Medical flexible spending account maximum increased to $2550

Flexible Spending Accounts
Save You Money!

Want to save money on Medical or Child Care Expenses?
Sign up for the Flexible Spending Account and put more money in your pocket!

Save 25% or more on eligible expenses.

Flexible Spending Accounts (FSAs) allow you to set aside money from your paycheck on a pre-tax basis to pay for medical and child/elder care expenses. That means you do not have to pay federal, and in most cases, state income tax, or FICA taxes on those dollars… which means you have more money in your pocket! Most people can save at least 25% on each dollar that is set aside, for expenses they are paying for anyway!

The FSA is easy to manage, and you can take advantage of the spending accounts by following three easy steps:

1) Review your expenses for medical and/or child/elder care for the previous year. Make note of what you spend on regular, planned expenses, and what expenses you may incur in the coming year.

2) Sign up for your FSA during your employer’s annual open enrollment period.

3) Submit claims to ASIFlex for reimbursement of your expenses.

Estimating your annual election amount can be the most difficult part of the process, but even this is pretty easy! ASIFlex offers the following tips and tools to help!

First, take a look at your prior year’s expenses, as this is a good indicator of what you might anticipate for next year.

Then make a list of your predictable or recurring expenses that you know you have, such as annual deductible, monthly prescriptions, contact lens supplies or ongoing child care costs. Next, think about any other anticipated expenses you plan to incur next year, such as eyeglasses or orthodontia.

You can review ASIFlex’s Eligible Expense list as a reference of the hundreds of eligible expenses.

Then you can use the ASIFlex expense estimator and the tax savings calculator to see your savings!

Remember that the more you set aside, the more you save, so it is to your advantage to do a thorough review of your expenses.

That’s it!!

The District will be offering two types of health plans for the 2017 plan year.

**Aetna Choice POS II Plan**

**In-network:** This plan gives you the ability to visit any Wichita Preferred Aetna Choice POS II network doctor you want. You do not need a referral if you wish to see a specialist, nor do you need to select a primary care physician (PCP). You can go to a dermatologist, orthopedic surgeon, or other specialist by simply calling the specialist and setting up an appointment. In-network benefits include copayments for office visits.

**Out-of-network:** This plan also gives you the ability to visit an out-of-network licensed provider. However, because the insurance company has not negotiated discounted rates with these providers, you will have to pay your out-of-network deductible and co-insurance plus the difference between what the Choice POS II Plan pays for services and the amount the out-of-network provider charges.

**Aetna Quality Point-of-Service (QPOS) Plan** You must have a PCP in order to enroll.

This plan requires each member and their covered dependents to designate a PCP in order to enroll in the plan and receive the in-network level of benefits. The designated PCP serves as your main doctor who will coordinate your other health care services. For example, your PCP coordinates services you may need like physical therapy or home oxygen. Your PCP will also coordinate the care you receive from specialists. To receive the highest level of coverage you will need a referral from your PCP to visit an in-network specialist.

**The QPOS plan will have lower copayments, deductibles and out-of-pocket maximum.**

The QPOS plan does provide you the option of using an out of network provider. However, Aetna has not negotiated discounted rates with these providers, so you will have to pay your out-of-network deductible and co-insurance plus the difference between what the QPOS plan pays for services and the amount the out-of-network provider charges.

Health coverage pays for provided services, medications, hospital care, and special equipment when you’re sick. It is also important when you’re not sick. Here are explanations of some key health insurance words that you may hear.

**Affordable Care Act (ACA)**
The Patient Protection and Affordable Care Act (PPACA) - also known as the Affordable Care Act or ACA, is the landmark health reform legislation passed by the 111th Congress and signed into law by President Barack Obama in March 2010.

**Co-payment**
An amount you may be required to pay as your share of the cost for a medical service or supply, like a doctor’s visit, hospital outpatient visit, or prescription drug. A co-payment is usually a set amount, rather than a percentage. For example, you might pay $30 for a doctor’s visit or $10 for a prescription.

**Co-insurance**
An amount you may be required to pay as your share of the cost for services after your deductible is satisfied. Co-insurance is usually a percentage (for example, 30%).

**Deductible**
The amount you owe for health care services before your health insurance or plan begins to pay.

**Explanation of Benefits (EOB)**
A summary of health care charges that your insurance company sends you after you see a provider or receive a service. It is not a bill. It is a record of the health care you or individuals covered on your policy received and how much your provider is charging your insurance company. If you have to pay more for your care, your provider will send you a separate bill.

**Formulary**
A list of prescription drugs covered by a prescription drug plan or another insurance plan offering prescription drug benefits. Also called a drug list.

**In-network**
The facilities, providers, and suppliers your health plan has contracted with to provide health care services.

**Non-formulary**
Drugs that are not included in the list of preferred medications that a committee of pharmacists and doctors deems to be the safest, most effective and most economical. They are drugs not included in the drug list approved by Maxor Plus.
### GLOSSARY

**Out-of-network**
A provider or facility who doesn’t have a contract with your health plan to provide services to you. You’ll pay more to use them.

**Out-of-pocket Maximum**
The most you pay during a policy period (usually one year) before your health insurance or plan starts to pay 100% for covered essential health benefits. The out-of-pocket maximum includes the yearly deductible and may also include any co-insurance you have after the deductible.

**Out-of-network co-insurance**
The percent (for example, 50%) you pay of the allowed amount for covered health care services to providers who don’t contract with your health insurance or plan. Out-of-network co-insurance costs you more than in-network co-insurance.

**Preauthorization**
Sometimes called prior authorization, prior approval, or precertification. Your health insurance or plan may require preauthorization for certain services before you receive them, except in an emergency. Preauthorization is not a guarantee of benefits.

**Primary Care Provider (PCP)**
The doctor you see first for most health problems. He or she makes sure you get the care you need to keep you healthy. He or she also may talk with other doctors and health care providers about your care and refer you to them. In many health plans, you must see your primary care doctor before you see any other health care provider.

**Specialist**
A physician specialist focuses on a specific area of medicine or a group of patients to diagnose, manage, prevent, or treat certain types of symptoms and conditions. A non-physician specialist is a provider who has more training in a specific area of healthcare.

**Urgent Care**
Urgent care is non-preventive or non-routine health care service needed to prevent serious deterioration of a person’s health following an unforeseen illness, injury or condition. Urgent care includes conditions that could not be adequately managed without immediate care or treatment, but do not require the level of care provided in an Emergency Room. Often referred to as Immediate Care.
