III. Questions and Answers

Questions and Answers for 3rd Grade Reading Bonus ONLY

1. *How much is the State level bonus for 3rd grade reading bonus?*

For FY 2023-2024, the State level per teacher bonus amount for the 3rd grade reading bonus is \$3,500.00 (\$3,251.28 bonus payment plus \$248.72 for social security).

2. *How much is the LEA level bonus for 3rd grade reading bonus?*

This will vary by LEA and each LEA will need to do their own calculation.

Per the legislation, the bonus appropriation is allocated to the LEAs based on allotted 3rd grade average daily membership.

These funds are to be equally distributed to the qualified teachers in the LEA. A qualified teacher is a teacher who is in the top 25% of the LEA AND is teaching in the same LEA in the current year.

Example:

School Business allocates \$18,000 to the LEA based on the 2022-2023 allotted third grade ADM.

- DPI identified 6 eligible teachers in the top 25% in the LEA for 3rd grade reading.
- The LEA determined that 2 teachers are not qualified to receive the bonus because they were not employed in the LEA until January 1, 2024.
- The amount of the allotment (\$18,000) is divided amongst the 4 qualified teachers up to maximum allowable bonus amount of 3,500 (plus social security).
- The LEA must account for the social security within the \$18,000.

Therefore, in this example,

Total eligible teachers	6
LEA allotment (bonus + social security)	\$18,000
Qualified teachers	4
Bonus + SS per teacher	$\$18,000/4 = \$4,500$
Bonus ⁽¹⁾ (\$4,500/1.0765)	\$4,180

⁽¹⁾ Maximum bonus is \$3,500 therefore:

Teacher bonus \$3,500 + Social Security

DPI will revert any overage above the cap.

3. *What PRC should we use for 3rd grade reading bonus?*

All funds are allotted in PRC046 – expenditures must be coded in PRC046 for 3rd grade reading. This includes charter schools, lab schools, and regional schools, which must also use PRC046.

4. *We have a teacher who earned a 3rd grade reading bonus AND a 4th grade reading bonus, may we code both the bonuses to PRC046?*

No. It is very important that the 3rd grade reading bonuses are separated from the other bonuses and if a teacher earns both a 3rd and a 4th grade bonus, they MUST be coded in the separate PRCs.

Questions and Answers for 4th and 5th Grade Reading Bonus and the 4th through 8th Grade Math Bonus

5. *How much is the State level bonus?*

The State level bonus amount is \$2,000 (plus social security).

6. *How much is the LEA level bonus?*

The LEA level bonus amount is \$2,000 (plus social security).

7. *How do we account for these bonuses?*

Bonus	1-5110-048-180	\$2,000.00
Social security	1-5110-048-211	\$ 153.00

Questions and Answers for All Bonuses

8. *Do the allotments include social security?*

Yes.

9. *The teacher who earned the bonus left the school, may we use the bonus funds for another purpose, for instance we would like to reward another teacher?*

No. The funds may only be used for the specific teacher in the top 25% on the lists provided. If the teacher has left the school and is no longer qualified for the bonus, the funds will be reverted.

10. *We are a charter school and have financial flexibility, may we divide the bonus amongst all our teachers?*

No. The funds may only be used for the teacher designated in the top 25% on the lists provided.

11. *The legislation has a maximum number of bonuses that the teacher can receive, how does this work?*

The legislation states that the teacher can receive a maximum of 2 bonuses in each section of the law. The sections of the law are as follows:

- Section 7A.3.(f)(1) and 7A.3.(g)(1): 3rd grade reading
- Section 7A.3.(f)(2) and 7A.3.(g)(2): 4th & 5th grade reading
- Section 7A.3.(f)(3) and 7A.3.(g)(3): 4th to 8th grade math

A teacher may receive a maximum of 2 bonuses in each section listed above.

Example:

A teacher may receive a State and LEA 3rd grade reading bonus AND a State and LEA 4th grade reading bonus. (State LEA 3rd grade bonus + LEA 3rd grade bonus) + (2 x \$2,000)

A teacher may receive a State and LEA 5th grade reading bonus AND a State and LEA 5th grade math bonus. (2 x \$2,000) + (2 x \$2,000) = \$8,000

If a teacher is eligible for 7th grade Math and 8th Grade Math (both State and LEA – 4 total bonuses) the teacher may only be paid a maximum of 2 bonuses (2 x \$2,000) as these bonuses are in the same section of the law.
