organizations having more than one copy
of the School Code number them for accountability and to allow for periodic
inventory to assure currency. All obsolete publications should be destroyed
when replaced or rescinded.

PREFACE

MISSION

The mission of the Department of Education is to educate students in the public schools of Hawaii. It is the purpose of the Department to develop students to become literate, responsible and self-fulfilled members of our democratic society. It is the function of the Office of Personnel Services in this mission to ensure optimal levels of student achievement and performance by providing a work force of peak performing employees.

PERSONNEL SERVICES

The Office of Personnel Services exists to provide comprehensive personnel services which actively support the delivery of the best education to students. The best education shall be interpreted as that sequence of instruction and educational experiences effectively taught by selected personnel in a caring and supportive environment. The end products of such experiences are responsible and responsive members of society who are literate, self-motivated, and knowledgeable. It is the goal of the Office of Personnel Services to have a work force of employees who are capable, qualified and strongly committed to put forth maximum effort to help students attain ever higher levels of performance and achievement.

The comprehensive system of personnel services shall include the following major programs:

1. **Personnel Needs.** Goals of this program are timely and accurate forecasting of personnel needs, the continuous availability of capable and qualified job applicants, the meticulous screening and selection of the most promising applicants, the assurance of continued growth
and development of all employees, and the provision of a support system to evoke the best performance from the Department’s work force.

2. **Employee Services and Benefits.** This program is designed to provide such employee-related administrative services as hiring, certification, placement, pay and benefits.

3. **Labor Relations.** This program strives to promote, on a proactive basis, cooperative relationships with employees and employee collective bargaining representatives, and endeavors to promote a climate of mutual trust and understanding to obtain and sustain the best efforts from its employees and students.

**PROFESSIONAL PERSONNEL**

Teachers and school administrators are key personnel in the delivery of instruction and instructional services to the students, with other professionals providing continuous support. The Department seeks to provide the best possible education to its youngsters through the enlightened services of those key individuals and other professional support who most closely match the Department’s profiles of an effective teacher, administrator, and educational administrator. (Please see Personnel Series 5001, 5002 and 5003.)

**PRINCIPLES AND CONCEPTS**

Education is a people intensive endeavor. Accordingly, the Department’s personnel program must be premised on a human-sensitive philosophy that encourages the highest level of achievement from its employees and students. All employees can be expected to put forth their best professional efforts in a climate of mutual respect, trust and consideration as evidenced by healthy relationships, genuine recognition of each person’s worth, and by unimpeded communication.
The natural tension between personal needs and institutional goals can be creatively resolved when guided by the concepts of broad-based participation in decision making, clear and open communication, high performance expectations, unity of purpose, improvement-directed actions, recognition of achievement and supportive attention to the personal and professional needs of individuals.

In a network of professionals, decision-making resides at the levels of critical operations and is controlled by clearly articulated and universally accepted institutional principles. Management in such a setting is achieved through a systematic review of results or outcomes and of the enabling processes to achieve the internalized goals of the system. Therefore, wherever possible and feasible, monitoring of program activities shall be by periodically scheduled post-audit, the results of which will be used to reaffirm or redirect energies and efforts to more effectively achieve the targeted goals of the Department.

**ADMINISTRATIVE PARAMETERS**

The Department's personnel programs shall operate within the parameters set by applicable federal laws, State of Hawaii statutes, Board of Education policies, employee collective bargaining agreements, Department rules and regulations and executive orders and directives. These programs shall be further guided by the standards set by the merit principle and by concepts of equal employment opportunity and affirmative action to ensure that no discrimination based on race, color, religion, sex, age, marital status and/or national origin shall exist at any level in the system.

PROFILE OF AN EFFECTIVE TEACHER

I. INTRODUCTION
Teaching is a unique profession, where teachers are continuously discovering, incorporating and applying new and more effective skills and knowledge about student learning and development. It is also a satisfying and challenging profession where every practitioner must persevere and strive to attain ever higher levels of success in shaping and guiding the growth and development of all students to become productive citizens of the future.

II. MISSION CENTERED ON THE STUDENT LEARNER
An effective teacher focuses fundamentally on providing for a student’s long-term development into a self-responsible, independent learner. The effective student learner is one who acquires the basic skills necessary to achieve autonomy, literacy, responsibility to self and others, and the desire or capacity to continue to learn and grow for a lifetime. The ultimate student outcome is a positive, confident, competent, caring learner who is able to take the initiative, problem-solve, set goals, and make decisions that help him or her to continuously adapt and prosper in a rapidly changing technological society.

Skills and attributes which are critical for this century and the next are different, not stable and predictable, but fluid and dynamic. Our educational system must develop citizens and workers who can govern themselves, who are flexible, resourceful and able to deal with open-endedness, complexity, the global perspective, the information explosion, and other technologies, while still maintaining a set of values, individual stability, and integrity. Students must be able to internalize content so as to be able to use it spontaneously and appropriately in changing contexts. Students need to learn how to learn and to be responsible for their own learning as well as to contribute as competent citizens to social harmony.

The statewide student performance standards for Hawaii delineate the
following skills and attitudes as general learner outcomes which all teachers must help students develop:
1. The ability to be responsible for one’s own learning.
2. The ability to work with others.
3. The ability to use complex thinking and problem solving skills.
4. The ability to recognize and produce quality work.

Teaching is more than knowing subject matter and clearly presenting it; teaching involves knowing how students think and feel, their preconceptions and misconceptions, what genuinely gets their attention, and how to build their desire to learn from within themselves. The commitment and dedication of the professional, therefore, must be to persevere in finding the ways to build independence in the learner and nurture the natural curiosity of the student. Intrinsic motivation is a complex and elusive component of learning that requires the commitment of teachers to address it, emphasize it and nurture it in every learner. Without desire, the learner may not truly retain or apply knowledge and skills. The teacher should identify interests and points of personal relevance, provide for emotionally and developmentally appropriate experiences and adjust instruction to engage learners and to encourage them to want to learn more, no matter how challenging the task may be.

Also, basic to the role of the teacher is creating a community of learners within the classroom and school where students may trust, feel safe, experience a sense of success and accomplishment, develop integrity, self-discipline, empathy, responsibility to self and others, and a love of learning. Teachers, therefore, must convey, by example, values such as honesty, fairness, respect for individuals and pride in success. Moreover, the teacher is a learner, too, serving as a model for students of active, continuous, life-long learning.

Teachers in the Department of Education must possess and demonstrate a central core of competencies in order to teach and be a model for students of an adult functioning successfully in a highly complex society.
III. TEACHER COMPETENCY

Model standards for teachers, developed by the Interstate New Teacher Assessment and Support Consortium (INTASC) under the auspices of the Council of Chief State School Officers (CCSSO), were used to identify ten basic areas of teacher competency for this profile. The effective teacher must perform satisfactorily according to the following areas of teaching competency:

PROFILE OF AN EFFECTIVE SCHOOL ADMINISTRATOR

A school is as effective as its leadership is effective. Effective leadership requires full personal and professional commitment to student growth and development and school improvement. The Department's goals can best be attained through school leaders who have been given clearly defined responsibilities in relation to student achievement.

Strong leadership, particularly in working with people positively and constructively to enhance teacher-student interaction, is central to school administration. Identified practices and characteristics which promote effective schooling reflect such elements as (a) a curriculum which is clearly defined, (b) focused classroom instruction and management, (c) consistent discipline, (d) close monitoring of student performance, and (e) strong instructional leadership.

The school leader must have a clear understanding of the school's mission and must be able to demonstrate the ability to articulate this mission to the staff and the community, to unify the staff in pursuit of effective teaching so that all students learn, to establish high standards of achievement, and to create a safe and orderly school environment. Specifically, the effective school leader:

A. Demonstrates Commitment to School Improvement

A strong personal and professional desire to make a positive impact on student achievement is expressed in all actions taken by the school leader within the educational setting. The effective school administrator:

1. Strongly believes that his/her mission is to attain progressive levels of high student achievement/school improvement.
2. Conducts systematic assessment and analyses of the educational needs of students based on achievement scores, grades, attendance reports, demographic profile, discipline reports, school climate and other forms of data.

3. Evaluates the effectiveness of current school programs and teaching methods in terms of clearly identified achievement criteria.

4. Develops an integrated school improvement plan with enabling activities to attain within a specified time frame, explicit goals and objectives relating to student achievement.

6. Reports results of school improvement efforts to all members of the school and to the community.

B. Demonstrates Achievement-Oriented and Supportive Leadership

The school administrator's work is demanding of energy, persistence and drive. Strong leaders are able to introduce ideas, get people involved, make decisions and motivate people to get the work done. A caring and supportive leader:

1. Expresses the belief and expectation that school improvement is an attainable goal within a time frame of planned and focused activities.

2. Exemplifies traits of creativity, imagination, innovativeness and persistence in the pursuit of school improvement.

3. Deals caringly and responsibly with faculty, staff, students and parents.

4. Exemplifies traits of an effective teacher with high expectations for self and others.
5. Provides appropriate staff development opportunities which focus on instructional improvement and staff efficacy.

6. Examines own leadership performance in pursuit of professional improvement activities.

C. Utilizes Effective Management Strategies to Unify Staff, Build a Sense of Ownership and Commitment to High Performance Goals

The pulse of the school is regulated by the school administrator charged with delivery of quality services. The administrator channels all resources toward attainment of high performance goals and works cooperatively with faculty and staff in planning ways to improve the school. To this end, the school administrator:

1. Uses participatory strategies which enable people to feel that they can influence decisions and outcomes.

2. Promotes creativity in determination of how goals and objectives can be met.

3. Generates feelings of trust, enthusiasm, rapport, respect and liking among faculty, staff, students and members of the community.

