What is Performance Pay?

1012.22, Florida Statutes requires that “all district school board[s] shall adopt a performance salary schedule that provides annual salary adjustments for instructional personnel and school administrators based upon performance determined under 1012.34."

“Instructional personnel on an annual contract as of July 1, 2014, shall be placed on the performance pay salary schedule…” 1012.22(4)(a)
Tenured Teachers/ Performance Pay Opt-In

All teachers who are not annual contract teachers shall be placed on the Grandfathered Salary Schedule.

Any teacher who wishes to move from the Grandfathered Salary Schedule to the Performance Pay Salary Schedule can do so by completing the electronic Opt-In form in ePortal under the Human Resources tab.

If the tenured employee opts in to Performance Pay, he/she relinquishes tenure and becomes an annual contract employee.

The decision to opt into performance is irrevocable.

**Note – you will be placed on the performance pay salary schedule; if you have an eligible advanced degree, you will be paid in accordance with the advanced degree language outlined in the VTO collective bargaining agreement.

Performance Pay Opt-In 2015-16

Reminder: Opting in to Performance Pay is irrevocable.
Performance Pay Salary Adjustments

Per 1012.22, Florida Statutes

The annual salary adjustment for an employee on Performance Pay rated as Highly Effective must be greater than the highest annual salary adjustment available to an employee on the Grandfathered Schedule.

The annual salary adjustment for an employee on Performance Pay rated as Effective must be between 50% and 75% of the annual salary adjustment of an employee on Performance Pay rated as Highly Effective.

The Performance Pay salary schedule SHALL NOT provide an annual salary adjustment for an employee who is not rated Effective or Highly Effective.

Salary Adjustments

FOR 2015-16 ONLY:

Salary adjustments** will be determined based on the formula below, solving for x:

\[ A(1.17x) + B(x) + C(1.3340x) + D(0.5x) = \text{amount of funds, if any, negotiated for salary adjustments for fiscal year 2015-16 during the negotiation cycle} \]

\[ A = \text{Number of teachers on the grandfathered salary schedule (tenured)} \]
\[ B = \text{Number of Annual Contract teachers with a Summative evaluation rating of Effective} \]
\[ C = \text{Number of Annual Contract teachers with a Summative evaluation rating of Highly Effective} \]
\[ D = \text{Total number of teachers} \]

**No teacher who receives a Summative Evaluation rating of Needs Improvement or Unsatisfactory is eligible for a salary adjustment.
Performance Pay Salary Adjustments

If funds are negotiated for raises during the 2015-16 school year,

Solving for x based on the formula on the previous slide means:

Teachers on Performance Pay with a summative evaluation rating of Effective are paid on based on the factor of 1x.

Teachers on Performance Pay with a summative evaluation rating of Highly Effective are paid based on the factor of 1.3340x.

All teachers, regardless of summative evaluation ratings will receive a Cost of Living Adjustment (COLA) paid based on the factor of .5x.

Grandfathered Salary Adjustments

If funds are negotiated for raises during the 2015-16 school year,

Solving for x based on the formula on the previous slide means:

Teachers on the Grandfathered Salary Schedule with a summative evaluation rating of Effective or Highly Effective are paid based on the factor of 1.17x.

All teachers, regardless of summative evaluation ratings will receive a Cost of Living Adjustment (COLA) paid based on the factor of .5x.
FOR EXAMPLE ONLY:

If it was determined that there was $10,000 for raises in Any District Schools with 5,000 teachers, based on the negotiated formula where:

A = 2500 grandfathered (tenured) teachers
B = 1500 annual contract teachers rated Effective
C = 900 annual contract teachers rated Highly Effective
D = 5000 teachers total (100 are rated Needs Improvement/ Unsatisfactory)

\[2500(1.17x) + 1500x + 900(1.3340x) + 5000(.5x) = 10000\]

\[2925x + 1500x + 1200.6x + 2500x = 10000\]

\[8125.6x = 10000\]

\[x = 1.23\]

Eligible Grandfathered teachers = $1.44
Eligible Annual Contract teachers rated Effective = $1.23
Eligible Annual Contract teachers rated Highly Effective = $1.64
Cost of Living Adjustment = $.62
Frequently Asked Questions

1. What is a Summative Rating? – Summative Rating is the evaluation you received in the Volusia System for Empowering Educators (VSET) evaluation system when your observation score was combined with your Deliberate Practice Score and Value Added Measurement (VAM) score.

2. When will I know my Summative Rating? – Once we receive the data from Florida DOE, we will compile the data and calculate VAM scores. Your Summative Evaluation report will be available in the My PGS system late Fall.

3. When will we know how much money, if any, is being negotiated for raises? – Negotiations are scheduled to begin sometime in October.

5. If I do not Opt-In now, will I be able to Opt-In at a later point in time? – If you do not opt-in during this opt-in period, you will have another opportunity to opt-in during the summer of 2016.

7. Where can I find the salary placement schedule for Grandfathered and Performance Pay? – The placements schedules can be found on the VCS website by clicking on “Departments,” “Human Resources,” “Compensation” and the Salary Manual. The Grandfathered placement schedule is marked as such, the Performance Pay placement schedule is labeled “Annual Contract.”