D. Manages the Full Scope of School Administrative Responsibilities

A school leader must work within the context of parameters, description of job responsibilities and resources such as time, money, and people.
The attitudes, approaches and dynamics of what happens in an effective school are contingent upon its leadership. Full utilization of available resources is a hallmark of an effective leader who:

1. Complies with applicable statutes, federal laws, regulations, procedures, contractual provisions and other governance parameters.

2. Attends to all required administrative functions such as supervision and evaluation of instruction, teachers and staff; maintenance of a well-functioning school plant; timely completion of reports.

PROFILE OF AN EFFECTIVE EDUCATIONAL ADMINISTRATOR

(DISTRICT AND STATE LEVELS)

MISSION

The primary mission of all personnel in the Department of Education is to help schools provide for the best possible educational development of students. To this end, state and district educational administrators at all levels must work collaboratively to achieve the goals of the school system. There must be full commitment to system-wide student development and performance improvement. State/district level leadership must provide direction and support services to schools to ensure consistent and effective attainment of higher levels of system-wide student educational achievement. Functionally, these expectations may be translated into the following behaviors which identify the effective educational administrator.

1. Demonstrates Personal and Professional Commitment to Job Performance Improvement
   a. Makes programmatic, personnel and operational decisions based on the goal of attaining more effective schools.
   b. Conducts systematic assessment of school support services to determine effectiveness and to identify needs based on user input and feedback.

APPENDIX I - PROBATIONARY GUARANTEE

Chain Reaction 4: Employee "E", who is **not** a tenured Principal II, receives a "Probationary Vice" Appointment to Position 65360, Principal II (EOSR-4). He/she retains a Chain Reaction Probationary Guarantee and a Probationary Guarantee to Position 65370, Vice Principal II (EOSR-2).

Chain Reaction 5: Employee "F", who is **not** a tenured Vice Principal II, receives a "Probationary Vice" Appointment to Position 65370, Vice Principal (EOSR-2). He/she retains both a Chain Reaction Probationary Guarantee and a Probationary Guarantee to vacant Position 65380, Vice Principal (EOSR-1).

Situation I: The usual situation is that Employees "A", "C", "E", and "F" will successfully complete their probation and, thus, relinquish their guarantees.

Situation II: If Employee "A" does not successfully complete his/her probation and must return to his/her guaranteed position, a chain reaction movement results whereby all affected employees return to their guaranteed position.

Situation III: If employee "F" fails to gain tenure then he/she must return to his/her guaranteed position (65380). This movement does not affect employees "A", "B", "C", "D" and "E" because Employee "F" is the last link in the chain.

INTER-ISLAND DIRECTED TRANSFER ALLOWANCE FOR EDUCATIONAL OFFICERS

The best interests of the Department occasionally require that an educational officer be relocated to other island posts. To lessen the financial burden which can result through such Department directed transfers, a subsidy is provided to assist the transferee in meeting the costs of relocation.

A. Department Directed Transfer (Assignment)

A Department directed transfer means that an employee is directed to transfer because there are no qualified applicants for a vacant position.

B. Entitlement

Upon accepting a Department directed transfer involving movement to another island, an educational officer shall be entitled to:

1. One-way airline ticket for the educational officer and immediate family from point of departure to point of arrival. The immediate family consists of spouse and children not married and age 18 and under (includes stepchildren and adopted children) and other dependents physically or mentally incapable of supporting themselves, regardless of their age. Dependents must live in the same household at the time of transfer and continue to do so after relocation.

2. One-way transportation of one passenger motor vehicle from port to port, maximum weight not to exceed 4,000 pounds, by lowest-cost cargo rate.

5100-85
General Conditions of Recruitment,  
Selection and Appointment - Inter-Island Directed  
Transfer Allowance for Educational Officers (continued)  

3. One-way transportation of household goods and personal effects,  
not to exceed 2,000 pounds (net) by lowest-cost cargo rate. Household  
goods and personal effects do not include items intended for resale,  
business enterprise or property belonging to anyone other than  
the immediate family. Ground transportation will be provided within  
fifteen miles of a port with a subsidy of $1.00 per mile beyond  
fifteen miles.  

C. Employee Commitment  

Upon transfer to another island, for the good of the Department, an  
educational officer shall be expected to serve at least four years  
on the island to which transferred. However, if the Department determines  
that the educational officer can better serve by being reassigned  
to a position on another island, it may offer that educational officer  
another subsidized transfer allowance. In this case, another four-year  
period of service in the new area is expected. Upon fulfillment of  
commitment, return of the educational officer to the island of original  
assignment with subsidy is authorized.

COMPENSATION AND CLASSIFICATION

POLICY

The Department of Education shall establish, maintain and administer appropriate classification and compensation systems for teachers and educational officers in accordance with State of Hawaii statutes, Department regulations, and collective bargaining agreements.

Adopted 6/86; Amended 8/89
Teachers and educational officers shall be compensated as provided for by the laws of Hawaii and Department regulations.

A. Experience Credit for Salary Step Placement

1. Newly Hired Teachers

The maximum entry level for newly hired teachers is step 7. Newly hired teachers shall be placed on the appropriate step of the teachers' salary schedule as determined by their accumulated years of verified and allowable teaching experience. However, other provisions to the contrary notwithstanding, no new teacher shall enter the schedule at a higher salary step than incumbent teachers with identical years of experience who were prevented from earning normal annual increments (under the provisions of Act 164, S.L.H. 1975) because of negotiated collective bargaining pay raises.

a. Teaching Experience Allowable

Effective September 1, 1969 a maximum of six years of prior teaching experience is allowable for salary placement credit for full-time experience in a recognized public or private school (K-12) in the United States (including territories, possessions or Department of Defense Schools overseas). Teaching experience (K-12) outside the United States may be accepted for salary
credit under circumstances where sufficient verification is offered to adequately establish that such experience was comparable to that of regular classroom teachers in the public schools of Hawaii. Full-time teaching service with the Peace Corps, Vista and Teacher Corps is allowable provided such service had the same responsibilities as regular classroom teachers.

NOTE: When military service is combined with teaching experience, the maximum number of combined service shall not exceed six years.

b. Teaching Experience Not Allowable

Teaching experience of less than one semester shall not be allowable for salary placement credit (a semester is defined as either of the two continuous periods of instruction into which an academic year is divided or five continuous months of teaching). No salary placement credit shall be allowed for intern teaching or teaching compensated on an hourly pay rate. (Intern teaching is defined as teaching experience gained as part of a teacher training program or teaching experience which resulted in academic credit from an institution of learning.)

c. Military Experience

Active military service (reserve status is excluded) in the armed forces of the United States since December 7, 1941, shall be allowed to the extent of one step credit for each year of

verified service to a maximum of four steps. Six months of continuous active service shall count as one year - less service is not creditable.

2. Verification of Experience

All experience submitted for salary credit must be verified by official documents or statements from former employers.

B. Teacher Returning After Prior Service with the Department

A teacher returning to the Department after prior service as a teacher shall be processed as follows for salary purposes:

1. The teacher shall be returned to the same salary classification unless the teacher qualifies for a higher class, in which case, upon verification of qualification, placement shall be made to the appropriate salary range.

2. The teacher shall be placed on the salary step equivalent to the salary step held immediately prior to termination. The teacher shall be granted allowable teaching experience obtained subsequent to employment termination. Such accumulated teaching experience shall be credited not to exceed Step 5 only to the extent that they are not offset by the total years of pay increment service credit that were denied (under Act 164, S.L.H. 1975) to inservice teachers during the employment absence period.

C. Administrative Interns

1. Certificated Department employees serving as administrative interns shall not suffer any loss in base salary.
2. Under certain circumstances, non-certiﬁcated personnel may be selected as administrative interns. In these instances, no salary placement credit will be permitted for previous work experience or salary earned. Such individuals will be placed on the Teacher Salary Schedule on the class and step for which they qualify under existing regulations concerning salary placement for newly employed teachers.

D. Newly Hired Educational Ofﬁcers Not Having Prior Service with the Department

A newly appointed educational ofﬁcer shall be placed on the initial step of the appropriate salary range for the position to which appointed.

E. Negotiated Salaries

The Superintendent, for the beneﬁt of the Department, may negotiate within a salary range up to the seventh step for a particular position only. Any negotiation above step seven must have the prior approval of the Board of Education.

F. Former Employees Returning to the Department as Educational Ofﬁcers

1. A person with prior service as a teacher returning to the Department as an educational ofﬁcer shall have the salary determined in the manner established for newly hired educational ofﬁcers not having prior service with the Department, or can be promoted from the teacher classiﬁcation and step in accordance with the provisions established for promotion of teachers.

2. An educational ofﬁcer returning to the Department with prior service in the Department as an educational ofﬁcer shall have the salary determined as follows:
Compensation - Compensation (continued)

a. The educational officer shall be placed on the same "permanent" salary range and step held immediately prior to employment termination.
b. The educational officer shall then be promoted or demoted or transferred to the appropriate salary range in accordance with regulations established for in-service educational officers.

G. Trainees

Certificated (administrative and supervisory) employees may be reassigned to an instructional staff or other administrative duties as a trainee for a period not to exceed six months without loss of salary. Such temporary reassignment must be for the express purpose of gaining experience which will benefit the Department. Trainees shall have their salaries determined in accordance with paragraph C-1 of this regulation.

H. Maximum Credit in a Twelve-Month Period

Only one year of experience shall be granted within a twelve-month period.

2. **Annual Salary Rate** means the annual salary amount specified on the appropriate salary schedule for the employee's appropriately assigned salary range and step. This represents the full annual salary that would accrue if the employee is on paid status for all of the paid days during the official work year.

3. **School Year** means the 12-month employment period or employee contract year during which the school academic program is provided. (The traditional school year has been September through August.)

4. **Official Work Year** means the recognized paid days as determined each school year by the approved school calendar and as defined by the applicable collective bargaining contract.

5. **Work Days** means days within the official work year when employees are required to work.

6. **Paid Holidays** means days within the official work year designated as paid holidays by the applicable collective bargaining contract or as defined in paragraph F herein.

7. **Paid Vacation Days** means weekdays (Mondays through Fridays) other than holidays occurring during the winter and spring vacation periods.
8. **Paid Days** means work days, paid holidays and paid vacation days when ten-month employees earn their salaries.

9. **Daily Salary Rate** means the earnings amount that accrues for each paid day when the employee is entitled to full salary compensation. The daily salary rate is determined by dividing the employee’s annual salary rate by the total number of paid days within the official work year according to the following formula:

   \[
   \text{Daily Salary Rate} = \frac{\text{Annual Salary Rate}}{\text{Total Number of Paid Days within the Official Work Year}}
   \]

   **NOTE:** The number of paid days will vary each school year based on the official school calendar.

10. **Paid Status** means entitled to receive or earn pay for each paid day. An employee is on paid status for a work day if the employee is legitimately at work and performs the required services or is otherwise on an approved leave of absence with pay. An employee is on paid status for a particular paid holiday or paid vacation day if the employee meets the criteria to be on paid status.

Compensation - Salary Administration for Ten-Month Employees (continued)

13. **Summer Salary Period** means the remaining pay periods of the school year over which summer salary earnings are paid. The traditional school year for 10-month employees includes a summer period from the day after King Kamehameha Day in June through the months of July and August when no paid days occur. The school year for 10-month employees on year round (single track) or other non-traditional schedules may also have summer salary periods of varying lengths.

**B. Salary Range Assignment and Step Placement**

Salary range and step placement shall be made as provided for by the Classification and Compensation Plan of the Department according to the laws of Hawaii and Department Regulations.

**C. Salaries Earned During the Official Work Year**

Unless otherwise specified, salaries are earned during the official work year. The annual salaries shall be earned at a daily salary rate based on the actual number of work days and paid holidays within the official work year. Salary earnings accrue when the employee is on paid status for that day.

**D. Salaries Paid Semimonthly**

Salaries shall be paid in semimonthly installments over a period of twelve months except when salaries are paid in a lump sum as specified in paragraphs E-2 and E-3 below. Payments shall be appropriately adjusted as soon as possible when earned salary is interrupted by absence without pay and/or when employment is for a partial work year.

Adjustments shall be deducted, as feasible, from the next semimonthly payment at the daily salary rate for each day of absence without pay.

**E. Summer Salary**

1. Employees shall be paid their summer salary earnings in equal semimonthly installments over the summer salary period.
2. If the summer salary earnings do not amount to at least $1,000, the remaining summer salary earnings may be paid in one lump sum as soon as possible as determined by the Department.

FROM: Herman M. Aizawa, Ph.D.  
Superintendent of Education

SUBJECT: Working Guidelines for Regulation #5201; New Salary Administration for 10-Month Employees (Revised)

Personnel Regulation #5201, Relating to Salary Administration for 10-month Employees was amended in June 1996 for implementation effective with the 1996-97 school year. The amendments have changed concepts regarding the definition of paid days, the payment of salaries and the earning of salaries. Paid days have been redefined to mean work days, recognized paid holidays, and other vacation days during the winter and spring vacation periods. For school year 1996-97, teachers have 205 paid days and 10-month educational officers have 208 paid days.

The new concepts will not directly affect the payment and earning of salaries for 10-month employees who continue to remain on paid status for the entire work year. However, 10-month salaried employees who are hired after the first work day of the school year and those who take leave without pay or resign will have their pay adjusted appropriately by 1/205th or 1/208th of their annual salary rate for each non-acruing paid day. The enclosed revised Implementation Instructions is attached as a "working draft" to help schools better understand the changes and impact on teacher and educational officer pay administration. More information will be disseminated through principals' meetings and other training sessions.

COMPENSATION AND PAY ADMINISTRATION  

Introduction  
Effective school year 1996-97, salary payments and earnings for all teachers and educational officers compensated on a 10-month salary schedule shall be administered according to Regulation 5201 (Revised 6/96). The following guidelines have been developed to facilitate the implementation process.  

Implementation Instructions  
1. Official Calendar  
The official school calendar shall be used for schools on the traditional school year schedule. Schools on year-round or other non-traditional schedules shall use their applicable customized school year calendars. Illustrative examples used herein are based on the official traditional school calendar for 1996-97 (Attachment A) and the 1996-97 year-round education school calendar for Kaunakakai Elementary School (Attachment B). 

2. Number of Paid Days Within the School Year  
The number of paid days must be determined each school year based on the total number of work days, holidays and vacation days (Winter and Spring) identified on the school calendar. The number will differ between teachers and educational officers. The following illustrative examples have been developed for SY 1996-97:  

Example A - Teachers. There are 181 teacher working days identified on the 1996-97 school calendar. There are also 13 holidays recognized and identified in Regulation 5201, as follows: Labor Day (Sept. 2), Election Day (Nov. 5), Veterans' Day (Nov. 11), Thanksgiving Day (Nov. 28), Day After Thanksgiving (Nov. 29), Christmas Day (Dec. 25), New Year's Day (Jan. 1), Martin Luther King Day (Jan. 20), Presidents' Day (February 17), Kuhio Day (Mar. 26), Good Friday (Mar. 28), Memorial Day (May 26), Kamehameha Day (June
11). Note: Election Day occurs every two years, thus, there will be only 12 paid holidays for SY 1997-98. There are also 11 paid vacation days for Winter and Spring Vacation as follows: December 23, 24, 26, 27, 30, and 31; January 2, and 3; and March 24, 25, and 27.

From this analysis, there will be **205 paid days** in SY 1996-97 (181 working days, plus 13 paid holidays, plus 11 school vacation days).

**Example B - 10-Month Educational Officers.** The number of paid days for 10-month educational officers can be determined by adjusting from the paid days for teachers as follows:

Number of Paid Days for 10-Month EO's: 208

3. **Normal Salary Payments for 10-Month Teachers and Educational Officers**

Affected educational officers and teachers will normally continue to receive their salary payments in 24 semi-monthly installments if they earn and accrue pay for all of the paid days in the school year. Examples C and D below illustrate how this works for teachers and educational officers assuming a hypothetical annual salary rate of $12,000 for SY 1996-97. Note that the first pay check of each new school year will be paid at the end of the first full pay period (September 1-15 for Example C and August 1-15 for Example D). That pay check will contain one full semi-monthly salary payment provided that there are no absences without pay. No pay adjustments are added to the first pay check for partial pay periods at the beginning of the school year because the intent is to proportionately smooth out salary payments over the 24 semi-monthly pay periods.

Note 1: A 10-month educational officer will have the same pay periods and the same semi-monthly salary payments as a teacher assuming that both have the same $12,000 annual salary rate.

Note 2: In Example D, earnings from the partial pay period from July 22-31, 1996 are not paid on the August 15, 1996 pay period. Such earned pay is prorated so that the last pay check of the school year (on July 31, 1997) can reflect a full semi-monthly payment.
4. Salary Adjustments for Short-Term Absence Without Pay

Salary adjustments for absence w/o pay transactions will generally be made by deducting the entire amount of unearned salary at the earliest pay period following the absence. Two examples follow. The Vice-Principal at the traditional school is absent w/o pay on Jan. 16 and 17, 1997. The teacher at Kaunakakai El. is w/o pay for the same period.

Note: The absence w/o pay adjustments will be made at the earliest possible pay period which is the Feb. 15, 1997 pay date. The adjustment amounts will be determined by multiplying the daily rate of pay by the number of paid days absent w/o pay. In Example "E", the adjustment amount of $115.38 is determined by multiplying $57.69 by 2 days of absence w/o pay. The same adjustment is made in Example "F" using the $58.54 rate. Note for the record that both employees are on paid status for at least one of the 5 working days before the Jan. 20th paid holiday. Thus, they are both entitled to be on paid status on the recognized holiday.

5. Salary Adjustment for Long-Term Absence Without Pay

How would their salary earnings and payments be affected if the Vice-Principal at the traditional school takes a longer period of LWOP from December 2, 1996 through January 26, 1997 and the teacher at Kaunakakai Elementary School goes on LWOP from January 21, 1997 through March 9, 1997?

**Explanation:** In example G (be sure to use the traditional calendar), the Vice-Principal is out on LWOP for 40 paid days (29 working days, +8 vacation days, +3 paid holidays) from Dec. 2, 1996 through January 26, 1997. She then returns for the remainder of the school year. She accrues 168 paid days (208-40 = 168). (168 x 57.69 = $9,691.92) She is paid
IMPLEMENTATION OF REGULATION 5201
SALARY ADMIN. CHANGES PAYROLL GUIDELINES

$8,096.17 up through June 30, 1997. Her summer salary earnings will be $1,595.75 ($9,691.92 - $8,096.17) or $398.94 paid over 4 summer salary pay periods. Note that she does not meet the criteria to be on paid status for the winter break and for the January 20th holiday. She misses 7 paid days in the January 31 pay period, thus, is deducted $403.83 for that pay period. The remaining $96.17 ($500 - $403.83) adjustment is made on the February 15th pay date, the earliest pay period when adjustment can be made.

In Example H (be sure to use the Kaunakakai Elem. calendar) the teacher is out on leave without pay for 34 paid days (33 work days and one Presidents' Day holiday). 205 total days less 34 days missed = 171 accrued paid days for the school year. 171 x $58.54 = $10,010.34. She receives $8,207.30 up through the May 31 pay date. Her summer salary earnings is $1,803.04 or $450.76 over 4 summer salary pay periods. Note: This teacher meets the criteria to be on paid status for the January 20 holiday because she is on paid status for at least one of the five working days immediately preceding the holiday. In fact, she also meets the criteria to be on paid status for the winter break. The two-week inter-session from Jan. 6, 1997 through Jan. 19, 1997 represent non-paid days, thus, the 5 working days preceding the Jan. 20th holiday goes back to Dec. 16 through Dec. 20, 1996. The teacher further qualifies to be on paid status for the spring break because she comes back to duty on March 10, 1997. March 10 through 14 represent the five work days immediately preceding the spring vacation because of the inter-session break of non-paid days from March 15 through March 23. The teacher at Kaunakakai Elementary School also receives a $207.30 pay adjustment on the March 31st pay date because she misses only 5 days of the previous pay period. (5 x 58.54 = $292.70) ($500 - $292.70 = $207.30). This adjustment of $207.30 is added to the normal $500 semi-monthly amount to total $707.30.
6. Salary Adjustment for Late Hiring and Non-Completion of School Year

Hypothetical variation: The teacher at Kaunakakai Elementary School is hired on Oct. 21, 1996, after the start of the school year. The educational officer at the traditional school takes leave without pay from May 15, 1997 to the end of the school year. How will their salary payments be affected? See Examples I & J below:

Rule J: When a 10-month employee is initially hired or returns from leave after the beginning of the new school year, that person's first pay check shall be paid, as feasible, on the pay date that reflects the first full pay period. As feasible, the amount paid on that pay date shall include the normal semi-monthly pay plus any accrued partial pay from the previous pay period.

In Example J, the employee's first full pay period is from November 1-15, 1996. The employee's first pay check for the school year should be paid on November 15th. As feasible, that pay check should reflect the salary for one full semimonthly period ($500) plus accrued pay from the previous pay period ($500 less three days pay for Oct. 16, 17, and 18, the days in the pay period when pay did not accrue).

Rule I: When a 10-month employee does not complete the school year but instead is absent without pay for the remainder of the school year, pay shall be adjusted as possible for the last pay period during which the absence begins. No further salary payments are to be made until the summer salary period unless (1) the summer salary earnings do not amount to at least $1,000 and lump sum payment may be made or (2) the projected semimonthly summer salary payment exceeds the normal semimonthly payment in which case, the excess is paid on the last pay period preceding the summer salary period.
In Example I, hypothetically, no salary adjustment is possible for the payment of the May 15 pay check because of the suddenness of leave on May 15. Thereafter, no salary payment is made until June 30th, the last pay period preceding the summer salary period.

Analysis: Example K: The VP accrues 110 paid days at the old rate and 98 paid days at the new rate. (Count the paid days on the appropriate school calendar.)

Traditional Calendar for SY 1996-97 shows 96 teacher work days as of January 31, 1997. Less two teacher days in August = 94 EO working days. Calculation: (94 working days, plus 8 holidays, plus 8 Winter Vacation days = 110 paid days up through January 31, 1997) 110 * $57.69 = $6,345.90 accruing under the old pay rate.

The new pay rate = $63.46 per day (($13,200 per year/208 EO paid days for SY 1996-97). 208 possible paid days per year less 110 paid days accruing under the old rate leaves 98 paid days under the new pay rate. 98 * $63.48 = $6,221.04.

$6345.90 + $6221.04 = $12,566.90 accrued earnings for the year. Less $10,500 already paid = $2,066.90 summer salary earnings paid equally over 4 pay periods = $516.73 per pay period.

Analysis: Example L:

Example L, the teacher accrues 119 days at the old rate of $58.54 per day = $6,966.26 (103 teacher working days, plus 8 holidays, plus 8 vacation days totals 119 paid days up through January 31, 1997). The teacher also accrues 86 paid days at the new rate of $64.39 ($13,200/205 paid days in the 1996-97 school year = $5,537.54). Total accrued earnings = $12,503.80. Total payments of $10,400 up through May 31, 1997 leaves a difference of $2,133.80 (summer salary earnings) to be paid equally over the four pay periods of June 15, June 30, July 15 and July 31 ($2,133.80/4 = $533.45).
8. **Pay Differential Changes**

Normally, pay differentials such as for grade chairpersons, school librarians, band teachers, etc. are provided to an employee for the entire school year. When this happens, the differential is simply added to the Annual Salary Rate, thus, increasing both the semimonthly amount paid as well as the Daily Salary Rate. Examples M and N below illustrate how a hypothetical $50 per month differential is simply added ($12,000 + $600 = $12,600) to convert Examples D and E above to reflect the payment of a differential for the full year.

Sometimes pay differentials for an employee need to be paid for a partial period. In Example O below, the hypothetical vice-principal serves for the first semester of the school year (September 1, 1996 through January 26, 1997) as a Cohort Mentor and is entitled to the hypothetical Cohort Mentor differential of $50 per month. During the second semester, the vice-principal is not a Cohort Mentor and is not entitled to the differential. In Example P below, the teacher in the year-round school is entitled to a hypothetical grade level chair differential of $50 per month but only from April 1, 1997 through April 30, 1997.

Analysis: Example Q: The VP accrues 105 paid days with the differential and 103 paid days without the differential. (Count the paid days on the appropriate school calendar.)

Traditional Calendar for SY 1996-97 shows 91 teacher work days as of January 24, 1997. Less two teacher days in August = 89 EO working days. Calculation: (89 working days, plus 8 holidays, plus 8 Winter Vacation days = 105 paid days up through January 24, 1997) 105 paid days * $57.69 daily salary rate = $6,057.45 accruing at the old daily salary rate (without the differential).

The new daily salary rate (with the differential) = $60.58 per day ($12,600 per year/208 EO paid days for SY 1996-97). 208 possible paid days per year less 105 paid days accruing under the old daily salary rate leaves 103 paid days under the new daily salary rate. 103 * $60.58 = $6,239.74.

$6,057.45 + $6,239.74 = $12,297.19 accrued earnings for the year. Less $10,225 already paid = $2,072.19 summer salary earnings paid equally over 4 pay periods = $518.05 per pay period.

*Note: The last pay period in January requires an adjustment of monthly rate because the differential accrues for only part of the pay period (up through January 24, 1997). The general practice for this situation is to switch to the new
semimonthly pay rate at the earliest time possible. In this case, the end of the differential can be anticipated, thus, the adjustment is made immediately during the pay period in which the pay change occurs.

Analysis: Example P:

Example P, the teacher accrues 22 paid days with differential in the month of April 1997 at the daily salary rate of $61.46 earning a total of $1,352.12. The teacher also accrues 183 days without the differential at the regular daily salary rate of $58.54 per day for a total of $10,712.82. (205 total paid days less 22 paid days in April = 183 paid days remaining). Total accrued earnings = $12,064.94. Total payments of $10,050 up through May 31, 1997 leaves a difference of $2,014.94 (summer salary earnings) to be paid equally over the four pay periods of June 15, June 30, July 15 and July 31 ($2,014.94/4 = $503.74).

9. Part-Time Salaried to Full-time Salaried

At the traditional School a new teacher is hired as a half-time (50.000 FTE) teacher on August 29, 1996. She works at 50.000 FTE until September 5, 1996 and is then hired as a full time (100.000 FTE) teacher effective Friday, September 6, 1996 for the remainder of the school year. How is salary adjusted for this situation?

Ex. Q. - New Teacher Traditional School Calendar

Annual Salary Rate = $12,000
Semimonthly Salary Rate = $500
Daily salary Rate = $58.54
50.000 FTE daily Salary Rate = $29.27
In this example, the first salary payment is made on September 13, 1996. What is the correct amount paid?

No. of Days worked at 50.000 FTE = 6 days.
Deduct 6 half-time days when pay does not accrue at $29.27 per day = $169.62.

The first pay check should contain gross pay of $330.30.

POLICY

EMPLOYEE GRIEVANCE

It is an obligation at all levels of Department administration to establish and cultivate a favorable climate for frank and objective discussion of employee complaints with regard to their working conditions or other relations with the Department. The give and take of friendly, constructive criticism is essential. It is expected in an organization the size of this Department that occasions for employee irritation and dissatisfaction will arise. Unless employees are free to seek correction or to have explained to them justification of existing conditions, their work will suffer. The procedure is intended to cover grievances, complaints, or misunderstandings that are personal to an employee or a group of employees. The benefits derived under these procedures will be in direct relation to the skill, sympathetic understanding, and judgment of all persons involved.

Initiation of a grievance by an employee shall in no way reflect on the employee's professional standing or loyalty to the Department or to the school or other organizations to which s/he is responsible. Neither shall it be considered a reflection on the employee's supervisor or on the general administration of the Department. All parties to a grievance must be assured of freedom from restraint, coercion, discrimination, or reprisal. Discriminatory or retaliatory action on the part of the supervisor resulting from a grievance shall be a disciplinary offense.

To foster the very best efforts of professionals, the Department shall endeavor to provide opportunities for continuing development to teachers and to potential and incumbent educational officers in an environment of trust and respect for the individual. The Department shall endeavor to conduct and maintain a continuous and comprehensive program of training activities, designed to enhance the competencies and performance of its professional staff toward achieving desired educational outcomes for students.

In its management of personnel, the Department shall be guided by the concept of human dignity and human worth. It believes that personnel must be selected through merit, that personnel can be developed to their fullest potential to accomplish the goals and objectives of the Department of Education, given the opportunity and appropriate support system.

TEACHER EDUCATION PROGRAM

The Department, in cooperation with accredited institutions of higher education, may permit preservice teachers in teacher education programs to teach, participate, and observe in the public schools of Hawaii, upon verification by the institutions of their ability to function effectively in Department classrooms. Such placements should contribute to the best interests of the Department and its students.

PROBATION

Initial Probation. Probation in personnel development is a period to acknowledge the potential for growth.

For the employee on initial probation, it is a period of intense self-examination to sort and refine the assets one brings to the new situation to the best advantage; it is a time to test one’s capabilities to achieve results. From this initial assay, the individual derives a profile of strengths and needs on which to develop a program of self-improvement or development, which is a personal investment in one’s professional growth.
Personnel Development -
Policy (continued)

For the institution, this is a time of close scrutiny of performance and
responsible assessment of strengths and needs on which to develop a program of
direct and immediate support. It is a time of calculated investment of
resources to nurture the development of individuals in the Department’s
critical work force.

Probation when Promoted. In the total scheme of personnel development,
individuals in the organization are motivated to higher levels of performance
by upward movements within the profession. Such a movement into a new
position signals a time of realignment of strengths and needs. This is a
period of acknowledging the potential for growth in a position of choice. As
such, the individual conducts a self-assessment from a base of past
experiences to derive an abbreviated profile of strengths and needs on which
to develop a selective program of improvement or development. The institution
conducts a concentrated assessment to determine organizational fit, and
designs appropriate programs of development to strengthen specific areas of
needs. It is a time for the judicious use of resources to bring the
individual up to optimal performances to achieve targeted goals.

CONTINUING EDUCATION PROGRAM

The Department shall establish and maintain a program of continuing
education that will include workshops, institutes, courses, and other
educational activities in cooperation with educational institutions and
professional agencies. The program shall be based on expressed and perceived
needs, broad-based participation, self and institutional initiatives, and on
progressive development. It shall be directed toward outcomes.

EVALUATION PROGRAM

The Department shall establish an evaluation program which will be an
inherent part of the personnel development program. The evaluation program
shall be guided by professional evaluation standards and by Department of
Education criteria for effective teachers and educational officers.
EDUCATIONAL OFFICERS TRAINING PROGRAMS

The Department shall make available systematic provisions for those employees with leadership and managerial potential to be trained for levels of management in the system. The training programs shall be based on qualifying standards and progressive training.

PROGRAM MANAGEMENT

Consistent administration of Department policies shall be achieved through open and continuous communication and training. Decisions will be made at the most appropriate administrative levels. There shall be compliance monitoring by post-audit to assure quality performance and decision-making based on sound management principles.
CONTINUING EDUCATION

From entry into the Department until retirement, employees are expected to undergo phases of growth and change to meet the obligations of their positions. Correspondingly, the Department shall establish and maintain a program of continuing education for the professional growth of teachers and educational officers to meet the established goals and objectives of the Department.

MEMORANDUM OF UNDERSTANDING
BETWEEN
STATE OF HAWAII
BOARD OF EDUCATION
AND
HAWAII STATE TEACHERS ASSOCIATION
(EARLY MORNING PREPARATION PERIOD)

This Memorandum of Understanding is entered into this 29th day of
August, 1990 by and between the State of Hawaii, Board
of Education, hereinafter referred to as the Board, and the Hawaii
State Teachers Association, hereinafter referred to as the
Association.

Both parties mutually agree to the following:

1. The Board agrees to continue an Early Morning
   Preparation Period Pilot Program.

2. Participation in the Early Morning Preparation Period
   Pilot Program shall be limited to those schools with
   common preparation periods scheduled at the end of the
   student day.

3. Beginning with the 1990-1991 school year, all remaining
   elementary and secondary schools with common preparation
   periods (in addition to those already participating in
   the Pilot Program) shall be eligible to participate in
   the Early Morning Preparation Period Pilot Program. A
   school's participation in the Pilot Program may be
   requested by a teacher(s). After assessing the school's
   program needs or reviewing a teacher's(s') request, if
   any, the principal may initiate a school's participation
   by notifying the district superintendent and teachers of
   his/her decision.

   a. A teacher's(s') request for a school's
      participation in the Pilot Program shall not be
      unreasonably denied. Participation shall begin no
      later than October 1 for the 1990-1991 school year.

   b. For each of the remaining years of the BU 05
      Collective Bargaining Agreement, the principals of
      schools continuing in the Pilot Program and the
      principals initiating a school's participation in
      the Pilot Program shall follow the above procedure.
      The principal shall notify the district
      superintendent and teachers by May 31 of his/her
      decision to enter into the Pilot Program.

5700-5
c. If problems arise in implementing this provision, e.g., repeated tardiness or nonattendance at principal-scheduled afternoon events, meetings and/or inservice training activities, etc., as provided for within the BU 05 Collective Bargaining Agreement, the principal may suspend an individual's or school's participation in the Pilot Program until a mutually satisfactory resolution is reached. If a resolution cannot be reached within twenty (20) working days, the principal may terminate an individual's or school's participation in the Pilot Program for the remainder of that school year.

d. In no event shall the percentage of schools participating in the Pilot Program be less than 60% of the schools with common preparation periods scheduled at the end of the student day.

4. Beginning with the 1990-1991 school year, all bargaining unit members in a school with common preparation periods may participate in the Pilot Program.

5. Early morning preparation periods shall not be scheduled on Wednesdays and on days when training or other activities as provided for in the Collective Bargaining Agreement have been scheduled contiguous to the work day.

a. The provisions of Article VI, D, 2 (Flexible Work Time) and Section X (Preparation Periods) in the Unit 05 Agreement shall be applicable to bargaining unit members scheduled for early morning preparation periods.

b. With reasonable notice (at least two [2] days in advance) afternoon events, meetings and/or inservice training activities, as provided for within the BU 05 Collective Bargaining Agreement, may be scheduled at which time the attendance of all bargaining unit members shall be mandatory. Bargaining unit members assigned an early morning preparation period shall observe an afternoon preparation period and shall attend the scheduled afternoon event, training activity, or meeting.

6. The Employer shall not be required to alter the work schedules of other employees in order to accommodate bargaining unit members scheduled for early morning preparation periods. The Employer shall not be required to hire additional security personnel or make special provisions regarding the access to facilities and equipment.
7. The parties agree to meet no later than March 30 of each year for the purpose of assessing and evaluating the Pilot Program and to modify, expand, or reduce the Pilot Program for the succeeding school year.

8. The parties further agree that the parties may mutually agree to terminate the provision of this Memorandum of Understanding at any time.

9. This Memorandum of Understanding shall be for the period beginning on the day and year first written above, and shall end when the Pilot Program ends or June 30, 1993 whichever occurs first. The parties may mutually agree to extend this Memorandum of Understanding.

BETWEEN
STATE OF HAWAII
BOARD OF EDUCATION
AND
HAWAII STATE TEACHERS ASSOCIATION
(SCHOOL/COMMUNITY BASED MANAGEMENT PROGRAM)

This Memorandum of Understanding is entered into this 13th day of March, 1990 by and between the State of Hawaii, Board of Education, hereinafter referred to as the Board, and the Hawaii State Teachers Association, hereinafter referred to as the Association.

The Board and the Association believe that the most effective decisions are those made closest to the point of implementation. It acknowledges that teachers have a right and an obligation to participate actively in open dialogue where issues are presented, defined, discussed and resolved.

To implement this philosophy, the Board and the Association agree to the following:

A. A School/Community-Based Management (SCBM) system assumes a collaborative, shared decision-making process and shall be established for implementation beginning with the 1989-1990 school year. The SCBM process shall be governed by the current SCBM Guidelines.

1. The HSTA Liaison shall be selected by the Association from within the school's staff.

2. The decision-making body may utilize SCBM funds to provide for the hiring of substitute(s) for teacher(s), including the HSTA Liaison, to participate in the SCBM process.

3. The Employer and the Association may conduct joint training sessions to the degree possible unless otherwise requested by the school.

B. Prior to the formation of the decision-making body, the principal shall, to the extent possible, notify the HSTA Liaison of meetings of the other segments of the school's community.

5700-13
C. After the formation of the decision-making body, the decision-making body will transmit to the HSTA Liaison copies of all SCBM documents and related materials at the same time as other members of that body. The HSTA Liaison may participate in the SCBM proceedings in the same manner as other members of the school community.

D. A state committee to be called the SCBM Exception Review Committee shall be established to review the requests for exceptions and shall be composed of two (2) representatives appointed by the Association and two (2) representatives appointed by the Board.

1. This Committee shall establish its own rules of operation.

2. This Committee shall review the requests for exceptions to the Collective Bargaining Agreement including matters incorporated by reference from schools which have received approval of their Letter of Intent to participate in the SCBM Program.

E. Exceptions to the Collective Bargaining Agreement must be approved by both parties.

1. Any exceptions to the Collective Bargaining Agreement shall be granted for not more than two (2) school years and may be renewed by the SCBM Exception Review Committee.

2. The exceptions granted shall be applicable only to the school submitting the exception request.

3. Properly processed requests for exceptions which are granted by this Committee shall not be subject to the Grievance Procedure as provided for in the Agreement for the duration of the period the exceptions have been granted.

F. Either party may reopen negotiations on the implementation of SCBM under Chapter 89 HRS between August 1, 1991 to August 31, 1991. At the conclusion of those negotiations, if any, the parties may agree to future reopeners during the life of the Agreement.

5700-14

AND
HAWAII STATE TEACHERS ASSOCIATION

This MEMORANDUM OF UNDERSTANDING is entered into this day of
January 6, 1978 by and between the State of Hawaii, Board of
Education and the Hawaii State Teachers Association.

Both parties mutually agree that the Staff Reduction Guidelines for
Certificated Personnel (Teacher Types) dated January, 1976, as
referred to in Article VII, Assignments and Transfers, Section I,
paragraph I, is hereby superseded by the Staff Reduction Guidelines
for Certificated Personnel (Teacher Types) dated December, 1977.

IN WITNESS WHEREOF, the parties hereto have executed this MEMORANDUM
OF UNDERSTANDING the day and year first written above.

STATE OF HAWAII
BOARD OF EDUCATION

HAWAII STATE TEACHERS ASSOCIATION

(DR. DARRYL L. KANAKANUI AIONA)
Chairman

(Rev.) DARRYL L. KANAKANUI AIONA
Executive Director

5700-17
I. INTRODUCTION

Staff reduction is the process of reducing the number of active certificated employees assigned to a school. Staff reduction occurs when the number of active certificated employees assigned to the school exceeds the number of certificated positions allocated to that school. Staff reduction may be caused by:

A. A decrease in enrollment.
B. A cutback of funds or special positions allocated to the school.
C. Employees holding school status returning from leaves of absence or temporary duty assignments.
D. Other administrative actions, such as consolidation of schools, opening of new schools, etc.

(NOTE: H.R.S. 297-11 states: "Teachers may also be dismissed because of decrease in number of pupils or for other causes over which the department has no control. Dismissals due to decrease in number of pupils or for causes over which the department has no control shall begin with those teachers with the least number of years of service...." This provision of the law refers to lay-off in the event that teachers have to be dismissed on a statewide basis.)
II. DEFINITION OF TERMS

A. Types of Teacher Assignment

1. Regular Assignment: Tenured teacher assigned to a permanent unobligated position (clear line) in the school.

A position is obligated when another teacher has return rights to the position. Return rights may be held by teachers on leave, teachers on temporary duty assignment, etc.

A regular assignment, if available, shall only be granted at the beginning of the school year in September.

2. Limited Term Assignment (LTA): Teacher who does not hold a regular assignment. A limited term assignment usually has a specific termination date and generally does not exceed one school year at a time.

Five types of limited term assignments are identified as follows:

a. LTA-Vicing:

(1) Tenured teacher temporarily assigned to a permanent but obligated position in the school.

A position is obligated when another teacher has return rights to the position. Return rights may be held by teachers on leave, teachers on temporary duty assignment, etc.

or,

(2) Tenured teacher assigned after October 1st of the school year to a permanent unobligated position in the school.

The LTA-Vice assignment is necessary in this case because a regular assignment can be granted only at the beginning of the school year in September.

*A position may not necessarily be obligated to any one individual teacher on a one to one basis but rather may be obligated collectively along with other obligated positions to teachers who have return rights to that school.*
b. LTA-Temporary Position: Tenured teacher assigned to a temporary position. Such a teacher may have a special guaranteed right of return to another school or to a district unassigned status.
c. LTA-Temporary: Tenured teacher on early return from leave.
d. LTA-Probationary: Teacher serving on probation.
e. LTA-TTAA: Teacher with a Temporary Teacher's Appointment Agreement.

B. Status of Teacher

1. School Status: Teacher holding an assignment to a school to which he/she is entitled and, therefore, holding some form of priority for school placement under staff reduction guidelines.
2. Non-school Status: Teacher not assigned to a school and, therefore, not holding any priority for school placement under staff reduction guidelines.

C. Status of Teachers on Leaves of Absence

1. With School Guarantee

A teacher on an original leave of absence holds a school guarantee and retains school status as follows:

a. A teacher holding a regular assignment prior to going on leave returns to a regular assignment status in the school.
b. A teacher holding a LTA-Vice assignment prior to going on leave returns to a vicing assignment status in the school and thus assumes the rights of a vicing teacher.

2. Without School Guarantee

a. A teacher loses school status upon taking a leave of absence without school guarantee. Such a teacher assumes a district unassigned status and no longer belongs to the school from which he/she took leave. In general an extended leave of absence does not carry a school guarantee.
b. A teacher who holds a district unassigned status or staff reduced status prior to going on leave returns to a district unassigned status.

D. Continuous Service for Seniority Purposes

1. Continuous District Service
   a. Continuous district service is defined as the total amount of continuous active service time in the district starting from the effective date of assignment to the district. This service does not include time as a substitute teacher or other casual type of employment.
   b. A teacher who leaves a district because of resignation, transfer, etc., must reaccumulate service time in that district starting from the effective date of return to that district.

2. Continuous School Service
   a. Continuous school service is defined as the total amount of continuous active service time in the school starting from the effective date of assignment to that school. This service does not include time as a substitute teacher or other casual type of employment.
   b. A teacher who loses his/her school assignment because of a transfer, leave without school guarantee, resignation, etc., must reaccumulate service time from the date of re-assignment to the school.
   c. A teacher on a leave of absence with a school guarantee may retain his/her accumulated service time, and the period of leave shall count as active service time only if the leave itself carries service credit (Leave of Absence Without Pay [LWOP] for professional improvement, sabbatical leave, etc.).
d. A teacher on a temporary duty assignment with a school guarantee retains continuous service time at his/her guaranteed school during the period of such assignment.

e. A teacher on a leave of absence without a school guarantee shall be required to reaccumulate service time if reassigned to the same school (extended LWOP, etc.).

E. **Actual Staff Reduction**: Staff reduction action during the school year based on actual staffing conditions existing at the time of reduction.

F. **Projected Staff Reduction**: Staff reduction action made on a projected basis and tentatively carried out for a subsequent school year based on tentative position allocations and personnel projections.

G. **September Adjustment Period**: The period at the beginning of the school year, from September 1 to the first workday in October. Tentative personnel placements may be corrected during this time period if actual staffing conditions do not coincide with projections.

**Note 1**: Regular assignments granted on a projected basis may be corrected during the September Adjustment Period if actual teacher staffing conditions do not coincide with prior projections.

**Note 2**: Teachers with non-school status who are assigned to the school on a projected basis do not gain school status until after the September Adjustment Period ends.

**Note 3**: **Special Rule**. Teachers who consummate transfers to advertised projected clear or vicing lines and teachers who consummate permanent exchanges shall gain school status as of September 1. If actual staff reduction becomes necessary, these teachers shall be placed in the appropriate Priority Category for reduction purposes.

H. **Clear Line**: Permanent unobligated positions.

I. **Permanent Position**: Non-temporary, general-funded position with authorized position count.
III. PROCEDURE FOR GRANTING REGULAR ASSIGNMENTS TO TEACHERS HOLDING LIMITED TERM ASSIGNMENTS

A. Time Limitation

Regular assignments, if available, shall only be granted at the beginning of the school year in September.

B. Priority

1. Qualified vicing teachers in the school shall have the first opportunity to obtain regular assignments. If there are more than one qualified vicing teacher, regular assignments shall be made by seniority. Teachers holding school guarantees while on leave from vicing assignments are also considered vicing teachers; however, such teachers on leave cannot be given regular assignments until they return to active service.

NOTE: Teachers holding LTA-Temporary Position Assignments have no priority for placement into other positions in the school.

2. If there are additional projected clear lines available after all qualified vicing teachers from the school have been accommodated, such lines shall be used in the following priority order:
   a. To place unassigned teachers.
   b. To be advertised for transfers.
   c. To place probationary teachers hired to start during the month of September.

IV. MAINTENANCE OF REGULAR ASSIGNMENTS

Teachers in the school with regular assignments shall retain their regular assignments (designated Code "1" in Block 45 of the SF-5A) until such time that they leave the school or otherwise lose their school status.

5700-24
V. PRIORITY CATEGORIES AND SENIORITY FOR STAFF REDUCTION PURPOSES

A. Teachers shall be assigned the following priority categories for the purpose of staff reduction:

**Priority I:** Tenured teachers with Regular Assignments.

**Priority II:** Tenured teachers with LTA-Vice Assignments.

**Priority III:** Tenured teachers with LTA-Temporary Assignments during the period of temporary assignment based on ending date indicated on SF-5A i.e., temporary assignments are given to teachers on early return from leave to a school where they have no school placement rights.

**Priority IV:** Teachers on probation during the current employment period.

**Priority V:** Teachers with TTAA contracts during the current employment period.

**NOTE:** This priority list accommodates both actual and projected staff reduction. Teachers holding Priorities III, IV and V do not carry their school status beyond the current school year and, thus, do not participate in projected staff reduction.

**SPECIAL NOTE:** A teacher with a LTA-Temporary Position Assignment holds a unique status under these staff reduction guidelines. By special exception, such a teacher has no placement rights in the school except to his/her assigned temporary position and, conversely, cannot be reduced from his/her temporary position until such time that the temporary position is terminated. The termination of a temporary position triggers the incumbent teacher's return to his/her guaranteed school.
B. Seniority for Tenured Teachers

In the application of seniority within priority categories, tenured teachers shall be ranked according to the following criteria:

1. The first criterion to be considered is service time in the Department of Education as a teacher (positions in the bargaining unit). This is total creditable service time which includes all DOE teaching service, leaves of absence which carry service credit, and creditable military service time. Examples of experiences which are not acceptable as creditable service time as a teacher are educational officer experiences, Peace Corps teaching, service with other State of Hawaii departments, substitute teaching, and teaching in other school systems.

2. If there is a tie in the application of total DOE service, the second criterion to be considered is continuous service time in the school.

3. If there is a tie in the application of continuous school service time, the third criterion to be considered is continuous service time within the district where the staff reduction is occurring.

4. If there is still a tie, the principal or administrator shall use a neutral method, such as flip of a coin, to break the tie.

C. Seniority for Probationary Teachers

In the application of seniority, probationary teachers shall be ranked by probationary status (P-4, P-3, P-2, P-1, P-0).

VI. SEQUENTIAL PROCESS OF IMPLEMENTING STAFF REDUCTION PROCEDURES

A. The principal or administrator shall determine the area where the reduction is to be made; i.e., subject matter field in a secondary school and area of specialty in an administrative unit. Elementary teachers are K-6 certificated. DO NOT OVERLOOK this factor.
In the secondary schools, the master schedule and student registration are factors which may determine the area(s) where reduction is necessary. Reduction of administrative unit positions will be considered in the same fashion as subject matter fields in the secondary schools. Specialist areas, such as counselors, librarians, special education, etc., are considered as "subject matter" fields in schools.

B.**The principal or administrator shall ask for volunteers when staff reduction occurs. In actual staff reduction, no volunteering is permitted if there are TTAA's in the identified area of reduction.  
1. Those who volunteer must be from the subject department, specialty area, etc., involved in staff reduction.
2. If there are more volunteers than the number of teachers to be reduced, priority category and seniority within priority category will be the basis to determine which teacher(s) will be permitted to volunteer to be staff reduced. Teachers in Priority Category I will be permitted to volunteer before teachers in Priority Category II, and teachers in Priority Category II will be permitted to volunteer before teachers in Priority Category III, etc. The more senior teachers in each priority category will be permitted to volunteer before other teachers in the same priority category with less seniority.

C.**If there are no volunteers, the principal shall determine who must leave the school by first considering teachers with limited term assignments, starting with those holding the lowest priority (Priority V before Priority IV, Priority IV before Priority III, etc.). Teachers with Temporary Teaching Agreements have no seniority for staff reduction purposes.

5700-27
Reduction of tenured teachers with regular assignments shall be carried out only after it is determined that there is no teacher with a limited term assignment who can be reduced. Reduction of teachers within priority categories shall be carried out through the applicable seniority process specified in Paragraphs V-B and V-C.

D. A tenured teacher who is staff reduced may choose to realign, at that school, in other areas of certification. However, such a teacher shall not displace another tenured teacher who has higher priority/seniority. A teacher who volunteers to be staff reduced volunteers to be reduced from the school and, therefore, does not have the right to realign in other areas of certification.

**IMPORTANT:** The concept of actual reduction and projected reduction should be applied when implementing paragraphs "B" and "C" above. Priority rights for employees with limited term assignments apply only if such employees hold school status at the time when staff reduction takes effect. Generally, if the reduction is to take effect for a subsequent school year, (projected staff reduction), teachers with temporary contracts and teachers with temporary assignments would not have school status and, therefore, do not participate in the reduction process.

1. A teacher with Temporary Teacher's Appointment Agreement (TTAA) is a temporary teacher and is always the first to be reduced. If necessary such a teacher may be terminated prior to the expiration date of contract.

2. A probationary teacher is also a temporary teacher and is reduced prior to any tenured teacher.

3. A tenured teacher with a temporary assignment (Priority III) holds school status only during the period of such temporary assignment.

VII. SPECIAL PROCEDURES FOR STAFF REDUCTION AS A RESULT OF DEPARTMENT DIRECTED ACTIONS, SUCH AS CONSOLIDATION OF SCHOOLS, REDISTRICTING, MOVEMENT OF CLASSES (ONE OR MORE GRADE LEVELS) FROM ONE SCHOOL TO ANOTHER, AND OPENING OF A NEW SCHOOL

A. In these situations, because the conditions are the result of department directed actions, a teacher who is involved in the staff reduction:

1. Will be permitted and will have first priority to move with students to the new school or schools that are directly involved, provided vacancies are available. In secondary school movements, subject matter will be considered as in other staff reduction or assignment situations.
If the reduced teacher chooses not to move to any school involved along with the students, the teacher will be placed in the pool of unassigned staff reduced teachers.

2. Will carry the applicable school seniority gained in the former school to the new school that is directly affected by the Department's action.

3. Will not be able to carry over any school seniority accrued at the former school if the teacher is placed in the pool of unassigned staff reduced teachers.

B. The following special conditions apply when consolidation of schools occur:

1. Each of the schools involved, if necessary, will go about reducing its respective staffs (if this be the case) based on projected enrollment figures. The remaining faculty members of the involved schools will then be consolidated to form one staff.

2. If more teachers need to be added to the school immediately after consolidation, those teachers who were reduced from the schools involved will be given first consideration for those positions. The teachers with the most seniority in the Department of Education will have first choice of positions, or they may choose to remain staff reduced. If all of the staff reduced teachers can be accommodated, those teachers who were staff reduced from their respective schools have the choice of being placed at the new school or of remaining as staff reduced teachers.

3. Once a teacher moves into the new school as a result of consolidation, that teacher will have all applicable school service at the former school counted as service time in the new school.
4. A teacher staff reduced as a result of consolidation will be considered an unassigned teacher in the district and will be treated in the same manner as other unassigned, staff reduced teachers.

VIII. ASSIGNMENT OF STAFF REDUCED AND DISTRICT UNASSIGNED TEACHERS

A. Placement of Staff Reduced Teachers

Whenever there are staff reduced or district unassigned teachers, the district shall confer with them to explain the method of assigning such teachers. All district superintendents are responsible for reassigning staff reduced or district unassigned teachers within their own district. If reassignment within the district is not possible, then these teachers will be considered for placement in other districts.

A teacher who is staff reduced or affected by other administrative action may submit, if he/she so desires, a preferred list of not more than three (3) schools, three (3) geographic areas within his district, and/or districts to his/her district personnel officer within seven (7) calendar days. This teacher shall have priority for a vacant position in his/her area of certification over less senior tenured teachers in similar situations. If preference of placement is in another district, this teacher is to be considered after all unassigned tenured teachers in that district have been placed.

Every reasonable attempt shall be made to place such a displaced teacher in one of his/her preferred areas if vacancies are available, but if the teacher fails to accept any bonafide offer made by the Department by August 1st of any school year, the Department thereafter shall have the right to assign such teacher to an appropriate vacancy.
B. Reassignment to Original School

Staff reduced teachers shall be reassigned to their original school based on priority category and seniority.

1. Any tenured teacher who was staff reduced and assigned during the summer months to another school shall be reassigned to the teacher's original school should a vacancy occur before September 1.

2. If, before September 1, one vacancy appears in a school but two or more teachers have been staff reduced from that school, then the teachers shall be reassigned based on the following priority:
   a. Non-volunteers who held regular assignments by seniority (teacher with the highest seniority is reassigned first).
   b. Non-volunteers who held LTA-Vice assignments by seniority.
   c. Volunteers who held LTA-Vice assignments by inverse seniority (teacher with the least seniority is reassigned first).
   d. Volunteers who held regular assignments by inverse seniority.

NOTE: At the time of reassignment, teachers who were non-voluntarily staff reduced may then volunteer to be reduced provided that there is a non-voluntarily staff reduced teacher of lesser priority/seniority available for reassignment.

3. School and District Retreat Rights

a. School Retreat Rights

Any tenured teacher who was involuntarily staff reduced and assigned to another school during the summer months may be offered the opportunity to return to his/her former school if an appropriate vacancy should occur on or after September 1 (during the September Adjustment Period). Such offers shall be made based on the following priority:

1) Teachers who held regular assignments by seniority.
2) Teachers who held LTA-Vice assignments by seniority.

Teachers who volunteer to be staff reduced do not have school retreat rights.
b. District Retreat Rights

Any tenured (district unassigned or staff reduced) teacher who is placed in another district under the provisions of Paragraph VII-A may be offered the opportunity to return to his/her former district if an appropriate vacancy should occur on or after September 1 (during the September Adjustment Period). This district retreat right is subordinate to school retreat rights, and any seniority placement rights held by other staff reduced or district unassigned teachers. Teachers who volunteer to be placed outside the district do not have district retreat rights.

c. Termination of Retreat Rights

School or district retreat rights terminate upon the expiration of the September Adjustment Period.

C. SUMMARY

After a teacher is staff reduced out of a school, the district is responsible for placing the teacher in his/her particular field somewhere in the district based on seniority. If an appropriate position is not available in the district, the teacher will be placed in an appropriate position somewhere in the State. If no such vacancy exists in the State, the least senior teacher in the State in that particular field will be "dismissed" in accordance with H.R.S. 297-11 to make room for the teacher.
MEMORANDUM OF UNDERSTANDING
BETWEEN
STATE OF HAWAI'I
BOARD OF EDUCATION
AND
HAWAII GOVERNMENT EMPLOYEES ASSOCIATION
(SCHOOL/COMMUNITY BASED MANAGEMENT PROGRAM)

This Memorandum of Understanding is entered into this 8th day
of November, 1991 by and between the State of Hawaii,
Board of Education, hereinafter referred to as the Board, and the
Hawaii Government Employees Association, AFSCME, Local 152, AFL-
CIO, hereinafter called the Union.

The Board and the Union believe that the most effective decisions
are those made closest to the point of implementation. Such
decisions acknowledge that school administrators have a right and
an obligation to participate actively in open dialogue where
issues are presented, defined, discussed and resolved.

To implement this philosophy, the Board and the Union agree to the
following:

A. A School/Community-Based Management (SCBM) system
assumes a collaborative, shared decision-making process
and was established for implementation beginning with
the 1989-1990 school year. The SCBM process shall be
governed by the current SCBM Guidelines.

B. The Union shall be provided two (2) copies of all SCBM
documents and related materials for each school.

C. A state committee to be called the SCBM Exception Review
Committee shall be established.

1. This committee shall be composed of two (2)
representatives appointed by the Union and two (2)
representatives appointed by the Board.

2. This Committee shall establish its own rules of
operation and procedures.

3. This Committee shall review and approve schools'
exception requests to the Bargaining Unit 06
Agreement, including matters incorporated by
reference to the Agreement. These exception
requests may be a part of the schools' initial
approved Proposal to Implement or may be submitted
subsequent to the approval of the Proposal to
Implement.

5700-33
D. Exceptions to the Bargaining Unit 06 Agreement shall be approved by both parties.

1. Any exceptions granted to the Bargaining Unit 06 Agreement shall be for not more than two (2) school years and may be renewed by the SCBM Exception Review Committee.

2. The exceptions granted shall be applicable only to the school submitting the exception request.

3. Properly processed requests for exceptions which this Committee grants shall not be subject to the Grievance Procedure as provided for in the Bargaining Unit 06 Agreement for the duration of the exceptions.

E. The parties agree to meet no later than May 30 of each year for the purpose of assessing, evaluating and modifying the procedures to administer requests for exceptions.

This Memorandum of Understanding shall be for the period beginning on the day and year first written above, and shall end June 30, 1993.

MEMORANDUM OF UNDERSTANDING
BETWEEN STATE OF HAWAII BOARD OF EDUCATION AND
HAWAII STATE TEACHERS ASSOCIATION
(Early Transfer Program)

This Memorandum of Understanding is entered into this 12th day of September, 1994 by and between the State of Hawaii, Board of Education, hereinafter referred to as the Board, and the Hawaii State Teachers Association, hereinafter referred to as the Association.

The Association and the Board agree there is a need to conduct teacher assignment and transfer activities for the 1995-96 school year in early November 1994. Both parties anticipate that a large number of teachers will participate in the provisions of Act 212, SLH 1994 by notifying the Department of Education by October 1, 1994 of their retirement.

Based on a shared concern to fill the large number of anticipated teacher vacancies that will be created with the implementation of a special early retirement incentive bonus program, the parties have agreed to modify the teacher assignment and transfer program on a one-time only basis. Except as herein specifically modified, all provisions of Article VII - Assignments and Transfers and Appendix VI - Memorandum of Understanding (Experimental Transfer Program) shall apply. All transfers consummated under this Early Transfer Program shall be effective August 30, 1995.

Specifically, the parties agree to modify Section G., sub-sections 1., 2., and 3. of Article VII - Assignments and Transfers of the Master Agreement and the provisions of Appendix VI, Memorandum of Understanding (Experimental Transfer Program) as follows.

1. There shall be only two posting announcements. Vacancies resulting from teachers submitting the Department's Form 190 - Separation From Service, indicating retirement on June 30, 1995 and positions occupied by non-tenured teachers holding Temporary Teaching Appointment Agreements will be posted October 31 - November 7, 1994.

Vacancies resulting from the first posting will be posted December 5 - 9, 1994.

2. All probationary teachers will remain in their respective positions unless staff reduced or displaced by a returning incumbent.

3. All tenured teachers and probationary 3 and 4 teachers who will satisfactorily complete their probation at the end of the current school year may submit the Form 101b - Teacher Request For Transfer/Intra-School Reassignment to the Principal/Supervisor of vacancies listed on the posting announcements.

4. Remaining vacancies not filled by transfers will be filled in accordance with the current "Guidelines for Filling Vacant Teacher Positions."

5. The School Pool Transfer period will be from May 1 - 14, 1995. Only tenured teachers may participate in new vacancies known at this time. To participate, tenured teachers need to submit a completed Form 101 - Pool, Teacher Request for School Pool Transfer according to the instructions provided on the form.
MEMORANDUM OF UNDERSTANDING BETWEEN STATE OF HAWAII
BOARD OF EDUCATION AND HAWAII STATE TEACHERS ASSOCIATION
(Early Transfer Program)

6. A school pre-screening committee may be formed to review requests for transfer to schools with large numbers of applicants for posted vacancies. Reviews to screen applicants will be based on position/assignment requirements and responsibilities as identified by the principal/supervisor of the vacancies. The school pre-screening committee will recommend an appropriate number of applicants to be interviewed by the principal/supervisor. Schools of "high demand" will be jointly predetermined by the Association and the Office of Personnel Services.

7. Under current statute, teachers may rescind their application for retirement. However, to prevent dislocation of personnel who have filled vacant teacher positions, a teacher who rescinds his/her retirement notice will be returned to the original school if a position is available. If a position is not available, the teacher will gain district unassigned status and will be assigned appropriately to existing vacancies.

This Memorandum of Understanding shall expire on June 30, 1995.

The parties mutually agree to modify Section G. of Article 12 - Tenure, in the bargaining unit 06 1993-95 Contract Agreement. ### How to Complete Work Week Code

For all Leave Without Pay actions, enter a three-digit alphanumeric code to identify the employee’s scheduled days off for each work week in the affected pay period. Use the following steps to determine the applicable code:

1. Determine the pay period (first-half is the first day of the month to the fifteenth day of the month; and second-half is the sixteenth day of the month to the last day of the month) in which the action being taken becomes effective.

2. The first digit of the three digit code signifies the scheduled days off for the first full work week in the affected pay period. Thus, the second digit is the following week and the third digit is the third week.

   **Example:**
   - 1st week in pay period: 1 A 7
   - 2nd week in pay period: 2
   - 3rd week in pay period: 3

   **Note:** When the first day of the pay period does not fall on the first day of the work week, report the scheduled days off for the entire week (Sunday through Saturday).

Use combinations of the following work week codes:

5800-33
GENERAL PROVISIONS UNDER THE LAW COVERING THE OPERATION OF THE
EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF HAWAII RELATIVE TO
RETIREMENT BENEFITS

A member of the System may retire on written application to the Board of Trustees
provided he (or she) has attained age 55 with at least 5 years of creditable service or has
completed twenty-five (25) years of creditable service.

All applications for retirement must be in the office of the Employees' Retirement
System not less than thirty (30) days and not more than ninety (90) days prior to the effective
retirement date.

A choice of method of retirement should be made before the retirement allowance is
officially approved, advisedly at the time of making application for retirement.

METHODS OF RETIREMENT:

Maximum Allowance The maximum allowance payable during life, and in the event of
death, the difference between the value of the member's accumula-
ted contributions at the time of retirement and the retirement
allowance payable prior to death, will be paid to the designated
beneficiary.

Option One A lesser allowance payable during life, and in the event of death
the difference between the initial reserve and the total payments
made to pensioner and the final payment of pension will be paid
to the designated beneficiary.

Option Two A retirement allowance payable during life, and in the event of
death the same allowance will be continued to the designated
beneficiary during his or her lifetime. Should the designated ben-
eficiary predecease the pensioner, another beneficiary cannot be
named.

Option Three A retirement allowance payable during life, and in the event of
death one-half of the allowance will be paid to the designated
beneficiary during his or her lifetime. Should the designated ben-
eficiary predecease the pensioner, another beneficiary cannot be
named.

Option Four Some other benefit or benefits shall be paid to the member or to
such person or persons as he shall nominate, provided such other
benefit or benefits, together with the lesser retirement allowance,
shall be certified by the actuary to be of equivalent actuarial value to
his retirement allowance and shall be approved by the Board of
Trustees. However, an Option Four plan which you may wish to
consider is a combination of the Option One and Option Five plans.

Rather than withdrawal of your entire contributions and leaving no
survivor's benefit as under Option Five, you may wish to consider
withdrawal of up to one-half of your contributions and receive a
monthly benefit for life (less than under Option One) and provide a
survivor's benefit similar to that provided by the initial insurance
reserve under Option One, whereby the reserve would be reduced to
the extent only of the amount of the withdrawal. This plan limiting
withdrawal to not greater than 50% of your accumulated contribu-
tions has been approved by the actuary and the Board of Trustees.

Option Five A lump sum payment of accumulated contributions and a monthly
allowance consisting of the pension provided by government
contributions. In the event of death there will be no further benefits
payable to the designated beneficiary except the final payment of
pension which is that portion due from the first of the month to the
date of death. This method is restricted to those members with at
least ten years of creditable service.

GENERAL PROVISION REGARDING SURVIVOR BENEFITS PAYABLE AS IF DEATH OCCURS
PRIOR TO RETIREMENT

These benefits consist of (a) the return of the contributions of the member, and (b) payment of
an amount equal to 50% of the compensation earnable by the member during the year
immediately prior to retirement if he has one to 10 years of creditable service, and if he has more
than 10 years of such service, an increase of 1% for each year in excess of 10 years to a maximum of
100% of such compensation.

If the member has at least one year of service at the time of death, the total amount payable to
the beneficiary shall in no event be less than the equivalent of 100% of the compensation earnable
during the 12 months' period immediately before death. In lieu of such payments, the surviving
spouse (if designated as beneficiary) may elect to receive the allowance which would have been
payable if the member had retired and had elected to receive his retirement allowance under
Option Three as described above.

I. EFFECTIVE DATE OF SEPARATION FROM SERVICE

Line 4 indicating the "last day of employment" should be carefully considered by all employees resigning or retiring. This effective date pinpoint's the exact day when the employee terminates his/ her employment status; thus, it determines the termination of employee benefits such as compensation, health fund coverage and membership in the Employees' Retirement System as follows:

A. COMPENSATION

Salary earnings terminate as of the last day of employment. Salary does not accrue on half days or other comparable days occurring after the last day of employment.

B. PAYMENT OF EARNED SUMMER SALARY

2. Ten-month employees terminating their employment after the last teaching day in June may choose from two options as follows:
   a. Employees who indicate their last day of employment as June 30 should receive their earned summer salary (if any) in one lump sum on the June 30th payroll. (Late submittals of Form 190 may delay lump sum summer salary payment to a later period.)
   b. Employees who indicate their last day of employment as August 31 shall receive their earned summer salary (if any) in equal installments over July and August inasmuch as employment status is maintained until the expiration of the school year.

C. HEALTH FUND COVERAGE
